## History

On March 21, 1906, the Kentucky General Assembly approved legislation to establish two teacher training institutions, or "normal schools," in the state. A locating commission chose Bowling Green as the site of one, and the Western Kentucky State Normal School was established. The new state-supported school took over the building and student body of the privately owned Southern Normal School. The owner of the Southern Normal School, Henry Hardin Cherry, had been actively involved in the campaign to establish teacher training schools and became the institution's first president. Classes began on January 22, 1907.

On February 4, 1911, the school moved to its present site on "The Hill," approximately 125 feet above downtown Bowling Green and formerly the site of the Pleasant J. Potter College. Over the next decade, the curriculum focused on teacher training and certification. In 1922, the state renamed the institution Western Kentucky State Normal School and Teachers College and authorized it to grant four-year degrees. The first such degrees were awarded in 1924.

The campus expanded in 1927 when it merged with Ogden College, a private school for young men located on the east side of The Hill. The name was shortened to Western Kentucky State Teachers College in 1930, and the following year the first graduate degree was offered.

In the 1950s and 1960s, both the curriculum and campus underwent major reorganization and expansion. In 1963, the institution merged with the Bowling Green College of Commerce. Along with The Graduate School, the Bowling Green College of Commerce became a separate college within the academic structure. In 1965, the Board of Regents approved the formation of three more colleges: the Potter College of Liberal Arts, the College of Education, and the Ogden College of Science and Technology. On June 16, 1966, Western Kentucky State College became Western Kentucky University.

More colleges and reorganization followed throughout the years as WKU continued to grow. The College of Health and Human Services was established in 2002. In 2011, the university's first doctoral degrees, the Doctor of Education in Educational Leadership, were awarded through the College of Education and Behavioral Sciences. In 2011 and 2013 two additional professional practice doctoral degrees, the Doctor of Nursing Practice and the Doctor of Physical Therapy, were established, and in 2015 the Doctor of Psychology was added.

WKU's five academic colleges are:

- College of Education and Behavioral Sciences
- College of Health and Human Services
- Gordon Ford College of Business
- Ogden College of Science \& Engineering
- Potter College of Arts \& Letters

In addition, the Dixie and Peter Mahurin Honors College at WKU offers high-achieving students the environment of a small, highly selective college within the framework of the larger university.

## Core Values

Shared purposes and beliefs drive the decisions and actions of any organization or institution. The core values that undergird the foundations of WKU are reflected in the University's vision, mission, and purpose statements, and in the goals of the strategic plan (https:// www.wku.edu/strategicplan/).

The rich heritage that is WKU's has been built upon a foundation of shared values that have withstood the test of time and the challenges of many changes. These values are deeply embedded in the words of WKU's first President, Dr. Henry Hardin Cherry, as he set forth a vision for this University:

- to be a live school and to impart to its students a burning zeal to do and be something;
- to be progressive, to use modern methods and equipment, but reject all worthless educational fads;
- to let the reputation of the school be sustained by real merit;
- to "ring the rising bell in the human soul" by inspiring all students who come in touch with the work of the institution.

This vision is further reflected in Dr. Cherry's often-quoted reminder that "It's what's above the rim that counts" and in the two University ideals expressed in the University seal: "Life More Life" and the University motto: "The Spirit Makes the Master."

Building upon these long lasting values, the following core tenets represent a reaffirmation of the shared purposes and beliefs upon which this strategic plan is built:

- Emphasis on cooperation, teamwork, and mutual respect for individual differences in scholarship, diversity, and culture.
- Expectation for all conduct to be characterized by integrity, honesty, and commitment to high moral and ethical values and principles.
- Commitment to assuring quality of programs, competence of graduates, and opportunities for lifelong learning.
- A view of scholarly endeavors that includes teaching, research, and creative activities as mutually supportive.

## University Notices

Notification of Rights: Family Educational Rights and Privacy Act (FERPA)
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records, including
a. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the University Registrar, dean, chair of the academic department, or other appropriate official, a written request that identifies the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records
are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
b. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading. Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for an amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
c. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent, including disclosure without the student's consent is permissible to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Regents; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.
d. The right to file a complaint with the U. S. Department of Education concerning alleged failures by Western Kentucky University to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:
Family Policy Compliance Office
U.S. Department of Education

400 Maryland Avenue, SW
Washington, DC 20202-8520
Release of student record information is generally not done at WKU without the expressed, written consent of the student; however, FERPA allows several exceptions described below:
a. FERPA allows the institution to routinely release information defined as "directory information." The following student information is included in the definition: the student's name, address, e-mail address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, enrollment status (including full-time, part-time, not enrolled, withdrawn and date of withdrawal), degree and awards received, and the most recent previous education agency or institution attended by the student. When a student wants any part of the directory information to remain confidential, an official request form must be completed in the Office of the Registrar within the first five days of class of each school term
b. Upon request, WKU may disclose education records without the student's consent to officials of another school in which a student seeks to enroll, or where the student is already enrolled as long as the disclosure is for purposes related to the student's enrollment or transfer.
c. Effective January 3, 2012, the U.S. Department of Education's FERPA regulations expanded the circumstances under which the student's education records and personally identifiable information (PII) contained in such records-including Social Security Number, grades, or other private information-may be accessed without the student's consent.
i. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities ("Federal and State Authorities") may allow access to the student's records and PII without the student's consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is "principally engaged in the provision of education," such as early childhood education and job training, as well as any program that is administered by an education agency or institution.
ii. Second, Federal and State Authorities may allow access to the student's education records and PII without the student's consent to researchers performing certain types of studies, in certain cases even when the university objects to or does not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the entities that they authorize to receive the student's PII, but the Authorities need not maintain direct control over such entities.
iii. In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without the student's consent PII from the student's education records, and they may track the student's participation in education and other programs by linking such PII to other personal information about the student that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

Questions pertaining to the Family Educational Rights and Privacy Act may be directed to Jennifer Hammonds, University Registrar, Potter Hall Room 238, (270) 745-3351.

## Student Right-to-Know Act Annual Disclosure Statement

In compliance with the federal Student Right-to-Know and Campus Security Act of 1990, the University's graduation rate is to be made available, upon request, to potential and currently enrolled students. The Act requires public disclosure beginning July 1, 1993, of this information by institutions of higher education receiving federal financial assistance.

Western Kentucky University's graduation rate was calculated using definitions established by the U. S. Department of Education. This rate is based upon the number of beginning freshmen who entered Western Kentucky University as full-time degree-seeking students during the 2016 fall semester and who completed an associate degree or a baccalaureate degree within six years (through August, 2022). For this cohort of beginning students, the graduation rate is $51.7 \%$.

## Kentucky Center for Education \& Workforce Statistics: Post-Secondary Feedback Report

The Postsecondary Feedback Reports take a deep look into what happens to Kentucky graduates after they leave college. Each report
provides in-depth data by institution about which degrees are pursued, the employment of graduates as well as information about students who go on to pursue advanced degrees, average wages for various degree categories, and some insights into what happens to students who leave without a credential and do not continue their education elsewhere. Reports are created for each of the commonwealth's public 4 -year, public 2 -year, and independent institutions.

## Purpose and Scope

WKU's admission policy is designed to provide educational opportunities for students who have a serious commitment to continuing their formal education and reasonable prospects for academic achievement. In evaluating applications for admission, factors considered include complete and accurate information listed on the application for admission as well as high school performance. College entrance examinations are encouraged, but optional and not required for admission to the institution.

These criteria are subject to review and revision by the University at any time.

## Policy

## Admission to WKU for First Time in College Students

Undergraduate Students seeking admission to Western Kentucky University (WKU) must meet the Kentucky minimum high school graduation requirements. For those students who are seeking admission to WKU from out-of-state residency, admission is expected to meet the minimum graduation requirements of their home state. WKU recommends that all applicants complete the most challenging curriculum available to them necessary for academic preparation and success.

## Eligibility

- A prospective admitted student must have earned a Kentucky High School Diploma or out-of-state high school diploma. Applicants who have earned a state issued high school equivalency diploma, a GED, or are graduates of a Kentucky based non-certified, non-public high school (including home schooled), shall meet the admission criteria established by the university.
- WKU is a test optional admission institution. Although WKU has a test optional policy, some students may be required to submit ACT or SAT scores for consideration in scholarships and some academic programs.
- Additional Requirements for Admission
i. Each student must have at least a 2.00 unweighted high school GPA.
ii. Students with 2.50 unweighted high school GPA or greater are not required to submit ACT or SAT scores for admission purposes but are highly encouraged to do so for academic placement.
iii. Students with a $2.00-2.49$ unweighted high school GPA must submit ACT or SAT scores for admission purposes as well as achieve a Composite Admission Index (CAI) (https://www.wku.edu/ admissions/cai.php) score of at least 60. The CAI is calculated by multiplying the unweighted GPA by 20 , then adding the ACT score (SAT scores are converted to the equivalent ACT score according to the 2018 Concordance Table (https://www.wku.edu/ admissions/2018concordance.php), or subsequent revisions). The GPA portion of the score can contribute a maximum of 50 points to the calculated score.

## College Readiness

The Kentucky Council on Postsecondary Education (CPE), working with Kentucky Universities, and the Kentucky Department of Education, developed minimum qualifications for admission to state-supported secondary education. Students Admitted to WKU may be placed in an appropriate academic support program based on academic needs at the time of admission. Students will be notified regarding any academic placement by the appropriate office. Students who have between a $2.00-2.49$ unweighted high school GPA and achieve the required CAI score, will be admitted to WKU via the required Summer Scholars Program (https://www.wku.edu/admissions/cai.php). Qualifying readiness standards are outlined in the University Catalog.

## Foreign Language Requirements

Two credits of a single world language is highly recommended although admission to WKU may still be granted without them.

## Other Admissions Considerations - Special Approval Categories

## Early Admissions

High school students who are within one unit of graduation and have a superior academic record may be admitted upon special approval from the Office of Admissions. Applicants must submit a high school transcript with the application. Students with a 2.50 unweighted high school GPA or greater are not required to submit ACT or SAT scores for admission purposes.

## Concurrent High School-College Enrollment

Superior high school students may be admitted to enroll in courses concurrent with high school enrollment. Students must have a minimum 2.50 unweighted high school GPA to qualify for admission.

## Dual Credit Program

WKU administers a Dual Credit program at participating high schools. The Dual Credit program allows students to earn college credit as part of their high school curriculum. Courses are offered at a substantially reduced tuition rate and provide a means of preparing college-bound students for the challenge of university
coursework. Students must have a minimum 2.50 unweighted high school GPA to qualify for admission.

## Non-Degree Applicants

Students who do not expect to become applicants for any certificate or degree may enroll upon approval of the Office of Admissions. They will not be required to follow any regular curriculum, but they will be subject to all other rules and regulations of the University.

## Departments Requiring Additional Admission

Students should be aware that several academic majors require admission to the program in addition to admission to Western Kentucky University. Students should contact the specific department to determine any additional admission requirements. Baccalaureate degree programs generally accept applications for admission by the third year of study, while associate degree programs generally accept applications by the second semester of the first year of study. University admission is required before departmental admission can be considered.

## Transfer Admission

Students who wish to be degree seeking at WKU and have previously attended one or more postsecondary institutions of higher education must apply as a transfer student. Transfer students must have a minimum cumulative collegiate GPA of "C" ( 2.0 on 4.0 unweighted scale) and be in good standing at the institution from which they are transferring. Fulfillment of minimum requirements does not guarantee admission. Applicants are not allowed to ignore or fail to disclose previous college work or standing. High School transcripts are, and ACT/SAT scores may be required for students with fewer than 24 college credit hours.

## Senior Citizens

Kentucky residents who are 65 years of age or older, on or before the day the semester begins, are granted Senior Citizen Scholarships for any college class in which they enroll for credit or to audit.

## International Admission

For prospective students who hold an F-1 Student Visa, the University's academic requirements for admission described in the preceding sections must be met. All necessary documents including academic records and proof of English language proficiency must be received before WKU International Admissions can make a decision. International Admissions will review student credentials and render an admission decision. International students must also provide financial documents in order to obtain an I-20 or DS-2019.

Decisions regarding admission and the issuance of immigration documents are made in compliance with all federal and state guidelines and in compliance with admission standards and policies of the University. All official transcripts from each college or university attended must be in English.

All applicants from non-English speaking countries are required to take the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or other approved method. The test score must have been within two (2) years of application for admission.

## Joint Admission

Western Kentucky University partners with community colleges through the Joint Admissions Program. Students participating in Joint Admission
are admitted to a participating community college and WKU at the same time as they work toward completing their community college degree.

## Readmission of Service Members

Military Service members who are unable to attend courses due to military service should notify the Office of the Registrar. These students will be readmitted with the same academic status they held during their last semester in attendance. Students that have not attended a full semester will be readmitted with the academic standing they had when accepted to the University.

## Graduate Admission

Students seeking a graduate degree, graduate certificate, or enrollment as a non-degree seeking post-baccalaureate student must meet the following criteria:

## Eligibility

- Obtained a Baccalaureate degree, or higher, or equivalent international degree, from an institutional accreditor.
- Minimum cumulative grade point average (GPA) of 2.75 or greater on baccalaureate degree or equivalent international degree or minimum GPA of 3.0 on a degree higher than a baccalaureate or equivalent international degree.
- Evidence of English proficiency (international students only)
- Individual graduate programs may have more stringent and/or additional requirements. Applicants should consult individual graduate program pages in the graduate catalog for specific admission requirements and deadline information.
- Standardized Examinations
- The Graduate School does not require any standardized examination for admission to the University; however, standardized examinations (such as the GRE, GMAT, etc.) may be required for admission to specific degree or certificate programs.

Graduate Readmission
A graduate application is active for one year. Students who do not enroll for three consecutive terms at any time after the initial admission term will be required to reapply.

When further consideration of a WKU admission decision is desired, the University Admissions Appeals Committee shall have the responsibility for reviewing the situation to determine if the decision was in keeping with existing policy.

An Appeal will only be considered by the committee after a letter of appeal is written/signed by the applicant and delivered to the Office of Admissions. Circumstance and cause for appeal includes the student's belief that an exception should be made in consideration of this admission decision. The letter of appeal should include details that the applicant deems appropriate. The University Admissions Appeals Committee will convene using the letter of appeal, as well as the admission application materials, as the basis for a decision. The Applicant will be informed in writing of the decision of the committee.

WKU emphasizes placing students in first-year courses according to their college readiness needs and declared major upon entry. Students placing into two or more supplemental courses (mathematics, reading, and writing) will be required to participate in an academic assistance program.

## College Readiness Standards Placement

The College Readiness Standards are implemented through placement exams or unweighted high school GPA that provide academic advisors the additional information necessary to place students in supplemental or co-requisite courses as needed for academic success. Additional information is available on the placement exams website (https:// www.wku.edu/getready/placement-exams.php).

The following placement exams are accepted at WKU: ACT, SAT, KYOTE, GED, ACCUPLACER Next Gen, and ALEKS PPL.

Students who desire to take the ACCUPLACER Next Gen exam may contact the Distance Learning Testing Center at 270-745-3628 or testingcenter@wku.edu.

## Supplemental or Co-Requisite Courses

For students who do not meet the required College Readiness Standards, supplemental or co-requisite courses are required. Supplemental/corequisite courses are credit-bearing courses that count toward graduation and are calculated in the GPA. These courses may require additional class meetings each week (enhanced) or be a separate class. For supplemental course information, refer to the course placement website (https://www.wku.edu/getready/course-placement.php).

The following supplemental courses are available at WKU:

## Topper Orientation Program

Owen Posey<br>Assistant Director of Admissions, Orientation \& Events<br>Potter Hall, Room 119<br>Phone: (270) 745-4242<br>Website: https://www.wku.edu/top (https://www.wku.edu/top/) https://www.wku.edu/toponline (https://www.wku.edu/toponline/)<br>The Topper Orientation Program (TOP) is a required orientation for all new degree-seeking undergraduate students attending WKU. TOP helps new students become familiar with WKU, take placement exams, learn about campus programs and activities, meet with an academic advisor, and register for classes. An optional parent and guest program runs simultaneously on most TOP dates for parents and guests of students who attend. Students must be officially admitted to the university to be eligible to register for TOP. Once admitted, students will receive information via email from TOP on how to schedule a date. There is a nonrefundable fee for students and guests.

Freshman TOP is a one-day orientation that takes place on WKU's main campus in Bowling Green. All first-year students are required to participate throughout the one-day program to be registered for classes. Students who arrive late or leave early must reschedule for another date. A variety of fall semester TOP dates are available in April, May, June, July, and August. Students planning to begin coursework in the spring semester may attend the program in late January. TOP dates are available on a first come, first served basis, and reservations must be made online at least four business days before the preferred date. Reserve space early as dates often fill to capacity.

TOP Online is a required program for transfer students with at least 24 earned hours from another accredited post-secondary institution. TOP Online provides information regarding what to expect as a transfer student. This includes policies, procedures, academic departments, student services, and more. All transfer students are required to complete TOP Online in order to register for classes. Once students have successfully completed the TOP process, they are able to contact an advisor and receive assistance with choosing and registering for classes via phone, email, or in person.

Students planning to attend a regional campus location (Elizabethtown / Ft. Knox, Glasgow, or Owensboro) are not required to participate in the programs above. Please contact your regional campus location for registration details.

An additional required orientation for newly enrolled international students is conducted by the Office of Global Learning and International Affairs. Contact iso@wku.edu for additional information.

Please visit https://www.wku.edu/top (https://www.wku.edu/top/) or http://www.wku.edu/toponline (http://www.wku.edu/toponline/) for
more information on these programs. You may also contact us at (270) 745-4242 or top@wku.edu.

The Advising and Career Development Center (ACDC) is one of the most visible examples of WKU's investment in undergraduate student success. Housed in the Downing Student Union, the ACDC provides academic advising, retention services, learning resources, and career development services to support student success and persistence to graduation. The ACDC places a strong emphasis on undergraduate advising, including specialized services for transfer students, those exploring majors, and those in transition, while also offering free tutoring and programs to help undergraduate students be independent and successful learners. Training is also offered for academic advisors through the center.

## Advising

Marrissa Bryant, Associate Director of Academic Advising

Downing Student Union, 2nd Floor - Room 2001 \& 2141
Phone: (270) 745-5065
Email: academic.advising@wku.edu
Website: http://www.wku.edu/advising (https://www.wku.edu/advising/)
The Advising and Career Development Center's (ACDC) academic advisors are knowledgeable about undergraduate programs offered on the WKU campus. The center coordinates academic advising activities among undergraduate and academic departments for undergraduate students. All degree-seeking undergraduate students must meet with an academic advisor prior to registering for classes each semester. The academic advisor assists the student in the selection of courses that will provide appropriate preparation for career objectives and assures timely completion of degree program requirements. Academic advisors at WKU will also provide guidance regarding academic resources, internship possibilities, and key information for student success while working toward graduation.

