History of WKU

On March 21, 1906, the Kentucky General Assembly approved legislation to establish two teacher training institutions, or “normal schools,” in the state. A locating commission chose Bowling Green as the site of one, and the Western Kentucky State Normal School was established. The new state-supported school took over the building and student body of the privately owned Southern Normal School. The owner of the Southern Normal School, Henry Hardin Cherry, had been actively involved in the campaign to establish teacher training schools and became the institution’s first president. Classes began on January 22, 1907.

On February 4, 1911, the school moved to its present site on “The Hill,” approximately 125 feet above downtown Bowling Green and formerly the site of the Pleasant J. Potter College. Over the next decade, the curriculum focused on teacher training and certification. In 1922, the state renamed the institution Western Kentucky State Normal School and Teachers College and authorized it to grant four-year degrees. The first such degrees were awarded in 1924. The campus expanded in 1927, when it merged with Ogden College, a private young men’s school located on the east side of The Hill. The name was shortened to Western Kentucky State Teachers College in 1930, and the following year the first graduate degree was offered.

In the 1950s and 1960s, both the curriculum and campus underwent major reorganization and expansion. In 1963 the institution merged with the Bowling Green College of Commerce. Along with the Graduate School, the Bowling Green College of Commerce became a separate college within the academic structure. In 1965, the Board of Regents approved the formation of three more colleges: the Potter College of Liberal Arts, the College of Education, and the Ogden College of Science and Technology. On June 16, 1966, Western Kentucky State College became Western Kentucky University.

More colleges and reorganization followed throughout the years as WKU continued to grow. The College of Health and Human Services was established in 2002. In 2011, the university’s first doctoral degrees, the Doctor of Education in Educational Leadership, were awarded through the College of Education and Behavioral Sciences. In 2011 and 2013 two new professional practice doctoral degrees, the Doctor of Nursing Practice and the Doctor of Physical Therapy, were established, and in 2015 the Doctor of Psychology was added.

Core Values
Shared purposes and beliefs drive the decisions and actions of any organization or institution. The core values that undergird the foundations of WKU are reflected in the University’s vision, mission, and purpose statements, and in the goals of the strategic plan. (https://www.wku.edu/strategicplan/)

WKU’s rich heritage has been built upon a foundation of shared values that have withstood the test of time and the challenges of many changes. These values are deeply embedded in the words of WKU’s first President, Dr. Henry Hardin Cherry, as he set forth a vision for this University:

- to be a live school and to impart to its students a burning zeal to do and be something;
- to be progressive, to use modern methods and equipment, but reject all worthless educational fads;
- to let the reputation of the school be sustained by real merit;
- to “ring the rising bell in the human soul” by inspiring all students who come in touch with the work of the institution.

This vision is further reflected in Dr. Cherry’s often-quoted reminder that “It’s what’s above the rim that counts” and in the two University ideals expressed in the University seal: “Life More Life” and the University motto: “The Spirit Makes the Master.”

Building upon these long lasting values, the following core tenets represent a reaffirmation of the shared purposes and beliefs upon which this strategic plan is built:

- Emphasis on cooperation, teamwork, and mutual respect for individual differences in scholarship, diversity, and culture.
- Expectation for all conduct to be characterized by integrity, honesty, and commitment to high moral and ethical values and principles.
- Commitment to assuring quality of programs, competence of graduates, and opportunities for lifelong learning.
- A view of scholarly endeavors that includes teaching, research, and creative activities as mutually supportive.
- Encouragement of meaningful and active partnerships among students, faculty, staff, and constituents to strengthen the learning environment.
- Nurturing of innovative and creative activities of faculty, staff, and students that advance University mission and goals.
- Dedication to the importance of achieving excellence in all programs and for adding value to the degrees and credentials of our students.
- Commitment to providing a collegiate experience that prepares students to be informed, engaged, and dedicated citizens.
- Commitment to contributing to improved quality of life and economic well-being of Kentuckians, especially those in our primary service area, as well as other constituents and stakeholders.
- Commitment to developing empowered, informed, and responsible learners who recognize both the personal and shared responsibility to actively participate in university life by upholding the principles of the University Creed.

WKU 2018-2028 Strategic Plan: Climbing to Greater Heights
Climbing to Greater Heights: The 2018-2028 Strategic Plan (https://www.wku.edu/strategicplan/) for Western Kentucky University is a carefully defined roadmap that will guide the University through 2028. It focuses on student success and ensuring that our campus environment attracts the highest quality faculty and staff, and it renews our commitment to being fully engaged in our region and the commonwealth while providing a global context to the WKU Experience.

The landscape for public higher education is ever changing and may at times feel like an uphill climb. We will prepare ourselves to meet the challenges that lie ahead by pursuing innovation in teaching and delivery, connecting what we do to the region and the commonwealth, and ensuring that the WKU Experience transforms the lives of our students, employees, alumni, and friends and elevates the communities we serve - both in our region and beyond. These are the principles that will guide us in our climb to greater heights.

Graduate Faculty

WKU Graduate Faculty (p. 269) engage in creative activity and diverse scholarship including basic and applied research that expands knowledge, improves instruction, increases learning, and provides service to the state and the nation. Academic Affairs (http://www.wku.edu/faculty/) maintains a comprehensive list of WKU faculty, including distinguished professors.

All courses offered for graduate credit at WKU must be taught by graduate faculty. Membership in the graduate faculty may be acquired through two methods. First, membership may be granted through the hiring process. The department chair or program director/ coordinator should recommend graduate faculty status at the time of hire. The College Dean will review the recommendation, approve, and forward the recommendation to the Associate Provost for Research and Graduate Education for approval. Second, membership may be granted to current faculty members via a recommendation by the faculty member’s department chair or program director/coordinator. The College Dean must review the recommendation, (dis)approve, and forward to the Associate Provost for Research and Graduate Education for approval.

Nominations and recommendations are based upon the general criteria of evidence of scholarly attainment, active participation in research, scholarly activities and/or professional accomplishments which are recognized or commended by professional organizations in the candidate’s field and professional standing. Graduate faculty should also express a willingness to direct the study of graduate students. College deans, department chairs, or program director/coordinator should evaluate faculty for graduate faculty status as part of the annual review procedure in accordance with the general criteria listed above.

University Notices

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records, including:

a. The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

b. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading. Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for an amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

c. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent, including disclosure without the student's consent is permissible to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Regents; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

d. The right to file a complaint with the U. S. Department of Education concerning alleged failures by Western Kentucky University to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
600 Independence Avenue, SW
Washington, DC 20202-4605

Release of student record information is generally not done at WKU without the expressed, written consent of the student; however, FERPA allows several exceptions described below:
FERPA allows the institution to routinely release information defined as "directory information." The following student information is included in the definition: the student's name, address, e-mail address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, enrollment status (including full-time, part-time, not enrolled, withdrawn and date of withdrawal), degree and awards received and the most recent previous education agency or institution attended by the student. When a student wants any part of the directory information to remain confidential, an official request form must be completed in the Office of the Registrar within the first five days of class of each school term.

Upon request, WKU may disclose education records without the student's consent to officials of another school in which a student seeks to enroll, or where the student is already enrolled as long as the disclosure is for purposes related to the student's enrollment or transfer.

effective January 3, 2012, the U.S. Department of Education's FERPA regulations expanded the circumstances under which the student's education records and personally identifiable information (PII) contained in such records (including Social Security Number, grades, or other private information) may be accessed without the student's consent.

i. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities ("Federal and State Authorities") may allow access to the student's records and PII without the student's consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is "principally engaged in the provision of education," such as early childhood education and job training, as well as any program that is administered by an education agency or institution.

ii. Second, Federal and State Authorities may allow access to the student's education records and PII without the student's consent to researchers performing certain types of studies, in certain cases even when the university objects to or does not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive the student's PII, but the Authorities need not maintain direct control over such entities.

iii. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without the student's consent PII from the student's education records, and they may track the student's participation in education and other programs by linking such PII to other personal information about the student that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

The student complaint procedure for resolving an academic or grade complaint:

**Student Academic and Grade Change Procedure**

The student complaint procedure for resolving an academic or grade complaint:

**Step 1 (Faculty Member)**

- The student must attempt to discuss the academic issue with the faculty member involved within 15 workdays after the issue has occurred or the grade within the first 15 workdays of the first regular semester (fall; spring) following the assignment of the grade.
- If the faculty member is no longer employed by the university, the student should go directly to that faculty member's department head, who will attempt to contact the former faculty member concerning the academic issue or grade assigned. If the department head is unable to facilitate communication between the former faculty member and the student, the student may proceed to step 2.
- If the faculty is employed by the university and declines to discuss the academic issue or grade with the student, the student may proceed to step 2.

**Step 2 (Department Level)**

- If the student and the faculty member are unable to resolve the complaint, the student may take the complaint to the faculty member's department head. Written notification of the complaint must be given to the department head within two weeks after the meeting with the faculty member. If the faculty member is also the department head, proceed to Step 3.
- The written notification to the department head should clearly state what the student believes are the faculty member’s unreasonable and/or unfair practices or procedures, and include any available documentation.
- The department head may attempt to resolve the complaint by meeting with the student and faculty member separately to mediate the issue.
- If the department head is unable to resolve the complaint in this way, a meeting will be arranged where the student, faculty member, and the department head will be present for discussion.
  - Neither the faculty member nor the student will be allowed representation at the meeting.
  - The department head shall hear both sides of the complaint and attempt to resolve the matter.
  - If the department head is unable to bring about an agreed upon resolution between the student and the faculty member, the department head will issue a recommendation.
  - The department head shall create a written record of the meeting, including his/her recommendation. A copy of this record shall be provided to the student and the faculty member at the time the department head's recommendation is issued to them.
  - If the faculty member is no longer with WKU or refuses to participate, the decision of the department head shall be followed.

**Step 3 (College Level)**

- Should the student remain dissatisfied with the outcome of the academic issue or grade complaint at the departmental level, the student may continue the complaint to the college level.
- The student should notify the Dean of the College, or the Dean's designee, in writing, within two weeks following issuance of the department head’s recommendation, that the complaint remains unresolved.
- The written notification to the Dean of the College should include a copy of the department head’s record and recommendation, and clearly state what the student believes are the faculty member’s unreasonable and/or unfair practices or procedures, and include any available documentation.
- The dean or dean’s designee may attempt to resolve the complaint by meeting with the student, faculty member, and department head.
- If those meetings do not resolve the student’s concern(s), the Dean or Designee shall notify the College Complaint Committee:
  - It is expected that a meeting will be scheduled to take place within two weeks after the submission of a written notification to the Dean of the College.
  - The committee shall be composed of at least three faculty members and two student representatives and shall not include representation from the department of the faculty member mentioned in the complaint.
  - If the notification is submitted at the end of a semester and convening the committee is not feasible within the stipulated two weeks period, the committee must be convened within the first two weeks of the first regular semester (fall; spring) following the Dean’s receipt of the written complaint.
  - Neither the faculty member nor the student will be allowed representation at the conference.
  - All material presented at the meeting is considered subject to FERPA and confidential.
  - The College Complaint Committee shall hear both sides of the complaint and shall create a written record of the meeting. The student and faculty member may elect to remain in the meeting while the other presents his or her side of the complaint. The decision and its rationale shall be reduced to writing, with copies sent to the Dean of the College, the student, faculty member, and the faculty member’s department head.
If neither party has appealed the Committee’s decision after two weeks, the decision will be final. The Dean’s office will be responsible for taking action required by the decision, if any.

Step 4 (University Level)

• Should the student or the faculty member be dissatisfied with the decision of the College Complaint Committee, either may appeal the decision to the University level.

• The appealing party should deliver a written appeal to the Office of the Provost within two weeks following issuance of the College Committee’s decision.

• The written appeal should include a copy of the College Committee’s decision, and clearly state the basis for the appeal, including but not limited to, any unreasonable and/or unfair practices or procedures, and include any available documentation. Copies of the appeal should be delivered by the appellant to the party not appealing the College Committee decision.

• The Office of the Provost will coordinate and convene the University Complaint Committee.
  • The student and faculty member will be provided with a copy of the University Complaint Committee’s procedural guidelines.
  • The University Complaint Committee will secure copies of the recommendations rendered by the department head and the College Complaint Committee.
  • The University Complaint Committee will schedule a conference where the faculty member and the student are present and will discuss the issue.
  • Neither the faculty member nor the student will be allowed representation at the conference.
  • All material presented at the meeting is considered subject to FERPA and confidential, and no new materials may be presented at this meeting. If new material is presented, the appeal will be referred back to the College Complaint Committee.
  • The University Complaint Committee shall hear both sides of the complaint, and shall create a written record of the meeting. The decision and its rationale shall be reduced to writing, with copies sent to the Provost, the Dean of the College, the student, faculty member, and the faculty member’s department head.

The Office of the Provost will see that decisions of the University Complaint Committee are carried out. The University Complaint Committee’s decision is final.

Out of State Distance Learners

Students enrolled in distance learning courses at WKU will follow the university complaints procedure outlined in this policy and may access additional resources through WKU Online. (https://www.wku.edu/online/srp/studentcomplaint.php) Students may also review information in the WKU Student Handbook. If the issue is not resolved at the institution level, distance students may file a complaint with the Kentucky Council for Postsecondary Education (http://cpe.ky.gov/campuses/consumer_complaint/). (http://cpe.ky.gov/campuses/consumer_complaint.html) For out-of-state distance learning students, the next level in the complaint process is with the National Council for State Authorization Reciprocity Agreements (https://nc-sara.org/) (NC-SARA). Additionally, students may file a complaint with WKU’s accrediting body, The Southern Association of Colleges and Schools Commission on Colleges (SACS) by downloading the SACS Complaint Procedures Form.

Student complaints related to grades or student conduct may not be appealed to Kentucky Council for Postsecondary Education.

Supplements

Supplements to this procedure may be issued during the school year to keep the University community advised of newly adopted programs and policies.

Important Complaint Exceptions:

• Student Disability regarding denial of accommodations, report to Student ADA Compliance Officer and follow WKU policy #6.1010
• Discrimination and Harassment concerns, see below reporting process and follow WKU policy #0.2040 and #0.2070
  • Discrimination is always reported to the Office of Equal Opportunity Employment (EEO)
  • Student-to-student harassment is reported to Office of Student Conduct or the WKU Title IX Coordinator
  • Student-to-faculty/employee harassment is reported to the Office of Equal Opportunity Employment (EEO)

Student Right-to-Know Act Annual Disclosure Statement

In compliance with the federal Student Right-to-Know and Campus Security Act of 1990, the University’s graduation rate is to be made available, upon request, to potential and currently enrolled students. The Act requires public disclosure beginning July 1, 1993, of this information by institutions of higher education receiving federal financial assistance.

Western Kentucky University’s graduation rate was calculated using definitions established by the U. S. Department of Education. This rate is based upon the number of beginning freshmen who entered Western Kentucky University as full-time degree-seeking students during the 2016 fall semester and who completed an associate degree or a baccalaureate degree within six years (through August, 2022). For this cohort of beginning students, the graduation rate is 51.7%.

Admission to Graduate School

www.wku.edu/graduate (http://www.wku.edu/graduate/)
graduate.school@wku.edu

1906 College Heights Blvd.  #11010
Wetherby Administration Building 207
Bowling Green, KY  42101-1010
(270) 745-2446 Phone | (270) 745-6950 Fax

Students seeking a graduate degree, graduate certificate, or enrollment as a non-degree student must apply for admission by completing the online graduate application (http://www.wku.edu/apply/) and paying a non-refundable application fee. Graduate program application requirements and deadlines vary by program. Admission to or completion of a graduate certificate does not guarantee admission to a graduate degree program. Admission to the Graduate School is based on a recommendation from the graduate program to the Associate Provost for Research and Graduate Education. Final admission decisions are made by the Graduate School. Applicants who meet minimum Graduate School admissions standards are not guaranteed admission. Offers of admission are not official until approved by the Associate Provost for Research and Graduate Education. Official graduate admissions decisions are communicated to applicants by the Associate Provost for Research and Graduate Education.

Admission Requirements

a. Baccalaureate degree or higher, or equivalent international degree, from a regionally accredited institution of higher education.
b. Minimum cumulative grade point average (GPA) of 2.75 or greater on baccalaureate degree or equivalent international degree or minimum GPA of 3.0 on a degree higher than a baccalaureate or equivalent international degree.
c. Evidence of English proficiency (international students only)

Individual graduate programs may have more stringent and/or additional requirements. Applicants should consult individual graduate program pages in this catalog for specific admission requirements. Contact the program coordinator for applicable deadline information.

(Approved by Graduate Council 12/7/17)

Standardized Examinations

The Graduate School does not require any standardized examination for admission to the University; however, standardized examinations (such as the GRE, GMAT, etc.) may be required for admission to specific degree or certificate programs. Applicants should review the requirements for each graduate program before submitting an application. If required, standardized test scores must be received by the Graduate School as part of the application.

(Approved by Graduate Council 11/13/14)

Admission Decision

The Graduate School will notify applicants of the admission decision which will include one of four types:

- Good standing - admitted
- Conditional - admitted with conditions
- Denied - not admitted
- Program full - not admitted due to program capacity

Conditional Admission

If a student does not meet all university and program admission requirements, and if the academic program’s review of the student’s record indicates the likelihood of success, the student may be granted conditional admission by the Associate Provost for Research and Graduate Education upon the recommendation of the program.

The conditions of admission will be specified in the admission notification. All conditions of admission must be fulfilled upon the completion of twelve hours of coursework. Programs are responsible for monitoring the progress of students admitted conditionally and will notify the Graduate School when conditions have been met. Students who do not meet conditions of admission upon earning twelve hours will be dismissed.

(Approved by Graduate Council 11/10/16)

Alternate Admission

Applicants who do not meet admission requirements may request alternate admission whereby background and experience are considered by the academic program and Graduate School. Academic departments may have more specific guidelines on alternate admission requirements.

(Approved by Graduate Council 11/13/14)

Application Process

a. Complete the online graduate application (http://www.wku.edu/apply/).
b. Submit transcripts reflecting all undergraduate and/or post-baccalaureate study. An official course-by-course transcript in English from educational institutions where any degree(s) were earned (both domestic or international) is required. Official transcripts will not be accepted from the student and must be sent directly from the issuing institution. Unofficial transcripts from institutions where credit (but no degree) was earned are acceptable and may be supplied by the student. WKU transcripts are on file and no submission is necessary.
c. Submit required admission documents as defined by the individual academic program.

d. Submit an official degree certificate from each college or university from which a degree was received with English translation.
e. Non-native English speakers must submit evidence of English proficiency by one of the following:
   i. official Test of English as a Foreign Language (TOEFL) minimum score of 79 (internet-based) or 550 (paper-based) taken within the past two years; or
   ii. official International English Language Testing System (IELTS) minimum score of 6.5 taken within the past two years; or
   iii. successful completion of the English Language Services Program at Level 112
   iv. successful completion of English as a Second Language International (ESLI)
   v. evidence of English proficiency is not required for graduates of an accredited United States undergraduate or graduate institution or other institutions approved by the Associate Provost for Research and Graduate Education.
NOTE: Graduate admission is independent of the immigration process. For further information regarding immigration please contact the International Student Office (https://www.wku.edu/international/).