Generally, students with fewer than 60 hours of college credit, including transfer students, will be assigned an academic advisor from the ACDC who works closely with the academic colleges. Students with a declared major and 60 hours or more will be assigned an academic advisor from the academic department that administers their specific program of study. Students can find their academic advisor's contact information on TopNet by clicking the Student Services tab - Registration - View Advisor Information, or by contacting the ACDC at (270) 745-5065.

## The Exploratory Program

The Advising and Career Development Center (ACDC) specifically serves undergraduate students who have not selected a major and are exploring their options. The Exploratory Program academic advisors and/or career team lead students on a path of self-discovery, as they work to identify areas of interest, individual strengths, and career goals that align with one or more academic areas of study. Students are enabled to explore the wide array of majors and minors WKU has to offer and make
well-informed decisions regarding their academic and career options. Students who utilize this program also cultivate non-academic, executivefunctioning skills to support persistence to graduation.

An undergraduate student who has not selected a major (an Exploratory student) is advised by an academic advisor within the ACDC and can continue as an Exploratory student until reaching up to 60 credit hours. A student can be general Exploratory or Exploratory within one of the academic colleges.

## Program Expenses in College of Health and Human Services

Students enrolled in the College of Health and Human Services programs should consult with the appropriate department / school about potential expenses required for program completion; for example, some students may be required to undergo criminal background checks and drug testing and to provide proof of health insurance, liability insurance and/or immunization records prior to participating in any required experiences at selected off-campus facilities/agencies. Additionally, there may be certifications, training seminars or other requirements specified by the facility/agency that a student must meet in order to be eligible for field or practical experiences at the facility. It is the responsibility of the student to ensure that all institutional and/or facility requirements are met as a condition of participating in the on- or off-campus experiences; students may be responsible in part or in full for any costs incurred to meet such requirements. Students are also responsible for transportation to and from off-campus experiences. In some CHHS programs, the students are responsible for rental fees for clinical instruments and supplies, purchasing uniforms, equipment and possible course and program fees above the regular tuition. (For example, a per semester program fee will be assessed to students enrolled in the BSN pre-licensure program.) At the completion of the program, students may also be responsible for fees related to national and regional licensing exams. These requirements vary across programs within the college.

## Course Fees

Occasionally, an additional fee is charged to a specific course. Refer to the Course Fees chart on the Tuition and Fees Website at http:// www.wku.edu/bursar/coa.php for specific courses and related fees.

## Schedule Change Fee

A $\$ 50$ schedule change fee will be assessed per course for studentinitiated schedule changes. Effective dates for the fee are printed in each term's Registration Guide available online at http://www.wku.edu/ registrar (http://www.wku.edu/registrar/).

## Late Registration Fee

## Fees for Auditing Courses

All students who audit a course are charged the same tuition and fees they would pay if they took the course for credit.

## Application for Graduation Fee

Candidates for the associate and baccalaureate degree will be charged a fee of $\$ 50$. This fee will cover the cost of cap and gown, diploma and other necessary expenses. The graduation fee must be paid and the Application for Graduation must be filed after 90 hours are earned for baccalaureate degree students and after 45 hours are earned for students pursuing associate degrees. Candidates for a certificate will be charged a fee of $\$ 15$. Contact the Office of the Registrar at registrar@wku.edu or (270) 745-3351 for additional information.

## Transcript Fee

A $\$ 10.00$ fee is charged for an official transcript. Official transcripts may be ordered through the Office of the Registrar; additional information is available at: http://www.wku.edu/registrar/transcript_request.php.

## Parking and Transportation Services

578 Campbell Lane
270-745-2361
https://www.wku.edu/transportation or transportation@wku.edu
A number of Parking \& Transportation Services are available through this department. If parking on Main or South campuses (no requirement for regional campuses), students may choose to purchase an annual parking permit from the PTS Department, or purchase hourly parking, or daily parking through the ParkMobile app. Topper Transit provides free bus service between locations on Main Campus, South Campus and various off-campus shopping destinations. Students can monitor bus arrival times using the iWKU app. Curb-to-curb disability para-transit services and evening, on-demand ride services are also provided free and can be requested via the TransLōc app. In addition, Parking \& Transportation Services offers discounted GoBG city bus passes and subsidized airport shuttle service to Nashville International Airport. Bike racks are located throughout campus.

PTS encourages students to leave their cars at home as parking on Main Campus is limited. If you are parking on campus, an annual parking permit is likely your most economical choice. All parking lots are zoned for specific permits. Housing permits are for students living in a campus residence hall. Commuter Permits are for students living off-campus. You will park in the zone that matches your permit. Permits may be ordered online at www.wku.edu/transportation (http://www.wku.edu/ transportation/). Main Campus permits are limited and sold on a first come, first served basis. A waitlist will be available for each lot after that permit sells out. Please follow us on Facebook, Twitter, YouTube and Instagram.

## Fee Payment

All tuition, housing fees, course or laboratory fees, meal charges, and other assessments are due and payable in accordance with the statements rendered by the appropriate university office.

Tuition, housing fees, meal plans and other student charges must be paid on the date a student registers or on other dates as specified by the Office of Billings and Receivables. Payment of fees will not be deferred, unless the student participates in one of the approved payment plans as described below.

The University expects the students to be financially responsible and not be delinquent in financial obligations to the University or to any department or division of the University. If a student registers and decides not to attend, the student must withdraw from all classes prior to the first day of classes on TopNet or by notifying the Office of the Registrar in writing to ensure that the student will not owe tuition and late payment fees and receive " F " grades. The student is responsible for his or her own enrollment status. A student who fails to meet a financial obligation by the due date of the notice from the appropriate university official will be subject to regulations promulgated by the University. If the student does not settle the obligation by the date designated on the notice, the appropriate business office shall notify the University Registrar. After the University Registrar has been notified that a student is delinquent, the University Registrar shall not allow the student to register or to obtain an official transcript or diploma until the University Registrar has been notified that the obligation has been settled.

The University expects all students to register for classes and pay tuition prior to the first day of class. A late payment charge of $\$ 100$ may be assessed for failure to pay by the designated due date. Failure to receive a bill does not relieve the student of the obligation to pay tuition and fees by the due date. The University does not mail printed billing statements. All billing is electronic with students receiving notifications through their university-assigned e-mail addresses. As an added service, students can also select a billing e-mail address via TopNet so they can have their account statements sent to an additional e-mail address.

In the event that any tuition, fees and/or expenses are not paid when due, and the University undertakes collection of any unpaid portion, the student shall also be assessed and be responsible for any collection costs and/or fees associated with the collection of the debt including but not limited to: collection agency fees, which may be based on a percentage at a maximum of $33.3 \%$ of the debt, reasonable attorney's fees, court costs and all other charges allowed by law. Delinquent accounts receivable are placed with a collection agency and/or the Kentucky Department of Revenue and collection fees will be added, increasing the amount owed. Accounts will also be reported to the National Credit Bureaus.

Spring Semester - October 25
Summer Term - March 20

## Winter and Summer Financial Aid

Limited funds are available for winter intercession and summer sessions in the areas of grants, loans and student employment. Students will be notified of eligibility by the Department of Student Financial Assistance after registering for their classes and will be notified via email of their award. With regard to winter term, aid will be tied to spring term for financial aid purposes.

## Payments of Awards

Financial aid awards are normally made on an academic year basis conditional with fulfilling academic and registration requirements. Financial aid is disbursed after the 100\% drop/add period for each semester and is applied directly to tuition and fees, housing, meal plans and any other applicable charges. Awarded amounts in excess of institutional charges are made payable to the WKU Debit Card. Student employment wages are distributed every two weeks via the WKU Debit Card.

All first-time Stafford Loan recipients are required to complete an entrance counseling session and Master Promissory Note (MPN) prior to their loan funds being disbursed and an exit counseling session prior to graduation or withdrawing from the University. This can be done online at http://studentaid.gov (http://studentaid.gov/); under Complete Aid Process.

## Renewal Procedures

Financial aid awards are calculated on current financial information. Therefore, a new FAFSA must be filed each year. Students may apply online at http://studentaid.gov (http://studentaid.gov/); under Apply

For Aid. Students will need an FSA ID in order to sign their FAFSA electronically. Apply for a FSA ID at https://studentaid.gov/fsa-id/createaccount/launch (https://studentaid.gov/fsa-id/create-account/launch/).

## Academic Eligibility and Financial Aid

In the event that satisfactory academic progress is not maintained, financial aid funds must be withheld. If satisfactory academic progress has been re-established after successful completion of a semester, winter intercession or summer session, the student may be considered for re-evaluation for financial aid. A student on academic probation is not making satisfactory academic progress. The SAP policy may be viewed at: https://www.wku.edu/financialaid/eligibility/sap-overview.php.

## Academic Requirements and Regulations

## Course and Organizational Information

## Division of the School Year

The academic year of Western Kentucky University is divided into two semesters consisting of sixteen weeks, a 13 -week summer term, and a three-week winter term. The opening and closing dates are given in the Academic Calendar, which is published yearly. Specific information about the summer and winter terms is available at http://www.wku.edu/delo (http://www.wku.edu/delo/).

## Unit of University Credit

The unit of credit is a semester hour.

## Classification of Students

Beginning students are classified as freshmen; students with a minimum of 30 semester hours earned, as sophomores; 60 hours earned, as juniors; and 90 hours earned, as seniors.

## Course Load

To be considered a full-time undergraduate student, one must carry a minimum of 12 hours each semester. Students who wish to enroll for 20-21 semester hours must have a cumulative grade point average of 3.3 or above.

## Registration and Student Schedule Changes

After classes begin, registration for a full-time course load and / or changes in schedules may be made only within the first six class days of a semester or the first three days of a bi-term or 5-week session. Courses that do not meet at least twice during the first six class days may be added through, but not past, the day of the second class meeting.

During a term (full semester, bi-term, 5 -week session, or summer session, a student may withdraw from a course with a grade of "W" or "F" under the following conditions. It is recommended faculty members inform students of this "W" period deadline.

- A student is permitted to withdraw from any course with a grade of "W" until the 70\% point of the term. Refer to the Registration Guide on the Office of the Registrar's website for specific dates. See the Academic Dishonesty section for exception information.
- After the $70 \%$ point of the term, any student dropping a course receives an automatic "F." However, when there are extenuating circumstances, and at the discretion of the faculty member and the department chair, the student may be permitted to withdraw with a " W " instead of " F ."

Students should refer to the Registration Guide each term for specific dates affecting schedule changes.

## Attendance Policy

It is the policy of Western Kentucky University that class attendance is an important part of a student's educational experience and is a requirement for success in courses. Registration in a course obligates the student to be regular and punctual in class attendance. Students should make certain their names are on the class roll. If an error has been made in registration, it is the student's responsibility to see the error is corrected in the Office of the Registrar. Students who know of necessary absences should consult with the instructor before the absence. Students who miss classes are not excused from the work associated with the course.

Students who cease attending class are expected to report to the Office of the Registrar to initiate withdrawal procedures. Withdrawal deadlines are published each term in the Registration Guide. Non-attendance does not relieve students of the responsibility for tuition or fees. It is the responsibility of each instructor to maintain records to inform the University whether a student was present in lass until the $60 \%$ point of the term. Records may be kept in the instructor's desired format. Attendance has an effect on the receipt or repayment of financial aid or scholarship.

Instructors may create guidelines for attendance in each course. The instructor must notify students of the attendance policy in writing within one week of the start of the pertinent semester/term/summer session. it is recommended that this information be included in the course syllabus.

## Excessive Absenteeism

Excessive absenteeism frequently contributes to poor academic achievement. An instructor who determines a student's absenteeism is inconsistent with the instructor's stated policy should either counsel with the student or request the advising office arrange a counseling session with the student. Excessive absenteeism may result in the instructor's dismissing the student from the class and recording a failing grade, unless the student officially withdraws from the class before the withdrawal deadline. If the student withdraws from the university after the end of the official withdrawal period, excessive absenteeism may be one of the considerations in the instructor's deciding whether circumstances justify a "W" or an " $F$ " in the course. The normal appeal process is available to the student who wants to appeal the decision of the instructor.

## Medical or Bereavement Absenteeism

When a student is absent from class because of illness, death in the family, or other justifiable reasons, it is the student's responsibility to consult the instructor at the earliest possible time. Contact the advising office for guidance (270) $745-5065$. The advising office provides class attendance notification services as requested by students and faculty. When requested by students, notifications of absences resulting from personal emergencies are relayed to faculty. In addition to this official notification, it is the student's responsibility to contact each professor to make arrangements to complete missed assignments and tests. The advising office also notifies students of excessive absences reported by faculty.

## 5th Week Check-in

The Advising and Career Development Center (ACDC) provides a 5th week check-in to all freshmen and sophomores in classes at the 200level and below during the 5th week of each semester to help identify areas that may need improvement. Instructors shall provide information about students' class performance regarding attendance and grades.

It is recommended that instructors offer a meaningful assessment during the first five weeks to measure student performance in addition to keeping track of attendance. Students may be flagged or missing class too frequently and/or for having a D/F in the course. Course instructors, academic advisors, residence hall staff and/or the ACDC staff may follow up with flagged students to discuss potential issues the student may be facing in and out of the classroom.

## Drop for Non-Attendance

Students who, without previous arrangement with the instructor or department, fail to attend the first two class meetings of a course meeting multiple times per week or the first meeting of a class that meets one time per week MAY be dropped from the course. Nonattendance for a web-based course shall be defined as failure to perform meaningful academically-related activity (including, but not limited to, the following: submitting an academic assignment, taking an exam, participating in an online discussion about academic matters) within one week of the course start date without previous arrangements with the instructor or department. Instructors have the right to drop non-attending students during the drop/add period specified in the Registration Guide to allow other students to register for the course, thus cutting down on waitlists and bottlenecks.

## Failure for Non-Attendance (After Registration Period)

Students who attended a course during the first week but ceased attending up to and including the $60 \%$ point of a term will receive a failure for non-attendance grade (FN). This grade shows no semester hours earned and no quality points. Non-attendance may include either ceasing to attend the course or failing to complete any meaningful assignments up to and including the $60 \%$ point of the term. Instructors must enter the date the student last attended the course when entering the FN grade on the student's record.

## Registration Requirement

No WKU student may attend a course for which he or she is not registered, either as a degree-seeking student or as a non-degree seeking student.

## Attendance Notification

The advising office provides class attendance notification services as requested by students and faculty. When requested by students, notifications of absences resulting from personal emergencies are relayed to faculty. In addition to this official notification, it is the student's responsibility to contact each professor to make arrangements to complete missed assignments and tests. The advising office also notifies students of excessive absences reported by faculty.

## Military Absence Policy for Official Military Duties and Veteran Administration Medical Appointments

Instructors are expected to show flexibility to Military and Veteran students who have required absences due to military duties or Veteran Administration medical appointments. These absences are mandated and beyond the students' control. Instructors should not penalize absences of this type in any way. Accommodations and specific time frames to make up all missed assignments, quizzes, and tests will be given and mutually agreed upon by the instructor and student. Students are responsible for notifying faculty members of absences as far in advance as possible, when possible, and for ensuring that their absence is documented. Absences can be verified by official orders, appointment notifications, or through the Office of Military Student Services. Students
called to duty for an extended amount of time should be referred to the Military Withdrawal policy.

## Auditing of Courses

An auditor enrolls and participates in a course without expecting to receive academic credit. The same registration procedure is followed, and the same fees are charged as for courses taken for credit. An audited course is not applicable to any degree or certificate program.

Regular class attendance is expected of an auditor. Other course requirements, which may be obtained in writing from the instructor, will vary depending on the nature of the course. Students interested in auditing a course should secure permission from the instructor and discuss course requirements prior to enrolling. Failure to meet course requirements may result in the auditor being withdrawn from the course at the request of the instructor. A successful audit will be recorded on the transcript with the designation $A U$.

Any change from audit to credit must be done by the last day to add a class. Changes from credit to audit must be done by the last day to drop a class with a grade of "W." Refunds for withdrawals from audited courses will be prorated on the same basis as refunds for withdrawals from courses taken for credit.

## Pass/Fail Grading Option: Student-Initiated Option

The Pass/Fail option encourages undergraduate students to take courses they might otherwise avoid because of lack of background or concern for lowering their grade point average (GPA). It allows students to experiment in academic disciplines without the same grading pressures incurred as in their major area of study. When undergraduates choose this option, they must adhere to the course syllabus the same way as students enrolled for a letter grade. For this reason, this policy can contribute substantially to a student's breadth of experience at WKU.

Note: Not all undergraduate courses are approved to be taken Pass/Fail. Graduate-level courses (400G-499G, 500 or higher) may not be taken under the Pass/Fail option.

1. Taking courses under the Pass/Fail student-initiated option is subject to the following restrictions:
A. The student must complete the appropriate Pass/Fail form by the deadline published in the registration guide.
B. The form can be completed at the time of registration but not later than the last day to withdraw for a class for that semester/term as listed in the appropriate registration guide.
C. The choice to receive a traditional letter grade or a Pass/Fail grade cannot be changed after the last day to withdraw from a course except by withdrawal or by repeating the course.
D. A student may not repeat a course on a Pass/Fail basis in order to replace a previously earned letter grade of A through F.
$E$. The student must be an undergraduate student (degree seeking or non-degree seeking). Dual credit students are excluded from this policy.
F. Courses taken Pass/Fail must be elective in nature or part of the Colonnade Connections categories and cannot be used to
fulfill specific major, minor, or certificate requirements or a prerequisite requirement for admission to a degree program. If a student changes their major/minor after taking and passing the course, they may request a retroactive change to a letter grade from the department chair of the program in which the course is housed.
G. No more than 9 credit hours toward graduation may be completed through the student-initiated Pass/Fail. Format effective May 2013.
$H$. The grade of $P$ will not be computed in the GPA but the credit hours associated with the course will be counted as credit
hours earned and will count toward graduation under the restrictions previously mentioned.
I. The grade of F will be computed in the student's GPA as hours attempted.
2. Under the student-initiated Pass/Fail policy, the instructor will not know whether an individual is taking the course for a
traditional letter grade or Pass/Fail. When the semester ends, the instructor will submit traditional letter grades for all students. For those students taking the course as Pass/Fail, grades will be converted by the registrar's office.

## Global Studies Designation

WKU offers all students the opportunity to earn a Global Studies Designation as part of their undergraduate education. This designation may be combined with any major.

Students who complete the requirements outlined below will receive the "Emphasis in Global Studies" designation on their official transcript.

## Requirements include:

a. Completion of a minimum of twenty-four (24) credit hours of coursework with substantial international content. More than 200 courses are approved to meet this requirement. Any of the approved courses can also be used to meet major, minor, or Colonnade requirements, as appropriate. As part of this requirement, the following conditions must also be met:
i. No more than nine (9) credit hours may be counted from any one discipline.
ii. At least three (3) different departments must be represented.
iii. Students must achieve an overall minimum GPA of 2.5 in the international content courses in order to receive the "Emphasis in Global Studies" designation.
b. Completion of a minimum of six (6) credit hours of modern language, either six hours in one language or three hours each from two languages. This requirement must be met in addition to the twenty-four hours of international content coursework above.
c. Completion of an approved credit-bearing international learning experience that could include study abroad, an internship abroad, service learning abroad, research abroad, or international student teaching.

More information regarding the Global Studies Designation may be found at http://www.wku.edu/studyabroad/students/globalstudies.php. Students are encouraged to contact the Office of Study Abroad \& Global Learning at study.abroad@wku.edu or (270) 745-5334 with any questions.

## Undergraduate Student Enrollment in Graduate Courses

Undergraduate students at Western Kentucky University may request to enroll in graduate courses through the Graduate School. Conditions for approval include:

- at least 75 undergraduate credit hours earned; and
- a minimum cumulative GPA of 3.0

Undergraduate students may accumulate a maximum of 12 graduate credits. In addition, undergraduate students are restricted to a maximum
of 15 hours enrollment per term, including graduate and undergraduate credits. All graduate coursework will be on the graduate transcript. To move the coursework to the undergraduate transcript students should contact the Office of the Registrar.

## Schedule Changes by the University

The institution reserves the privilege at all times of canceling any course for which the enrollment is not sufficient to justify its continuation and to make any other adjustments in the schedule that seem necessary.

## Changes in Offerings and Policies

The University reserves the right to make changes as required in course offerings, academic policies, and other rules and regulations affecting students to be effective whenever determined by the University.

## Academic Freedom

The University desires every student experience freedom in academic pursuits. Academic freedom, however, is not irresponsibility-it is the opportunity to pursue truth.

## Grade-Related Information

## Grade Point Average

The overall grade point average is defined as the ratio of the total number (including transfer work) of quality points to the total number of GPA hours attempted. The WKU grade point average is defined as the ratio of the total number of quality points to the total number of GPA hours attempted for courses taken only through Western Kentucky University.

## Grade Recording

Grades are recorded by the Office of the Registrar as reported by the faculty at the end of each term. No grade filed in that office may be changed except via a written statement from the instructor certifying that an error has been made. All conditions must be removed before the student will be recommended for any certificate or degree.

## Grade Reports

It is recommended that some graded evaluation be accomplished by the end of the first six weeks equal to at least $20 \%$ of the student's final grade. Final grades are accessible online through TopNet.

## Developmental Course Grading

Courses numbered 050-099 are developmental courses; grades earned in these courses will not count toward the student's GPA, but shall be considered in determining eligibility for financial aid and academic probation status. Credit hours earned in developmental courses are not degree applicable. Note: In Fall 2019, WKU discontinued offering developmental courses.

## Grading and the Quality Point System

Within one week of the start of the pertinent semester/term/summer session, the instructor will provide students a written statement of the factors to be considered in determining grades and the specific weight to be assigned to each of these factors. The letters A, B, C, D, F, P and X are used by the University to indicate the student's academic proficiency. These letters have the following significance:

A
Excellent, valued at four quality points per semester hour. Good, valued at three quality points per semester hour.

| C | Average, valued at two quality points per semester hour. |
| :---: | :---: |
| D | Below average, unsatisfactory, valued at one quality point per semester hour. (A "D" gives credit toward a degree. The student's overall grade point average, however, must be a 2.0 or better to meet the requirements for graduation.) |
| F | Failure, valued at no semester hours earned and no quality points. |
| FN | Failure due to nonattendance, or ceasing to attend, up to and including the $60 \%$ point of a term, valued at no semester hours earned and no quality points. Nonattendance shall be defined as failure to perform meaningful academically-related activity including, but not limited to, the following: submitting an academic assignment, taking an exam, participating in an online discussion about academic matters. |
| P | Pass, credit is awarded toward a degree, but no quality points are assigned. The " P " designation is restricted to specific courses approved for its use. |
| X | Incomplete, A grade of " $X$ " is given only when a relatively small amount of work is not completed because of illness or other reason satisfactory to the instructor. A grade of " $X$ " will automatically become an " $F$ " unless removed within the first twelve (12) weeks of the next full term (summer term excluded.) An incomplete must be removed within this twelve-week period regardless of whether the student is registered for additional work in the next term. A student should work with the instructor who assigned the incomplete on an independent basis in order to complete the necessary assignments. A grade of incomplete is not used under any circumstances as a substitute for "F" or "W." |

The designations AU, W, NR, ER and NG are not included in the determination of grade point average and are used in the following cases:

| AU | Auditor of a course, (See "Auditing <br> of Courses" for additional <br> information.) |

Transfer work submitted will be equated to our internal scale and denoted as such on your record.

## Repeating Courses

An undergraduate student is permitted to repeat a maximum of six courses. Only two courses in which a grade of "C" or above has been earned may be repeated.

Credit for a course in which a grade of " F " has been received can be earned only by repeating the course in residence unless prior approval is given by the chair of the department in which the course was taken. A course in which a grade of " $D$ " has been received may be repeated at another accredited institution.

A course that has been failed cannot be repeated by WKU On Demand (independent learning) without special permission from the department chair. A student may not repeat by proficiency testing a course that has been previously taken or failed at WKU or another accredited institution.

If a course is repeated, the higher of the two grades will be counted in computing the grade point average; if the course is repeated a second time, the two higher grades combined will be used in computing the grade point average. The grade received for each attempt will continue to appear on the student's academic record. A student may attempt a single course no more than three times.

WKU does not guarantee the right to repeat any course. Courses may be deactivated, discontinued, or offered on a different schedule.

The Committee on Credits and Graduation has the responsibility for hearing appeals from students regarding the application of these regulations.

An appeal for special permission to repeat a course in the major or minor beyond the third attempt will be considered only upon the recommendation of the chair of the department involved, and then only if special consideration is needed to raise the average in that subject to the minimum required.

Students seeking special consideration to repeat a course beyond the third attempt in the general education requirements and in free electives must first consult with the University Registrar. If, after this conference, an appeal is deemed appropriate, the Committee on Credits and Graduation will consider the student's request.

## Transcripts

Transcripts will be released at the written request of the student and in conformity with university policy and existing state and federal statutes pertaining to the release of student academic records. The official academic record is the property of the University. Consequently, the University reserves the right to withhold the release of a transcript of that record if the student has an obligation to the University. Transcript request information is available on the Office of the Registrar website at http://www.wku.edu/registrar/transcript_request.php.

## Academic Standing, Probation, and Appeal

## Academic Standing

If a student's overall GPA and/or total institution GPA falls below the 2.0 requirement, the student is placed on Academic Probation. A student on Academic Probation is allowed continued enrollment on a semester -by-semester probationary status, as long as the student continues to achieve a 2.0 term GPA each semester until returning to academic Good Standing. At the end of each academic term, students may access TopNet to view their term GPA, overall GPA, and total institution GPA.

## Academic Warning

If a student's term GPA is below the 2.0 requirement, but the student satisfies the 2.0 requirement for the overall GPA and total institution GPA then the student's new academic standing is Academic Warning. Students whose academic standing falls to Academic Warning will be asked to attend an Academic Warning Workshop during the first week of classes of the term following the change in academic standing. In this workshop, students will learn what it means to be on Academic Warning, what the implications are for not raising their GPA, and what resources are available on campus to help them succeed in their coursework.

## Academic Probation

If a student's overall GPA and/or total institution GPA falls below the 2.0 requirement, the student is placed on Academic Probation. A student on Academic Probation is allowed continued enrollment on a semester -by-semester probationary status, as long as the student continues to achieve a 2.0 term GPA until returning to academic Good Standing. The Advising and Career Development Center (ACDC) utilizes the Best Expectation Program (BEP) and The Learning Center (TLC) to provide students on Academic Probation with resources to achieve academic Good Standing. Students on Academic Probation, and students returning after academic dismissal or a granted academic appeal, are required to participate in the Best Expectation Program (BEP) through the ACDC.

## Academic Dismissal

Any student who fails to earn a 2.0 or higher term GPA while on Academic Probation will be academically dismissed and is not eligible to enroll in WKU classes for one calendar year. Students may, however, choose to appeal the academic dismissal. For additional details, please see the Academic Dismissal Appeal information below. Academic standing for all students who complete a term is shown on TopNet. It is the student's responsibility to stay informed of academic standing and to improve academic performance until returning to academic Good Standing.

## Academic Dismissal Appeal Procedure

Students who are academically dismissed may file an academic appeal with the Academic Appeals Committee through the Advising and Career Development Center (ACDC). The Academic Appeals Committee may dismiss the student from WKU or allow the student continued enrollment under probationary status with conditions for the following term. A student academically dismissed from the University by the Academic Appeals Committee may appeal the decision to the Executive Appeals Committee. If the Executive Appeals Committee approves an appeal, the student will be permitted to enroll for an additional semester on probationary status with conditions determined by the Executive Appeals Committee at the time of approval. Detailed operational procedures followed by the Academic Appeals Committee may be obtained from the ACDC located in the Downing Student Union 2141.

Students who are either academically dismissed or who voluntarily withdraw due to academic deficiencies are eligible to apply for readmission after one calendar year of absence from WKU. Readmission will be determined according to WKU admission standards at the time of application for readmission. Applications for readmission are to be filed with the Office of Admissions by published deadlines.

## Student Rights and Responsibilities Code of Student Rights and Responsibilities

The Code of Student Rights and Responsibilities is set forth in writing to provide students general notice of their rights and responsibilities at Western Kentucky University. Further rights and responsibilities are set forth in other University rules and policies, including the Code of Student Conduct, Student Handbook, Residence Hall contracts, graduate and undergraduate catalogs, and academic unit websites. It is the students' responsibility to be aware of all University rules and policies; students should check with the Dean of Students Office or Office of Student Conduct if they have any questions about the purposes or intent of these policies.

## Academic Integrity

Students are expected to pursue their studies with commitment to intellectual honesty and personal integrity. The maintenance of academic integrity is of fundamental importance to the University. Examples of academic offenses include (but are not limited to): any act of plagiarism, cheating, or falsification or misuse of academic records. Thus, it should be clearly understood that acts of plagiarism or any other form of cheating will not be tolerated and that anyone committing such acts risks punishment of a serious nature. A student who believes a faculty member has dealt unfairly with them in a course involving academic offenses such as plagiarism, cheating, or academic dishonesty, may seek relief through the Student Complaint Procedure. Questions about the complaint procedure should be directed to the Student Ombuds Officer at student.ombudsman@wku.edu.

## Academic Dishonesty

Academic dishonesty is defined as engaging or attempting to engage in any activity that compromises the academic integrity of the institution or subverts the educational process. This definition applies to work submitted face-to-face or through on-line or electronic means and work submitted for face-to-face, hybrid, and on-line courses. Students who commit any act of academic dishonesty may receive from the instructor a failing grade in that portion of the coursework in which the act is detected, or a failing grade in the course without the possibility of withdrawal. The faculty member may also present the case to the Office of Student Conduct for disciplinary sanctions and the Office of the

University Registrar if action by these offices are required. Students may be held responsible for committing academic dishonesty while enrolled even if the student withdraws from the course.

## Cheating

No student shall receive or give assistance not authorized by the instructor in taking an examination or in the preparation of an essay, laboratory report, problem assignment, or other project that is submitted for purposes of grade determination.

## Plagiarism

To represent written work taken from another source as one's own is plagiarism. Plagiarism is a serious offense. The academic work of a student must be their own. One must give any author credit for source material borrowed from them. To lift content directly from a source without giving credit is a flagrant act. To present a borrowed passage without reference to the source after having changed a few words is also plagiarism.

## Multiple Submissions

Submitting the identical or substantially the same assignment or portions thereof to fulfill the requirements for two or more courses without approval of the instructors involved, including when repeating a course; or submitting the identical or substantially the same assignment or portions thereof from a previously completed course to fulfill the requirements for another course without the approval of the instructor of the latter course; or submitting the identical or substantially the same assignment or portions thereof to fulfill the requirements for two or more academic assignments within a course without the approval of the instructor.

## Other Types of Academic Dishonesty

Other types of academic offenses, such as the theft or sale of tests, should be reported to the Office of Student Conduct at (270) 745-5429 for further action. http://www.wku.edu/studentconduct/process-for-academic-dishonesty.php.

## Academic Renewal

Academic renewal allows students to void a semester of coursework or all previous coursework, if the coursework has not been used for a previous degree earned at WKU nor another accredited institution. The policy prevents voided coursework from counting toward graduation and the computation of the grade point average; however, the voided coursework will remain a part of the transcript.
In order to qualify for academic renewal, students must be admitted to WKU and enrolled or previously enrolled in coursework at WKU. In addition, qualified students must fall into one of the following categories:
a. Have at least 60 earned credit hours; or
b. Have not attended any accredited college or university for at least two previous years.

Qualified undergraduate students who have earned at least 60 credit hours should work with an advisor to determine if all coursework should be voided or the coursework for a single semester. If the student chooses to void all coursework, all coursework will be voided prior to the submission of the petition.

Qualified undergraduate students who have not attended any accredited college or university for at least two previous years must have a cumulative grade point average, since readmission, of at least 2.0 (with no grade below a " $D$ "), computed at the end of the term in which the student completes 12 semester hours or the number of hours required
for degree completion if less than 12. Students who have not attended any accredited college or university for at least two previous years should work with an advisor to determine if all coursework should be voided or the coursework for a single semester. If the student chooses to void all coursework, all coursework will be voided prior to the readmission term.

WKU accepts transfer credit retained through academic renewal at other institutions but will use grades from those courses for the computation of the higher education grade point average.

Students requesting academic renewal are required to complete and submit the "Petition for Academic Renewal" form to their advisor and then their department chair or equivalent, indicating whether one semester or all previous coursework is to be voided. The Office of the Registrar processes the approved form. The academic renewal decision is final once it is approved by the academic department and processed by the Office of the Registrar. Students may not declare academic renewal more than once. Academic Renewal is irrevocable.

## Procedures

The form shall be approved by the student's advisor and then their assigned Department Chair. The department will send the approved form to the Office of the Registrar, Potter Hall 216.

The petition should not be filed until the student has fulfilled the conditions of eligibility mentioned above. The Office of the Registrar will notify students by email when the Petition for Academic Renewal has been processed. Students who request academic renewal for a semester(s) may not use any credit earned during that period toward degree requirements. Voided courses required for the degree must be repeated.

## Withdrawal from the University

For various reasons it is occasionally necessary for a student to withdraw from the University. Prior to the $70 \%$ point of the semester, students may use TopNet to withdraw. After the $70 \%$ point of the semester, the student should report to the Office of the Registrar to initiate withdrawal procedures. Students leaving the institution without an official withdrawal will receive failing grades in all courses in which they are enrolled and endanger their future status in the institution. Students withdrawing after the $70 \%$ point of the semester, a bi-term, 5 -week session, or comparable period during a summer session must consult with their instructors as to the withdrawal grade. The official date of the withdrawal is the date the withdrawal is processed on TopNet or the written notice is received in the Office of the Registrar. Students wishing to return to WKU at a later date must submit an application for readmission prior to the deadline for submitting applications. Refer to the Registration Guide on the Office of the Registrar's website for deadlines.

In special circumstances, as described below, a complete withdrawal from the University after the $70 \%$ point of a term will be considered. Request forms are available on the Office of the Registrar website at http://www.wku.edu/registrar/withdrawal.php.

## Administrative Withdrawal

A request for an administrative withdrawal is initiated by the University because of a disciplinary situation or when, in the professional judgment of a health care provider, psychologist and/or university administrator, there is reason to believe a student is a substantial threat to him/herself or interferes with the welfare of other members of the University, the education process, or the orderly operation of the University. The Vice President for Enrollment and Student Experience or the Associate Vice President for Academic Affairs, or their respective designees, will notify
the student of the involuntary withdrawal, and the University Registrar will be directed to withdraw the student from all classes in which the student is currently enrolled and cancel registration that has occurred for any future terms. The Office of the Registrar will notify the student's instructors of the withdrawal, and "W" grades will be recorded for the term in progress. A student who is administratively withdrawn will have a registration hold placed by the Vice President for Enrollment and Student Experience or the Associate Vice President for Academic Affairs to prevent the student from being readmitted or re-enrolled unless cleared by the appropriate administrator or the respective designee. A student may file a written appeal of an involuntary withdrawal through the office that administered the withdrawal. Tuition refund appeals for administrative withdrawals are handled in a separate procedure, and instructions may be obtained from Student Billing and Account Services.

## Medical Withdrawal

A student may request and be considered for a medical withdrawal from all courses in a term when extraordinary circumstances, such as a serious physical or mental illness or injury, prevent the student from continuing his or her classes after the mid-point of a term, and incompletes or other arrangements with the instructors are not feasible or possible. A medical withdrawal must be substantiated with appropriate documentation from the attending health care provider. Once the rationale for a medical withdrawal has been validated by the Office of the Registrar, the student's instructors will be sent notification of the withdrawal, and "W" grades will be recorded for each course. A student who requests a medical withdrawal, or an individual requesting a withdrawal on behalf of the student who is physically or mentally unable to request the withdrawal, should contact the Office of the Registrar to obtain medical withdrawal procedures. Tuition refund appeals for medical withdrawals are handled in a separate procedure, and instructions may be obtained from Student Billing and Account Services.

## Military Withdrawal

Students who are members of any branch of the United States Armed Services, including the National Guard, who are called to active duty while enrolled at WKU are entitled to the following options:

Students may work with each individual instructor to determine if an incomplete grade is appropriate, or

If an incomplete grade is not a viable option, the student will be permitted to withdraw either from individual courses or from the entire schedule of classes. A full refund of tuition and fees will be issued for those courses from which the student has withdrawn.

Students who are called to active duty while enrolled should contact the Office of the Registrar to initiate the withdrawal process. An official copy of the military orders must be presented to invoke this special withdrawal and refund process.