Application Fee Waiver
Occasionally WKU academic programs will provide application fee waiver codes to applicants. These codes will serve as payment for the application fee at the conclusion of the online application process and can only be used once. Applicants should select "Use a Fee Waiver Code" when asked for payment and type the code into the space provided. Fee Waiver Codes are case sensitive.

The Graduate School provides application fee waiver codes to the United States military personnel: Active Duty, Veterans, Spouses, and Dependents. Please contact The Graduate School (graduate.school@wku.edu) to request a fee waiver code.

Admission Policies

Change of Program
Students who wish to change programs must complete a new graduate application (including any additional admission requirements). The advisor assigned at the time of admission to the new program will evaluate any prior coursework for applicability to the new program.

Concurrent Enrollment
Students who wish to enroll in two or more programs concurrently must apply for admission to each program individually. Doctoral students may not pursue more than one degree program at a time.

Readmission
A graduate application is active for one year. Students who do not enroll for three consecutive terms at any time after the initial admission term will be required to reapply.

Visiting Students
Students who wish to enroll at WKU as a visiting student must be enrolled in a degree program at another institution. They must complete the admission process at WKU. Applicants must submit an official final copy of their undergraduate transcript or a letter from the university registrar of the degree-granting institution verifying good standing status to the Graduate School at WKU prior to enrollment.

Graduate Admission Appeal Procedure
An applicant whose admission has been denied may request reconsideration through an appeal process. Such admission appeals shall only be considered for applicants who have met minimum university and/or program admission requirements for Full Admission. An appeal must be made within thirty (30) days in writing of the denial and submitted to the Associate Provost for Research and Graduate Education by citing reasons and providing appropriate justification.

Minimum Credit

Master’s Degree
The minimum semester credit requirement for master’s degrees is thirty (30) credits. Individual programs may require more credits. Only those courses listed in Degree Works are applicable toward meeting graduate degree credit requirements. Six (6) to fifteen (15) thesis credits may be applied to meet the 30 credit minimum required for the degree. However, additional thesis hours may be taken to complete the thesis and will appear on the student’s transcript.

Specialist in Education Degree
The minimum semester credit requirement for the Specialist in Education degree is thirty (30) credits beyond the master’s degree or sixty (60) credits for programs that do not require a master’s degree for admission. Individual programs may require more credits. Only those courses listed in Degree Works are applicable toward meeting the Specialist in Education degree credit requirement. Six (6) to fifteen (15) thesis credits may be applied to meet the 30 credit minimum required for the degree. However, additional thesis hours may be taken to complete the thesis and will appear on the student’s transcript.

Doctoral Degree
The minimum semester credit requirement for the doctoral degree is sixty (60) credits post-baccalaureate or thirty (30) credits post-master’s in a related field. Individual programs may require more credits. Only those courses listed in Degree Works are applicable toward meeting graduate degree credit requirements. Twelve (12) to thirty (30) dissertation credits may be applied to the 60 credit minimum required for the post-baccalaureate to doctoral degree. Six (6) to fifteen (15) dissertation credits may be applied to the 30 credit minimum required for the post-masters to doctoral degree. Additional dissertation hours may be taken to complete the dissertation and will appear on the student’s transcript.

Certificate Policy

Certificate Definition
A certificate program is a coherent course of study that is compatible with the stated mission and goals of WKU and appropriate to the field of higher education (SACSCOC). Certificates should lead to the acquisition of a defined set of skills or expertise that will enhance employability or meet a professional development need. A certificate may be earned as a stand-alone credential.

To create a certificate at WKU, the certificate must demonstrate demand (student or market) in a field and meet one or more of the following criteria:

• Includes collaboration with area businesses or industries.
• Provides training in a specific marketable skill, continuing education, or licensure/certification/accreditation.
• Complements multiple programs.
• Responds to a state mandate.

Creation of new certificate programs requires internal approval, as well as approval from the Council for Postsecondary Education. In addition, SACSCOC approval may be required. However, proposals for new certificates only go through the pre-approval process at CPE, unless they are considered substantive change through SACSCOC. Consultation with the WKU Provost’s Office is necessary to determine if a new certificate program reflects a substantive change and must undergo SACSCOC review. Internal approvals are the same as those for new degree programs.

Admission Criteria

• Graduate school admission criteria shall apply to all graduate certificate programs. Individual programs may enact additional requirements.
• Graduate School policy shall apply to all certificate programs.

Requirements

A graduate certificate program must meet the following criteria:

• Consist of a minimum of 12 and a maximum of 18 graduate credit hours.

(Approved by Graduate Council 10/8/2020)

Academic Standing

Graduate students must maintain a 3.0 grade point average (GPA) for all courses taken at WKU and those graduate courses transferred to WKU to fulfill graduate program requirements. Students must maintain a minimum grade point average of 3.0 in the academic program and a cumulative (overall) GPA to earn a degree or certificate. If a student’s overall GPA falls below 3.0, the student will be placed on academic probation. Students placed on academic probation are not eligible for graduate assistantship appointments.

The student will have one additional full-time semester or the equivalent (9 semester hours) to remove the academic probation by raising their cumulative GPA to a 3.0 or higher. If the GPA remains below a 3.0 after completing 9 hours of coursework on probation, the student will be academically dismissed from Graduate School. Individual academic programs may also apply more restrictive criteria regarding probation and dismissal. Students may be dismissed by the program for failing to make satisfactory progress toward a degree or certificate. Students will be dismissed from the program for having failed twice the comprehensive examination for the graduate degree. Dismissal from an academic program will result in dismissal from the Graduate School.

An academically dismissed student who wishes to be readmitted to his/her program must submit an Appeal of Graduate Policy, and, in consultation with their advisor, an Academic Plan detailing how the required 3.0 GPA will be obtained. The Appeal of Graduate Policy

must be submitted to the Graduate School the semester following dismissal and provide evidence of the support of the graduate faculty in the academic program. Each case will be reviewed by the Associate Provost for Research and Graduate Education for consideration of readmission. An academically dismissed student who wishes to be readmitted to Graduate School as a non-degree seeking student or apply to another program must complete a new admission application and an Academic Plan. Readmitted students will remain on probation and must successfully complete the requirements of his/her Academic Plan to attain a 3.0 cumulative GPA in the specified time frame. Readmitted students who do not attain the requisite 3.0 GPA will be dismissed with no possibility of readmission until a period of three years has elapsed.

Students may also be dismissed from programs for reasons other than failure to maintain a satisfactory grade point average. Expectations regarding student conduct are described in the Western Kentucky University Student Handbook and apply to students in all programs. Additional program-specific policies regarding student conduct and dismissal from a program for non-academic reasons may also apply. Students should contact their advisors for more information regarding expectations for appropriate student conduct.

(Approved by Graduate Council 5/9/13)

Undergraduate Enrollment

Joint Undergraduate-Master’s Degree Programs (JUMP)

JUMP (http://catalog.wku.edu/graduate/programsoffered/ / #filter=filter_47) provides academically outstanding students the opportunity to complete both an undergraduate and graduate degree in an accelerated time period. Qualified students will apply directly to an individual Joint Undergraduate Master’s Program, which will make a recommendation to the Graduate School for acceptance to JUMP. JUMP students may complete a maximum of twelve (12) graduate hours as undergraduate students. For undergraduate candidates pursuing a first baccalaureate degree in combination with a Master’s degree, nine (9) graduate hours may be counted on both the undergraduate and graduate transcript as prescribed by the approved program curriculum.

JUMP students in graduate programs requiring thirty-three (33) or more hours may complete a maximum of fifteen (15) hours as undergraduate students. For undergraduate candidates pursuing a first baccalaureate degree in combination with a Master’s degree in a graduate program requiring thirty-three (33) or more hours, twelve (12) graduate hours may be counted on both the undergraduate and graduate transcript.

JUMP students should apply for admission to the Graduate School for the corresponding Master’s Program upon or before earning the maximum allowed graduate hours or upon earning the Bachelor’s degree, whichever occurs first. Students who reach the maximum number of graduate hours may continue their Bachelor’s degree by taking only undergraduate courses and delaying admission to the graduate school.

Program admission criteria for the Master’s degree may be waived for JUMP students at the discretion of individual program Directors and/or Committees.

All new JUMP programs require approval through the established university curriculum approval process.

Each Joint Undergraduate-Master’s Degree Program may have more stringent and/or additional eligibility for acceptance and continuance requirements, including for matriculation into the Master’s program. These criteria will be published in the undergraduate and/or graduate catalog. However, minimum requirements for admission and continuance in JUMP include:

For JUMP acceptance eligibility:

- A minimum of 60 credit hours earned and 15 or more credit hours remaining to complete the undergraduate degree
- A minimum of 24 undergraduate hours earned at WKU
- A minimum cumulative undergraduate GPA of 3.25 for individuals earning their first baccalaureate degree
- A minimum cumulative undergraduate GPA of 3.00 for individuals earning their second baccalaureate degree

For Continuance:

- Continuous enrollment (excluding winter and summer terms and extenuating circumstances, including, but not limited to, military service, parental leave, and medical leave)
- Undergraduate JUMP students must maintain a cumulative GPA of 3.0 or higher in graduate courses
- Once admitted to the Graduate School, JUMP students must adhere to the Graduate Academic Standing policy

Failure to meet continuance requirements will result in dismissal from JUMP. Upon dismissal, graduate coursework may not be double-counted. Graduate coursework will be recorded according to the undergraduate catalog.

Graduate credits earned through JUMP may only be applied toward one undergraduate and one graduate degree. These credits may not be applied to any additional WKU programs.

Once admitted to the Graduate School, students are classified as graduate students and no longer qualify for undergraduate classification for any purpose, including financial aid. Likewise, students who have been admitted to the Graduate School and have completed their Bachelor’s degree requirements are eligible for all graduate student privileges, including graduate assistantships and graduate student research grants.

Once accepted into a particular JUMP program, students may not switch programs. JUMP students at both the undergraduate or graduate level may appeal aspects of this policy to the Graduate School.  (Approved by Graduate Council 4/13/23)

Undergraduate Student Enrollment in Graduate Courses

Undergraduate students at Western Kentucky University may request to enroll in graduate courses by submitting an "Undergraduate Taking Graduate Courses" form to the Graduate School. Conditions for approval include:

- having earned at least 75 undergraduate credit hours;
- and, having a minimum cumulative GPA of 3.0.

Undergraduate students may accumulate a maximum of 12 graduate credits. In addition, undergraduate students are restricted to a maximum of 15 hours enrollment per term, including graduate and undergraduate credits. All graduate coursework will be on the graduate transcript. To move the coursework to the undergraduate transcript students should contact the Office of the Registrar.  (Approved by Graduate Council 12/10/15)
Curriculum Requirements (formerly Program of Study)

WKU uses Degree Works (https://degreeworks.wku.edu/Dashboard/) to matriculate and audit students for degree and certificate completion. Graduate students follow the official program curriculum outlined in the Graduate Catalog published for the academic year corresponding to their most recent admission term for the specific program. Students may opt to follow a more recent catalog year. Graduate students admitted prior to fall 2019 will continue to matriculate following their approved (paper) program of study.

Curriculum exceptions approved by the advisor, department chair or graduate program coordinator, and college dean will be considered by the Associate Provost for Research and Graduate Education.

Academic Advising

Upon admission to a graduate program, each student is assigned a program advisor from the Graduate Faculty in the respective department. Students pursuing a thesis, specialist project, or dissertation will select a Graduate Faculty member to chair his or her research project at which time the student's primary advisor will be updated to reflect the committee chair. Although student advising at Western Kentucky University is specifically designed to assist students as they progress through degree programs, it is the responsibility of all students to know all policies and procedures pertaining to graduate study. Students may request an advisor change (http://www.wku.edu/graduate/students/advisor_change_request.php).

Admission to Candidacy

Admission to Candidacy is required for Doctor of Education and Doctor of Psychology students which includes passing a qualifying exam or equivalent assessment. Admission to Candidacy is administered by the respective programs and successful completion is reported to the Graduate School.

Duplication of Coursework

A maximum of 12 hours of graduate course work may be duplicated on one additional graduate degree or certificate at the same level. Duplicated coursework must be directly related to the graduate degree or certificate being earned. (Approved by Graduate Council 10/17/19)

Experiential Learning Credit

WKU does not provide graduate credit for experiential learning, credit by exam, or professional certificates unless programs (degree and non-degree) specifically seek approval through the Graduate Council and have ensured that such credit is consistent with the WKU mission, that the learning outcomes are at the graduate level, and that the credit is comparable to other WKU graduate courses. (Approved by Graduate Council 2/14/13)

Repeating Courses

A graduate student is permitted to repeat any course in which a “C” or below was earned. An individual course may only be repeated one time. Courses that are repeatable for credit on different topics may be repeated one time per topic for equivalent credit. Only the second grade will be counted in computing the grade point average. The course and grade received for each attempt will continue to appear on the student’s transcript. (Approved by Graduate Council 3/20/14)

Research Requirement

All graduate programs must ensure student engagement in research and/or appropriate professional practice and training experience. This requirement is defined by the individual academic programs and may include such experiences as completion of a research tool course, successful completion of a foreign language examination, publication of a thesis, professional practice experience, etc. (Approved by Graduate Council 11/13/14)

Time Limitation for Degree Completion

All requirements for master’s and specialist degrees and graduate certificates must be completed within six years of initial enrollment in the program. All requirements for doctoral degrees must be completed within ten years of initial enrollment in the doctoral program.

Courses applied toward a master’s or specialist degree or graduate certificate program must be completed within six years of degree completion. Courses applied toward a doctorate degree must be completed within ten years of degree completion.

Transfer Credit

WKU accepts transfer credit(s) earned at regionally accredited institutions of higher education. Students transferring credit from an international institution must submit an official transcript evaluation of credit from an international credential evaluation service recognized by the National Association of Credential Evaluation Services (NACES) before equivalencies are determined. All transfer coursework must be documented on an official transcript with a grade of “B” or better. Transfer credits must be applied toward a graduate program awarded by WKU, are subject to approval by the appropriate academic department, and must comply with all other university policies.

Plus and minus grades are recorded as the letter grade only. In cooperative or joint programs with other universities, credits earned in the program at these institutions are not considered transfer credits. At least one-half of credits applied toward degree or certificate requirements must be earned at Western Kentucky University. (Approved by Graduate Council 3/17/16; 5/9/19)

Registration

Dr. Jennifer Hammonds, University Registrar
www.wku.edu/registrar (http://www.wku.edu/registrar/)
registrar@wku.edu
Potter Hall 216

The Office of the Registrar is the permanent repository for the official academic record of each student and provides a variety of academic services including: registration and grading; official transcripts; biographical information changes; withdrawals; degree certification; enrollment verification; undergraduate catalog publication; application for graduation; and commencement planning. Online access to academic records is secured through the use of a WKUid and password and in accordance with the Family Educational Rights and Privacy Act. Electronic academic records are backed up nightly, and all permanent academic records created prior to 1990 are backed up with both microfilm and digital imaging.

Registration services are available through TopNet, WKU’s online student information system. Through TopNet, all students use a personal identification number to register, drop/add courses, access class schedules, and view course grades. Registration policies and procedures
are published in the Registration Guide (https://www.wku.edu/registrar/) each term.

**Transcripts**

Transcripts will be released at the written request of the student and in conformity with university policy and existing state and federal statutes pertaining to the release of student academic records. The official academic record is the property of the University. Consequently, the University reserves the right to withhold the release of a transcript of that record if the student has an obligation to the University. Transcript Request (https://www.wku.edu/registrar/transcript_request.php) is online through the Office of the Registrar.

As per United States federal requirements pertaining to students with F1 or J1 visa status, international students are restricted to no more than the equivalent of one on-line/distance education class or 3 credits per semester may count towards the full-time course of study requirement, if an online or distance education course does not require the student’s physical attendance for classes, examination or other purposes integral to completion of the class. If the student’s course of study is in a language study program, no on-line or distance education classes may be counted toward the full course of study requirement.

**Course Numbering**

**Grading and the Quality Point System**

Graduate students must maintain a 3.0 cumulative GPA in all courses taken as a graduate student (including all transfer courses and undergraduate level courses). Students who fail to meet the 3.0 GPA requirements for the graduate program GPA and overall cumulative GPA will not be awarded a degree or certificate. Grades lower than a “C” may not be used in meeting degree or non-degree requirements.

The letters A, B, C, D, F, FN, P and X are used by the University to indicate the student’s academic proficiency. These letters have the following significance:

<table>
<thead>
<tr>
<th>Letter</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent, valued at four quality points per semester hour.</td>
</tr>
<tr>
<td>B</td>
<td>Good, valued at three quality points per semester hour.</td>
</tr>
<tr>
<td>C</td>
<td>Average, valued at two quality points per semester hour.</td>
</tr>
<tr>
<td>D</td>
<td>Below average, unsatisfactory, valued at one quality point per semester hour. (A “D” gives credit toward a degree. The student’s overall grade point average, however, must be a 2.0 or better to meet the requirements for graduation.)</td>
</tr>
<tr>
<td>F</td>
<td>Failure, valued at no semester hours earned and no quality points.</td>
</tr>
<tr>
<td>FN</td>
<td>Failure due to nonattendance, or ceasing to attend, up to and including the 60% point of a term, valued at no semester hours earned and no quality points. Nonattendance shall be defined as failure to perform meaningful academically-related activity including, but not limited to, the following: submitting an academic assignment, taking an exam, participating in an online discussion about academic matters.</td>
</tr>
<tr>
<td>P</td>
<td>Pass, credit is awarded toward a degree, but no quality points are assigned. The “P” designation is restricted to specific courses approved for its use.</td>
</tr>
<tr>
<td>X</td>
<td>Incomplete, A grade of “X” is given only when a relatively small amount of work is not completed because of illness or other reason satisfactory to the instructor. A grade of “X” will automatically become an “F” unless removed within the first twelve (12) weeks of the next full term (summer term excluded.) An incomplete must be removed within this twelve-week period regardless of whether the student is registered for additional work in the next term. A student should work with the instructor who assigned the incomplete on an independent basis in order to complete the necessary assignments. A grade of incomplete is not used under any circumstances as a substitute for “F” or “W.”</td>
</tr>
</tbody>
</table>

The designations AU, W, NR, ER and NG are not included in the determination of grade point average and are used in the following cases:

<table>
<thead>
<tr>
<th>Designation</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>AU</td>
<td>Auditor of a course, (See “Auditing of Courses” for additional information.)</td>
</tr>
<tr>
<td>W</td>
<td>Officially Withdrew</td>
</tr>
</tbody>
</table>
NR

No report, grades for an entire class were not received by the Office of the Registrar in time for processing. The designation “NR” is not to be used as a grade for individual students.

ER

Error in reporting, this designation is used by the Office of the Registrar when a grade is not reported for an individual student.

NG

No grade, a grade is not appropriate to the course. The “NG” designation is restricted to specific courses approved for its use.

IP

In Progress, the IP designation is restricted to specific courses designed to span more than one term. Unless approved otherwise, an IP designation unresolved at the end of three years after its assignment will be converted to an “F”.

(Please note: The grading policy approved by Graduate Council 11/10/16)

Equivalent Courses

Equivalent courses have different subject area prefixes but the same curriculum, learning outcomes, course number, title, abbreviated title, credit hours, prerequisites and/or corequisites, grade type (e.g., A – F, Pass / Fail) and catalog course listings.

Prerequisite(s)

A prerequisite represents prior specific or general academic knowledge, background, or student classification required in order to enroll in a specific course.

Corequisite(s)

A corequisite is a requirement which must be fulfilled concurrently with another course, unless successfully completed as a prerequisite.

Recording and Changing Grades

Grades are recorded by the faculty at the end of each term. No grade may be changed except on a written statement from the instructor certifying that an error has been made, or in the case of an incomplete, that the work was completed within the time limit. All conditions must be removed before the student will be recommended for any certificate or degree.

Schedule Changes

After classes begin, registration for a full-time course load and/or changes in schedules may be made only within the first six class days of a semester or the first three days of a bi-term. Courses that do not meet at least twice during the first six class days may be added through, but not past, the day of the second class meeting. During a semester, a student may withdraw from a course with a grade of “W” or “F” under the following conditions. It is recommended that faculty members inform students of this “W” period deadline.

• A student is permitted to withdraw from any course with a grade of “W” through the 70% point of the semester;

• After the 70% point of the semester, any student dropping a course receives an automatic “F”. However, when there are extenuating circumstances, and at the discretion of the faculty member and the department chair, the student may be permitted to withdraw with a “W” instead of an “F”.

During a bi-term a student may drop a course with a grade of “W” or “F” under the following conditions:

• A student is permitted to withdraw from any course with a grade of “W” through the 70% point of the bi-term;

• After the 70% point of the bi-term, any student dropping a course receives an automatic “F”. However, when there are extenuating circumstances, and at the discretion of the faculty member and the department chair, the student may be permitted to withdraw with a “W” instead of an “F”.

Students should refer to the Registration Guide each term for specific dates that affect schedule changes. The institution reserves the privilege at all times of canceling any course for which the enrollment is not sufficient to justify its continuation and to make any other adjustments in the schedule that seem necessary.

Auditing of Courses

An auditor is a student who enrolls and participates in a course without expecting to receive academic credit. The same registration procedure is followed and the same fees are charged as for courses taken for credit. An audited course is not applicable to any degree or certificate program. Regular class attendance is expected of an auditor. Other course requirements, which may be obtained in writing from the instructor, will vary depending on the nature of the course. Students interested in auditing a course should secure permission from the instructor and discuss course requirements prior to enrolling. Failure to meet course requirements may result in the student being withdrawn from the course at the request of the instructor. A successful audit will be recorded on the transcript with the designation of AU. Any change from audit to credit must be done by the last day to drop a class with a grade of “W”. Refunds for withdrawals from audited courses will be prorated on the same basis as refunds for withdrawals from courses taken for credit.

Degree Conferral

Degrees are conferred by the University Registrar in May, August, and December. Students with outstanding obligations to the University will not receive a diploma or official transcript until the University Registrar has been notified by the appropriate office that the obligation has been met.

Withdrawal from the University

For various reasons it is occasionally necessary for a student to withdraw from the University. Prior to the 70% point of the semester, students may use TopNet to withdraw. After the 70% point of the semester of the student, the student should report to the Office of the Registrar to initiate withdrawal procedures. Students leaving the institution without an official withdrawal will receive failing grades in all courses in which they are enrolled and endanger their future status in the institution. Students withdrawing after the 70% point of the semester, a bi-term, 5-week session, or comparable period during a summer session must consult with their instructors as to the withdrawal grade. The official date of the withdrawal is the date the withdrawal is processed on TopNet.
or the written notice is received in the Office of the Registrar. Students wishing to return to WKU at a later date must submit an application for readmission prior to the deadline for submitting applications. Refer to the Registration Guide on the Office of the Registrar’s website for deadlines.

In special circumstances, as described below, a complete withdrawal from the University after the 70% point of a term will be considered. Request forms are available on the Office of the Registrar website at www.wku.edu/registrar/withdrawal.php (http://www.wku.edu/registrar/withdrawal.php).

**Administrative Withdrawal**
A request for an administrative withdrawal is initiated by the University because of a disciplinary situation or when, in the professional judgment of a health care provider, psychologist and/or university administrator, there is reason to believe a student is a substantial threat to him/herself or interferes with the welfare of other members of the University, the education process, or the orderly operation of the University. The Vice President for Enrollment and Student Experience or the Associate Vice President for Academic Affairs, or their respective designees, will notify the student of the involuntary withdrawal, and the University Registrar will be directed to withdraw the student from all classes in which the student is currently enrolled and cancel registration that has occurred for any future terms. The Office of the Registrar will notify the student’s instructors of the withdrawal, and “W” grades will be recorded for the term in progress. A student who is administratively withdrawn will have a registration hold placed by the Vice President for Enrollment and Student Experience or the Associate Vice President for Academic Affairs to prevent the student from being readmitted or re-enrolled unless cleared by the appropriate administrator or the respective designee. A student may file a written appeal of an involuntary withdrawal through the office that administered the withdrawal. Tuition refund appeals for administrative withdrawals are handled in a separate procedure, and instructions may be obtained from the Bursar’s Office.

**Medical Withdrawal**
A student may request and be considered for a medical withdrawal from all courses in a term when extraordinary circumstances, such as a serious physical or mental illness or injury, prevent the student from continuing his or her classes after the 70% point of a term, and incompletes or other arrangements with the instructors are not feasible or possible. A medical withdrawal must be substantiated with appropriate documentation from the attending health care provider. Once the rationale for a medical withdrawal has been validated by the Office of the Registrar, the student’s instructors will be sent notification of the withdrawal, and “W” grades will be recorded for each course. A student who requests a medical withdrawal, or an individual requesting a withdrawal on behalf of the student who is physically or mentally unable to request the withdrawal, should contact the Office of the Registrar to obtain medical withdrawal procedures. Tuition refund appeals for medical withdrawals are handled in a separate procedure, and instructions may be obtained from the Bursar’s Office.

**Military Withdrawal**
Students who are members of any branch of the United States Armed Services, including the National Guard, who are called to active duty while enrolled at WKU are entitled to the following options:

a. Students may work with each individual instructor to determine if an incomplete grade is appropriate, or

b. If an incomplete grade is not a viable option, the student will be permitted to withdraw either from individual courses or from the entire schedule of classes. A full refund of tuition and fees will be issued for those courses from which the student has withdrawn.

Students who are called to active duty while enrolled should contact the Office of the Registrar to initiate the withdrawal process. An official copy of the military orders must be presented to invoke this special withdrawal and refund process.

**Retroactive Withdrawal**
A student who leaves the University for extenuating circumstances without an official withdrawal during the term of departure may apply for a retroactive withdrawal. The student must present supporting documentation that demonstrates serious and compelling reasons justifying the withdrawal and extenuating circumstances justifying its retroactive nature; poor academic performance that is not attributed to non-academic extenuating circumstances is not a consideration for retroactive withdrawal. A student may appeal for a retroactive withdrawal within two calendar years following the end of the term for which withdrawal is requested. A student need not be enrolled at WKU at the time the application for retroactive withdrawal is submitted.

An appellate board will review the request for a retroactive withdrawal. The board will consider the following factors, including, but not limited to:

a. Documentation of extenuating circumstances.

b. Written letter of support from an academic administrator, faculty member, advisor or other university professional who is familiar with the student’s situation.

If a retroactive withdrawal is approved, the Office of the Registrar will notify the student’s instructors and department chairs of the request for a retroactive withdrawal, and they will be given 14 calendar days to raise objections if the student’s classroom performance was such that a withdrawal (W) would not be appropriate. If objections are raised by the instructor or department chair, the Office of the Registrar will be informed of the objection, and the student will not receive a “W” in the class. A tuition refund is not granted for a retroactive withdrawal.

**Thesis, Specialist Project, or Dissertation**
Students pursuing a thesis option in a master’s or specialist degree program must complete at least 6 hours of credit in 599-Thesis Research Writing or 699-Specialist Project, respectively. Students pursuing a doctoral degree requiring a dissertation must earn a minimum of 9 hours of credit in 799-Dissertation Research. All thesis, specialist project, and dissertation hours will use a pass/fail grading system. Thesis & Dissertation Guidelines (http://www.wku.edu/graduate/students/thesis/) are published by the Graduate School.

All thesis, specialist project, and dissertation hours will be graded pass/fail. During the time that the thesis, specialist project, or dissertation is in progress but not yet completed, the director should submit a grade of IP (In Progress). Upon successful completion of all requirements the director should request that the grades of IP be changed to grades of P (Pass). If the thesis project is deemed to be of unacceptable quality by the thesis director, then the grades of IP should be changed to grades of F (Fail).

(Approved by Graduate Council 11/8/12)
Research Committee

Students pursuing graduate programs requiring a thesis, specialist project or dissertation are mentored by a research committee of three to four members including a chair. A member of WKU's graduate faculty must serve as the chair. An individual who is not a member of WKU's graduate faculty may serve on a committee. Students may assist in the formation of the committee, but final approval of the composition of the thesis, specialist project, or dissertation committee lies with the Associate Provost for Research and Graduate Education.

Maintaining Matriculation

If the thesis, specialist, or dissertation project is not completed during the initial period of registration for this credit, the student must maintain matriculation by enrolling in a minimum of (1) credit hour of a 600 (thesis), 700 (project), or 800 (dissertation) course until the thesis or project is submitted and approved by the Graduate School. Further, students must be enrolled in a minimum of one (1) credit hour of maintaining matriculation during the term in which the defense is held. Enrollment in matriculation courses does not result in a grade or credit toward any degree or non-degree program.

Defense

A defense covering the thesis, specialist project, or dissertation must be completed if required by the degree program. The defense usually consists of a public presentation and an oral examination of the candidate's research and academic preparation. The defense is arranged by the committee chair and the student, and is given before the final draft is completed. Each member of the committee should be given a minimum of two (2) weeks notification before the defense to read and review the research. Following the approval of defense by the student's committee, the thesis, specialist project, or dissertation is submitted to the Graduate School for final approval and publication. Submission Deadlines ([https://www.wku.edu/graduate/students/thesis/](https://www.wku.edu/graduate/students/thesis/)) are posted annually.

Outcome

Students will pass the defense if no more than one member casts a dissenting vote. If a student does not pass this culminating assessment, the committee may grant a student permission to attempt a second defense which will be administered under conditions stipulated by the committee. A student who has failed the defense may be re-examined once more by the committee. Failure to pass the second defense may result in dismissal from the program. Students who are dismissed from the program due to a failed comprehensive examination are ineligible to reapply for the same graduate degree program at any time in the future.

Comprehensive Examination/Capstone

All graduate degree programs require satisfactory completion of either a written or oral examination or an approved capstone course. The comprehensive exam and thesis/specialist project/dissertation defense may be combined in those degree programs that require a defense. Examinations for professional licensure or certification cannot be used for, or in place of, the comprehensive examination/capstone. Students must meet the following guidelines before they are permitted to attempt the comprehensive examination:

- Complete at least one half of the course work hours in an approved program;
- Have no more than 9 hours remaining in the approved program;
- Complete additional requirements as specified in writing by faculty in the program department.

For thesis/specialist project/dissertation students, the oral examination committee will be the approved research committee. For non-thesis students, the major advisor, in consultation with the student, appoints the oral examination committee consisting of at least two graduate faculty members. If the student's program includes a concentration, or a significant amount of course work in an area outside the major program, one of the committee members must represent that area. It is the student's responsibility to ensure that all committee members are available when scheduling an examination.

The comprehensive exam is graded pass/fail determined by a majority committee vote. The research committee chair is responsible for submitting the results of the comprehensive examination/capstone to the Graduate School. For non-thesis students, the primary advisor is responsible for submission.

Minimum Registration

A student must be registered for a minimum of one (1) credit during the term in which the comprehensive exam/capstone is completed.

Outcome

A student who has failed the comprehensive examination may be re-examined once more by the committee. Failure to pass the second comprehensive examination may result in dismissal from the program. Students who are dismissed from the program due to a failed comprehensive examination are ineligible to reapply for the same graduate degree program at any time in the future.

Degree and Certificate Completion Checklist

All degree and certificate requirements must be completed by the student by the last day of the term. The Graduate School begins auditing degrees and certificates for completion the week following the final day of the term. The degree audit confirms that the student has:

a. completed all coursework (earning a "C" or higher/no incomplete grades) in their program within the time limit;  
b. earned a minimum cumulative and program GPA of 3.0;  
c. published a thesis, specialist project, or dissertation approved by the Graduate School (if required);  
d. completed a comprehensive exam/capstone (degrees only); and,  
e. applied for graduation.

Degree audits are completed within four to six weeks after the term concludes. Upon recommendation of the audit, the University Registrar confers the degree and/or certificate in May, August, or December. Students may check their transcript for completion on TopNet ([https://acsapps.wku.edu/pls/prod/twbkwbis_P_WKULogin/?ret_code=5](https://acsapps.wku.edu/pls/prod/twbkwbis_P_WKULogin/?ret_code=5)) (Student Services/Student Records/Unofficial Academic Transcript). Degrees and certificates will be mailed within 3-6 weeks after the conclusion of the term. The Graduate School does not confirm degree or certificate completion prior to award; however, enrollment verification ([http://www.wku.edu/registrar/enrollment_verification.php](http://www.wku.edu/registrar/enrollment_verification.php)) may be requested.

¹ Graduate tuition and fees are assessed per credit hour based upon the course (i.e. on-campus or distance learning). There is no full-time graduate rate.

Included within the above rates are a $218 Student Athletic Fee, $62 Student Centers Fee, $70 Dero Downing Student Union renovation fee, and $30 Parking Structure Fee, Creason. The fees are prorated to part-time graduate students on a per hour basis. These fees do not apply to the Distance Learning rates or P-12 Educator.

The Distance Learning Course rate is for all part-time students, regardless of residency, enrolling in on-line, web-based courses. Students enrolled exclusively in distance learning courses will be assessed the distance learning per hour rate regardless of the number of hours enrolled. There is no full-time distance learning rate.

Residency

The determination of residency for admission and tuition assessment is governed by state regulation 13 KAR 2:045 (http://cpe.ky.gov/legislation/residency.html). As required by this regulation, WKU also has an approved Residency Policy (http://www.wku.edu/policies/docs/254.pdf).

Graduate students who are residents of Macon, Robertson, and Sumner counties in Tennessee are eligible to pay in-state tuition by virtue of a reciprocity agreement. Additionally, Kentucky, along with 14 other southern states, participates in the Academic Common Market (http://home.sreb.org/acm/choosestate.aspx) -- an interstate agreement for sharing non-duplicate academic programs. A resident of an Academic Common Market state who has gained admission into a qualifying program can enroll and pay Kentucky resident tuition upon certification by their state’s Academic Common Market coordinator.

Program Fees and Expenses

It is the responsibility of the student to consult with the appropriate department/school about potential expenses required for program completion. Examples of expenses for various programs include, but are not limited to criminal background checks and drug testing, liability insurance, certifications, training seminars, transportation, specialized equipment rental, licensure exam fees, and so forth.

Doctoral Program Fees

In addition to the program tuition rates, students must pay the following doctoral fees:

- Doctor of Nursing Practice (MSN-DNP Concentration), $221 per credit hour
- Doctor of Physical Therapy, $300 per semester
- Doctor of Psychology, $207 per credit hour
**Course Fees**
Occasionally an additional fee is charged for a specific course. Refer to the Course Fees Chart (https://www.wku.edu/bursar/coa.php).

**Schedule Change Fee**
A $50 schedule change fee will be assessed per course for student-initiated schedule changes. Effective dates for the fee are printed in each term's Registration Guide (http://www.wku.edu/registrar/).

**Late Registration Fee**
Students who delay their registration until the first day of class or thereafter will be assessed an additional $50 late registration fee.

**Application for Graduation Fee**
Candidates for graduate degrees and certificates must complete the Application for Graduation available through TopNet and pay the appropriate fee the semester prior to program completion. The fee covers the cost of cap and gown, diploma, and other necessary expenses. Applications not received by the Registrar’s Office by the due date will result in the omission of the student’s name from the commencement booklet. Degrees are conferred in December, May, and August. Commencement ceremonies are held in May and December. August graduates may participate in either the preceding May or following December commencement ceremony.

**Transcript Fee**
A $10.00 fee is charged for an official transcript. Official transcripts may be ordered through the Office of the Registrar (http://www.wku.edu/registrar/).

**Payment**
WKU Office of Billings & Receivables (https://www.wku.edu/bursar/)
billing@wku.edu
(270) 745-6381
Potter Hall, Room 208
Monday - Friday, 8:00 a.m. – 4:00 p.m. (Summer hours may vary)

All tuition, housing fees, course or laboratory fees, meal charges, and other assessments are due and payable in accordance with the statements rendered by the appropriate university office. Tuition, housing fees, meal plans and other student charges must be paid on the date a student registers or on other dates as specified by the Office of Billings and Receivables. Payment of fees will not be deferred, unless the student participates in one of the approved payment plans as described below.

The University expects all students to register for classes and pay tuition prior to the first day of class. A late payment charge of $100 may be assessed for failure to pay by the designated due date. Failure to receive a bill does not relieve the student of the obligation to pay tuition and fees by the due date. The University does not mail printed billing statements. All billing is electronic with students receiving notifications through their university-assigned e-mail addresses. As an added service, students can also select a billing e-mail address via TopNet so they can have their account statements sent to an additional e-mail address.

In the event that any tuition, fees and/or expenses are not paid when due, and the University undertakes collection of any unpaid portion, the student shall also be assessed and be responsible for any collection costs and/or fees associated with the collection of the debt including but not limited to: collection agency fees, which may be based on a percentage at a maximum of 33.3% of the debt, reasonable attorney’s fees, court costs and all other charges allowed by law. Delinquent accounts receivable are placed with a collection agency and/or the Kentucky Department of Revenue and collection fees will be added, increasing the amount owed. Accounts will also be reported to the National Credit Bureaus.

**Payment Options**
Careful financial planning is crucial to affording college today. Western Kentucky University knows the importance of providing options that will help conveniently manage education expenses. If you need additional assistance or wish to contact the University about payment options, please email or call the WKU Billings and Receivables Office (billings.receivables@wku.edu), (270) 745-6381. Additional information is located at wku.edu/bursar (http://www.wku.edu/bursar/).

International Payments (Flywire)
Western Kentucky University has partnered with Flywire to offer an innovative and streamlined way to make a payment from your home country. Founded by a former international student, Flywire’s mission is to save money for international students and their families that would otherwise be lost on bank fees and unfavorable foreign exchange rates.

With Flywire, international students receive the following benefits:

Tuition and Fee Refund Policy
Tuition refunds or reductions in outstanding fee liabilities for students who officially withdraw through the Registrar’s Office or TopNet, or who change their status from full-time to part-time or further reduce their part-time status through drop/add, will be made according to the posted Refund Policy (http://www.wku.edu/bursar/refund_policy.php) and schedules. The refund percentage is applied to the number of credit hours dropped, not the dollar amount of the tuition and fees assessed. The refund policy is subject to change based upon federal regulations or by Western Kentucky University without prior notice.