## Retroactive Withdrawal

A student who leaves the University for extenuating circumstances without an official withdrawal during the term of departure may apply for a retroactive withdrawal. The student must present supporting documentation that demonstrates serious and compelling reasons justifying the withdrawal and extenuating circumstances justifying its retroactive nature; poor academic performance that is not attributed to non-academic extenuating circumstances is not a consideration for retroactive withdrawal. A student may appeal for a retroactive withdrawal within two calendar years following the end of the term for which withdrawal is requested. A student need not be enrolled at WKU at the time the application for retroactive withdrawal is submitted.

An appellate board will review the request for a retroactive withdrawal. The board will consider the following factors, including, but not limited to:

## a. Documentation of extenuating circumstances

b. Written letter of support from an academic administrator, faculty member, advisor or other university professional who is familiar with the student's situation.

If a retroactive withdrawal is approved, the Office of the Registrar will notify the student's instructors and department chairs of the request for a retroactive withdrawal, and they will be given 14 calendar days to raise objections if the student's classroom performance was such that a withdrawal (W) would not be appropriate. If objections are raised by the instructor or department chair, the Office of the Registrar will be informed of the objection, and the student will not receive a "W" in the class. A tuition refund is not granted for a retroactive withdrawal.

## Student Academic and Grade Complaint Procedure

The student complaint procedure for resolving an academic or grade complaint:

## Step 1 (Faculty Member)

- The student must attempt to discuss the academic issue with the faculty member involved within 15 workdays after the issue has occurred or the grade within the first 15 workdays of the first regular semester (fall; spring) following the assignment of the grade.
- If the faculty member is no longer employed by the university, the student should go directly to that faculty member's department chair, who will attempt to contact the former faculty member concerning the academic issue or grade assigned. If the department chair is unable to facilitate communication between the former faculty member and the student, the student may proceed to step 2.
- If the faculty is employed by the university and declines to discuss the academic issue or grade with the student, the student may proceed to step 2.

## Step 2 (Department Level)

- If the student and the faculty member are unable to resolve the complaint, the student may take the complaint to the faculty member's department chair. Written notification of the complaint must be given to the department chair within two weeks after the meeting with the faculty member. If the faculty member is also the department chair, proceed to Step 3.
- The written notification to the department chair should clearly state what the student believes are the faculty member's unreasonable and/or unfair practices or procedures, and include any available documentation.
- The department chair may attempt to resolve the complaint by meeting with the student and faculty member separately to mediate the issue.
- If the department chair is unable to resolve the complaint in this way, a meeting will be arranged where the student, faculty member, and the department chair will be present for discussion.
- Neither the faculty member nor the student will be allowed representation at the meeting.
- The department chair shall hear both sides of the complaint and attempt to resolve the matter.
- If the department chair is unable to bring about an agreed upon resolution between the student and the faculty member, the department chair will issue a recommendation.
- The department chair shall create a written record of the meeting, including his/her recommendation. A copy of this record shall be provided to the student and the faculty member at the time the department chair's recommendation is issued to them.
- If the faculty member is no longer with WKU or refuses to participate, the decision of the department chair shall be followed.

## Step 3 (College Level)

- Should the student remain dissatisfied with the outcome of the academic issue or grade complaint at the departmental level, the student may continue the complaint to the college level.
- The student should notify the Dean of the College, or the Dean's designee, in writing, within two weeks following issuance of the department chair's recommendation, that the complaint remains unresolved.
- The written notification to the Dean of the College should include a copy of the department chair's record and recommendation, and clearly state what the student believes are the faculty member's unreasonable and/or unfair practices or procedures, and include any available documentation.
- The dean or dean's designee may attempt to resolve the complaint by meeting with the student, faculty member, and department chair.
- If those meetings do not resolve the student's concern(s), the Dean or Designee shall notify the College Complaint Committee:
- It is expected that a meeting will be scheduled to take place within two weeks after the submission of a written notification to the Dean of the College.
- The committee shall be composed of at least three faculty members and two student representatives and shall not include representation from the department of the faculty member mentioned in the complaint.
- If the notification is submitted at the end of a semester and convening the committee is not feasible within the stipulated two weeks period, the committee must be convened within the first two weeks of the first regular semester (fall; spring) following the Dean's receipt of the written complaint.
- Neither the faculty member nor the student will be allowed representation at the conference.
- All material presented at the meeting is considered subject to FERPA and confidential.
- The College Complaint Committee shall hear both sides of the complaint, and shall create a written record of the meeting. The student and faculty member may elect to remain in the meeting while the other presents his or her side of the complaint. The decision and its rationale shall be reduced to writing, with copies sent to the Dean of the College, the student, faculty member, and the faculty member's department chair.
- If neither party has appealed the Committee's decision after two weeks, the decision will be final. The Dean's office will be responsible for taking action required by the decision, if any.

## Step 4 (University Level)

- Should the student or the faculty member be dissatisfied with the decision of the College Complaint Committee, either may appeal the decision to the University level.
- The appealing party should deliver a written appeal to the Office of the Provost within two weeks following issuance of the College Committee's decision.
- The written appeal should include a copy of the College Committee's decision, and clearly state the basis for the appeal, including but not limited to, any unreasonable and/or unfair practices or procedures, and include any available documentation. Copies of the appeal should be delivered by the appellant to the party not appealing the College Committee decision.
- The Office of the Provost will coordinate and convene the University Complaint Committee.
- The student and faculty member will be provided with a copy of the University Complaint Committee's procedural guidelines.
- The University Complaint Committee will secure copies of the recommendations rendered by the department chair and the College Complaint Committee.
- The University Complaint Committee will schedule a conference where the faculty member and the student are present and will discuss the issue.
- Neither the faculty member nor the student will be allowed representation at the conference.
- All material presented at the meeting is considered subject to FERPA and confidential, and no new materials may be presented at this meeting. If new material is presented, the appeal will be referred back to the College Complaint Committee.
- The University Complaint Committee shall hear both sides of the complaint, and shall create a written record of the meeting. The decision and its rationale shall be reduced to writing, with copies sent to the Provost, the Dean of the College, the student, faculty member, and the faculty member's department chair.
- The Office of the Provost will see that decisions of the University Complaint Committee are carried out. The University Complaint Committee's decision is final.

## Out of State Distance Learners

Students enrolled in distance learning courses at WKU will follow the university complaints procedure outlined in this policy and may access additional resources through WKU Online https://www.wku.edu/online/ srp/studentcomplaint.php . Students may also review information in the WKU Student Handbook. If the issue is not resolved at the institution level, distance students may file a complaint with the Kentucky Council for Postsecondary Education http://cpe.ky.gov/ campuses/consumer_complaint.html. (http://cpe.ky.gov/campuses/ consumer_complaint.html) For out-of- state distance learning students, the next level in the complaint process is with the National Council for State Authorization Reciprocity Agreements (NC-SARA) https://nc-sara.org/student-complaints (https://nc-sara.org/student-complaints/). Additionally, students may file a complaint with WKU's accrediting body, The Southern Association of Colleges and Schools Commission on Colleges (SACS) by downloading the SACS Complaint Procedures Form (https://sacscoc.org/app/uploads/2020/01/ComplaintPolicy-1.pdf). Student complaints related to grades or student conduct may not be appealed to Kentucky Council for Postsecondary Education.

## Supplements

Supplements to this procedure may be issued during the school year to keep the University community advised of newly adopted programs and policies.

## Important Complaint Exceptions:

- Student Disability regarding denial of accommodations, report to

Student ADA Compliance Officer and follow WKU policy \#6.1010

- Discrimination and Harassment concerns, see below reporting process and follow WKU policy \#0.2040 and \#0.2070
- Discrimination is always reported to the Office of Equal Opportunity Employment (EEO)
- Student-to-student harassment is reported to Office of Student Conduct or the WKU Title IX Coordinator
- Student-to-faculty/employee harassment is reported to the Office of Equal Opportunity Employment (EEO).

## Degree Requirements

Curriculum Requirements
All candidates for a degree must complete one of the academic programs offered by the University. A candidate for an associate degree must complete a minimum of 60 unduplicated undergraduate semester hours; however, some associate degree programs may require more than the minimum 60 semester hours. A candidate for the baccalaureate degree must complete a minimum of 120 unduplicated undergraduate semester hours; however, some baccalaureate degree programs may require more than the minimum 120 semester hours. Students should be aware that some academic programs may require additional scholastic regulations and standards not specified in the catalog. To obtain these regulations, students should contact the appropriate department chair.

## Catalog Term and Student Catalog Rights

The student's initial term of entry is identified as the student's "catalog term." Catalog term rights include the following:

- A student shall be entitled to follow Colonnade and major / minor degree requirements contained in the catalog current when first enrolled at WKU as a degree-seeking student. This does not preclude the addition of requirements arising from action of the Commonwealth of Kentucky.
- A student will be allowed seven consecutive years from his / her catalog term to complete degree requirements. The college dean may grant an extension to this deadline.
- A student who drops out and re-enrolls after an absence of seven consecutive years or more will be assigned the catalog term of the readmission term.
- A student's catalog term will be changed to a more recent term if the student, in consultation with the advisor and with approval by the department chair, agrees to follow more recent degree requirements.

Academic departments reserve the right to authorize appropriate course substitutions for earlier versions of major / minor requirements in which required courses have been discontinued.

## Academic Standing

A candidate for an undergraduate degree must have a GPA of at least 2.0 (1) in all credits presented for graduation whether earned at WKU or elsewhere, (2) in all credits completed at WKU, (3) overall in the major subjects and in the minor subjects, and (4) in the major subjects and in the minor subjects completed at WKU. Students desiring teacher certification must fulfill all GPA requirements for teacher certification
in the major and minor, in addition to meeting the requirements for graduation.

Students should be aware that some academic programs require a "C" or higher in each course applicable toward a major or minor. Refer to the departmental descriptions in this catalog or contact the department chair to determine the specific grade requirements for each major.

## Change of Major, Minor, Concentration, and/or Advisor

Changes in majors, minors, concentrations, and advisors can be made upon request. Students must submit a Major, Minor, Concentration, Advisor Change Form to the academic department that administers the student's chosen program. The form is available online for students in TopNet (Student Services, Student Records, Change of Major, Minor, Concentration, Advisor). Changes in majors, minors, concentrations, and advisors are provisional until the receiving department has reviewed and accepted the request.

## Course Requirements

At least one-third of the course requirements in each major and minor must be earned through instruction at WKU.

At least one-half of the semester hours required for each major and minor must be earned in undergraduate courses numbered 300 and above (except minors in business administration and computer information systems, and majors in dental hygiene, social studies, art education, and middle grades education; refer to the specific program description for details).

A minimum of 42 undergraduate semester hours must be completed in upper division courses (courses numbered 300 or above) by students earning a baccalaureate degree. Students transferring with an applied associate degree (e.g., Associate in Applied Science or its equivalent) into the following majors must complete a minimum of 30 undergraduate semester hours in upper division courses: computer information technology, dental hygiene, health sciences, nursing, organizational leadership, technology management, and workforce administration; refer to each specific major description for more details.

## Double Majors

Students with diverse or multiple areas of interest might consider adding breadth to their academic program by choosing to pursue double majors. Students pursuing double majors must fulfill all of the requirements for both majors and all baccalaureate degree requirements, and the requirements may be completed with a minimum of 120 semester hours. Completion of two majors results in the receipt of one degree, and the specific degree is determined by the student's choice of the first or primary major.

## Certificate Programs

Only undergraduate courses may be used to fulfill undergraduate certificate program requirements. A minimum GPA of 2.0 must be earned in total course work required for the certificate program, in addition to a minimum cumulative 2.0 GPA and a minimum 2.0 GPA earned in WKU coursework. For more information about undergraduate certificate programs, please refer to the Definitions and Programs sections of the undergraduate catalog.

## Residence Requirements

The minimum residence requirement for the bachelor's degree is $25 \%$ of the minimum number of semester hours required in the student's degree program through instruction at WKU. The minimum residence requirement for an associate degree is $25 \%$ of the minimum number of semester hours required in the student's degree program through instruction at WKU. One-third of the hours in the specialty must be earned at WKU. For undergraduate certificates, a minimum of $50 \%$ of hours toward the certificate must be earned at WKU.

## Residence Credit for Graduation

Undergraduate residence credit is any academic credit for which WKU provides the instruction and awards credit placed on the students' transcript. Nonresidence credit is academic credit which WKU accepts as transfer credit from another college or university, including credit earned through examinations, such as, AP, Cambridge, CLEP, Departmental Exam, Military Service, ACT, SAT, or IB.

## Concurrent and Subsequent Degrees

Students may pursue two or more degrees either concurrently or subsequently, as specified below.

## a. Concurrent (Dual) Associate Degrees

- A minimum of 75 semester hours must be earned to complete the requirements of two associate degrees concurrently.
- Courses taken toward fulfilling one associate degree may also count toward fulfilling requirements in the other, provided that a minimum of 15 semester hours of coursework in the additional major - not including general education - applies exclusively to the additional concurrently earned associate degree.
- A minimum of 15 semester hours must be earned through instruction at WKU.
- A minimum 2.0 grade point average must be earned for all coursework presented in completion of both degrees; in all coursework completed at WKU; and in all coursework in the major.
- Students may pursue concurrent degrees that lead to the same degree type (e.g., two Associate of Science degrees)
- Students must file a separate Application for Graduation and pay the graduation fee for each degree. Two diplomas will be awarded upon simultaneous completion of the two degrees.

## b. Subsequent Associate Degree

- Students must have earned an acceptable associate or higher degree from a fully accredited college or university.
- The approved program must include a minimum of 15 semester hours in a new major earned after completion of the student's first degree.
- A minimum of 12 semester hours must be earned through instruction at WKU.
- A 2.00 grade average must be earned for all coursework presented in completion of the program; in all coursework completed at WKU; and in all coursework in the major.

## c. Concurrent (Dual) Baccalaureate Degrees

- A minimum of 150 semester hours must be earned to complete the requirements of two baccalaureate degrees concurrently.
- A minimum of 57 upper division hours must be earned (courses numbered 300 or above).
- A minimum of 30 hours must be earned through instruction at WKU.
- A minimum 2.0 grade point average must be earned in all coursework presented in completion of the degrees; in all coursework completed at WKU; and in all coursework in each major and minor.
- Students may pursue concurrent degrees that lead to the same degree type (e.g., two Bachelor of Science degrees).
- Students are not permitted to pursue the Bachelor of Interdisciplinary Studies (BIS) and another baccalaureate degree concurrently.
- Students must file a separate Application for Graduation and pay the graduation fee for each degree. Two diplomas will be awarded upon simultaneous completion of the two degrees.

## d. Subsequent Baccalaureate Degree

- Students must have earned an acceptable baccalaureate degree from a fully accredited college or university.
- The approved program must include a minimum of 30 semester hours earned after completion of the student's first degree. A minor may be declared as part of the subsequent degree, but is not required.
- A minimum of 24 semester hours must be earned through instruction at WKU.
- Fifteen semester hours must be earned in completion of a new major.
- One-half of the new semester hours presented in completion of each major and minor must be earned at the upper division level (courses numbered 300 or above).
- A minimum 2.00 grade average must be earned for all coursework presented in completion of the program; in all coursework completed at WKU; and in all coursework in each major and minor.
- Students are not permitted to pursue the Bachelor of Interdisciplinary Studies (BIS) as a subsequent baccalaureate degree.

## Degree Conferral

Degrees are conferred in May, August and December. All forms must be completed, all incompletes must be removed, all transfers of credit received, and all WKU On Demand (independent learning) courses completed by the last day of the month in which the degree is to be awarded. Failure to comply could result in postponement of the graduation date. Students completing degree requirements during any of the summer sessions (i.e., May, June, July) will receive an August degree conferral. Students completing degree requirements during the winter term will receive a May degree conferral.

Students with outstanding obligations to the University will not be awarded a diploma until the University Registrar has been notified by the appropriate office that the obligation has been settled. The student must,
in all cases, be primarily responsible for meeting the requirements for graduation.

## Application for Graduation

All candidates for a baccalaureate degree are expected to apply for graduation immediately after attaining senior status (i.e., 90 hours earned). Associate degree candidates are expected to apply for graduation after earning 45 hours. The Application for Graduation is available on TopNet under Student Records.

## Culminating Assessment

Students are required to show evidence of knowledge in their major field(s) prior to degree completion. Each program will require students to provide evidence that standards have been met through portfolio, examination, capstone course, juried performance, or other culminating experiences.

## Recognition of Academic Achievement

The University provides a system through which students with outstanding academic records are appropriately recognized. Students are recognized according to the following categories each semester.

## Dean's Scholars

Undergraduate students enrolled full-time whose grade point average for the preceding semester ranged between 3.40-3.79.

## President's Scholars

Undergraduate students enrolled full-time whose grade point average for the preceding semester ranged between 3.80-4.00.

Students who maintain superior cumulative grade point averages are recognized at graduation according to the following designations:

## With Distinction

The graduation honor given to students who have completed their associate degree with both cumulative overall and cumulative WKU grade point averages of 3.4-3.69.

## With High Distinction

The graduation honor given to students who have completed their associate degree with both cumulative overall and cumulative WKU grade point averages of 3.7-4.0.

## Cum Laude

## Summa Cum Laude

The graduation honor given to students who have completed their baccalaureate study with both cumulative overall and cumulative WKU grade point averages of $3.80-4.00$.

## Scholar of the College

This award is presented at commencement to the baccalaureate degree recipient in each college with the highest overall cumulative grade point average who has earned a minimum of 60 semester hours through instruction at WKU. The Scholar of the College award is presented to recipients of first baccalaureate degrees only.

## Ogden Foundation Scholar

The Ogden Foundation Scholar Award is presented to one graduating baccalaureate degree senior who has demonstrated exceptional academic achievement and outstanding university and civic engagement. Student(s) with the highest GPA in each college (based upon the GPA at the beginning of the semester in which degree requirements will be completed) who have earned at least 60 hours through instruction at WKU will be invited to apply for the award. The application will consist of an application form, an essay and two letters of recommendation. A committee comprised of a representative of each baccalaureate college and a member of the Ogden Foundation Board of Trustees will select the top three candidates to be interviewed and will select the award recipient. The recipient will receive a plaque and a monetary award provided by the Ogden Foundation.

## Exceptions to Degree Requirements

No substitution for requirements prescribed by the Kentucky Council on Postsecondary Education may be made. Substitutions for departmental requirements may be made under certain conditions when recommended by the department chair concerned and approved by the dean's office.

Appeals regarding degree requirements may be submitted to the Office of the Registrar for consideration by the Committee on Credits and Graduation. This committee is the body responsible for hearing undergraduate students' appeals of university academic requirements and regulations. Appeals must be submitted by the student in typed form to the Office of the Registrar. The request should include the statement of the problem, statement of request, and justification of circumstances supporting the request. Statements of support or clarification from the student's academic advisor are encouraged if the problem resulted from the advisement process. When a request pertains to an exception in a major or minor, the student should consult with the appropriate department chair for a written recommendation to the committee. Decisions of the committee shall be made by a simple majority of the voting members in attendance. Detailed information regarding the submission of an appeal is available from the Office of the Registrar and on the Office of the Registrar website at http://www.wku.edu/registrar (http://www.wku.edu/registrar/).

## World Language Proficiency

All entering students must demonstrate proficiency in a world language at the Novice High level before completing 60 credit hours. Novice High is the ability to communicate in writing and speaking on familiar topics in simple sentences. To meet this requirement, students can do one of the following:
a. All degree-seeking students with two credits (or equivalent) of high school world language are considered to have fulfilled the world language proficiency requirement at WKU. A high school transcript is required to verify coursework.
b. Enroll in a new language not previously studied and complete the language course at the 101 and 102-level (or higher, excluding SPAN 200 and SPAN 105 courses of any language prefix) with a grade of $C$ or better. Language options include Arabic (ARBC), Chinese (CHIN), French (FREN), German (GERM), Italian (ITAL), Japanese (JAPN), Korean (KORE), Russian (RUSS), Spanish (SPAN), or Swahili (SWAH). The following languages offered outside the Modern Languages Department also fulfill this requirement: American Sign Language (ASL 102 or higher), Chinese Flagship (CHNF 101 or higher), Greek (RELS 155/BLNG 155), Hebrew (RELS 153/BLNG 153), Latin (RELS 151), and Pali II (RELS 157).
c. Continue a language taken previously and complete the 102-level of the language with a grade of $C$ or better. See the list of courses mentioned above, the course descriptions in the back of this catalog, or the website for a comprehensive listing (which includes newly approved courses): http://www.wku.edu/colonnade/.
d. Successfully complete a proficiency test; such as the AP, CLEP, IB, AAPPL, Avandt STAMP, BYU FLATS, or departmental exam. Information on the AP, CLEP, IB, and departmental exams are available in the "Credit by Exam" section of the undergraduate catalog. The AAPPL, Avant STAMP, and BYU FLATS information is found on the http://www.wku.edu/colonnade (http://www.wku.edu/colonnade/) site.

For more information about the World Language Proficiency Requirement, visit http://www.wku.edu/modernlanguages/placement/.

The general education world language requirements will be waived for students whose first language is not English. To demonstrate non-English proficiency students can do one of the following:
a. International students from non-English speaking countries can receive the waiver from the International Student Office (request at https://www.wku.edu/international/istart_help.php).
b. Domestic students, and international students from English speaking countries, have several options to demonstrate proficiency in a language other than English:

- Successfully complete one of the proficiency exams mentioned above (\#3).
- Provide evidence of the completion of the 8th grade, or equivalent, or higher in which the primary language of instruction was not English.
- Other documentation (tests, diplomas, other official documents) that demonstrate language abilities.

NOTE: The waiver form at http://www.wku.edu/colonnade (http:// www.wku.edu/colonnade/) should be utilized to document school attendance or other documentation.

## World Language for Returning Students

Students who begin their college career as degree-seeking students during the 2004 summer term and thereafter will be required to take the second semester level or higher foreign language course.

Students who begin their college career as degree-seeking students before the 2004 summer term are required to take one level of a foreign language.

## Kentucky General Education Transfer Policy

The revised Kentucky General Education Transfer Policy (2012) outlines the purpose and guidelines for the transfer of general education across Kentucky's public postsecondary institutions. WKU supports the policy. For more details see: http://cpe.ky.gov/ policies/. In accordance with KRS 164.2951 an appeal process regarding statewide general education transfer credit is available. The transfer credit petition can be found here: https://www.wku.edu/ transfer/transferpetition.php and more details on the transfer appeal process can be found here: cpe.ky.gov/policies/academicaffairs/ transferappealsprocess.pdf (https://www.google.com/url/? sa=t\&rct=j\&q=\&esrc=s\&source=web\&cd=1\&ved=2ahUKEwiav9zVOajjAhUILs0KHZY1 $\% 3 A \% 2 F \% 2 F c p e . k y . g o v \% 2 F p o l i c i e s \% 2 F a c a d e m i c a f f a i r s$ \%2Ftransferappealsprocess.pdf\&usg=AOvVawOpQ3JI5Q6eMhRVe26_8H10).

## Credit by Examination and Prior Learning Assessment

The credit hours earned through these examinations will count toward graduation, but will not apply to WKU residence credit or be used to compute grade point averages since a letter grade will not be given. Additional information about the exams may be obtained by clicking on the underlined course title in the charts below.

Although students may receive credit hours through any of these seven programs, duplicate credit may not be earned. For example, a student who earns credit hours for English 100 through the AP program may not receive additional credit for English 100 on the ACT exam, on a departmental exam, or on the CLEP exams.

High school seniors should take CLEP and ACT or SAT examinations by February at the latest so the results may be available for use in selecting courses during the March or June Topper Orientation Program.

The Office of the Registrar notifies students of their eligibility for credit upon receiving an application for admission and the official test score report. Students will receive the credit during the first semester of enrollment.

Credit awarded for these exams will apply toward the WKU General Education categories as indicated. For detailed information refer to the General Education section of the catalog. Credit for these exams will also apply toward the Kentucky Statewide General Education categories as indicated. The categories are: Written Communications (WC) and Oral Communications (OC), Arts and Humanities (AH), Social and Behavioral Sciences (SB), Natural Sciences (NS), Natural Sciences Lab (SL) and Quantitative Reasoning (QR).

## Advanced Placement Program (AP)

Students may earn college credit through the Advanced Placement Program of the College Board upon attaining the minimum score on the AP examination. AP credit will not count toward WKU residence credit.

Official scores may be obtained on-line at http://www.collegeboard.com or by contacting:

## Cambridge International Examinations (AICE)

Cambridge International Examinations provide curriculum for High Schools at advanced levels that offer learners a broad range of AS-level \& A-level subjects. Students who participated in the Cambridge Advanced (AICE) program may be awarded Colonnade general education or other WKU credit. An official certifying AICE transcript is required. Evaluation of credit and recommendations are determined by the appropriate WKU academic department.

The grade necessary to earn WKU credit, the corresponding course, and the credit hours which may be earned appears below. The acceptable grade for credit may vary between courses and the level of the exam taken. Credit hour equivalencies are reviewed annually by academic units.

College Level Examination Program (CLEP)
The CLEP examinations may be taken each month at any national testing center, including the testing center at WKU. Information about CLEP may be obtained by writing: CLEP, CN 6600, Princeton, New Jersey 08540-6600, or accessing on-line information at http:// www.collegeboard.com, or by contacting: Distance Learning Testing Center, Western Kentucky University, Bowling Green, Kentucky 42101, (270) 745-5122. The following code number should be used to have scores sent to WKU: CLEP-1901.

Students may register for CLEP examinations at WKU by contacting the Distance Learning Testing Center or by going online to http:// www.registerblast.com/wku (http://www.registerblast.com/wku/).

Students applying to WKU should have their scores sent to the Office of Admissions. Students currently enrolled at WKU should request their scores be sent to the Office of the Registrar. The appropriate office will then notify applicants who qualify for academic credit.

## Policies

a. A student who has completed a course or has received credit by examination at WKU or at another accredited college or university may not receive credit for a CLEP examination of similar content.
b. A student may not take a CLEP examination for credit after having taken a college course at a higher level in the same department (subject matter area).
c. A student may establish credit in all courses or areas in which he/ she is able to demonstrate proficiency, provided he/she meets the University's residence requirements for graduation. The credit earned will not count toward WKU residence.
d. A student who fails to earn credit on a CLEP examination may not repeat the same examination within three months of the initial testing date.

#### Abstract

e. A student may not repeat by proficiency testing a course which has been previously taken or failed at WKU or another accredited institution.

## Departmental Credit By Examination

Students enrolled at WKU may also receive credit on the basis of departmental examinations, also called departmental comprehensive proficiency assessments. A student may take a departmental comprehensive proficiency assessment in any course listed as satisfying a requirement in any of the categories of general education. Departments may offer departmental comprehensive proficiency assessments in other courses at their discretion.

To assess student proficiency, a department may adopt either a standardized examination available from outside the University or develop an appropriate comprehensive proficiency examination within the department by means of a faculty committee. Departmental comprehensive proficiency assessments may be written, oral or both.

To be eligible to take a departmental comprehensive proficiency assessment, a student must be fully matriculated, in good standing, and regularly enrolled at WKU. Credits earned in this manner will be recorded on the student's official transcript as non-residence credit but will not be considered as a part of the normal semester load in the term in which the examination is taken. A student may not register for a departmental comprehensive proficiency assessment for a course while he or she is enrolled in that course. A student may not take a departmental comprehensive proficiency assessment in a course which has been previously taken at WKU or at another accredited institution.

A student desiring to take a departmental comprehensive proficiency assessment must complete an appropriate request form in the Office of the Registrar. A fee of $\$ 25$ per credit hour must be paid at the time the form is submitted. The form must be submitted to the Registrar prior to the end of the third week of classes in either the fall or spring semesters. The Registrar will notify the appropriate department of the student's request. The department will administer the comprehensive proficiency assessment during the seventh week of classes. The student must obtain the specific time and place for testing from the department chair.

After the assessment has been completed, the department chair will notify the Registrar in writing as to whether or not the student demonstrated acceptable proficiency. If the department recommends credit be granted, the semester hours earned will be recorded on the official transcript. However, the credit will not be used in computing the grade point average since letter grades will not be assigned.

## Military Service Credit

WKU strives to be a military friendly institution that will provide military personnel the ability to attend WKU and receive college credit for formal courses and primary occupations offered while in the military. WKU awards college credit based on the American Council on Education (ACE) Guide recommendation, and the credit will count as non-residence credit. Active duty soldiers or military veterans are required to submit official military transcripts prior to admission. Any soldier who is retired or discharged from the military will be required to submit their official
military transcripts and a copy of the DD form 214 (Certificate of Release or Discharge from Active Duty of Service) member copy 4. The DD 214 must have characterization of service listed on the form. The DD 214 Form may be requested at http://www.archives.gov/veterans/military-service-records/. Official military transcripts may be requested at https:// jst.doded.mil/. (https://jst.doded.mil/)

## Prior Learning Assessment

Students who have acquired extensive college-level knowledge and skills in academic areas including but not limited to employment, military experience, civic activities, volunteer service, organizational training or workshops, or other non-traditional means may be granted credit for the knowledge and skills they have gained through nationally standardized exams (AP, CLEP, IB, ACE, etc.), departmental assessments, or portfolio development and evaluation. This policy focuses on portfolio development and evaluation. This policy focuses on portfolio development and evaluation, while referencing national and departmental assessments when appropriate.

Prior learning by portfolio evaluation is considered an opportunity for students to demonstrate their knowledge and is not a guarantee of credit for experience. Students will complete a portfolio of their prior learning as a part of a portfolio development course, IDST 250, taught by an instructor who has undergone training by the Council for Adult and Experiential Learning (CAEL). Please note: the three credits earned in IDST 250 will count toward residence, while the prior learning credit awarded will be treated as non-residence credit. The portfolio, with varying forms of documents, will tie content learning outcomes to the knowledge and skills students have acquired through experiential learning. Credit earned will depend upon the student's ability to produce a portfolio that communicates learning outcomes consistent with the WKU mission on the level expected for the credit sought. Before registering for this course, students will consult with the instructor to evaluate the feasibility of seeking credit in a particular area.

The student will identify a maximum of two content areas for which credit is being sought, and his or her portfolio will be submitted to two fulltime WKU faculty members, at least one from each area for which the student is seeking credit, upon successful completion of the course. These faculty experts will review the portfolio and determine if and how much academic credit is to be granted, as well as whether the credit should be given for a specific course, or for non- course-specific credit. The consensus recommendation of the reviewers must be approved by the department chair(s) and dean(s) of the college(s) concerned, and then will be forwarded to the Office of the Registrar to transcript recommended credit.

The portfolio development course, IDST 250, may be repeated for a maximum of three credits. The total number of Prior Learning credits applied toward a WKU credential cannot exceed a quarter of the total hours in the credential. For additional information, please contact: the School of Professional Studies at (270) 745-8973 or visit www.wku.edu/ pla (http://www.wku.edu/pla/).

## Articulated Credit Pathways

WKU has an articulation agreement with the Kentucky Department of Education, Office of Career and Technical Education (KDE) to allow students who complete a career pathway and who meet designated criteria to earn college credit at WKU. Students may earn college credit through the Articulated Credit Pathways upon attaining the required score on the CTE End- of-Program Assessment. Earned credit will not count toward WKU residence credit. There will be no charge to students for any
articulated credit covered in this agreement. To be eligible for credit, a student must:

- complete a minimum of 3 high school credits for courses aligned with the Secondary (K-12) State-Approved Career Pathway in the subject area with a GPA of 3.0 or higher or letter grade of B or higher,
- pass the aligned CTE End-of-Program Assessment, inform WKU that they were part of the articulation agreement with their secondary school by supplying appropriate documentation from that school's designated personnel,
- and enroll at WKU within 5 years of graduation.
- Additionally, some departments may require a student to complete credit hours in their particular major at WKU before credit may be awarded i.e., Early Childhood Education, Interior Design and Fashion Merchandising, and Hospitality Management and Dietetics.

Evaluation of credit and recommendations are determined by the appropriate WKU academic department. The corresponding course and the credit hours which may be earned appears below. Credit hour equivalencies are reviewed as needed by academic units.

| Articulated Credit <br> Pathway | WKU Course <br> Equivalency | Credit Hours |

## Transfer of Credits

Undergraduate students transferring to WKU are required, as a part of the admission process, to provide the Office of Admissions with official transcripts from all previously attended institutions.

Credits earned at other accredited American institutions of higher education may be transferred to WKU and applied toward a degree. The "Transfer Credit Practices" report published by the American Association of Collegiate Registrars and Admissions Officers will be the reference used for the evaluation of such credits.

Students who previously earned course credit from a non-regionally accredited institution may petition for recognition of that credit. Consideration will be given to courses whose content suggests competencies at least equivalent to courses offered by WKU. For more information see: http://www.wku.edu/admissions/transfer/ transfercredit.php.

Courses completed at a baccalaureate degree granting institution will be accepted for transfer credit at the level of the equivalent WKU course. Courses completed at a community or junior college will transfer to WKU as lower division credit only, even if WKU offers a comparable course at the upper division.

Acceptance of transfer credits for a particular major, minor, or certificate is subject to approval by the appropriate academic department.

WKU accepts transfer grades, and those grades will be recorded onto the WKU transcript and computed into the student's overall GPA. Transfer work submitted will be equated to our internal scale and denoted as such on your record. Some academic departments require a minimum grade of " C " in each course applicable toward a major. Refer to the departmental descriptions in this catalog or contact the department chair to determine the specific requirements for each major. Credit for a course in which a failing grade has been received can be earned only by repeating the course in residence unless prior written approval is granted by the chair of the department in which the course is offered.

When a transcript from an accredited institution records credit granted for educational experiences, the credit will generally be accepted in transfer. Approved educational experiences include: credit by exam, advanced placement, prior learning credit, and dual credit high school work. WKU does not accept developmental coursework for degree credit. The student's academic department will decide how and whether the credit applies to degree requirements for a particular major, minor, or certificate. WKU supports the CPE policy which outlines acceptable AP and CLEP scores. The complete CPE policy is available at http:// cpe.ky.gov/policies (http://cpe.ky.gov/policies/). A list of WKU AP/CLEP equivalencies is available at http://catalog.wku.edu/undergraduate/ academic-information/credit-examination (http://catalog.wku.edu/ undergraduate/academic-information/credit-examination/).

Graduation honors (e.g., cum laude) are based upon students earning a minimum of 45 hours in residence for baccalaureate degrees and a minimum of 27 hours in residence for associate degrees.

The minimum residence requirement for the baccalaureate degree and associate degree is $25 \%$ of the minimum number of semester hours required in the student's degree program, earned through instruction at WKU. At least one-third of the hours in the major and minor must be earned at WKU.

## Kentucky General Education Transfer Policy

The Kentucky General Education Transfer Policy (2012) provides guidelines for the transfer of general education coursework between Kentucky public postsecondary institutions. The policy guarantees that if a student completes an associate (AA or AS) degree or some general education coursework at a KCTCS college, any Kentucky public university will accept their general education credits as meeting lower-division general education requirements.

The transfer of general education credits is predicated on the acquisition of competencies in broad academic areas, rather than a comparison of individual courses taken at one institution or another.

The five broad categories are: 1) Arts and Humanities (AH), 2) Communications: Written Communication (WC) and Oral Communication (OC), 3) Natural Sciences: (NS), plus Science Lab (SL), 4) Quantitative Reasoning (QR), and 5) Social and Behavioral Sciences (SB).

The sending institution will indicate, either on the transcript or as an attachment to the transcript, whether the student is Fully Certified, Core Certified, or Category Certified in general education, or if they have completed any of the coded general education courses (i.e., AH, NS, OC, $Q R, S B, S L$, and $W C$ ) at their institution.

- Fully Certified - All general education requirements are completed (AA and AS degrees guarantee full certification).
- Core Certified - The 30 hours of core general education is completed, and remaining general education requirements of the receiving institution are still required.
- Category Certified - One or more of the above categories is complete (e.g., AH Category Certified is interpreted as no additional courses are required in the AH category).
- Course Certified - The category is not complete, but a course in that category applies to that category.

Questions pertaining to the Kentucky General Education Transfer Policy should be directed to the Transfer Center, Downing Student Union 2135, (270) 745-2178, tranfser@wku.edu (transfer@wku.edu). The full CPE General Education Transfer policy can be viewed at the following link: http://cpe.ky.gov/policies (http://cpe.ky.gov/policies/).

## General Education Transfer Policy from States other than Kentucky

Students who complete an associate degree containing 30 unduplicated semester credit hours of General Education (typically an Associate of Arts [AA] or an Associate of Science [AS]) from a regionally accredited institution outside Kentucky are considered to have fulfilled all WKU Colonnade General Education requirements. In addition, students who have fully completed the general education requirements at a regionally accredited four-year institution outside Kentucky are considered to have fulfilled all WKU Colonnade General Education requirements if, and only if, the general education program contains 30 or more unduplicated semester credit hours. In both cases, these credit hours are to be drawn from and include at least one course from each of the following areas: humanities/fine arts, social/behavioral sciences, and natural science/ mathematics.