Refund Choices via BankMobile
Western Kentucky University has partnered with BankMobile to deliver refunds and student payroll funds to students. All refunds are
disbursed through BankMobile (https://bankmobiledisbursements.com/refundchoicesso/).

To choose your university refund preference, sign in at my.wku.edu (http://my.wku.edu), select BankMobile under Campus Information.

The University will not issue refund checks, so students must choose an option for receiving any refunds due to them. The funds are sent from the university to BankMobile who then disburses the refunds according to the choice the student has made. For questions about the refund process, please email or call the Refund Office (refunds@wku.edu), (270) 745-5551.

Programs of graduate study are designed to transform students into knowledgeable practitioners and/or professional scholars. Graduate assistantship appointments do not constitute a contract of employment. Assistantships are awards given to our most outstanding students. The assistantship provides necessary support for graduate students to complete their degree program. Research, teaching, and related activities conducted by graduate assistants are a required and essential part of their degree program. Assistantships are designed to enhance the educational experience of graduate students and increase their competitiveness for doctoral programs and/or careers.

The graduate assistant is first and foremost a graduate student. As a student, the graduate assistant must be a student in good academic standing and be making significant progress toward completion of their graduate degree. The student as a graduate assistant is directed and mentored by a faculty member.

Graduate Assistantship appointments available are:

a. Graduate Assistant Instructor (GAI) – GAI Faculty are defined as graduate students of WKU who have completed 18 hours of graduate coursework in the discipline in which they will be assigned to teach and have completed the Graduate Assistant Teaching Institute (GATI) or similar college/department faculty training program as reviewed/approved by the Director of the Center for Innovative Teaching and Learning and the Associate Provost for Research and Graduate Education. GATI or similar training program coursework must be cataloged by the WKU Office of the Registrar and appear on the graduate student’s official Western Kentucky University transcript. GAI Faculty are contracted to develop and/or teach courses for academic credit (as determined by the hiring department) on an as-needed basis in accordance with enrollment, academic programming needs and available resources. (See Academic Affairs Policy 1.1122 (https://www.wku.edu/policies/docs/?policy=320))

b. Graduate General Assistantship (GGA) – A Graduate General Assistant engages in scholarly activity in a capacity related to their degree program, but not defined as research or teaching.

c. Graduate Research Assistantship (GRA) – A Graduate Research Assistant conducts research/scholarly activities under the guidance and direction of a faculty member. The Graduate Research Assistant develops and applies conceptual and theoretical ideas, practices, or methods to their discipline-based scholarship.

d. Graduate Teaching Assistantship (GTA) – A Graduate Teaching Assistant provides direct support for the teaching mission of the unit. Graduate Teaching Assistants may serve as discussion leaders, graders, leaders of laboratory sections, and may assist in capacities such as preparation of assignments, and other administrative duties necessary for course instruction.

**Requirements for Appointment**

Students wishing to apply for an assistantship should contact their academic department. The following general requirements must be met for consideration as a graduate assistant:

a. Graduate assistants must be enrolled in a graduate degree program. Non-degree graduate students and graduate students in a certification or certificate program only are not eligible for assistantships or tuition remission.

b. Graduate assistants are eligible for tuition remission.

c. Graduate assistants must have a minimum cumulative grade point average (GPA) of 3.00 at the time of admission.

d. Graduate assistants must carry a minimum of 6 credits during each semester they receive an assistantship unless they are in the final semester of their degree program. (Enrollment in 6 credit hours constitutes part-time status enrollment; full-time status requires 9-15 hours of enrollment.)

e. Graduate assistants must dedicate a minimum of 10 hours per week and a maximum of 20 hours per week during Fall and Spring semesters.

f. The combined load of teaching responsibilities and graduate course enrollment may not exceed 15 hours per semester. Teaching responsibilities may not exceed 6 hours.

g. During the summer term, graduate assistants must be enrolled in at least 1 hour of graduate credit during any summer session.

h. Graduate Assistant Instructors (GAI) must complete the Graduate Assistant Teaching Institute (GATI) offered through the Center for Innovative Teaching and Learning (CITL), or a similar departmentally-administered program approved by the CITL.

i. Graduate Assistant Instructors (GAI) must receive regular in-service training, which may be completed by participation in seminars offered by the Center for Innovative Teaching and Learning (CITL) or with departmentally-based mentoring to assist the student in the teaching process.

j. Students must complete a Graduate assistantship agreement form with approval from the faculty member directing the assistantship, the hiring department chair, and the academic department chair if different than the hiring department granting the assistantship.

To receive maximum consideration, and prevent delay of stipend payment and posting of tuition scholarship, the agreement form should be received in the Graduate School by deadline dates posted on the Graduate School website.

**Continuation**

Graduate assistants may be appointed for one academic year or for one semester with the possibility of renewal. Continuation of the assistantship is contingent upon the following:

a. Satisfactory progress toward the degree

b. Maintaining a 3.0 or better cumulative GPA

c. Completing graduate courses at the rate expected for a full-time student
d. Fulfillment of duties as determined in the assistantship appointment.

e. An approved new agreement from the department.

The progress of the graduate assistant will be evaluated at the end of each semester to determine his/her eligibility to continue in the position for the term of appointment. Academic department chairs and college deans reserve the right to recommend termination of a graduate assistantship appointment if the student is not fulfilling the terms of appointment. The Associate Provost for Research and Graduate Education will make the final decision on continuation and termination.

Remuneration

Graduate assistantship stipends are funded from the instructional budget of the University or from grants/contracts. Stipends are considered taxable income. The half-time (20 hours per week) assistantship generates a full stipend and the quarter-time assistantship generates a half stipend. Checks are issued monthly with students normally receiving four checks each semester. Receipt of the initial check is dependent upon when the student signs necessary tax forms in the appropriate college dean’s office. A graduate assistant identification card (ID) card will be issued which entitles the graduate assistant to a 10% discount on most purchases at the University Bookstore, excluding food items, books, and electronics.

Tuition Remission

Graduate assistants are responsible for their in-state tuition for on-campus courses and the Distance Learning Course tuition fees for any online course; however, the out-of-state and international portion of the tuition for non-resident and international students is paid by the University during the period of appointment. In many cases the resident portion of the graduate assistant’s tuition is also paid.

Rights & Responsibilities of Graduate Assistants

Graduate assistants are expected to observe the guiding principles of the University as described in the Faculty Handbook section on ‘Academic Information’, in the WKU Student Handbook, and by the Graduate School. In addition, the following statements of rights and responsibilities apply to graduate assistants:

a. Graduate assistants are responsible for meeting academic requirements in their respective degree programs.

b. Students are responsible for meeting the assistantship responsibilities as outlined in the Graduate assistantship Agreement.

c. Graduate assistants must attend orientations conducted by the Graduate School, the academic college, or the department, and must participate in departmental training activities.

d. If problems or conflicts arise in the performance of duties or pursuit of the degree, the graduate assistant should discuss the situation with his/her graduate advisor. If the problem is not resolved at that level, then the problem should be taken through the following levels until a resolution is reached: the department chair, the appropriate college dean, and finally to the Associate Provost for Research and Graduate Education.

e. The graduate assistant assumes responsibility to notify the supervisor if the term of appointment cannot be completed. A letter of resignation must be submitted to the department chair, the departmental graduate advisor, the college dean, and the Associate Provost for Research and Graduate Education no later than two weeks before his/her leaving the position unless emergency conditions exist. Resignation will forfeit all remaining stipend payments.

f. If an assistant is terminated before the final date of the assistantship, the graduate assistant will be notified by letter from the Associate Provost for Research and Graduate Education no later than two weeks prior to termination.

g. The graduate assistant is invited to submit to the department chair suggestions concerning the assistantship experience during the evaluation procedure at the end of each semester.

h. All graduate assistants are expected to demonstrate personal honesty and professional integrity.

Other Graduate Student Funding

Research and Travel Grants

Graduate students are invited to submit proposals to the Graduate School to support their research or travel to present their scholarship at professional/discipline-based meetings. Funds are made available on a competitive basis.

Alumni Grant Program

An alumni grant scholarship is available to any qualified nonresident student whose parent, stepparent, or grandparent holds an associate, baccalaureate, master’s, doctoral, or specialist degree or has completed an approved new agreement from the Department.

Distinguished Minority Fellows Award

WKU is committed to assisting individuals from underrepresented minority groups in obtaining their higher education goals. The Distinguished Minority Fellows Award is designed to help minority students attain graduate degrees by providing tuition support and a stipend through a graduate assistantship. Applications are accepted once annually in the spring for admission in the following fall semester.

Senior Citizen Scholarship

Kentucky residents who are 65 years of age or older, on or before the day the semester begins, are granted Senior Citizen Scholarships for any college class in which they enroll for credit or to audit in accordance with KRS 164.284. At the time of admission to an ARTC program, students will be expected to sign a document to signify their understanding of and agreement to abide by the following expectations:

a. The student must maintain a minimum GPA of 3.0. If the semester GPA drops below 3.0, the student may be dropped from the program or, with evidence of extenuating circumstances and at the discretion of the program faculty, the student may be allowed to remain on a probationary status. Field Experience Policy

WKU teacher preparation programs are designed to meet the University's standards for baccalaureate degrees, master's degrees, specialist degrees, and certification-only programs, as well as the Kentucky standards for the designated teaching certificate. All professional education programs require completion of a variety of diverse and focused field experiences in appropriate off-campus Primary-Grade 12 school settings as well as student teaching or equivalent experience. The number of required hours of field experiences varies by program; however, a minimum of 200 hours of approved off-campus field experience is required in professional education courses prior to the student teaching experience or equivalent. The candidate is responsible for documenting completed hours, date, and setting. In addition, all programs require one 16-week or two 8-week full-time student teaching placements for a minimum of 70 days in an instructional setting, or approved equivalent. Every effort is made to provide teacher candidates with field experiences in diverse settings (based on socioeconomic status, race/ethnicity, language, and exceptionalities of students) in order to ensure that they are prepared to help all students learn. Prior to visiting any school, a student must have on file in the Office of Professional Educator Services a current TB test or risk assessment, a current physical exam, a recent criminal background check, and a Child Abuse and Neglect (CAN) check. Students are responsible for the expenses incurred in complying with this requirement.

Recommendation for Initial Teacher Certification

To be recommended for initial certification at the baccalaureate level (including post-baccalaureate certification-only programs), an applicant must document:

a. Completion of approved program in each desired certification area(s);
b. Passing score(s) on the PRAXIS II exam(s) or other assessments required for each desired teaching area(s) (see www.ets.org/praxis/ky for the most current list of required assessments);
c. Achievement of at least a 2.75 GPA overall, in each certifiable major(s) and minor(s), and in professional education courses (graduate students are required to maintain a 3.0 GPA or above in all graduate coursework);
d. Attainment of at least a "C" in all professional education courses, including EDU 489 and student teaching.

Comprehensive Examination/Culminating Assessment/Capstone Experience

All CEBS master's programs require completion of a culminating assessment, such as a thesis and thesis defense; an action research project and presentation; a teacher work sample; or a comprehensive exam. General information regarding the policy for eligibility and administration of comprehensive exams may be found at www.wku.edu/cebs/programs/graduate. Eligibility requirements include successful completion of EDFN 500 or other research foundations course prior to the student's final semester.

Policy on Expiration of Graduate Courses and Programs Leading to Professional Education Certification

The following policy applies only to graduate certification-only programs, endorsement programs, Planned Fifth-Year (Rank II) programs, and Planned Sixth Year (Rank I) programs:

Course work for programs leading to certification in professional education must be aligned with current standards. Some older courses are not aligned with current standards, and thus it may not be appropriate to count them in a student's program. Generally speaking, courses used to satisfy program requirements in programs leading to professional education certification should be no more than 10 years old at the time that the certification program is written. Decisions about whether
older courses may be used will be made on a case-by-case basis by the department chair of the student’s major. Students may be required to demonstrate proficiency related to current course content if they wish to satisfy program requirements using courses taken more than 10 years prior to when the student’s program of studies is written. All requirements for graduate certification-only, endorsement, Planned Fifth-Year, and Planned Sixth-Year programs must be completed within 10 years from the date when the program was written. Students may request an extension, which must be approved by the Dean of the College of Education and Behavioral Sciences on recommendation of the department chair.

If the Commonwealth of Kentucky makes changes in certification requirements, students seeking certification may be required to modify their programs of study to meet the new requirements.

**Non-Degree Programs**

Students who wish to pursue a Planned Fifth-Year/Rank II or Planned Sixth-Year/Rank I program must submit an application to the Graduate School. Upon completion of the non-degree program, individuals must contact the certification officer in the College of Education and Behavioral Sciences. The certification officer will then certify to Kentucky’s Education Professional Standards Board that rank requirements have been met. Enrollment in a Planned Sixth-Year/Rank I program may not provide eligibility for a federal student loan, and completion of a Planned Fifth/Sixth-Year non-degree program may not be accepted in states other than Kentucky in determining pay status. Additional information about teacher certification may be found at [www.wku.edu/teachersistences/teacher_cert/index.php](http://www.wku.edu/teachersistences/teacher_cert/).

Candidates for the Planned Fifth-Year/Rank II, Planned Sixth-Year/Rank I, Advanced Certification, or Endorsement should furnish the WKU Office of Professional Educator Services the following documents:

- a. A completed Application for Kentucky Teacher Certification or Change in Salary Rank (CA-1).
- b. Verification by the superintendent or personnel director of full-time classroom teaching experience at the appropriate grade level(s), and
- c. Passing PRAXIS II Specialty Area test scores for each area of certification and the Principles of Learning and Teaching test score for appropriate grade range (if applicable).

**Planned Fifth-Year/Rank II Programs**

The School of Teacher Education provides Planned Fifth-Year/Rank II programs in Elementary Education for Teacher Leaders, Middle Grades Education for Teacher Leaders, and Secondary Education for Teacher Leaders for students who do not meet the admission requirements of a degree program or who want greater flexibility with regard to time allowed for completion, transfer limitations, and selection of courses than is permitted in degree programs.

Admission to a Planned Fifth-Year/Rank II program requires completion of a baccalaureate degree and documentation of certification or eligibility for certification consistent with the desired Planned Fifth-Year/Rank II program. According to state regulations, an applicant may be admitted to a program in a professional education specialty for which the applicant’s certification was issued, in an academic subject for which the applicant’s certification was issued, or in professional education with emphasis in an academic subject for which certification was issued.

Although the Planned Fifth-Year/Rank II program does not result in the master’s degree, it does result in Rank II salary classification in Kentucky, renews the teaching certificate, and permits entry into some Planned Sixth-Year/Rank I programs.

**General Guidelines**

*(See specific program requirements described in the listings for the School of Teacher Education.)*

- a. A minimum of 32 semester hours of graduate courses must be completed, with a minimum GPA of 3.0.
- b. In order to be recommended for certification and/or rank change after completing a non-degree certification-only program, students must complete at least one-half of the minimum program hours in residence at Western Kentucky University. Exceptions may be permitted in the case of programs for which contractual arrangements have been made with other institutions for the delivery of course work. With the approval of the advisor and the certification officer, the remaining hours may be taken at other institutions, provided that the grades earned are "B" or higher and other transfer regulations are met;
- c. A minimum of 12 hours must be in professional education courses, and a minimum of 9 hours must be in cognate areas;
- d. Course work taken by correspondence is not accepted; and
- e. With prior advisor approval, a maximum of 12 hours of professional development credit may be applied to the program requirement.

**Planned Sixth-Year/Rank I Programs**

The School of Teacher Education offers Planned Sixth-Year/Rank I programs in Elementary Education, Middle Grades Education, Secondary Education, and Interdisciplinary Early Childhood Education. The School of Leadership and Professional Studies offers Planned Sixth-Year/Rank I programs in Principalship, Pupil Personnel Administration, and Supervisor of Instruction. A Planned Sixth-Year/Rank I program in School Administration to prepare special education directors is available in the School of Teacher Education. Admission to a Planned Sixth-Year/Rank I program requires completion of an approved Rank II program, either a master’s degree or a planned fifth-year program. Some programs have additional requirements; see specific program sections for further information.

Planned Sixth-Year/Rank I programs lead to the Rank I salary status for certified teachers in Kentucky.

**General Guidelines**

*(See specific program requirements described in the listings for the School of Teacher Education, Department of Counseling and Student Affairs, and Department of Educational Administration, Leadership, and Research.)*

- a. A minimum of either (a) 30 semester hours of approved graduate level credit in addition to the requirements for the Rank II salary classification, or (b) 60 unduplicated semester hours of approved graduate level credit, including a master’s degree, must be completed;
- b. All course work must be planned in consultation with the advisor and must be related to the professional needs of the student;
- c. A minimum of 15 semester hours must be completed in courses numbered 500 or higher;
- d. A "B" average must be maintained, and no course grade lower than a "C" may be counted;
- e. In order to be recommended for certification and/or rank change after completing a non-degree certification-only program, students must complete at least one-half of the minimum program hours in residence at Western Kentucky University. Exceptions may be permitted in the case of programs for which contractual
arrangements have been made with other institutions for the delivery of course work. With the approval of the advisor and the certification officer, the remaining hours may be taken at other institutions, provided that the grades earned are "B" or higher and other transfer regulations are met; and

f. A minimum of 24 hours of the total 60 (62 hours when based on Rank II salary classification) must be in academic work apart from professional education. These hours must be in the candidate’s major or minor, area of preparation, or supporting courses from other disciplines as approved by the institution.

Endorsement & Certification-Only Programs Residency Requirement

In order to be recommended for certification and/or rank change after completing a non-degree program, students must complete at least one-half of the minimum program hours in residence at Western Kentucky University. Exceptions may be permitted in the case of programs for which contractual arrangements have been made with other institutions for the delivery of course work. With the approval of the advisor and the certification officer, the remaining hours may be taken at other institutions, provided that the grades earned are "B" or higher and other transfer regulations are met.

Graduates of this certificate program will be better prepared to assist students to be more engaged in the educational experience through appropriate academic major and career choice, which may lead to higher retention of current students and successful transition to the workforce. Moreover, the CCS program complements the master’s degree programs in a wide variety of helping professions. The 15 hour certificate program includes 9 hours of required core courses and 6 hours of electives. The program requires an internship in career counseling. The program may be completed as a stand-alone program, or students admitted to related master’s degree programs may incorporate 12 hours of the certificate program into their program of study (if appropriate). Admission to the CCS program is based on completion of a baccalaureate degree and adequate preparation in this or a related area of study. This certificate program welcomes applicants from all graduate programs at Western Kentucky University and elsewhere. However, students seeking admission to the CCS program must apply to and meet admissions requirements of the program. Please note that admission to, or completion of, the CCS program will not guarantee admission to any graduate degree program.

Program Admission
In addition to Graduate School admission requirements, applicants are required to submit a statement describing their interest in the CCS and their employment goals.

Standard Guidance, Provisional to P-12, Certification-Only (KGCP)

Students may pursue the certifications listed below as certification-only programs or as part of the Planned Sixth-Year/Rank I in Guidance. Those seeking the Planned Sixth-Year/Rank I in Guidance should note that it requires other course work in addition to the courses described.

The Provisional to P-12 Standard Guidance program is designed for individuals with a master's degree in school counseling who have provisional P-12 Guidance Certification. P-12 Guidance Certification is a prerequisite for Standard Guidance Certification. Individuals certified at the elementary (Grades K-8) or secondary (Grades 5-12) levels must first complete the 6 hours required to obtain P-12 Certification.