## General Education Transfer Policy for Institutions that Close

Students who complete all General Education requirements containing 30 unduplicated semester credit hours toward a Bachelor's degree from a regionally accredited institution that is closing or has closed are considered to have fulfilled all WKU Colonnade General Education requirements. These credit hours are to be drawn from and include at least one course from each of the following area: humanities/fine arts, social/behavioral sciences, and natural science/mathematics.

## Transfer Student Services

Upon admission and receipt of all transcripts, the student's transfer credit will be recorded into the university's student information system and will be available online at http://www.topnet.wku.edu (http:// www.topnet.wku.edu/) and in WKU's automated degree audit system. Students and academic advisors may view course articulation (or equivalency) on their degree audit prior to the student's participation in the Topper Orientation Program (TOP). The degree audit serves as the official assignment of credits to WKU Colonnade General Education Requirements; however, acceptance of transfer credits for a particular major, minor, or certificate is subject to approval by the appropriate academic department. Students may petition WKU departments to determine if a course should be equivalent to a WKU course.

## Transfer Academic Plans

To assist associate degree recipients in understanding the courses needed to complete a baccalaureate degree at WKU, a variety of Transfer Academic Pathway Plans have been established. A list of the specific degree programs and pathway plans are available at https:// www.wku.edu/transfer/plans.php.

## Formal Articulation Agreements

Formal articulation agreements are mutually beneficial partnerships with colleges and universities developed to match coursework between institutions to help students make a smooth transition from other institutions. These agreements specify how transfer credit will be applied toward general education or other degree requirements. WKU's formal articulation agreements are available at http://www.wku.edu/ academicaffairs/pd/articulation.php.

## International Transfer Credit

Transfer credit from foreign educational institutions may be granted after a determination of the type of institution involved, its recognition by the educational authorities of the foreign country, and an evaluation of the content and level of the courses. Extensive use is made of professional references which describe the educational systems and programs of individual countries.

Students who have attended an educational institution located outside of the United States will need to request all schools attended to send the official transcript(s) directly to Western Kentucky University. Some educational institutions do not issue transcripts to other schools; instead they issue transcripts or the original certificate/mark sheet to students. In this case, students must make a photocopy of the original transcript/ certificate/mark sheet and have the school attended (or a certified translation service firm) certify/attest that the photocopy is a true copy of the original document. Consulates and embassies often serve as a resource for the attestation of educational documents. Students on WKU's campus may bring the original transcript(s) or document(s) to the International Admissions Office for review and verification. For more information, contact isss@wku.edu.

## WKU Students who Study Abroad

Transfer credit is awarded upon receipt of an official transcript from an international institution, only if the study abroad experience was preapproved by the Office of Study Abroad and Global Learning. Transfer credit will be converted to semester hours, and all courses and grades are transferred. Additional information is available at http://www.wku.edu/ studyabroad/academic_credit.php.

## WKU Students who Enroll Elsewhere

WKU students occasionally enroll in courses at other institutions, usually during the summer term or through the "Study Away" program. Prior to such enrollment, students should access the online transfer equivalency guide available through the Transfer Center website (see View Transfer Credit Equivalencies at http://www.wku.edu/transfer/transferhow.php. This site provides the exact equivalency by course between institutions, if the course has been articulated. Approval for credits to be applied to WKU Colonnade General Education Requirements is provided by the Analyst for Transfers within the Transfer Center, and will appear on TopNet and the degree audit. Approval for transfer courses to be applied to a major, minor, or other programs should be obtained from the appropriate academic department.

Questions pertaining to transfer policies, services, or procedures should be directed to the Transfer Center, Downing Student Union 2135, (270) 745-2178, transfer@wku.edu.

## Academic Definitions

Academic Program - is a combination of courses and related activities organized for the attainment of broad educational objectives that lead to a certificate or diploma or an associate's, bachelor's, master's, specialist, or doctoral degree (CPE, 2011).

Degree - is an award conferred by a postsecondary education institution as official recognition for the successful completion of an academic program (CPE, 2011).

Associate's Degree - is an award that normally requires at least 60 semester credit hours or the equivalent (CPE, 2011).

Bachelor's Degree - is an award that normally requires at least 120 semester credit hours or the equivalent. This includes all bachelor's degrees conferred in a five-year cooperative (work-study) program and degrees in which the normal four years of work are completed in three years (CPE, 2011).

Undergraduate (pre-baccalaureate) Certificate - - is a sub-baccalaureate credential granted upon satisfactory completion of a coherent course of study that is compatible with the stated mission and goals of WKU and appropriate to the field of higher education (SACSCOC). Certificates should lead to the acquisition of a defined set of skills or expertise that will enhance employability or meet a professional development need. A certificate may be earned as a standalone credential. Please refer to the Degree Requirements and Programs sections of the undergraduate catalog to learn more about undergraduate certificate programs at WKU.

Major - is a primary area of study defined by a set of course and / or credit hour requirements within a specified discipline or with a clearly defined multi-disciplinary focus (CPE, 2011). Minors are only available to students seeking a baccalaureate degree.

Minor - is a secondary area of study that is separate from the major and is defined by a set of course and / or credit hour requirements within a specified discipline or with a clearly defined multi-disciplinary focus (CPE, 2011).

Concentration - is a set of courses designed to develop expertise within a major (CPE, 2011). The Kentucky Council on Postsecondary Education (CPE) defined specific terminology for a set of courses designed to develop expertise within a major, and the term varies by degree level. Track is the specified term at the undergraduate level, Concentration
at the master's level, and Specialization at the doctoral level. Tracks, Concentrations, and Specializations are noted in the WKU catalog, TopNet, degree audit, and on the WKU transcript as "Concentration."

The Kentucky Council on Postsecondary Education approves new academic programs and in 2011 developed New Academic Programs: Policy and Procedures (http://cpe.ky.gov/ policies/academicprograms.html). Within the new policy are definitions noted above.

## Academic Degree Types

## Baccalaureate Degrees

Western Kentucky University confers seven baccalaureate degrees: Bachelor of Arts, Bachelor of Science, Bachelor of Interdisciplinary Studies, Bachelor of Fine Arts, Bachelor of Music, Bachelor of Science in Nursing, and Bachelor of Social Work. To determine the degree awarded upon the completion of a specific program of study, consult the chart found under "Major Programs of Study" on the following pages.

AB (Artium Baccalaureus/Bachelor of Arts) degrees typically emphasize the social sciences, arts, humanities, and foreign languages. The degree is intended to advance student understanding of human culture through examination of historical, social, religious and political contexts; analysis of ideas; appreciation of art and creative endeavors; knowledge of philosophical theories; and achievement of language competency. AB requirements typically promote broad preparation within a discipline.

BS (Bachelor of Science) degrees typically emphasize the natural sciences, mathematics and technology. The degree is intended to advance student preparation in reasoning, analysis, experimentation and the application of scientific principles in problem-solving consistent with professional or technical preparation. BS requirements typically promote depth of preparation within a discipline.

BIS (Bachelor of Interdisciplinary Studies) provides an alternative baccalaureate degree program for students who do not need or desire the academic specialization involved in traditional major or major/ minor programs. This degree program allows considerable latitude and flexibility to satisfy individual interests and needs.

BFA (Bachelor of Fine Arts) is the initial professional degree in fine arts. It prepares students for a professional studio practice through an intensive artistic and academic experience. Students develop strong personal concepts along with technical proficiency creating a cohesive body of work on which to base an individual, sustainable studio practice.

BM (Bachelor of Music) provides intensive study in music leading to three distinct P-12 teaching certifications (vocal, instrumental, integrated) or a performance degree that supports private studio teaching or graduate study.

BSN (Bachelor of Science in Nursing) is an entry-level degree for professional nursing. It prepares the graduate to be a professional nurse who can practice in a variety of settings and who has the knowledge base to pursue graduate study in nursing.

BSW (Bachelor of Social Work) is the only undergraduate major that educates students to be professional social workers. BSW graduates are prepared for immediate entry into direct human service professional positions. They possess the intellectual, practical and professional skills needed to promote beneficial change in the lives of their clients.

A baccalaureate degree requires a minimum of 120 unduplicated semester hours, according to one of the following options:

- Students with a major that is 48 hours or more are not required to declare a second major or minor, unless specified by the department.
- Students with a major below 48 hours must select a second major or minor. Students who select a major and minor combination must have 54 hours total between the major and minor and 48 hours unduplicated.
- Students pursing the Bachelor of Interdisciplinary Studies are required to select an emphasis of study and may also select a minor. No hours may be duplicated between the emphasis and minor.
- A certificate of 12 or more semester credit hours may substitute for "minor" in all the above

## Associate Degrees

Western Kentucky University confers four associate degrees: Associate of Arts, Associate of Science, Associate of Science in Nursing, and Associate of Interdisciplinary Studies. To determine the degree awarded upon the completion of a specific program of study, consult the program information within the undergraduate catalog.

## Certificate Programs

A certificate program is a coherent course of study that is compatible with the stated mission and goals of WKU and appropriate to the field of higher education (SACSCOC). Certificates should lead to the acquisition of a defined set of skills or expertise that will enhance employability or meet a professional development need. A certificate may be earned as a standalone credential.

To create a certificate at WKU, the certificate must demonstrate demand (student or market) in a field and meet one of the following criteria:

- Includes collaboration with area businesses or industries
- Provides training in a specific marketable skill, continuing education, or licensure/ certification/accreditation
- Complements multiple programs
- Responds to a state mandate

Creation of new certificate programs requires internal approval, as well as approval from the Council for Postsecondary Education. In addition, SACSCOC approval may be required. Consultation with the WKU Provost's Office is necessary to determine if a new certificate program reflects a substantive change and must undergo SACSCOC review. Interna approvals are the same as those for new degree programs.

An undergraduate certificate program must meet the following criteria:

- Consist of a minimum of 12 undergraduate credit hours
- Must include an upper level component of at least 3 hours*
- Must not include hidden pre-requisites or co-requisites
- Certificate programs may be substituted for a minor. Beginning fall 2021, certificate programs can be counted in place of a minor if (a) the major and certificate combination consists of at least 50\% upper level hours, and (b) the two programs consist of at least 48 unduplicated hours.
- All courses earned toward the certificate must be letter graded except for those courses exclusively offered as pass/fail, which can encompass no more than $25 \%$ of the certificate program
Academic certificate programs eligible for federal financial aid are subject to the United States Department of Education (DOE) Gainful Employment regulations. Academic units wishing to offer such certificate programs must first consult with the WKU Office of the

Provost to ensure that all DOE Gainful Employment regulations are met.

Students may achieve an undergraduate certificate if the following requirements are met:

- A minimum of $50 \%$ of hours earned toward the certificate are earned at WKU
- A minimum GPA of 2.0 must be earned in total course work required for the certificate program, in addition to a minimum cumulative 2.0 GPA and a minimum 2.0 GPA earned in WKU coursework
- Students should apply for the certificate the semester prior to completion
- Only hours appearing on the undergraduate transcript may be counted toward undergraduate certificates
* Current certificate programs that don't meet this standard will be grandfathered in.

The Bachelor of Arts in Art History provides WKU students with a broad and thorough understanding of the history and function of the visual arts from ancient times to the present day. Majors will critically
analyze paintings, prints, sculpture, architecture, and other visual media to investigate a range of historical and philosophical issues with which the arts have been deeply involved. As such, majors will gain an understanding of how visual practices proactively articulate and motivate rather than simply illustrate, record, or reiterate history.

With an emphasis on reading, writing, research, and critical analysis the $A B$ in Art History contributes experiences useful to a broad range of possible careers, including museum, gallery, and auction house curatorial duties, art appraisal, conservator and registrar positions, docent roles, archiving, and grant writing interests.

## Program Requirements (36 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

The major requires courses to be taken across a range of chronological periods, ensuring that graduates possess a broad understanding of the field, yet it also allows students to focus their studies on particular historical periods or geographical regions that interest them. A minor or second major is required. No more than 6 hours in the art history major may count toward a student's minor. No grade of " D " or below may be counted toward the major.

The program requires two introductory courses (ART 105 and ART 106) that provide foundational knowledge of the history of global art, one course (ART 130, ART 131, or ART 140) that familiarizes students with the fundamental concepts of art making, and a course in contemporary art that ensures students have a strong grounding in current trends. The two other required courses are a theory and methodology class (ART 405), and a capstone seminar (ART 494). To ensure significant breadth, among the six electives required for the major, at least one must be chosen from each of the five chronological categories. The remaining elective may be customized to accord with the research interests of the student, and allows for a significant degree of expansion into visually oriented coursework in other disciplines.

# Visual Arts, Bachelor of Fine Arts (514P, 514) 

## Program Coordinator

Kristina E. Arnold, kristina.arnold@wku.edu, (270) 745-3944
The Bachelor of Fine Arts degree is the initial professional degree sought for careers in visual arts and design. The Department of Art \& Design offers four concentrations. The BFA in Studio concentration prepares students for a professional studio practice through rigorous artistic and academic experience. It is also the standard requirement for entrance into Masters of Fine Arts degree programs, the most common route to teaching studio art at the college level. The BFA Graphic Design concentration prepares students for careers in the visual communications field, including web design, print design, illustration, and new media. The Animation concentration prepares students for careers in fields such as animation and game design, and for professional arts practices in time-based media. The UX Design concentration prepares students for fields that incorporate interactive platform design and function.

Concentrations begin with a foundation of drawing, 2-D design, 3D design, and art history surveys. Students then focus on a specific curricular sequence of interest to them: animation, graphic design, studio art (ceramics, printmaking, painting, sculpture, weaving), or UX design. Portfolio and seminar classes serve as the capstone experiences for BFA students in each concentration, where personal concepts and technical proficiency typically yield a cohesive body of work or competitive professional portfolio. In each concentration, the goal for the BFA student is to forge a professional practice in their chosen area.

## Concentrations

- Graphic Design (ARGD)
- Studio (ARST)
- Animation (ARAN)
- User Experience Design (ARUX)

## Program Requirements (79 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

The major requires 79 semester hours of study. Entry into the BFA in Visual Arts program may be accomplished in one of two ways: have a minimum overall GPA of 3.0 in art and art history courses to include: ART 105 or ART 106, ART 130, ART 131, ART 140, a basic studio course at the 200 -level, and an upper-level 300 studio course, or have a minimum GPA of 2.5 for these same courses and pass a department portfolio review conducted by a faculty committee. Transfer students will be
required to meet the second of these two options. Any student denied entrance in their initial portfolio review and having less than 36 hours in art and art history, while maintaining a 2.5 GPA in the continuing art courses, may reapply once. Prior to meeting these standards, students pursuing the BFA will be designated as reference number 514 P .

The major offers four concentrations, Animation, Graphic Design, Studio, and UX Design. All concentrations require the following Art \& Design Foundations courses:

| Code | Title | Hours |
| :--- | :--- | ---: |
| Required Courses |  |  |
| ART 105 | History of Art to $1300^{1}$ | 3 |

This degree has two concentrations: studio art and art education. The studio concentration includes a breadth of courses in fine art, graphic design, and animation. The art education concentration is a professional education degree, leading to KY P-12 visual arts certification. This certification is reciprocal with many states in the US.

Students interested in art education should contact Dr. Miwon Choe, miwon.choe@wku.edu, (270)-745-7052.

The Department of English offers four programs of study: a major in English with specialized options in creative writing, literature, and professional writing; a major in English for Secondary Teachers; and minors in English, creative writing, professional writing, literature, and teaching English as a second language (TESOL). In addition, the department sponsors an honors program for qualified students.

The English department also makes a significant contribution to the general education of all students through ENG 100, ENG 200, and ENG 300 . The department serves other departments through its offerings in intermediate composition, technical writing, business writing, linguistics, film, women's literature/gender theory, teaching English as a second language, and teaching English in the schools.

English majors and minors find that their training in close reading, analyzing, researching, and writing is valuable preparation for a broad range of business, governmental, and professional careers. The major in English for Secondary Teachers prepares students for certification to teach grades 8-12.

When planning a program of study in English, each student should be aware of the academic requirements and regulations contained in this catalog in the chapter "Academic Information." Specific attention should be given to the subsections entitled (a) Academic Programs, (b) Colonnade Requirements, and (c) Academic Requirements and Regulations. Students should also be aware that academic programs may have additional requirements not specified in the catalog. To obtain a copy of these requirements, students should contact the Department Chair or the appropriate advisor.

## Honors

In cooperation with the Dixie and Pete Mahurin Honors College, the Department of English offers a number of courses designed to challenge and reward honors-eligible students studying English. Fostering a sense of community among outstanding students, the English honors courses also facilitate graduate school admission and job placement. Participants enjoy opportunities for discussion and instruction in small classes, as well as for independent research and membership in Sigma Tau Delta-the International English Honor Society. Additionally, English majors who choose to write a six-credit-hour English-related Honors Thesis may apply three of those credit hours toward their upper-division English electives. For information, contact Jeff Rice, English Honors Advisor (Jeffrey.rice@wku.edu (jeffrey.rice@wku.edu)).

# English for Secondary Teachers, Bachelor of Arts (561) 

Program Coordinator<br>William D. LeNoir, david.lenoir@wku.edu, (270) 745-5712

The English for Secondary Teachers major prepares students for certification to teach grades $8-12$. The major is well rounded, featuring work in literature, writing, language study, and allied language arts. It is structured to meet specific accreditation and certification requirements while still offering students choice in course selection.

Instead of a minor or second major requirement, this major includes a component of Professional Education courses, culminating in a semester of student teaching. In addition to the usual study-abroad opportunities available to students, a portion of the student teaching semester may be completed abroad.

Although the major is specifically aimed at preparing future secondary teachers, graduates are free to pursue other career paths appropriate for

English majors, and they have the flexibility to go on to graduate study either in English or in education.

## Program Requirements (54 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

The major in English for secondary teachers is intended for those seeking certification to teach in grades 8 -12. It requires a minimum of 54 semester hours and leads to a Bachelor of Arts degree. The English major prepares students to be productive citizens by developing strong writing, research, and critical thinking skills throughout its curriculum. The major allows students to specialize in concentrations devoted to literature, creative writing, or professional writing, with many students opting to take courses in more than one of these areas.

English students are prepared to communicate, interpret, create, and research in multiple genres and through multiple platforms, with the flexibility to apply these skills to the diverse circumstances required in today's professional environment. The nature of the material covered in this curriculum, including studying literary works by authors from highly diverse backgrounds from around the globe, ensures that our students will be engaged and socially responsible.