Standard Guidance Certification requires both completion of required course work and completion of one year of employment as a school counselor for those certified as teachers or two years of employment for those not previously certified as teachers. Many individuals complete the course work prior to completing the experience requirements.

Program Admission

Counseling, Master of Arts in Education (043)

Program Coordinator
Andrea K. Jenkins, andrea.jenkins@wku.edu, (270) 745-4786

The MAE in Counseling has two concentrations and meets the educational requirements for licensure as a Licensed Professional Clinical Counselor in the Commonwealth of Kentucky and in states with reciprocal licensure agreements. The Council for the Accreditation of Counseling and Related Educational Programs (CACREP) accredits both the Clinical Mental Health Counseling and the Marriage, Couple, and Family Counseling concentrations in the Counseling master's degree program.

Concentration(s)
- Clinical Mental Health Counseling (CMHC)
- Marriage, Couple and Family Counseling (CMCF)

Joint Undergraduate Master's Program (JUMP)
This degree offers a Joint Undergraduate Master's Program (JUMP) which provides academically outstanding students the opportunity to complete both an undergraduate and graduate degree in an accelerated timeframe. Contact the graduate program coordinator for additional information.

Program Admission
Application Deadline is October 1 for spring admission; and March 1 for fall admission. Review of completed applications begins October 6th and March 6th for spring and fall, respectively. Reviews employ a holistic approach to evaluate applicants' potential to be successful as students and, upon graduation, counseling or student affairs professionals. This
approach involves the submission of materials that allows department faculty members to develop a more complete picture of applicants in terms of academic aptitude for graduate-level study, potential success in forming effective counseling relationships, respect for cultural differences, and relevance of career goals to their prospective programs of interest. Faculty rate applicants’ application materials and rank the applications according to these categories. Highly ranked applicants are invited to interview with faculty and current students in an individual or group setting.

After completion of the interview, admissions decisions are made based on application ratings and interview evaluations collectively. The application process is competitive with a limited number of openings.

**STEP ONE: COMPLETE THE ADMISSIONS APPLICATION PROCESS**

Completed applications include various application materials that must be completed by the application deadlines. Application portfolios should reflect thought, attention to detail, and appropriate effort. You are applying to a competitive graduate program; it is important that your portfolio represents you in a positive yet realistic manner. Please allow yourself at least a few weeks to complete the entire process.

All of the following materials should be submitted directly through the Graduate School application:

a. Graduate School Application Form - (https://www.wku.edu/graduate/) requirements include a non-refundable application fee and official transcripts
b. Statement of Interest (http://wku.edu/csa/)
c. A background check
d. Resume

In addition to the Graduate School application process, students entering the Student Affairs program may be asked to submit a Case Study Writing Sample. Once the completed application is received, separate instructions will be sent for completing this process.

**STEP TWO: SELECTED APPLICANTS INVITED TO PARTICIPATE IN INTERVIEW**

Based on the review of the application portfolio, highly ranked applicants will receive notification of their eligibility for an individual or group interview. Applicants who completed Step 1 with moderate rankings may be placed on a waiting list depending on the number of students admitted each term. Eligible applicants will be scheduled for interviews on campus with faculty, current students, alumni and/or experienced professionals. Participation in the interview process does not guarantee admission but is a prerequisite for admission. Interviewees who are unable to travel to campus interviews may arrange an online interview with the Program Coordinator. Based on the interview assessment, faculty will make offers for admission for the most highly rated candidates.

Applicants with moderate or lower rankings from the interviewers may receive letters indicating they will be placed on a waiting list or are not eligible for admission based upon the review. If you are on a waiting list, the average time to be notified of your eligibility may be up to 6 weeks. Program Coordinators will oversee the application process.

School of Leadership and Professional Studies

Marguerita DeSander, Department Chair
Gary A. Ransdell Hall 3086
(270) 745-4890

The School of Leadership and Professional Studies offers programs designed to prepare school personnel for effective leadership in P-12 schools. The curricula meets professional certification standards in school administration. The department also provides educational foundations courses that give graduate students a greater understanding of their roles and the function of educational institutions in society.

Course work associated with degree programs at Western Kentucky University may be used to meet certification requirements established by the Commonwealth of Kentucky; however, the Commonwealth may institute changes in certification requirements at any time. When the Commonwealth initiates such changes, students seeking certification may be required to modify their courses/experiences to meet the new certification requirements.

Students wishing to pursue one of the non-degree programs must make application to the Graduate School. Upon completion of the program, individuals must contact the Office of Professional Educator Services in the College of Education and Behavioral Sciences. That official then certifies to the Kentucky Education Professional Standards Board that rank requirements have been met.

Director of Pupil Personnel Services, Endorsement (KDP1 and KDP2)

The Director of Pupil Personnel (DPP) is one of the two legally mandated positions for a school district. The DPP usually deals with such issues.
as student attendance, student conduct codes, school calendars, and student services.

Completion of a planned Fifth/Sixth-Year program may not be counted by states other than Kentucky in determining pay status. The Director of Pupil Personnel Services position is unique to Kentucky, and Kentucky's manifestation is not found in other places. Other states seek a counseling or social work type background for student services, not a Director of Pupil Personnel Services with attendance duties as in Kentucky.

**Director of Special Education, Endorsement (KDS1 and KDS2)**

This 30 hour Level I program leaders to eligibility for administrative certification as a Level I Director of Special Education (KDS1), renewable with completion of the 9-hour Level II Director of Special Education program (KDS2).

**School Principal, Endorsement (KP1 and KP2)**

The Principal Preparation Program is a certification program involving a minimum of 30 hours of studies beyond the master's degree.

WKU also offers an EPSB-approved alternative route to principal certification, with eligibility and application procedures as follows:

1. Candidates must first apply to the WKU Graduate School for admission to the university - [https://www.wku.edu/graduate/](https://www.wku.edu/graduate/).
2. Following university admission, candidates should contact the Department of Educational Administration, Leadership, and Research for program-specific admissions guidelines and application by calling 270-745-4890.
3. After program admission the candidate will work with an advisor to submit a program of study to the Office of Professional Educators Services for approval.
4. A letter is then issued by WKU stating that the student is currently enrolled in the principal program; at this time the candidate may be offered a principal or assistant principal position by a district and is then eligible to participate in the Option 6 alternative route program.
5. If the candidate is offered the position, the district superintendent must provide verification of employment to WKU and the candidate.
6. The candidate will submit the verification of employment to EALR and a CA-TP to the Office of Professional Educator Services. EALR will issue the student a mentor agreement that must be completed by the student, the student's university mentor and the student's district mentor. This can be emailed along with the completed CA-TP application to teacher.certification@wku.edu.
7. The Office of Professional Educator Services will sign and verify the enrollment of the candidate in the Alternate Route to Principal Certification program. The completed application will be uploaded to EPSB and the student will be notified when it has been processed and their certificate is ready to download/print.
8. The student must request that an electronic transcript be sent directly to EPSB. The transcript request can be completed through TOPNET. All transcript request questions need to be directed to the registrar's office.

**Superintendent, Endorsement (KST)**

The professional certificate for school administration and supervision may be endorsed for the position of school superintendent when the candidate has met the following conditions:

a. Completed two years full-time experience in a school administrative position, and
b. Completed a minimum of sixty (60) semester hours of graduate credit above the bachelor's degree in (an) approved certification program(s), including EDAD 639 ([http://catalog.wku.edu/search/?P=EDAD 639](http://catalog.wku.edu/search/?P=EDAD 639)), EDAD 649 ([http://catalog.wku.edu/search/?P=EDAD 649](http://catalog.wku.edu/search/?P=EDAD 649)), EDAD 659 ([http://catalog.wku.edu/search/?P=EDAD 659](http://catalog.wku.edu/search/?P=EDAD 659)), and 6 hours of EDAD 598 ([http://catalog.wku.edu/search/?P=EDAD 598](http://catalog.wku.edu/search/?P=EDAD 598)).

**Alternate Route to Superintendent Certification Program.** The alternate route program enables the district to consider the best candidates for positions of superintendent or assistant superintendent, including candidates who have not previously completed requirements for the superintendent’s certification endorsement or are otherwise not eligible for certification under traditional program guidelines. Alternate route admission requirements include:

a. A letter from the employing district signed by the superintendent and/or board chairman must be sent to WKU indicating the desire to employ the named candidate as an assistant superintendent or superintendent and requesting the named candidate to be admitted to the Alternative Route to Superintendent Certification program.
b. The candidate must submit an application for admission that includes all requested information pertaining to education and experience.
c. The department admissions committee will review the request and application and determine if the candidate is eligible for admission, and what, if any, additional requirements must be met.

Educational Leadership, Doctor of Education (0010)

Program Coordinator
Gary W. Houchens, gary.houchens@wku.edu, (270) 745-4999

The Ed.D. in Educational Leadership (edd@wku.edu) provides knowledge and skills for its graduates to become effective change agents within educational and education-related environments. The program is designed to prepare scholarly practitioners whose program content and experiences emphasize application to the real world.

The primary purpose of the program is to develop the ability of education and education-related organizational practitioners to obtain and synthesize knowledge for the solution of institutional problems and practices. The program provides value-added opportunities for candidates to develop breadth and depth in understanding leadership, policy, and applied research methodologies. In addition, program experiences contribute to the development of future leaders who will creatively generate new knowledge, critically conserve valuable and useful ideas, and responsibly transform those understandings through writing, teaching and application. The dissertation for all areas of emphasis is expected to contribute knowledge and understanding of a critical issue drawn from the candidate’s field of practice and be applicable for improving educational organizations.

The Ed.D. in Educational Leadership:

- encourages participants to become practitioner scholars by promoting skills and knowledge in practice-based settings and to gain scholarship and experience in applied behaviors;
- provides opportunities to explore a range of career specialties in various settings so that participants can make sound career choices;
- models interdisciplinary and inter-institutional collaboration through the program’s management and accountability structures;
- provides participants with leadership capacity to bring about changes that enhance organizational success; and
- provides interdisciplinary research preparation focused on contextually based problems central to future global competitiveness.
This program is part of the Educational Administration, Leadership and Research department and is an interdisciplinary program involving faculty and courses from other departments throughout the university. More information may be found at https://www.wku.edu/edd/.

Program Design

The EdD program was designed for working professionals and follows an executive format which allows students to enroll in courses year round. Students who register for six credit hours each semester for three semesters per year should be able to complete all coursework excluding dissertation hours within three calendar years.

Program Admission

Intended candidates for the degree are individuals who have completed at least a master's degree (or other appropriate graduate degree), have demonstrated leadership capacity within their organizational settings, and/or are committed to enhancing their abilities to learn and to enhance the educational missions of their organizations and communities. Each student's academic background and professional experiences will be assessed at the time of admission.

Program admission is based on a holistic evaluation of the candidate’s application file, which must include:

a. Submission of GRE scores. Those students who cannot provide scores or have never taken the GRE may be considered for admission through an alternative process. Contact the program director for more information.
b. Transcripts of all undergraduate and graduate course work;
c. Documentation of a master’s degree (or other graduate degree) from an institution accredited by a nationally recognized accreditation organization;
d. Completed application;
e. Current (within 1 year of application deadline) resume or vita;
f. An in-depth personal statement including qualifications, rationale, and goals related to pursuing the WKU Ed.D. program;
g. Three current (within 1 year of application deadline) letters of recommendation from persons in a position to evaluate the applicant’s potential for success in a doctoral program; and
h. Submission of a writing sample (requested during the admission review process) if applicants cannot provide GRE scores, took the GRE without the Analytical Writing portion, or if Analytic Writing score falls below preferred minimum.

International students who apply must submit the following additional documents for admission consideration:

a. Evidence of ability to communicate in English (as evidenced by a minimum of 570 on the paper based TOEFL; a minimum of 88 on the iBT TOEFL; a minimum of 7.0 on the IELTS; or a degree from an institution with English as the language of instruction.)

Experiential Credit Recommendation

Students admitted to the Ed.D. in Educational Leadership program may apply to receive graduate credit for successful completion of the National Board Certified Teacher process. Those approved will receive up to six (6) hours of credit for EDU 695 (http://catalog.wku.edu/search/?P=EDU%20695). To be eligible to receive credit, students must document that they:

• have been admitted to the Ed.D. program; and
• hold current National Board Certification status.

In both cases, the student must submit an application form to the Ed.D. Director, who will consider whether to approve the application and then determine the number of EDU 695 (http://catalog.wku.edu/search/?P=EDU%20695) hours to credit to the student’s program. The hours may not be substituted for required courses in the program, and no more than 12 credit hours of EDU 695 (http://catalog.wku.edu/search/?P=EDU%20695) may be listed on the student’s program.

For NBCT-related applicants, once a recommendation for the awarding of hours for NBCT completion is approved by the EdD Program Director, the student must arrange for the American Council on Education (ACE) to send an official transcript documenting the student’s NBCT status to the
Western Kentucky University so that the credit may be entered on the student’s transcript. No charge will be assessed by WKU for posting these credits.

**Instructional Leadership, School Principal, MAE (0499)**

**Program Coordinator**
Stacy R. Leggett, stacy.leggett@wku.edu, (270) 745-2942

The Master of Arts in Education, Instructional Leadership, School Principal program requires 30 hours of coursework and leads to eligibility for initial principal certification (Level I, KP1).

**Principal Certification, Option 6 (Alternate Route)**

Kentucky Senate Bill #77 made it possible for higher education institutions with approved school administration certification programs to provide alternate route to certification programs upon application and approval by the Education Professional Standards Board (EPSB). Western Kentucky University (WKU) has an EPSB approved Alternate Route to Principal Certification program, with eligibility and application procedures as follows:

Under the provisions of Senate Bill #77 and state regulations, Western Kentucky University established procedures for the alternate route program as follows:

a. Candidates must first apply to the WKU Graduate School for admission to the university - https://www.wku.edu/graduate/

b. Following university admission, candidates should contact the Department of Educational Administration, Leadership, and Research for program-specific admissions guidelines and application by calling 270-745-2942.

c. After program admission the candidate will work with an advisor to submit a program of study to the Office of Professional Educators Services for approval.

d. A letter is then issued by WKU stating that the student is currently enrolled in the principal program; at this time the candidate may be offered a principal or assistant principal position by a district and is then eligible to participate in the Option 6 alternative route program.

e. If the candidate is offered the position, the district superintendent must provide verification of employment to WKU and the candidate.

f. The candidate will submit the verification of employment to EALR and a CA-TP to the Office of Professional Educator Services. EALR will issue the student a mentor agreement that must be completed by the student, the student’s university mentor and the student’s district mentor. This can be emailed along with the completed CA-TP application to teacher.certification@wku.edu.

g. The Office of Professional Educator Services will sign and verify the enrollment of the candidate in the Alternate Route to Principal Certification program. The completed application will be uploaded to EPSB and the student will be notified when it has been processed and their certificate is ready to download/print.

h. The student must request that an electronic transcript be sent directly to EPSB. The transcript request can be completed through TOPNET. All transcript request questions need to be directed to the Registrar’s Office.

Program Requirements (30 hours)

Program requirements for the School Administration, Rank I program are specific to the concentration selected (concentration codes shown in parentheses below).

Completing a planned Fifth/Sixth-Year program may not be counted by states other than Kentucky in determining pay status. The Director of Pupil Personnel Services position is unique to Kentucky, and Kentucky’s manifestation is not found in other places. Other states seek a counseling or social work background for student services, not a Director of Pupil Personnel Services with attendance duties as in Kentucky.

Filing a TC-1 requesting Rank I requires completion of a minimum of 60 semester hours of graduate credit including the master’s degree. Within these total hours, the student must complete the required professional courses as outlined in a planned program designed to provide the student with appropriate administrative competencies and courses required for certification.

This certificate program offers five courses that specialize in behavior management techniques for school-aged children. Through the progression of the courses, candidates will learn how to define and assess problem behaviors, and develop evidence-based interventions to decrease problem behaviors and increase pro-social behaviors and improve academic outcomes. This certificate is appropriate for anyone working in a P-12 setting and may include classroom teachers, school counselors, speech pathologists, occupational therapists, paraprofessionals, and other school related personnel. It may also be beneficial to parents, camp counselors, and after-school personnel. The courses are written with content appropriate for varied supervision roles that school personnel working with P-12 students may encounter. There are a number of courses that have similar content in the Psychology Master’s program; however, the proposed certificate is created for professionals who are not interested in pursuing a graduate degree in psychology, but are interested in learning about targeted behavior management techniques. This certificate is targeted for these diverse roles.

This program is designed to develop advanced educators who can positively impact student learning in their classrooms and schools. Courses and experiences include professional learning communities in which candidates interact with other graduate candidates from various content areas and grade levels to discuss and work on real world challenges and promising practices they encounter in schools.

The program is divided into two instructional components. The first component, professional education, provides 15 hours of study collaboratively developed between WKU and the administration of the specific school district in which the candidate is employed. This includes a study of education in positive behavioral supports, teaching strategies and curriculum development. The second component, the concentration, directs the candidate into an individual program in content, pedagogy, and/or areas of professional growth concurrent with the goals of each candidate.

This program is exempt from the maximum of 12 hours denoted in the Duplication of Coursework policy. All concentration hours may be

**Program Contact**
Certification Only, Teacher Education is a non-degree seeking program for students seeking additional teacher certification in the following concentrations (concentration codes shown in parentheses below):

**Elementary Mathematics Specialist P-5, Endorsement (KEM)**
The Elementary Mathematics Specialist P-5 Endorsement is designed to give professionals both a deep and practical knowledge of the content and pedagogy of elementary mathematics and skills for working with other professionals to develop their mathematical knowledge for teaching in P-5 settings.

**Environmental Education P-12, Endorsement (KEV)**
Based on the National Standards of the North American Association for Environmental Education, this graduate endorsement program provides students with a knowledge of the fundamental characteristics and goals of the field of environmental education, knowledge of environmental processes and systems, and knowledge and skills of appropriate instructional strategies and assessment techniques associated with the delivery of high quality environmental education programs. This graduate endorsement program will enhance the abilities of teachers in integrating environmental education into their teaching, as well as into the curriculum of their school and school district. It is comprised of 12 graduate hours that can be incorporated into Rank I and Rank II programs. It involves two required courses and a variety of electives.

**Gifted and Talented Education P-12, Endorsement (KE37)**
The endorsement for Gifted and Talented Education requires four courses: GTE 536, GTE 537, PSY 432G, and GTE 538. All of these except GTE 538 are offered online. Students may pursue the GTE endorsement as a stand-alone endorsement program or as part of a master’s, Planned Fifth-Year/Rank II, or Planned Sixth Year/Rank I program.

**Instructional Computer Technology P-12, Endorsement (KCT)**
The Instructional Computer Technology Endorsement P-12 for teachers will be included in the Master of Science in Libraries, Informatics, and Technology in Education program. This endorsement may also be completed as an emphasis in another master’s degree in Education; as an emphasis in a planned fifth-year (Rank II) or planned sixth-year (Rank I) program; or as a certification-only program.

**Learning and Behavioral Disorders, Certification-Only (KLBD)**
This certification program is designed to give special education professionals both a deep and practical knowledge of the content and pedagogy to teach students with Learning and Behavior Disorders (LBD) in P-12 settings. Candidates are expected to become competent in theory, research, and application of best teaching practices related to exceptional students with mild to moderate disabilities and exhibit appropriate teacher dispositions and behaviors as indicated by the College of Education and Behavioral Sciences Teacher Disposition Rating Form.

**Library Media Education, Certification-Only (KLM)**
The Library Media Education, Certification-Only program is designed to give professionals both a deep and practical knowledge of school libraries in P-12 settings. Candidates are expected to become competent in theory, research, and application of best practices related to school libraries.

**Moderate and Severe Disabilities, Certification-Only (KMS)**
This certification program is designed to give special education professionals both a deep and practical knowledge of the content and pedagogy to teach students with Moderate and Severe Disabilities (MSD) in P-12 settings. Within the MSD certification program in Special Education, candidates are expected to become competent in theory, research, and application of best teaching practices related to exceptional students with Moderate and Severe Disabilities and exhibit appropriate teacher dispositions and behaviors as indicated by the College of Education and Behavioral Sciences Teacher Disposition Rating Form.

**Teaching English as a Second Language (TESL), Endorsement (KE36)**
Persons who have certification to teach in the elementary, middle, or secondary grades can add on to that certification an endorsement in teaching English as a Second Language by completing the coursework and the ESL Praxis test with a minimum score of 157. An overall GPA of 3.0 and grade of “B” or better must be earned in the required core classes.

**Teacher Leader, Endorsement (KTLE)**
The Teacher Leader Endorsement is designed to develop Teacher Leaders who can positively impact student learning in their classrooms and schools. This endorsement is comprised of 16 hours of coursework that can count toward a master’s degree, Rank II or Rank I certification, or other graduate program.

Western Kentucky University – 2023-2024 Graduate Catalog
While enrolled in TCHL 500, students will use several documents, including KTIP assessments or in-kind examples, dispositions self-surveys, referrals from school personnel, and their respective School Improvement Plan, to develop with endorsement advisors an individualized program of study related to Kentucky Teacher Standards, Framework for Teaching Components, and professional goals. Students are expected to enroll in TCHL 500 at the beginning of the endorsement and in TCHL 560 toward the end. Students should consult with their advisors regarding the optimal sequence of course work to meet their professional goals. Students must successfully complete TCHL 560 (course grade of "C" or higher) and present research results in an approved venue. Students must achieve a minimum 3.0 GPA overall and in endorsement course work.

1 All students must complete TCHL 545 and TCHL 555 or pass proficiency evaluations for these courses.
The EMS P-5 Certificate requires 15 hours that may be earned for the certificate only (stand-alone) or may be incorporated into another degree program. Thus, in addition to developing in-depth knowledge and expertise with regard to teaching elementary mathematics, graduate students may also include this course work within the Specialization courses. The certificate will add to the depth and breadth of knowledge the middle/secondary mathematics teachers currently have as they will expand into a K-6 knowledge base of content and pedagogy.

This program provides a graduate level credential in this critical content area and will be listed as a “certificate” on the WKU transcript upon completion.

Program Admission
To be admitted to the Elementary Mathematics Specialist Certificate, applicants must hold at least one of the following undergraduate or graduate degrees:

- Elementary Education degree
- Math Middle/Secondary degree
- Special Education degree
- Dual Certification – Elementary/Special Education

Please refer to the admission section (http://catalog.wku.edu/graduate/admission/) of this catalog for Graduate School admission requirements.

The MAE in Gifted Education and Talent Development offers two concentrations, Advanced Certification for Teacher Leaders and Advanced Research Focus.

The Advanced Certification for Teacher Leaders concentration of the MAE in Gifted Education and Talent Development is designed to develop advanced certification for teachers who can positively impact student learning in their classrooms and schools with all children and young people, including those who are gifted and talented. Courses and experiences include professional learning communities in which students interact with other graduate students from various content areas and grade levels to discuss and work on real-world challenges and promising practices they encounter in schools. Candidates who complete the MAE will be eligible for a recommendation for Rank II and both the Gifted and Talented Education (KE37) and Teacher Leader (KTLE) endorsements. Individuals holding a Rank II will be eligible for a Rank I with both the Gifted and Talented Education (KE37) and Teacher Leader (KTLE) endorsements.

Educators pursuing the advanced certification for teacher leader concentration may be completing the graduate program to continue in a teaching position or to become a curriculum coordinator. Counselors, principals, librarians, and other specialized teachers will enhance their knowledge and skills in a concentration that leads to Rank II or a Rank I if candidates already hold a Rank II certification and the gifted education endorsement.

The MAE in Gifted Education and Talent Development with the Advanced Research Focus concentration may be used to achieve Rank I. An additional three-hour practicum and a passing score on Praxis II in Gifted Education are required for those seeking the endorsement in gifted education. The Advanced Research focus will prepare students for a variety of careers in higher education, government, policy work, or other organizations and could lead to a Rank I or specialist degree. The research concentration is planned for those pursuing different pathways:
• educators pursuing a rank change
• educators pursuing a rank change and the endorsement in gifted education (additional three-hour practicum and passing score on the Praxis II in gifted education required)
• individuals who are pursuing an advanced degree in gifted education - not certified personnel and that would include, but not be limited to, international students, psychologists, and those planning to earn a Ph.D. or Ed.D.

The MAE in Gifted Education and Talent Development is offered primarily online. Exceptions include the practicum and requests for face-to-face instruction for cohort groups.

Rachael Lee, rachael.lee@wku.edu (%20rachael.lee@wku.edu), (270) 745-2819

This non-degree program is designed to prepare educators to work with children both with and without special needs, age’s birth through kindergarten and their families. Graduates are eligible to apply for certification in interdisciplinary early childhood education (IECE), birth to primary (B to P). This certification qualifies individuals to work with children from birth to entry into the primary program. This includes teaching children in kindergarten or other programs for five-year-olds if those programs are operated separately from the primary program. Graduates are prepared for positions in public schools, First Steps, Head Start programs, child care centers, and other public and private agencies serving young children and families.

Concentration(s)
- Interdisciplinary Early Childhood Education (KIE)

Program Admission
In addition to meeting Graduate School and College of Education and Behavioral Sciences admissions requirements, applicants must complete the IECE application process through the School of Teacher Education. This application process includes documentation of early childhood related professional experiences and training, a professional written goals statement, and three letters of reference. Applicants must be officially admitted to the IECE program before beginning the program sequence. Students must also have had SPED 330 or SPED 516 or equivalent prior to entering the Rank I program or complete one of them as a program deficiency.

Graduate School Admission
Please refer to the admission section (http://catalog.wku.edu/graduate/admission/) of this catalog for Graduate School admission requirements.

Program Requirements (33 hours)
The performance-based program of study requires 33 hours of course work and 240 clock hours of field experiences. Approximately one-half of the field experience hours are completed as a part of ongoing course work. The culminating experience of the program is a summer internship.

Certification Examination

While a certification examination is not a requirement to earn the Master of Science in LME, Kentucky does require a passing score on the PRAXIS II Subject Assessments - Library Media Specialist for certification as a school media librarian. Students outside of Kentucky are responsible for determining the requirements for certification in their states.

Middle Grades Education for Initial Certification, Master of Arts in Teaching (0458)

Program Coordinator
Janet L. Tassell, janet.tassell@wku.edu, (270) 745-5306

Program Contact
Rachael Lee, rachael.lee@wku.edu (%20rachael.lee@wku.edu), (270) 745-2819

The MAT in Middle Grades Education for Initial Certification leads to initial certification in Middle Grades Education (grades 5-9) for qualified individuals with bachelor’s degrees and content majors (or equivalent for those who qualify for temporary provisional certification in approved areas). Course work and experiences in the program provide students who have a deep knowledge of their respective disciplines, but no background in professional education, with the pedagogical knowledge and skills to become highly qualified educators in their fields. Upon completion of the program, graduates will be professional educators who possess the dispositions and skills to apply state-of-the-art, evidence-based, best teaching practices to increase student achievement.

There are three concentrations in this program:

a. Alternate Route to Certification Concentration for English/Language Arts, Social Studies, Mathematics, and Science (EARC)
b. Standard Concentration for English/Language Arts, Social Studies, Mathematics, and Science (ESTN)
c. Residency Concentration for Science and Mathematics (ERSM) (e.g. GSKyTeach)

Note that Concentrations 1 and 2 appear identical; however, the differences between these concentrations are characterized by students with and without a temporary provisional teaching certificate and those who must meet the equivalent of the state required student teaching requirements along with the specific content area in which students are seeking certification.

Students in all three concentrations are expected to become competent in theory, research, and application of best teaching practices in...
their respective fields and to exhibit appropriate teacher disposition behaviors as indicated by the College of Education and Behavioral Sciences Disposition Rating Form. All professional education courses in the program require satisfactory completion of critical performance indicators (CPIs); these must be submitted as directed before the final course grade is recorded. Each course’s CPIs become a part of the student’s portfolio that is reviewed periodically throughout the program.

Students who seek admission to the Alternate Route to Teacher Certification must meet additional requirements in order to qualify for temporary provisional certification, and they must complete all requirements for certification within three years of the time of employment by a school district. A recommendation for professional certification will be contingent upon successful completion of the Kentucky Teacher Internship Program (KTIP) and submission of qualifying scores on all required examinations for the desired area of certification. Additional information about the Alternate Route to Teacher Certification concentrations may be found on the website for the Office of Professional Educator Services.

Upon successful completion of the MAT in Middle Grades Education for Initial Certification and satisfaction of all other certification requirements, student who do not participate in the Alternate Route to Certification concentrations but participate in the Standard Concentration will qualify for a Statement of Eligibility for Certification. The Internship course for these students must be a full semester or equivalent in length. Students in the residency (e.g. GSKyTeach) concentration must meet all expectations associated with that residency program.

Concentration(s)
- Alternate Route to Certification (EARC)
- Standard (ESTN)
- Residency for Science and Math (ERSM)

Program Admission
Applicants must meet one of the following, depending upon the chosen concentration.

Standard Concentration and the Alternate Route to Certification Concentration
- Document completion of a baccalaureate degree with a major, or equivalent, in an approved certification area and from an accredited institution.
- Be recommended for admission following a transcript review by an MAT advisor associated with the certification area sought. (If deficiencies are cited the applicant may be required to take additional undergraduate courses.)
- Submit a letter of application including professional goals
- Document a cumulative overall grade point average (GPA) of 2.75 or above (counting all course work, undergraduate and graduate) OR a GPA of 3.0 in the last 30 hours of course work (counting all course work, undergraduate and graduate).
- Submit a passing score on the appropriate PRAXIS II test in major area.
- Submit state minimum passing scores for GRE or CASE for admission to the professional education unit.
- Submit a successful criminal background check.

- Submit the following documentation prior to acceptance to Graduate School: 3 references, physical (including TB test), and a signed code of ethics.

Residency Concentration for Science and Mathematics Educators
- A baccalaureate degree with a major in physics, chemistry, or mathematics with a 2.5 GPA in the major area of concentration.
- A minimum undergraduate GPA of 2.75.
- Satisfaction of state minimum requirements for GRE or PPST qualifying scores for admission to the professional education unit.
- A successful criminal background check.
- A passing score on the PRAXIS II test in the major area. (This score must be submitted within the first semester of enrollment in the teacher residency program.)
- Documentation to demonstrate that applicant meets all expectations for employment with the partnership school districts.

### Program Requirements (33-39 hours)

During the first course in the program, TCHL 500, students will complete an assessment process that will be used in determining which TCHL core courses they must take. Students are expected to enroll in TCHL 500 at the beginning of their program and in TCHL 560 toward the end, and in general, students should complete the professional education core (the TCHL courses except TCHL 560) as early as possible. Students should consult with their advisors regarding the optimal sequence of course work to meet their professional goals. An Action Research Project for Teacher Leaders focusing on a classroom, school, or district issue is the capstone for the completion of the program.

The Special Education Initial Certification program, which will lead to a Master of Arts in Teaching, is for individuals seeking initial certification in learning and behavioral disorders (LBD) or moderate and severe disabilities (MSD) and may or may not be currently employed as a teacher of students with LBD or MSD. This option is for those individuals with no prior teacher certification in any area. This 33-hour program consists of coursework in induction to the profession of special education, the diagnosis and assessment of disabilities, instructional strategies, data-based individualization, managing behavior and positive behavior supports, transition planning, and special education law. If a student is currently employed or has verification of employment from a school district, the student may be eligible for a Temporary Provisional Teaching Certificate (CA-TP). If the student does not secure employment as the teacher of record in an LBD or MSD setting during the program, the student will be required to complete the equivalent of the state required student teaching experience in an unpaid position in an accredited Public School within WKU's service area. Graduates completing the equivalent of a student teaching experience will be eligible for a Statement of Eligibility for certification as a teacher of students with LBD or MSD.

Students must submit passing scores on the Praxis and be fully admitted to the professional education unit (teacher admissions) PRIOR to enrolling in SPED 590. Students must meet all state requirements for student teaching and initial certification. SPED 590 should be taken as the final course of the program. Courses in the program carry key assessments that must be completed before the final course grade will be recorded. Performance on coursework and key assessments is reviewed at the end of each semester to measure progress through the program.

**Note:** To be eligible to be recommended for teacher certification, students must document that they have received passing score(s) on the required Praxis examination(s).
### Program Admission

To be considered for admission, applicants must:

- Document completion of a bachelor's degree with a major, or equivalent, in an approved subject area and from an accredited institution.
- Present a letter of application (including professional goals). Document a cumulative overall grade point average (GPA) of 2.75 or above (counting all course work, undergraduate or graduate) OR a GPA of 3.0 in the last 30 hours of course work (counting all course work, undergraduate and graduate).
- Submit documentation to satisfy partial criteria for admission to professional education, including references, physical including TB test, signed commitment to uphold the code of ethics, and criminal background check.

Mission

We prepare health and human services professionals who will work to improve the quality of life in their communities and beyond.

The College of Health and Human Services (CHHS) consists of seven academic units that represent an array of disciplines, and offers degrees at the associate, baccalaureate, masters, and doctoral degree levels. Academic units include: Applied Human Sciences; Communication Sciences and Disorders; Nursing and Allied Health; Kinesiology, Recreation, and Sport; Physical Therapy; Public Health; and Social Work. CHHS oversees the South Central Kentucky Area Health Education Center, the Center for Environmental and Workplace Health, the Center for Applied Science in Health and Aging, the LifeSkills Center for Child Welfare Education and Research, and the WKU Cardiopulmonary Resuscitation Center. CHHS is also one of the participating institutions for the doctoral program in Rehabilitation Sciences offered through the University of Kentucky. The focus of CHHS is to provide the highest possible quality of education to prepare our students to become leaders in careers related to health and human services. Faculty are highly qualified in their respective disciplines and utilize innovative teaching strategies along with state of the art instructional technology, including IVS, web-enhanced and web-based instruction.

The disciplines in the college have their roots in outreach to the community. Disciplines in CHHS prepare students for their professions by engaging them in activities within the community that apply the theories and concepts discussed in the classroom for a more comprehensive understanding of the issues, while providing a valuable service to the communities in which we reside. To fulfill degree requirements for most programs, students are required to complete clinical experiences, field work, or internships through one of the many affiliation agreements at a myriad of health and human services facilities, agencies and organizations.

Due to the nature of these experiences, students are required to meet various departmental or school academic requirements and federal and/or state mandates. Departments and schools may require the successful completion of specific courses or maintaining a certain GPA in order to be placed in clinical or internship experiences. Some students may be required to undergo criminal background checks and drug testing and to provide proof of health insurance, liability insurance, and/or immunization records prior to participating in any required experiences at selected on or off-campus facilities/agencies. Additionally, there may be certifications, training seminars, or other requirements specified by the facility/agency or program that a student must meet in order to be eligible for field or practical experiences at a facility. It is the responsibility of the student to ensure that all institutional and/or facility requirements are met as a condition of participating in the on or off-campus experiences; students may be responsible in part or in full for any costs incurred to meet such requirements. Students are also responsible for transportation to and from off-campus experiences. In some CHHS programs, the students are responsible for rental fees for clinical instruments and supplies, purchasing uniforms, equipment, and possible course and program fees above the regular tuition. At the completion of the program, students may also be responsible for fees related to national, regional, and/or state licensing exams.

The DPT Program is designed to prepare students to plan and administer treatment to help patients regain diminished physical function lost secondary to injury or disease, to promote soft tissue healing, and to relieve pain. Determining the degree of impairment allows physical therapists to help patients return to full function by using various physical agents to decrease pain and by using therapeutic exercises to increase strength, endurance, and coordination.

The purpose of the DPT Program is to provide students pursuing a career in physical therapy the opportunity to acquire the knowledge and skills required for the safe practice of physical therapy. Students are prepared as generalists, but also have some opportunity to investigate specialized aspects of physical therapy through numerous clinical exposures. The program of study consists of 118 credit hours of graduate course work and consists of intense academic and clinical work spread over 3 years. These hours are divided between classroom, clinical, and research activities.

The DPT Program is an entry-level professional degree program designed to provide individuals with baccalaureate degrees and the appropriate prerequisite courses the knowledge and skills to develop clinical and research expertise in the field of physical therapy. Upon receiving the DPT degree, students will be eligible to sit for the licensure examination in physical therapy.
The Mission of the WKU Doctor of Physical Therapy program is to prepare physical therapists who improve the quality of life of their patients and clients, especially in rural and underserved communities.

In addition to formal lecture and laboratory courses, students are required to successfully complete clinical experiences usually conducted at external agencies/facilities. Due to the nature of these experiences and to stipulations established by agencies/facilities, specific requirements for students may exist to be eligible to participate in the clinical experiences. These requirements may include, but are not limited to, undergoing criminal background checks, drug testing, and TB skin tests; providing proof of health insurance, professional liability insurance, and/or immunization records or blood titers verifying proof of immunizations. These items may need to be updated annually. Additionally, there may be certifications, training seminars, or other requirements specified by the facility/agency that a student must meet in order to be eligible for clinical experiences at a facility. It is the responsibility of the student to ensure that all institutional and/or facility requirements are met as a condition of participating in any on or off-campus experiences; students may be responsible in part or in full for any costs incurred to meet such requirements. Student questions regarding the agreements with external agencies may be directed to the Director of Clinical Education of the DPT Program. Students are also responsible for transportation to and from off-campus experiences.

The graduate program in Environmental and Occupational Health Science is designed to provide graduate education for careers focused on the protection of human health and prevention of health hazards in occupational and natural environments. A key component of the program is to understand how exposure to environmental and occupational hazards occurs, and discovering ways to reduce and control the risk of exposure. This interdisciplinary field focuses on environmental hazards to human health, assessment of exposures, mechanisms of environmental response, control of risks associated with environmental hazards, and improving occupational health. Program requirements will provide students a foundation of advanced studies that will increase their skills and knowledge for protecting human health and the environment. This program is designed for working professionals and students desiring opportunities with industry, consulting firms, government agencies, and other environmental and occupational health science professions.

The Master of Science in Environmental and Occupational Health Science is accredited by the National Environmental Health Science and Protection Accreditation Council (EHAC). The program is also designated as Qualified Academic Program by the Board of Certified Safety Professionals (BCSP). This provides graduates the opportunity to apply with BCSP for Graduate Safety Professional (GSP) designation.