## Program Requirements (42 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

## Literature Concentration

The English literature concentration at WKU is a dynamic program offering a wide range of courses. Our majors not only build a strong, broad foundation in literature in English (British, American, World), they also have opportunities for in-depth study in literature electives such as "Dante's Divine Comedy," "Southern Literature, " and "Mythology" as well as special topics courses such as "Gothic Fiction" and "Literature and the Environment."

In addition to courses offered here at WKU, we offer opportunities to study abroad in far-flung locations such as Cuba, Japan, Italy, and the United Kingdom; closer to home, recent study away courses have traveled to Chicago, New York City, and Oxford, Mississippi.

Through the English Club, literature majors engage in extracurricular activities that include attending public readings and plays or serving as Judges for the Goldenrod poetry contest. Our students' talents are showcased in the department's undergraduate scholarly journal, The Ashen Egg, and each year a number of students present their work at local, regional, and even national conferences.

The literature concentration in English requires a minimum of 42 semester hours and leads to a Bachelor of Arts degree. A minor or second major is required. A grade of " C " or higher is required in all courses applying to the major. At least one of the restricted literature electives must be at the 400-level.

## Professional Writing Concentration

Our PW program emphasizes the kinds of thinking, reading, and writing skills necessary for today's workplaces. Students in our program learn how to write persuasively, edit and publish professional texts, research projects and consult with clients, and use online writing technologies (social media, blogging, etc.) for professional purposes.

In conjunction with the English department, we also offer study-abroad opportunities in locations like the United Kingdom, Switzerland, Japan, and Greece. Finally, we strongly encourage Professional Writing students to enroll in our robust internship program and get "on-the-job" writing/ editorial experience in publishing houses and presses, local non-profits, and campus organizations. Many of our students have used their successful internship opportunities to secure permanent positions as new editors, journalists, technical writers in local security firms and environmental consulting organizations, or to pursue advanced degrees in English, Biology, Social Work, and Law to name a few.

The professional writing concentration requires a minimum of 42 hours and leads to the Bachelor of Arts degree. A minor or second major is required. A grade of " C " or higher is required in all courses applying to the major. It is strongly recommended that students in the professional writing concentration complete an internship (ENG 369).

(662L) cannot take this minor. No more than six hours in the English major may apply toward the literature minor, for a total of at least 54 unduplicated hours between the major and minor. Up to three hours of upper-level literature courses offered in other departments (e.g. Folk Studies, Library Media Education) may be counted toward the literature minor with prior approval by the English Department.

## Professional and Technical Writing, Certificate (Pending Board of Regents Approval)

The Professional Writing certificate emphasizes the kinds of thinking, reading, and writing skills necessary for today's workplaces. Students in the certificate program learn how to write persuasively, edit and publish professional texts, research projects and consult with clients, and use online writing technologies (social media, Adobe Suite, blogging, etc.) for professional purposes. This certificate complements existing academic majors and could greatly benefit students interested in developing their applied workplace writing skills.

The certificate requires 15 credit hours and can be completed in 2-3 academic terms, with some elective courses crosslisted between academic programs. Required courses are offered every semester or year, including summer and winter terms.

The certificate is available to students from any major and has been designed with consideration of transfer students and dual-credit students entering WKU with required courses. Additionally, the certificate is available to non-traditional students wishing solely to earn this undergraduate certificate. All classes must be completed with a "C" or higher.

The TESOL Undergraduate Certificate prepares students to teach English to speakers of other languages domestically or abroad. When paired with a teacher certification program, or for individuals with existing teacher certification, completion of the TESOL Certificate leads to ESL endorsement from the Kentucky Department of Education. Individuals interested in opportunities outside of the public school system will gain the knowledge and skills necessary to teach English language learners in local language institutes and businesses, as well as a variety of international settings. The TESOL Certificate can be completed as a stand-alone academic program. For current WKU students, completion of the TESOL Certificate fulfills Minor requirements for programs that require a Minor.

## Program Requirements (19 hours)

Only undergraduate courses may be taken to fulfill the undergraduate certificate requirements. A minimum GPA of 2.0 must be earned in total coursework required for the certificate program, in addition to a minimum, cumulative 2.0 GPA in WKU coursework.

# Department of Folk Studies and Anthropology 

Dr. Darlene Applegate, Chair<br>Email: Darlene.Applegate@wku.edu

Ivan Wilson Center for Fine Arts, Room 237

What is folklore? When you think about folklore, do you think about fairy tales, quilts, dulcimers, and log cabins? Folklore does include these things, but folklore also includes food customs, jokes, holiday customs, vernacular architecture, folk art, body art, memes, cosplay, urban legends, supernatural stories, bathroom graffiti ... and so much more. Folklore is informal traditional culture. It is the art of everyday life. It is our customs, our beliefs, our stories, our worldview, and how we communicate. In fact, it's often so close to us we don't even notice it's there-which is precisely why it's so important.

What is anthropology? Anthropology is the holistic study of human culture and biology in any geographic place or time period. Anthropologists study topics as diverse as technology, foodways and subsistence, diet and nutrition, housing and settlement, economic systems, educational systems, kinship and social organization, political organization, gender and social identity, religion and belief systems, language, art and other forms of expressive culture, culture change and globalization, evolution and adaptation, health and disease, human genetics, growth and development, demography, and non-human primates like chimpanzees. Anthropologists conduct research in the field and in the laboratory.

## Academic Programs

The programs and coursework of the Department of Folk Studies and Anthropology provide WKU students and the University constituency with the training, intellectual tools, and resources to understand the cultural and biological dimensions of humankind in terms of the myriad shaping factors addressed in our respective disciplines. Although the disciplines of anthropology and folk studies are distinct, we share the University's commitment to excellence in teaching, research, and public service, recognizing that this mission continues to evolve in response to regional, national, and global change.

The folk studies program stresses the examination of traditional expressive culture as a key to understanding human experience. The discipline of folklore has close affinities with literature, anthropology, sociology, history, geography, linguistics, philosophy, ethnomusicology, and psychology. The folk studies program integrates humanistic and social scientific perspectives on culture with pragmatic skills needed for professional involvement in research or for a variety of fields of employment such as public and applied folklore, historic preservation, cultural resource management, and museum work. The department offers an undergraduate minor in folklore in order to provide students with opportunities to enrich their general knowledge of the folk traditions and customs of specific societies and culture areas and to develop greater understanding of related forms of human thought and expression.

The anthropology program at Western Kentucky University offers students a cohesive program of study that enriches their knowledge of human culture and biology, develops their cross-cultural perspectives, and prepares them for a variety of careers. In particular, the program provides opportunities for students to study the interaction of culture and biology, both in contemporary societies and in the archaeological and evolutionary past. The anthropology major and minor curricula prepare students for graduate studies and employment in cultural anthropology, biological anthropology, archaeology, linguistic anthropology, applied anthropology, cultural resource management, and related fields. Anthropology enriches the study of history, folklore, religion, languages, biological and physical sciences, and other social sciences. The anthropology program maintains extensive archaeological, biological, and cultural collections at the Anthropology Laboratory. The anthropology program also houses the state-of-the-art Ethnographic Visual Production Lab with digital audio and video recorders and cameras, virtual reality equipment, and editing stations.

When planning programs of study in this department, students should be aware of the University's academic requirements and regulations contained in this catalog in the chapter "Academic Information." Specific attention should be given to the subsections in the chapter entitled (a) Academic Programs, (b) Colonnade Requirements, and (c) Academic Requirements and Regulations. Students should be aware that some academic programs may require additional scholastic regulations and standards not specified in the catalog. To obtain a copy of these regulations, students should contact the Department Chair.

## Why Study Folklore and Anthropology?

The folklorist's skills in listening, collaboration, and analytical thinking are valuable skills for a wide variety of jobs. With a folklore minor, you'll develop outstanding skills for communicating across cultural groups as you conduct ethnographic fieldwork. You'll learn how to do multimedia production as you curate your fieldwork data for new audiences. And you'll learn how to work collaboratively with a diverse range of community partners. These are the skills $21^{\text {st }}$ century employers seek. According to a survey of recent graduates, $73 \%$ of our undergraduate folklore minors were employed and $17 \%$ went on to graduate programs. Our graduates are public folklorists, museum curators, educators, preservationists, film producers, professors, and even intelligence analysts.

Training in anthropology promotes cultural awareness and enhances critical thinking, data collection and analysis, and creative problemsolving skills. Our students are actively engaged in research, extracurricular activities, public education, and community service, gaining valuable experience in preparation for careers and advanced studies. According to a recent survey of our anthropology graduates, $74 \%$ were employed and $21 \%$ progressed on to graduate school. Our former students are working in contract archaeology, cultural resource management, museums, medical anthropology, visual media, international education, the non-profit sector, and other exciting areas.

## Public Outreach Programs

The department is proud to house two award-winning public outreach programs. Besides serving diverse communities across the Commonwealth, the programs afford our students with opportunities to gain practical hands-on experience in public folklore and applied anthropology.

For over 30 years the Kentucky Folklife Program (KFP) has been dedicated to the mission of documenting, presenting, and conserving the
diverse traditional culture and heritage of the Commonwealth. Founded in 1989 as an inter-agency partnership between the Kentucky Historical Society and Kentucky Arts Council, KFP moved to its current home in the department in 2012. Physically located in the Pioneer Log Cabin on WKU's main campus, KFP remains focused on practical folklife and traditional arts projects as we continue to understand the evolving needs of local constituents throughout Kentucky, those who have a crucial stake in documenting the folk traditions of their regions. With our vantage point at WKU, KFP is always exploring exciting and innovative partnership opportunities with other organizations, universities, and folklife programs throughout the nation. Examples of KFP projects and programming since moving to WKU include the Bosnian oral history project, Folklorists in the Park program, Pioneer Log Cabin concert series and jams, and Southcentral Kentucky Musical Legacy project.

Founded in 1995, the mission of the Kentucky Archaeological Survey (KAS) is to provide services to state and federal agencies, work with private landowners to protect archaeological sites, and educate the public about Kentucky's rich archaeological heritage. KAS works with local governments and non-profit organizations on diverse initiatives, including educational projects that involve grade-school children and civic groups who participate in ongoing archaeological research. KAS undertakes a variety of projects throughout Kentucky. Some are conducted in advance of construction by government agencies, while others are conducted to identify sites on public lands, so that agencies can be better stewards. Examples of projects are the Old Frankfort Cemetery relocation, survey of historic farmsteads in the Bluegrass, Building Blocks of History program at Riverside-The Farnsley-Moreman Landing, and Kentucky Archaeology video and booklet series.

Anthropology is the scientific and humanistic study of human culture and biology in the past and present and anywhere in the world. The anthropology major offers students a cohesive program of study to enrich their understanding of interactions between human culture and biology in contemporary societies and in the archaeological and evolutionary past, to develop their cross-cultural perspectives, and to prepare them for a variety of careers. Delivered by full-time faculty members, the anthropology curriculum emphasizes hands-on learning in the classroom, in the laboratory, and in the field; extracurricular opportunities and events; and a broad, four-field approach including cultural anthropology, biological anthropology, linguistic anthropology, and archaeology. The anthropology major encourages students to step outside their biocultural bubbles to explore the rich diversity of human experiences in their own communities and around the globe.

## Program Requirements (31 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

A major in anthropology (reference number 608) requires a minimum of 31 semester hours and leads to a Bachelor of Arts degree. At least half of the total semester hours in the major must be in upper-division $(300,400)$ courses. Requirements of the major include core courses, concentration courses, and electives. All students complete the sixcourse (16-hour) core curriculum consisting of ANTH 120, ANTH 125, ANTH 130, ANTH 135, ANTH 399, and ANTH 499. Students must earn a grade of "C" or better in all core courses. Each student completes at least one of four, three-course (9-hour) concentrations in applied anthropology, archaeology, biological anthropology, or cultural anthropology, each concentration having its own required courses. Students choosing to complete only one concentration must complete 6 hours of electives to be selected from anthropology offerings in consultation with the advisor. Students choosing to complete more than one concentration do not need
to complete elective courses, and they may count a maximum of one course in multiple concentrations. Students must complete a second major or a minor or certificate.

Concentrations in the anthropology major give students opportunities to complete cohesive sets of upper-level courses in preparation for careers or graduate programs. Applied anthropology is the use of anthropological knowledge and methods to address contemporary human problems such as poverty and the human dimensions of global environmental change. Archaeology is the study of past human cultures based on material remains such as tools, monuments, and ritual objects. Biological anthropology is the study of the biological traits of past and present humans, as well as non-human primates. Cultural anthropology is the study of the beliefs, practices, and institutions of contemporary human societies.

The History Department is home to the following programs: History, Social Studies, Legal Studies, Religious Studies, Asian Religions and Cultures, African American Studies, and Latin American Studies. The History Department offers a major in History, with or without one of six possible concentrations: Cultural History; History of Identity; Peace, Conflict, and Human Rights; Legal and Constitutional History; Africana History; and History of Science, Environment, and Medicine. We also offer a Religious Studies major and interdisciplinary majors in Legal Studies, Social Studies, and Asian Religions and Cultures. Students who pursue a double-major in History and Social Studies and who complete the professional education requirements may be certified in the teacher education program. The History Department also offers minors in History and Religious Studies and interdisciplinary minors in African American Studies, Latin American Studies, Legal Studies, and Asian Studies.

Our majors and minors are designed to allow students to explore and focus on their interests while developing the skills that will ensure success in business, law, government, education, and non-profits. Our programs emphasize hands-on, engaged learning. Many courses incorporate examination of historical, religious, and legal documents; historical and religious site visits; and immersive, role-playing exercises set during critical historical turning points.

Students will find a strong sense of community in the History Department. The department is home to History and Religious Studies
clubs and to chapters of the Association for the Study of African American Life and History and Phi Alpha Theta. The department also hosts an annual undergraduate research conference and sponsors robust department, campus, and community programming.

The Department of History offers a variety of courses to students in any major as well as courses meeting Colonnade requirements for all students. When planning a program of study in the History Department, each student should be aware of the university's academic requirements and regulations contained in this catalog in the chapter "Academic Information." Specific attention should be given to the chapter subsections entitled (a) Academic Requirements and Regulations, (b) Academic Programs, and (c) Colonnade Requirements. Students should be aware that some academic programs may require additional scholastic regulations and standards not specified in the catalog. To obtain a copy of these regulations, students should contact the Department Chair.

## Departmental Honors Program

The Department of History offers opportunities for students to participate in both university and national honors programs. The department works with the Mahurin Honors College to provide opportunities for challenging and intensive investigation of historical topics through coursework, internships, research, independent study, and discussions in small-group settings. Beyond its work with the Mahurin Honors College, the History Department offers its students an active chapter of Phi Alpha Theta, a national history honors society. For more information, students should contact the Program Coordinator for their major.

Website: http://www.wku.edu/history/careers/pre-law.php
Pre-law preparation is not a curriculum as in the case of pre-medicine or other programs that follow a specific pattern of undergraduate courses. Both the American Bar Association and the American Association of Law Schools recommend a broad liberal arts program of courses for potential law students. Pre-law students will best prepare for law school by pursuing a rigorous course of study during their undergraduate years. No specific major is required for admission to law school, but students should select major and minor fields which they find both interesting and promising for superior academic performance.

Admission to law school is on a competitive basis, and the number of openings at each school is limited. The main criteria for admission
to most recognized schools are a high grade point average (GPA) in undergraduate work and a high score on the Law School Admission Test (LSAT). A Bachelor of Arts or Bachelor of Science degree from an accredited four-year college or university is required for admission to law schools accredited by the American Bar Association.

Law school admission directors and independent studies of the factors which contribute to success in the study of law conclude that undergraduates should develop a core group of skills during their programs of study. It is important that students select courses that develop strong vocabulary and reading comprehension skills, effective writing ability, analytical/logical reasoning, and an understanding of societal institutions and values.

Students should pursue a challenging course of study that emphasizes reading, writing, and analytical ability. Courses which can develop the requisite skills and abilities for legal study include: ENG 100, ENG 200, ENG 300, ENG 301, and English electives; PS 110, PS 220, PS 326, PS 327, and PS 328; HIST 101, HIST 102, HIST 445, HIST 446, and history electives; PHIL 215, PHIL 350, PHIL 415 and philosophy electives. Based on individual interests, students may also pursue elective courses in accounting, economics, sociology / criminology, foreign language, and speech communication. The following courses, while not mandatory for pre-legal study, offer undergraduate students a useful introduction to various aspects of public law and legal history: PS 326, PS 327, and PS 328; HIST 445 and HIST 446; BCOM 301 or JOUR 301; MGT 200; ECON 390. Please note: Recommended courses are based on WKU's assessment of specific professional school requirements. Students should, in consultation with their advisor, review the requirements at the professional school of their choice.

Each student who intends to study law after graduation should make initial contact with the Pre-Law Advising program. Afterwards, students are encouraged to meet with a pre-law advisor in addition to his/her major advisor during their tenure at WKU. Pre-law advisors will provide assistance in obtaining information about law schools, the Law School Admission Test and other pertinent information. Aspiring pre-law students should plan to take the LSAT in June following their junior year. During the senior year, the pre-law advisor will also be available to assist students in the preparation and submission of applications to law schools of their choice. Applications are usually accompanied by letters of recommendation from faculty members who can comment on the student's ability and promise for the study of law. Aspiring candidates should conduct their undergraduate studies that they can, with confidence, ask at least three faculty members to serve as references.

Theological seminaries, accredited by the American Association of Theological Schools, require for entrance the Bachelor of Arts or Bachelor of Science degree from an accredited four-year college or university. Pretheological students should seek to attain a broad background in liberal arts subjects in their university studies. In selecting majors, serious consideration should be given to the fields of English, history, philosophy, and religious studies. Minors and free electives should be chosen from the areas of English, history, mass communication, philosophy, psychology, religious studies, sociology, and communication.

Entry requirements for specific theological seminaries and for different programs within these institutions vary. Students should consult seminary catalogs and the pre-theology advisor. Special attention should be paid to the language requirement made by some seminaries.

The courses recommended below to be taken in fulfilling Western Kentucky University's general education guidelines are not mandatory but include every basic recommendation of the American Association of Theological Schools:

Africana Studies, Minor (305)

## Program Coordinator

Andrew J. Rosa, andrew.rosa@wku.edu, (270) 745-3841
The minor in African American Studies compresses the unique and diverse experiences of African Americans into a manageable and definable programs of study that acknowledges the interconnectedness of these experiences with the peoples of Africa and the African Diaspora. Viewed from multidisciplinary and cross-disciplinary perspectives, courses in the African American studies minor provide the opportunity for students to study, analyze and develop a comprehensive understanding of the African American experience in ways that both link and differentiate past and present circumstances in the African Diaspora. A diaspora approach to the study of the African American experience is concerned with the following two issues: 1) the way in which African cultural, social, religious, and political forms influence African descended persons and communities, and how such forms changed through interaction with non-African cultures; and 2) comparisons and correspondence among communities of African descended people who are geographically separated and/or culturally distinct.