Joint Undergraduate Master’s Program (JUMP)

This degree offers a Joint Undergraduate Master’s Program (JUMP) which provides academically outstanding students the opportunity to complete both an undergraduate and graduate degree in an accelerated timeframe. Contact the graduate program coordinator for additional information.

Program Admission

In addition to Graduate School admission requirements, admission requires the equivalent of an undergraduate major in environmental health science and occupational health and safety including supporting courses in science and mathematics. Exceptions may be made for students with undergraduate degrees in other disciplines; however, additional courses may be required.

Admission may be granted to applicants who fulfill one of the following conditions: 1) Completion of the Occupational Safety and Health graduate certificate with a cumulative GPA of at least 3.0 on a 4.0 scale; OR 2) Minimum cumulative GPA of 2.75 or greater on a baccalaureate degree or equivalent international degree; OR 3) Minimum GPA of 3.0 on a degree higher than baccalaureate or equivalent international degree.

Social Work, Master of Social Work (157)

Program Coordinator
Erin T. Warfel, erin.warfel@wku.edu, (270) 745-8923

The Master of Social Work (MSW) program at Western Kentucky University (WKU) prepares students for professional social work practice at the graduate level to meet the needs of increasingly diverse rural populations. It is particularly dedicated to addressing the work-force needs of agencies that serve families and communities. Moreover, the MSW curriculum emphasizes social work practice at the advanced level in rural communities.

There are two program concentrations for students meeting the admission requirements outlined below. The Traditional Program concentration requires 60 semester hours for students with a baccalaureate degree in any field and may be taken full or part-time. The Advanced Standing Program concentration requires 30 semester hours for students who have earned a bachelor of social work (BSW)
degree from an accredited social work program and who have fulfilled the additional admission requirements outlined below. The Advanced Standing concentration may be taken full or part-time as well. Both concentrations require students to complete SWRK 661 as a capstone course prior to graduation. This course integrates the entire curriculum in a comprehensive practice experience. Students are required to pass a comprehensive examination, the Practice Readiness Exam, prior to graduation.

Concentration(s)
- Traditional Program (TSP)
- Advanced Standing Program (ASP)

Program Admission

Admission Requirements for the 60 hour Traditional Program Concentration

a. 2.75 or greater undergraduate degree GPA. Students with a lower GPA may apply for Alternate Admissions (See Alternate Admissions and Admissions Appeal Process).

b. A Western Kentucky University Master of Social Work program application, personal statement, and writing sample.

c. Three completed WKU Master of Social Work program reference forms.

d. Liberal arts background - at least 30 hours in liberal arts coursework (social sciences, humanities, natural sciences, communications, mathematics, etc.), including at least one course in sociology, psychology, OR anthropology AND at least one course in American government, political science, OR economics. All courses counted towards the liberal arts requirement must have been completed with a final grade of "C" or higher. Applicants may be enrolled in liberal arts prerequisite courses while their MSW applications are being evaluated, but all of these courses must have been successfully completed before admission to the program. Offers of admission will be contingent upon the successful completion of all required courses.

e. An interview may be required.

Alternate Admissions for the 60 hour Traditional Program
An applicant who believes that her/his individual circumstances warrant consideration for a waiver of the minimum admissions requirement of an undergraduate GPA of 2.75 must petition the MSW Program Director. Students must meet all other traditional program admission requirements. The request should be attached to the MSW application in the form of a statement entitled "Petition for Exceptional Consideration." The petition should include a statement indicating how failing to meet the minimum admission requirement of a 2.75 GPA does not adequately represent the applicant's capabilities. The applicant should briefly discuss her/his demonstrated capacity for successful achievement of an arduous MSW program. For example, an applicant might provide evidence of:

- Superior grades during the final semester(s) of work prior to graduation indicating a trend toward improved performance;
- Competence through achievement in another graduate program;
- Outstanding work experience in human services (volunteer or paid); and/or
- Subsequent successful undergraduate or graduate level coursework.

The applicant should also discuss how she/he plans to address potential obstacles to successful completion of the program. Finally, the applicant should attest to the accuracy of all information provided in the petition, date and sign the document. The petition must be submitted with the application.

Admission Requirements for the Advanced Standing Program Concentration

a. Completion of a Bachelor of Social Work (BSW) degree at a Council on Social Work Education (CSWE) accredited institution within the previous seven years with at least a 3.0 undergraduate degree GPA, OR with a 2.75 to 2.99 undergraduate degree GPA and an interview may be considered for admission, as part of the application process.

b. Satisfactory completion of a minimum of 400 hours of educationally based field instruction in direct practice with individuals, families, groups, and communities under appropriate social work supervision. A copy of the student's final field evaluation must be submitted.

c. Completion of courses from the following subject areas within an accredited social work program at the upper-division (junior and senior) level with a grade of "C" or better in each course: Human Behavior and the Social Environment - one course; Social Welfare Policy and Services - one course; Social Work Practice - two courses to include study of intervention methods with individuals, families, small groups and communities; Social Work Research - one course in research methodology.

d. A Western Kentucky University Master of Social Work program application, personal statement, and writing sample.

e. Three completed WKU Master of Social Work program reference forms.

f. Liberal arts background - at least 30 hours in liberal arts coursework (social sciences, humanities, natural sciences, communications, mathematics, etc.), including at least one course in sociology, psychology, OR anthropology AND at least one course in American government, political science, OR economics. All courses counted towards the liberal arts requirement must have been completed with a final grade of "C" or higher. Applicants may be enrolled in liberal arts prerequisite courses while their MSW applications are being evaluated, but all of these courses must have been successfully completed before admission to the program. Offers of admission will be contingent upon the successful completion of all required courses.

g. An interview may be required for purposes in addition to undergraduate GPA.

### Physical Education Teacher Leader Concentration (31 hours)

The program is divided into two instructional components. The first component, Professional Education, provides advanced level pedagogy, leadership, and content related to Kentucky Teacher Standards and applicable to all P-12 teachers working in various grade levels, content, and community areas. The second component is the specialization that allows the candidate to expand content, pedagogy, and/or leadership skills. The Physical Education Teacher Leader concentration consists of KIN 503, KIN 505, KIN 508, KIN 520, and RSA 534. This specialization allows for professional growth concurrent with the goals of the candidate. An Action Research Project for Teacher Leaders focusing on a classroom, school, or district issue is the capstone for the completion of the degree.

During the first course in the program, TCHL 500, students will complete an assessment process that will be used in determining which TCHL core courses they must take in the professional education core. History
The long, rich history of the Gordon Ford College of Business is traced back to 1874. Its forerunner, Bowling Green Business University (BU), was a prestigious private four-year business college. In June 1963, the Western Kentucky State Normal School (later Western Kentucky University) assumed the business programs of the BU and named it the Bowling Green College of Commerce in 1964. To honor the generosity of Gordon B. Ford, the college was renamed the Gordon Ford College of Business in December of 1998, becoming the second named business school in Kentucky. The Association to Advance Collegiate Schools of Business, AACSB, accredits all business programs offered by the College. WKU is one of only three universities in the Commonwealth of Kentucky to have "dual accreditation" meaning that both its business and accounting programs are AACSB accredited.

Mission
The mission of the Gordon Ford College of Business is to actively support and engage students, faculty, staff, and community in academic and lifelong professional development, providing the foundation needed to lead in today’s diverse business environments.

Applied Economics, Master of Arts (0410)

Interim Program Coordinator
Dr. Christopher Biolsi, christopher.biolsi@wku.edu

The Master of Arts in Applied Economics offers three concentrations: General concentration, Mathematical Methods concentration, and Business Economics concentration. The General concentration emphasizes the training of students with backgrounds in economics and other arts and sciences for careers that require strong quantitative skills, technical tools, and communication abilities that can be applied to a broad range of subjects. The Mathematical Methods concentration is designed for students with a strong background in mathematics to gain...
applied knowledge in economics. The Business Economics concentration couples the economic theory and research methods with coursework from the MBA program to prepare students for careers in the private sector. Students in the Business Economics concentration can earn graduate certificates in Economic Data Analytics, and either Supply Chain Management or Data Analytics certificates while completing the program.

Students in any of the three concentrations may also enroll in approved courses from related master programs including but not limited to the Master in Business Administration, the Master in Public Administration, and the Master in Health Administration to enhance their range of knowledge and experience. In addition to course work, the program utilizes practicum, an end-of-program applied project, and non-credit workshops to build specific technical skills and to enhance employability of graduates.

Mission

The mission of Ogden College of Science and Engineering is to empower individuals to become leaders through academic achievement, global connections, and engagement in research, education and service.

Vision

Ogden College of Science and Engineering is a community of creative and critical thinkers achieving local to global impact.

Ogden College of Science and Engineering encompasses both applied and basic sciences. Students have an opportunity to choose advanced study and research in a broad range of subjects, including agriculture, biology, biochemistry, chemistry, computer science, construction management, engineering, geosciences, architectural science, advanced manufacturing, materials, mathematics, meteorology, physics, homeland security sciences, and psychology. We are recognized by the high quality and success of our students and graduates. Students receive personal attention to professional development through engagement with faculty in projects that expand on classroom instruction. Ogden College is home to the Applied Research and Technology Program (ARTP), a multidisciplinary program consisting of 10 scientific and service-oriented Centers and Institutes designed to prepare students for the knowledge-based 21st Century global economy. These Centers meet the research and technical needs of the community, state and nation while providing unique opportunities for students to transition from academia to the workplace or graduate programs through participation in supervised, hands-on applied research and technological projects. Students grow intellectually and professionally through participation in these activities. Each center operates within a cooperative and interdisciplinary framework to apply state-of-the-art science toward finding cost effective solutions to environmental and health issues and to the technological problems of government and industry. The ARTP serves as a catalyst for economic development in the region and beyond.

Research Intensive Thesis Concentration

Candidates for the research intensive concentration are required to complete 30 semester hours of graduate work, including 12 hours of coursework and 18 hours of research-related graduate work. Candidates must apply to the Department Graduate Committee in order to be considered for this concentration. As part of the concentration application, they must select a research advisor and meet with the committee to demonstrate they understand the requirements for this concentration. The Committee must consider factors such as previous research experience of the student, publication record of the student, and the research advisor’s publication record when determining if the student can pursue this concentration. The student and advisor must submit a progress report to the Committee by the end of the second semester. If the committee determines there is insufficient progress towards research and publication, the student will be moved to the normal thesis concentration. A student in the Research Intensive Thesis concentration may also opt to pursue the Thesis option at the end of the first or second semester after consulting with their research advisor.
A student moving to another concentration within the first or second semester should be able to complete the requirements within the average two year period. A student who wishes to move to another concentration in the second year of graduate study must get permission from the Graduate Committee and will probably require an additional semester of coursework to complete the degree.

1 Requirements are to be satisfied by conducting a research project under the direction of the student's research advisor. This course provides faculty-mentored research experiences and emphasizes skill-based training for students. Bridging the gap between academic study and professional development, this course will help students to develop and enhance problem solving and communication skills. This course emphasizes mastery of advanced technical skills, independent of thesis research.

2 Requirements include preparing and submitting two manuscripts based on their research to peer-reviewed journals under the guidance of the thesis committee. At least one paper must be accepted to receive credit and graduate.

Western Kentucky University – 2023-2024 Graduate Catalog
Department of Mathematics

Kanita DuCloux, Chair
College High Hall 4124
(270) 745-3651
math@wku.edu

The Department of Mathematics offers the M.S. degree and the M.A. degree. Both degrees have the thesis and non-thesis options, and both require 30 hours of graduate-level courses.

The M.S. has three concentrations available. The M.S. (general mathematics) provides knowledge in such traditional areas as analysis, algebra, topology, and applied mathematics, and is recommended for students who wish to obtain a Ph. D. degree, to teach in a community college, or to seek employment in industry with an emphasis on conceptual foundations. The M.S. (computational mathematics) is designed for students seeking employment in industry with an emphasis on computational mathematics and/or computer science in addition to knowledge in traditional areas. The M.S. (mathematical economics) is for students who have completed WKU's mathematical economics major or want to work as an mathematical economist in industry, and want to complete their thesis under the direction of a math faculty member.

The M.A. degree is designed for students interested in careers in secondary education and will help students become more knowledgeable about the mathematics they will teach in high school and make connections and extensions of that knowledge to college and higher mathematics.

This online program is intended for students who are secondary teachers who already hold teacher certification and are seeking rank change through earning a Master's degree. In addition, completion of this degree program would qualify the classroom teacher to teach WKU-offered dual credit mathematics courses at the high school level, teach at a community college or technical school, or pursue a PhD/EdD in mathematics education. This degree does not provide initial teacher certification or prepare a student for a PhD in mathematics.

Program Admission

To be admitted to the M.A. program, students must meet the following criteria:

a. Satisfy one of the following conditions:
   i. have a GPA of at least 3.0 in their undergraduate major, or
   ii. have a GRE general score of at least 300.

b. A bachelor's degree in mathematics, OR the completion of the following undergraduate courses, with at most one deficiency:
   i. calculus sequence through multivariable calculus
   ii. linear algebra
   iii. discrete mathematics
   iv. probability or calculus-based statistics
   v. abstract algebra
   vi. geometry

Applicants must also have or be eligible for a teaching certificate for Secondary Mathematics (grades 8-12). A copy of the certificate or statement of eligibility must be submitted with the application.
Graduate School Admission

Please refer to the admission section ([http://catalog.wku.edu/graduate/admission/](http://catalog.wku.edu/graduate/admission/)) of this catalog for Graduate School admission requirements.

Program Requirements (30 hours)

This program is designed to develop mathematics teachers who can positively impact student learning in their classrooms and schools. Courses and experiences include a study of advanced mathematics. The capstone for the MA in Mathematics is a research project that focuses on the teaching and learning of mathematics, from an advanced perspective.

Comprehensive exams in mathematics are required. A student who chooses to do a thesis is required to complete 6 hours of MATH 599 and to give an oral defense of the thesis.

Mathematics, Master of Science (085)

Program Coordinator
Mikhail Khenner, mikhail.khenner@wku.edu, (270) 745-2797

The M.S. in Mathematics offers three concentrations: general mathematics, computational mathematics, and mathematical economics, but has a core set of courses in applied mathematics, discrete mathematics, and statistics required for all students. The general mathematics concentration is recommended for students who wish to obtain a Ph.D. degree, to teach in a community college, or to seek employment in industry with an emphasis on conceptual foundations. The computational mathematics concentration is designed for students seeking employment in industry with an emphasis on computational mathematics and/or computer science in addition to knowledge in traditional areas. The mathematical economics concentration is designed for students seeking employment in industry with an emphasis on economics in addition to knowledge in traditional areas. It is also designed for students who completed an undergraduate degree program in mathematical economics at WKU.

Concentration(s)
- General Mathematics (MAGN)
- Computational Mathematics (MACM)
- Mathematical Economics (MAME)

Joint Undergraduate Master's Program (JUMP)

This degree offers a Joint Undergraduate Master's Program (JUMP) which provides academically outstanding students the opportunity to complete both an undergraduate and graduate degree in an accelerated timeframe. Contact the graduate program coordinator for additional information.

Joint Undergraduate Master's Program (JUMP)
This degree offers a Joint Undergraduate Master's Program (JUMP) which provides academically outstanding students the opportunity to complete both an undergraduate and graduate degree in an accelerated timeframe. Contact the graduate program coordinator for additional information.

Program Admission
In addition to Graduate School admission requirements, the Department of Psychological Sciences requires

- The Psychological Sciences Departmental Application
- A 500-word personal statement describing professional interests and career goals
- Three letters of recommendation
- For the Psychological Sciences concentration only, applicants must identify two to three research mentors with whom they wish to work.
The following are recommended but not required for admission:

- Completion of a statistics and research methodology course
- A background in psychology
- A minimum GPA of 3.0 in psychology courses
- An additional writing sample (e.g., a paper, manuscript, thesis, etc.)
- Scores from the Graduate Record Examination (GRE) 2

All application materials should be received by March 1st for priority consideration. An interview may be required.

1 Departmental application can be found at https://www.wku.edu/psychological-sciences/grad/admission.php

2 Admitted students who have provided GRE scores in prior years have had a median total score of 303 on the verbal and quantitative subtests, and a 4.0 on the analytical writing subtest. However, each applicant will be evaluated individually and on a holistic basis. Strong GRE scores may be beneficial for students looking to offset weaknesses in their application (e.g., low GPA).

Graduate School Admission
Please refer to the admission section (http://catalog.wku.edu/graduate/admission/) of this catalog for Graduate School admission requirements.

Program Requirements (37-42 hours)
The program comprises 27 - 28 hours of core courses plus specific program content that varies by concentration. A thesis based on original research conducted under the direction of a department graduate faculty member is required. A comprehensive examination is required at the time of thesis defense. A research tool is required in both concentrations.

Industrial-Organizational Psychology Concentration (42 hours)
This concentration focuses on behavior in business, industry, consulting, and government organizations. Students develop proficiencies in the construction and validation of personnel selection systems, job analysis, employee compensation, criterion development, leadership, motivation theory, equal employment opportunity law, and training in business and industry. A thesis is required. Grades lower than B may not be used to satisfy course requirements that vary by concentration. A thesis based on original research conducted under the direction of a department graduate faculty member is required. A comprehensive examination is required at the time of thesis defense. A research tool is required in both concentrations.

Engineering Management, Master of Science (0447)

Program Coordinator

Anthony M. Doggett, mark.doggett@wku.edu, (270) 745-6951

The Master of Science in Engineering Management (MSEM) offers students Thesis and Non-thesis concentrations.

The Thesis concentration is for students who plan to pursue additional degrees, such as Ph.D. or who have specific work-related projects that need further exploration. Students who choose the thesis concentration will conduct a research project, which will likely involve several semesters of work.

The Non-thesis concentration is designed to be more flexible and is tailored for students who do not want to conduct a research project. The non-thesis concentration is recommended for working professionals who do not have the time and resources to conduct a research project. Students who choose the non-thesis concentration must take three credits of additional electives and required to take a capstone course.

The MSEM develops leaders to support the needs of the modern worldwide industry. The curriculum enhances both career and personal objectives. Graduates of the program are equipped to manage organization resources, lead technological change, and strategically integrate higher level knowledge within their companies.

The MSEM provides a broad-based core of management competency in business functions, along with a solid understanding of engineering technologies and capabilities. Courses build upon existing technical competency while allowing the student to customize their depth of study in specific management technologies that enhance long-term professional career goals.

All courses can be taken online.

- Non-thesis (EMNT)

Joint Undergraduate Master's Program (JUMP)

This degree offers a Joint Undergraduate Master's Program (JUMP) which provides academically outstanding students the opportunity to complete both an undergraduate and graduate degree in an accelerated timeframe. Contact the graduate program coordinator for additional information.

Program Admission

In addition to the graduate school requirements, the MSEM program requires:

- Bachelor’s degree in engineering, engineering technology, business, or related STEM fields.
- Submission of GRE, GMAT or equivalent scores. A minimum GRE score of 140 for the verbal reasoning and 140 for the quantitative reasoning are required with a score of 2.5 or higher for analytical writing.

Applicants who don’t meet the admission criteria may be considered for conditional admission.

1. Students, who do not have the required background in fundamental concepts in statistics, will be required to take the following course: MFGE 271 Industrial Statistics (course credit does not count towards degree requirement).

2. Applicants who have earned a B.S. degree in engineering or related STEM fields with a cumulative GPA of 3.0 or higher are exempt from taking the GRE. Current students at WKU who seek the JUMP program in one of the undergraduate baccalaureate programs in the School of Engineering and Applied Sciences (SEAS) with a cumulative GPA of 3.0 or higher are exempt from taking the GRE.

Creative Writing, Master of Fine Arts (0478)

Program Coordinator
Nancy W. Dinan, nancy.dinan@wku.edu

The MFA program provides students pursuing vocations in creative writing the opportunity to acquire the background and knowledge required to be leading citizens of what Vachel Lindsay calls the “Republic of Letters.” The program prepares students for lives as writers of novels, short fiction, creative nonfiction, scripts, and poetry and related pursuits such as teaching, literary editing and publishing. In addition to intensive creative writing, students will complete four courses in a secondary concentration as part of the MFA. Students can select a concentration in literature, composition/rhetoric, or teaching English as a second language in order to give them additional options for employment after graduation. In total, the three year residential program consists of 48 credit hours of graduate course work, culminating in the completion of a publishable creative thesis in fiction, poetry, scriptwriting, or creative nonfiction. All applicants who meet the application deadline are automatically considered for available graduate assistantships teaching introductory writing classes for the English Department.

Concentration(s)

• Composition and Rhetoric (ENCR)
• Literature (ENLI)
• Teaching English as a Second Language (ENTL)

Program Admission

• A bachelor’s degree from an accredited university with a minimum GPA of 3.0
• A twenty-page creative writing sample consisting of work in at least one of the following genres: fiction, creative nonfiction, poetry, or screenwriting. The spacing and formatting of the writing sample should fit conventions of the selected genre.
• A statement of purpose consisting of one or two single-spaced pages describing the applicant’s background and interest in creative writing and how the WKU MFA program could help with the applicant’s literary pursuits. Students may also briefly address interests, skills, or experiences that make them highly qualified for a graduate assistantship position teaching introductory college writing classes,
although teaching skills should only be a small part of the statement of purpose (no more than 25%). Your interest in creative writing and your literary pursuits should be the main focus.

- A one or two-page curriculum vita or résumé
- Although not required, undergraduate creative writing courses are highly recommended

Program Coordinator
Trini G. Stickle, trini.stickle@wku.edu, (270) 745-5726

The master’s program provides an intensive study of literature and composition through a highly adaptable curriculum that develops advanced skills in literary criticism, rhetorical analysis, communication, and analytical thinking. The program supports career advancement in industry and education pathways or continuing graduate work in an English-focused doctoral program. For licensed K-12 educators, the program can lead to a rank change.

Program Admission

In addition to meeting Graduate School requirements, applicants should have earned at least 27 credit hours of undergraduate English with a GPA of 3.0 or better. Those not meeting this requirement may be admitted conditionally on a case-by-case basis. Applicants should also submit a 2-page statement of purpose describing the reason(s) for pursuing an M.A. in English at Western Kentucky University. The statement may include academic interests, career goals, relevant paid or volunteer experiences, and any other information applicants wish to share with the admissions officer.

Applicants seeking Rank II or Rank I certification must have or be eligible for a secondary school teaching certificate and must include a copy with the application for admission. Applicants whose certificates have expired may be admitted, but they may enroll for only 6 hours before submitting a re-issued teaching certificate. Kentucky applicants will need to contact the Kentucky Education Professional Standards Board for reissued certificates. Applicants from out-of-state with expired certificates must
complete the requirements for their respective states to renew their certificates.

The Department of Music promotes the study and experience of music in its broadest sense: preparing artist teachers and performers, enhancing creativity and the human spirit, and enriching the quality of life on campus, in the region, and in our global community. Western Kentucky University has been a fully accredited member of the National Association of Schools of Music since 1948.

A large part of the department's mission is the preparation of music teachers and professional musicians. Students with broad musical interests may select a music major or minor within a diversified liberal arts program. Music degree programs provide for the development of basic musicianship through conceptual understanding of musical properties and their interrelationships, relevant opportunities for listening, performing, composing, and scholarship, and the acquisition of a repertory representative of various cultures and historical periods.

Competencies in various areas and at varying levels appropriate to each program of music concentration are developed through a sequence of studies and assessments.

Music, Master of Music (0453)

Program Coordinator
Catherine M. Wilson, catherine.wilson@wku.edu, (270) 745-5925

The Master of Music graduate program has four areas of concentration: Music Education/Teacher Leader, Conducting/Teacher Leader, Conducting, and Pedagogy. These provide continued development of:

b. professional and scholarly competence in organization, interpretation, evaluation, communication, and dissemination of knowledge in the discipline.

The Music Education/Teacher Leader and Conducting/Teacher Leader concentrations would further enable the teacher/practitioner to meet certification renewal requirements and rank changes mandated by the Commonwealth of Kentucky. Graduates in the Pedagogy concentration would meet requirements for national certification through the Music Teachers National Association (MTNA).

All degree seeking students must submit a planned program of study (curriculum contract) to the Graduate School prior to enrollment in coursework beyond 12 hours (inclusive of transfer credit). In compliance
with Graduate School policy, the degree program is to be developed in consultation with the approved advisor assigned at the time of admission to the program.

### Student Conduct

#### Conduct Authority

Ultimate authority to govern student conduct rests with the University’s Board of Regents. The Board of Regents has delegated authority to the President. Subsequently, the University President grants authority to the Vice President for Enrollment and Student Experience to assume responsibility to oversee execution of the Code of Student Conduct. When appropriate, the Vice President for Enrollment and Student Experience may delegate conduct authority to additional University officials and committees in keeping with University policies, rules, and regulations.

#### University’s Scope Governing Conduct

The University’s scope to address student conduct extends to on-campus and off-campus settings. Additionally, jurisdiction to address student conduct extends to organizations, covers person-to-person interface, and interactions that occur electronically.

#### Purpose of the Code of Student Conduct

WKU developed the Code of Student Conduct to fulfill its mission, to ensure an environment conducive to learning, to establish high standards of integrity and conduct, and to safeguard students’ personal freedoms. These personal freedoms imply particular student rights and responsibilities (https://www.wku.edu/studentconduct/).

#### Violations (https://www.wku.edu/studentconduct/) of Law and the Code of Student Conduct

Students who violate federal, state, or local laws may incur penalties prescribed by civil and criminal authorities. Nevertheless, the University reserves the right to review student incidents independent of action by civil and criminal authorities and to apply the University student conduct process as it serves the educational mission of WKU, a function separate and distinct from civil and criminal proceedings.

Academic freedom, constructive criticism, and due process of law depend upon civility of behavior by all members of the University community towards all other persons in all circumstances. The University will not tolerate the use or threat of force, violence, coercion, intimidation, obstruction, duress or disruption by any individual or group. Members of the University community found to be participants in such activities will be subject to immediate disciplinary action. Likewise, appropriate measures will be taken to stop and correct such activities by any non-member of the University community, whatever may be the claimed basis for his/her presence on the campus.

Following procedures of due process, if the WKU Code of Student Conduct is violated, the responsible parties will go through the University’s disciplinary process, which is intended to be a fair and educational experience. Students are presumed not responsible until the institution has established every element of an alleged violation; however, this shall not be construed to mean that a complainant or any witnesses has presented false testimony or evidence. Although a student accused of academic or nonacademic misconduct will be granted every consideration, if actions and behavior of the student are duly found to be detrimental to the University mission, function, property, or wellbeing, the University will apply an appropriate disciplinary outcome. Any WKU student may be expelled, suspended, placed on probation, or given a lesser outcome for one or more violations of the Code of Student Conduct.

### Student Rights and Responsibilities

#### Code of Student Rights and Responsibilities

The Code of Student Rights and Responsibilities is set forth in writing to provide students general notice of their rights and responsibilities at Western Kentucky University. Further rights and responsibilities are set forth in other University rules and policies, including the Code of Student Conduct, Student Handbook, Residence Hall contracts, graduate and undergraduate catalogs, and academic unit websites. It is the students’ responsibility to be aware of all University rules and policies; students should check with the Dean of Students Office or Office of Student Conduct if they have any questions about the purposes or intent of these policies.

#### Academic Integrity

Students are expected to pursue their studies with commitment to intellectual honesty and personal integrity. The maintenance of academic integrity is of fundamental importance to the University. Examples of academic offenses include (but are not limited to): any act of plagiarism, cheating, or falsification or misuse of academic records. Thus, it should be clearly understood that acts of plagiarism or any other form of cheating will not be tolerated and that anyone committing such acts risks punishment of a serious nature. A student who believes a faculty member has dealt unfairly with them in a course involving academic offenses such as plagiarism, cheating, or academic dishonesty, may seek relief through the Student Complaint Procedure. Questions about the complaint procedure should be directed to the Student Ombuds Officer at student.ombudsman@wku.edu.

#### Academic Dishonesty

Academic dishonesty is defined as engaging or attempting to engage in any activity that compromises the academic integrity of the institution or subverts the educational process. This definition applies to work submitted face-to-face or through on-line or electronic means and work submitted for face-to-face, hybrid, and on-line courses. Students who commit any act of academic dishonesty may receive from the instructor a failing grade in that portion of the coursework in which the act is detected, or a failing grade in the course without the possibility of withdrawal. The faculty member may also present the case to the Office of Student Conduct for disciplinary sanctions and the Office of the University Registrar if action by these offices are required. Students may be held responsible for committing academic dishonesty while enrolled even if the student withdraws from the course.

#### Cheating

No student shall receive or give assistance not authorized by the instructor in taking an examination or in the preparation of an essay, laboratory report, problem assignment, or other project that is submitted for purposes of grade determination.

#### Plagiarism

To represent written work taken from another source as one’s own is plagiarism. Plagiarism is a serious offense. The academic work of a student must be their own. One must give any author credit for source material borrowed from them. To lift content directly from a source without giving credit is a flagrant act. To present a borrowed passage without reference to the source after having changed a few words is also plagiarism.

#### Multiple Submissions

Submitting the identical or substantially the same assignment or portions thereof to fulfill the requirements for two or more courses without approval of the instructors involved, including when repeating a
course; or submitting the identical or substantially the same assignment or portions thereof from a previously completed course to fulfill the requirements for another course without the approval of the instructor of the latter course; or submitting the identical or substantially the same assignment or portions thereof to fulfill the requirements for two or more academic assignments within a course without the approval of the instructor.

Other Types of Academic Dishonesty
Other types of academic offenses, such as the theft or sale of tests, should be reported to the Office of Student Conduct at (270) 745-5429 for further action. http://www.wku.edu/studentconduct/process-for-academic-dishonesty.php.

Conduct Actions/Outcomes (https://www.wku.edu/studentconduct/) for Violations of the Code of Student Conduct
Following procedures of due process, when a student is accused of academic or nonacademic misconduct, the alleged policy violator will be required to go through the University’s Student Conduct process. Students are presumed Not Responsible until the institution has established every element of the alleged violation; however, this shall not be construed to mean that the complainant or any witness(es) has presented false testimony or evidence. The following list describes University outcomes that may be administered as a result of violating the WKU Code of Student Conduct. A student accused of an alleged violation of the Code of Student Conduct will have the opportunity to review accusations, review any information, and will be able to provide a response. Outcomes may be used independently or in combination depending on the particular circumstance of the violation. Chronic and/or multiple violations during the course of an individual student’s college career may increase the severity of outcomes applied. The Office of the Vice President for Enrollment and Student Experience, or designee, will make the determination whether allegations are sufficiently egregious to warrant consideration of suspension, dismissal, or expulsion. The following shall be factored into the decision-making process:

• The degree of willfulness or inadvertence;
• The degree of injury or risk of injury to the accused or to another person, if any;
• The extent of damage to property, if any;
• The danger or risk of danger to the University community, if any; and,
• Any other factor or circumstance bearing reasonably upon mitigation or aggravation or the seriousness of the alleged offense should it be established as a violation

Policy on Parental/Guardian Notification
Western Kentucky University is committed to student health and well-being. As a result, the University is concerned about the effect of alcohol and other drugs on the educational process. The Policy on Parental Notification is designed to assist parents in developing a partnership with their student and the University to address behaviors that detract from the educational purpose. The University will notify parents or guardians of dependent students for behaviors associated with The Code of Student Conduct under the following conditions:

• Any violation of the University Alcohol Policy
• Any violation of the University Drug Policy
• The student (under 21) was arrested by University Police in connection with a violation of the Alcohol or Drug Policy, or for DUI,
• public intoxication, Minor in Possession or any other drug or alcohol-related incident resulting in citation or arrest
• The student received medical assistance due to incapacitation, suspected incapacitation, or self-injury

The Family Education Rights and Privacy Act ("FERPA") allows the disclosure of specific information concerning the use or possession of alcohol or a controlled substance by students under the age of 21. The goal of parental/guardian notification is to enlist parental/guardian support for fostering more appropriate student behavior to create a safer community environment and reduce the many negative impacts of substance abuse.

Tailgating Policy and Procedures
Western Kentucky University wants you to have an enjoyable experience during your visit to campus. During WKU events and activities, safety is our primary concern. This Tailgating Policy is designed to enhance your safety and comfort and should result in an environment free of the abuse or illegal use of alcohol. The university condemns any act related to the consumption of alcohol that impairs, interferes, or endangers the safety or enjoyment of others, including the individual who chooses to consume the alcohol. This policy looks to preserve the academic environment without necessarily restricting other freedoms. More information regarding tailgating at WKU, please visit: www.wku.edu/sao (https://www.wku.edu/sao/). (http://www.wku.edu/studentconduct/)

Policy for Supporting Students in Distress
The intent of the following policies, procedures, and definitions is to support an appropriate living and learning environment at Western Kentucky University for faculty, staff, and students. Incidents of disruptive behavior, brought on by student distress, will be assessed and a standard of care exercised to both assist the student in distress and to mitigate the ramifications of the distressing behavior on the University community.

Campus Partners Team
The Campus Partners Team (CPT) is a collaborative multidisciplinary team operating under the auspices of the Office of the Vice President for Enrollment and Student Enhancement. The team is charged with providing a layer of support for students exhibiting behaviors that instigate concern or imminently reckless behavior. Additionally, the team works jointly to educate the University community on prevention strategies to disrupt the risk of threatening situations. Using a case management theoretical framework, the CPT assesses student behavior, links students to campus and community resources, determines reasonable interventions, determines reasonable modifications to the learning environment when appropriate, and develops and implements a coordinated standard of care plan for students. The Team meets weekly to review referrals from faculty, staff, and students’ demonstrative behavioral concerns. The CPT consists of the following offices:

• Office of the Dean of Students
• Office of Student Conduct
• Academic & Career Development Center
• Student Accessibility Resource Center
• University Police Department
• International Student Office
• Counseling Center
• Housing and Residence Life
Confidentiality and the Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords privacy protections for educational records without students' express written consent. However, specific exceptions can be made between faculty and staff when necessary to protect the health or safety of the student and others. Therefore, faculty, staff, and students may report concerns about students' behaviors to the CPT without violating FERPA provisions.

Southwest Hall, Room 18
(270) 745-4359

The Department of Housing and Residence Life, in partnership with the student and the university community, provides a premier living/learning experience that promotes student success. We offer 15 residence halls with a variety of living options to accommodate the needs and preferences of our student population. Several of the amenities include the following: cable television, internet connections and wifi capability in each bedroom, and laundry facilities in each hall. Apartment living is also available to juniors, seniors, and graduate students. Leadership is provided in each hall by live-in professional staff members. Additionally, community advisors, resident assistants, and desk assistants work to provide services in the halls that include a 24-hour information/security desk operation. Residence hall rooms are equipped to accommodate two students and each room is furnished with beds, chests of drawers, bookshelves, closet space, desks and chairs.

Housing Application and Fee Payment
A $75.00 housing application fee is required to file this Contract. This fee is a one-time payment for applicants new to WKU Housing. Returning students continuing in housing for the next academic year through completion of a housing renewal application are not required to pay another fee. The fee does not apply toward the semester housing fee or other University obligations. The application fee is non-refundable.

A resident agrees to pay the full semester housing fee by the due date.

The resident agrees that any deviation from the established schedule of payment or any problem with payment, must be approved by the office of Billings and Receivables before payment is due.

The resident agrees that failure to make payment as prescribed does not relieve the resident of accumulated housing fees while in residence.

The resident understands that nonpayment may result in denial of residence hall accommodations and services, as well as University registration, until the amounts due are paid.

Cancellations and Refund Policy

Cancelation before the beginning of the Academic year or Spring Only Semester:
Written notice of cancelation must be made to the Department of Housing & Residence Life in order to avoid housing charges. Cancelations must be received by the Monday of the first day of classes.

Cancelation After the Beginning of the Academic Year or Spring Only semester:
A resident who does not check into the assigned room by midnight of the first day of classes will be considered a “no show,” and be canceled immediately. A late cancelation charge of $150 will be assessed to students who are no shows.

Resident who have checked into their housing assignment must go through the official withdrawal process to cancel this Contract. Official withdrawal procedures are outlined in the University publication, "Hilltopics for Residence Hall Living." A student who is an unofficial checkout will be assessed a $150 unofficial checkout charge.

A termination fee and any applicable housing fees (room charge through the official date of withdrawal, or assessment of the required housing fee for non-compliance with the required housing policy) will be assessed to a student’s bill. The contract termination fee is 50% of the student’s semester housing charge.

Requests for exemption can be submitted online in the Housing Portal. Exemptions are not guaranteed.

A resident’s date of official withdrawal from the assigned residence hall room will determine the room charge and, if applicable, the amount of housing fee refund.

An official withdrawal prior to or during the first 6 days of classes (Monday to Monday of the 1st week of the semester, including holidays if applicable) will be pro-rated by nights in room. From the 7th day of class through Sunday of the second week, and thereafter determines the number of weeks assigned, using the following schedule: second week: 50% of semester fee; third week: 75% of semester fee; after the third week, the charge is 100%.

An assigned resident who does not go through the official withdrawal process to cancel this Contract on or before the last day of finals week
of the Fall Semester will be considered an assigned Spring Semester resident and will be charged a Spring Housing fee accordingly.

Room Assignments
Room assignments are made based upon the date of receipt of the Housing Agreement and accompanying housing application fee. Returning residents who renew their housing agreement prior to the established deadline are given "priority status" and are reassigned first. Incoming freshmen and transfer students are assigned next based upon their date of completed housing contract and application fee paid.

Although there are no guarantees, special consideration is given to the indicated preferences. Roommate preferences are made based on availability and mutual requests. It is recommended that residents wishing to room together should submit their Agreements together when possible.

Residence Hall Rooms
Residence hall rooms are equipped to accommodate two students and each room is furnished with beds, chest of drawers, bookshelves, closet space, desks and chairs.

Reservations
Students should submit the completed Residence Hall Housing Agreement with their $75.00 application fee immediately after being admitted to the University. Students may apply online through the Housing Portal (https://www.wku.edu/housing/portal/) with credit/debit card.