A person who completes the African American Studies minor will have enlarged perspectives and increased awareness of the diversity of experience within African American cultures; these are skills well suited for advanced study at the undergraduate and graduate levels, and for jobs in governmental departments and agencies and with private organizations. In fulfilling the minimum requirements for a minor, the student normally should not include more than six hours of electives with any one course prefix.

## Honors Program

The African American Studies Program participates in the Dixie and Peter Mahurin Honors College. Honors courses allow students of exceptional academic abilities to investigate the African American experience in a more in-depth manner and to discuss contemporary issues in small group settings. Honors courses encourage the development of critical thinking skills and analytical writing. Students also have an opportunity to assist faculty with research, present papers at regional and national conferences, and/or engage in self-designed research projects. African American Studies minors in the Dixie and Peter Mahurin Honors College can complete their honors thesis on a topic in consultation with an advisor. For further information on honors courses and opportunities, contact Dr. Saundra Curry Ardrey, (270) 745-4558.

# History, Bachelor of Arts (695E, 695) 

## Program Coordinator

Andrew J. Rosa, andrew.rosa@wku.edu, (270) 745-3841
The History program offers two degree pathways: The History major requires a minimum of 33 credit hours and the completion of a second major or minor. The extended History major requires a minimum of 48 unduplicated credit hours. No second major or minor is required for students completing the extended major.

The History program equips students with the skills to collect, analyze, and summarize data and the ability to apply those skills to construct arguments and use evidence to support them. Students develop strong skills in research, analysis, creative problem solving, and written and oral communication. These skills, along with the strong critical thinking skills that students of history hone, prepare students for a range of careers. Many History majors pursue careers in education (at all levels), library sciences, management, law, administration, business, and sales. History graduates are well suited for work in local, state, and federal government; banking; journalism; and politics. Many businesses seek job candidates with a strong background in the liberal arts because of their critical thinking, analytic, and writing abilities. History is interdisciplinary by design. The program accepts up to 6 credit hours from related disciplines.

Isabel Mukonyora, bella.mukonyora@wku.edu, (270) 745-3841

The academic study of religion provides the student with the methodological orientation necessary to comprehend the central beliefs, ethical practices, ritual systems, and social institutions of diverse religious traditions in their historic, contemporary and global contexts. Study in this field is multicultural and comparative, examining the patterns of life and moral worlds of societies past and present, our own as well as others. The student learns to probe for the structure, function and meaning of religion through those rites of passage, sacred narratives, faith communities, and codes of behavior that give meaning to human existence.

The Social Studies major, a 51 -credit-hour program, is interdisciplinary by design: students must complete courses in History, Political Science, Economics, and Geography, with elective options in History, Political Science, Geography, Anthropology, Sociology, and Psychology. This program of study provides students with a strong foundation in history and equips them with the skills to collect, analyze, and summarize data and the ability to apply those skills to construct arguments and use evidence to support them. The Social Studies major prepares students to bring a range of skills from the social and behavioral sciences, economics, and geography to the study of the past. The major is designed to prepare students to teach Social Studies in grades $8-12$, and students who complete this major may become eligible for teacher certification in Social Studies. Social Studies, particularly when combined with a second major in History, enables students to pursue careers in education (at all levels), library sciences, management, law, administration, and sales. Social Studies graduates are well suited for work in local, state, and federal government; banking; journalism; and politics. Many businesses seek job candidates with a strong background in the liberal arts because of their critical thinking, analytic, and writing abilities. Students with a major in Social Studies who pursue teacher certification receive a 12 -hour waiver in the upper-division hour requirement in the major field. In choosing elective courses, students should consider the number of upper-division courses required for graduation. No minor or second major is required.

## Department of Modern Languages

Dr. Alex Poole, Department Chair<br>Email: Alex.Poole@wku.edu

Honors College and International Center (HCIC), Office 2039
Phone: (270) 745-5900; Fax: (270) 745-6859
Email: modern.languages@wku.edu
Website: http://www.wku.edu/modernlanguages (http://www.wku.edu/ modernlanguages/)

Through coursework, experience abroad, community outreach activities, and other cultural encounters, the Department of Modern Languages cultivates communicative skills and cultural awareness that prepare students at Western Kentucky University to be more knowledgeable and sensitive citizens of the global community. The department's goals are to deliver high-quality language instruction based on nationallyrecognized standards, to contribute actively to cross-disciplinary international initiatives on campus, and to graduate majors and minors whose language skills provide enhanced opportunities for careers at the regional, national, and international levels, and who are competitive for graduate study, should they choose that route.

Language students may join any one of the department's language clubs and may also be selected for membership in chapters of national language honor societies. They may attend international films, interact with exchange students, take part in community or regional outreach activities, and enjoy the benefits of multi-media enhanced instruction. The department strongly encourages students to take advantage of study abroad opportunities. With advance approval of the department, students can earn credit toward majors and minors through participation in WKU's own direct exchanges, the programs of the Kentucky Institute for International Studies or other accredited programs.

When planning programs of study in this department, students should be aware of the University's academic requirements and regulations contained in this catalog in the chapter "Academic Information." Specific attention should be given to the subsections in the chapter entitled
a. Academic Programs,
b. Colonnade Requirements, and
c. Academic Requirements and Regulations.

Students should be aware that some academic programs may require additional scholastic regulations and standards not specified in the catalog. To obtain a copy of these regulations, students should contact the Department Chair.

## WKU Language Requirement <br> Colonnade Program

Students enrolling as first-time, degree-seeking college students in fall 2014 or thereafter should demonstrate language proficiency at the Novice High level before completing 60 hours of college credit. Two credits (or equivalent) of High School language in a single world language satisfies the WKU Proficiency requirement. Students who have taken one semester of a world language in high school have NOT fulfilled the world language requirement. Alternatively, students may start a new language with a 101 course and then complete the second semester (102) course with a C or higher to demonstrate proficiency; or they may take a STAMP assessment or present an adequate CLEP or AP score to demonstrate proficiency based on previous knowledge, or they may place properly and complete at least a second semester (102) course or higher to demonstrate proficiency. For information, go to http://www.wku.edu/ modernlanguages (http://www.wku.edu/modernlanguages/) and click on Placement.

## Previous Catalog Years

Students who enrolled as first-time, degree-seeking college students in summer 2004 or after must fulfill the foreign language general education requirement of "proficiency at the second-semester level." They can do this by successfully taking a 102 (second-semester of first year) course, by taking a department exam for 102, by gaining appropriate CLEP or AP credit, or by placing into and successfully passing a course at the intermediate (201 or 202) level or higher that is taught in the target language. Students who wish to continue a language that they studied for 2 or more years in high school will generally begin that language at the 102 level or higher. Students who want to begin the study of a new language in order to fulfill the general education requirement should enroll in the first-semester (101) course of that language. Students who enrolled as first-time, degree-seeking college students prior to the summer of 2004 may fulfill the foreign language general education requirement of proficiency at the first-semester level. They can do this by successfully taking a 101 or first-semester course.

## Credit for Students Intending to Major or Minor in a Language

Students who have good language skills and those who plan to major or minor in one of these languages should take measures to gain credit for their previous knowledge. For current information on verified credit, AP credit, or CLEP credit, go to the Modern Languages website at this address: http://www.wku.edu/modernlanguages (http://www.wku.edu/ modernlanguages/) and click on Placement.

## International Study Opportunities

WKU students may take part in faculty-led study abroad programs or enroll for short-term, summer, quarter, semester or year abroad programs at study centers abroad and have that coursework transferred back to WKU and credited to their Modern Language major. See the international programs section of this publication or http://www.wku.edu/studyabroad (http://www.wku.edu/studyabroad/) for more information. The Department offers several scholarships and awards annually intended primarily to assist students who study abroad.

Our Chinese majors combine language skills with knowledge of another discipline to prepare for successful careers.

Why is it important to learn Chinese?

- Chinese is the modern language with the oldest, continuously written language in the world.
- At the current pace of growth, China will surpass the U.S. to become the world's largest economy in 20 years.

A variety of career options will be open to those who have solid Chinese language skills: university scholars, teachers, international affairs, law, diplomacy, international business and trade.

## Program Coordinator

Melissa A. Stewart, melissa.stewart@wku.edu
There are so many reasons to learn Spanish, we could hardly list them all here. Spanish is spoken by some 400 million people. According to About.com, it is the fourth most commonly spoken language in the world. It is the official language on four continents, and the number of Spanish speakers in the United States is growing. Speakers of Spanish are needed in a wide variety of fields such as business, education, health care, journalism and social work. Spanish makes a great "second major" in combination with just about any other discipline that interests you. Our Spanish program provides you many opportunities to interact with Spanish speakers both at home and abroad, and to apply your skills in service opportunities.

## Department of Music

Dr. Liza Kelly and Dr. Zachary Lopes, Co-Department Chairs

Email: music@wku.edu
Website: http://www.wku.edu/music (http://www.wku.edu/music/)
The Department of Music promotes the study and experience of music in its broadest sense: preparing artist teachers and performers, enhancing creativity and the human spirit, and enriching the quality of life on campus, in the region, and in our global community. Western Kentucky University has been a fully accredited member of the National Association of Schools of Music since 1948.

A large part of the department's mission is the preparation of music teachers and professional musicians. Students with broad musical interests may select a music major or minor within a diversified liberal arts program. Music degree programs provide for the development of basic musicianship through conceptual understanding of musical properties and their interrelationships, relevant opportunities for listening, performing, composing, and scholarship, and the acquisition of a repertory representative of various cultures and historical periods. Competencies in various areas and at varying levels appropriate to each program of music concentration are developed through a sequence of studies and assessments.

General University students may elect certain music courses through the Colonnade Program Requirements. All students from all disciplines may participate in various instrumental and choral ensembles.

Students wishing to pursue a music degree (including double majors) should have pre-college training in their principal or major performing instrument or voice and be able to read music fluently. Basic keyboard ability is helpful but not mandatory. Entering students must audition for admission to the music program to major or minor in music, including diagnostic examinations in theory rudiments (scales, keys, intervals, triads, general notation), music reading, and performance (principal instrument/voice). Deficiencies may be removed through remedial placement except in the case of auditions for the Bachelor of Music in Performance.

When planning a program of study in this department, each student should be aware of the University's academic requirements and regulations contained in this catalog in the chapter "Academic Information." Pay particular attention to the subsections entitled (a) Academic Programs, (b) Colonnade Requirements, and (c) Academic Requirements and Regulations. Some academic programs require additional scholastic regulations and standards not specified in the catalog. Students should contact their advisor for any recent requirement changes not reflected in this catalog. Information for prospective students about life in the Department of Music appears at http:// www.wku.edu/music (http://www.wku.edu/music/). The Department of Music offers majors and a minor as shown in the following sections.

## Music Program Fees

Music Majors are assessed a program fee of \$50 each semester. Music Minors are assessed a program fee of $\$ 50$ each year.

## Applied Music Instruction

Music Majors and Minors take applied lessons as part of their individual degree program. These lessons are one-on-one instruction, typically offered weekly, on the defined performance instrument. An audition demonstrating an appropriate level of skill, reading ability, and knowledge is required prior to enrollment in applied lessons and acceptance as a music major or minor.

Students registering for one credit hour (secondary) receive one halfhour private lesson per week or the equivalent. Those registering for two to three credit hours (principal and major) receive one hour (or its equivalent) of private lessons per week. Placement in subsequent courses after the initial semester in both the principal and major tracks is made on the basis of faculty committee recommendations. Students are expected to practice a minimum of three hours per week for each credit hour received.

Instruction is offered in piano, organ, harpsichord, voice, violin, viola, harp, cello, double bass, guitar, flute, oboe, clarinet, bassoon, saxophone, horn, trumpet, euphonium, trombone, tuba, percussion, composition, and jazz improvisation.

Applied music courses include: MUS 150, MUS 350; MUS 153, MUS 353; MUS 357, MUS 457. See the course descriptions for each course in the catalog.

The Department of Political Science offers a Bachelor of Arts degree in five majors; Political Science, International Affairs, Philosophy, Professional Legal Studies, and Legal Studies. In addition, the Department offers an undergraduate certificate in Paralegal Studies, and minors in Political Science and Philosophy.

Departmental curriculum emphasizes core competencies that prepare students for successful careers in the public, private, and non-profit sectors, while serving as excellent preparation for graduate and law school.

## Honors Program

The Department of Political Science participates in the Dixie and Peter Mahurin Honors College. Department honors courses allow students of exceptional academic abilities to investigate political phenomena and concepts in a more in-depth manner and to discuss contemporary political issues in small group settings. Honors courses encourage the development of critical thinking skills and analytical writing. Students also have an opportunity to assist faculty with research, present papers at regional and national conferences and/or engage in selfdesigned research projects. Majors in the Mahurin Honors College can complete their honors thesis in consultation with an advisor. For further information on honors courses and opportunities, contact Professor Scott Lasley, Department of Political Science.

## Legal Studies, Bachelor of Arts (6001)

## Program Coordinator

Patricia H. Minter, patricia.minter@wku.edu, (270) 745-5098
The Legal Studies program consists of 18 hours of core courses in Political Science, History, and Professional Legal Studies (including a capstone experience), and 18 hours of electives from many disciplines across Western Kentucky University. A second major, minor, or certificate is required.

The program provides students an interdisciplinary perspective while fostering greater understanding of the law as it relates to history, the sciences, and ethics in the United States and around the world. While the program appeals to pre-law students, it also serves as a background for a wide variety of careers, including public administration, academics, government, diplomatic corps, homeland security, non-governmental organizations, and law enforcement.

Legal Studies allows students from many disciplines to focus their studies using their individual disciplinary interests as a launching point for exploring how the study of law cuts across disciplinary lines. It offers courses in a wide range of subjects, including American legal history, political process, constitutional law, philosophy and ethics, sociology and criminal justice, business, journalism and broadcasting, economics and property law, English, and environmental law and regulations.

The Legal Studies program does not prepare students to work as paralegals and is not approved by the ABA to do so.

## Philosophy, Bachelor of Arts (745)

## Program Coordinator

Michael J. Seidler, michael.seidler@wku.edu
Philosophy, thought Socrates, begins with the recognition that an unexamined life is not worth living. Accordingly, those who study philosophy question how to understand ourselves and our relationships to other persons, to society, to nature, to the universe, and, for some, to God.

Philosophy develops our ability to challenge the obvious, trains us to analyze and synthesize ideas, and shows us both how to defend and how to criticize normative claims about actions, policies, and ways of life. By carefully examining and discussing both traditional and contemporary
works, it cultivates habits of honest reflection, careful reasoning, and clear thinking.

## Professional Legal Studies, Bachelor of Arts (6000)

## Program Coordinator

Julia F. Shadoan, julie.shadoan@wku.edu, (270) 745-2539
The Professional Legal Studies Program prepares paralegals, also called legal assistants, to work with lawyers in a wide range of professional settings and perform tasks that include legal research, legal writing and document preparation, information gathering, litigation support, legal technology support, and office management. Paralegals are an integral part of the legal process enhancing the delivery of legal services and access to justice.

Paralegals shall not engage in the unauthorized practice of law as proscribed by Kentucky law and the Supreme Court Rules (SCR 3.130 [5.5]) and must be appropriately supervised by a lawyer to ensure the paralegal's conduct is compatible with the professional and ethical standards of the practice (SCR 3.130 [5.3]).

The objectives of the Professional Legal Studies Program are:
a. To create, implement, and maintain a strong, flexible program directed to the quality education of occupationally-competent paralegals;
b. To provide a paralegal education program that leads to employment of its graduates by a wide range of employers;
c. To provide paralegals with a well-rounded, balanced education founded on a beneficial mix of general education, theory, and practical courses stressing understanding and reasoning rather than rote learning of facts;
d. To support federal, Kentucky and local Rules of Procedure and general principles of ethical legal practice, professional responsibility, the prohibitions against the unauthorized practice of law by nonlawyers, and the use and supervision of paralegals by lawyers;
e. To provide an educational program that is responsive to the varied needs of the Commonwealth of Kentucky and the region and contributes to the overall advancement of the legal profession and access to justice;
f. To provide a program which instills respect for the legal profession and its foundations, institutions, and quest for justice; and
g. To maintain equality of opportunity in the educational program without discrimination or segregation on the grounds of race, color, religion, natural origin, gender, age, disability or economic need.

Credits from other accredited institutions of higher education may be transferred and applied toward the degree. An official transcript from each such college or university attended is required as a part of the admission process. Postsecondary credit will be evaluated on a course-by-course basis for acceptance and applicability to the Program.

General law and legal-specialty course credits will be accepted only from paralegal programs approved by the American Bar Association or programs in substantial compliance with the ABA guidelines.

The Professional Legal Studies Program (PLS) is designed to provide students with an interdisciplinary educational experience integrating knowledge and skills from multiple subjects including law, history, sociology, political science, technology and business. Sociology is the scientific study of social life, applying the analytic rigor of the scientific method to the social world so that we might understand and improve the human condition. Criminology is a sub-discipline of Sociology as core sociological concepts inform explanations of crime and society's response to it. Students who major in sociology or criminology learn to deal creatively with the most pressing problems of the day, such as the increase in our federal prison population, rising class inequality, or environmental degradation. Sociology and Criminology majors thus develop into critical thinkers with a global perspective, a deep appreciation for diversity and strong problem-solving abilities.

Completion of the curriculum in sociology or criminology provides a broad background for students pursuing a variety of careers. Students develop the skills most desired by today's employers including the ability to communicate effectively, frame and solve problems realistically and in teamwork situations, plan and evaluate projects and programs, prepare clear and concise reports, and speak effectively in varied group situations. Students who graduate are thus poised to enter a wide range of occupational areas, including corporations, government agencies, social service institutions, and other nonprofit organizations. Furthermore, an undergraduate major in Sociology or Criminology is also an excellent foundation for graduate study in anticipation of a career in college teaching, law, business, or medicine.

## Program Requirements (21 hours)

The Certificate in Citizenship and Social Justice is an interdisciplinary program, focusing on contemporary social issues, that prepares students to be effective citizens-civic agents of change for the common good. The certificate program includes both coursework and cocurricular public work. The market-ready skills honed by the certificate in Citizenship \& Social Justice open many opportunities, both locally and outside the region. For those interested in the public sector, there are openings in local, state, and federal governmental agencies, as well as educational institutions. Regarding private-sector work, organizations and businesses are increasingly interested in students with empathetic listening skills resulting in successful social media and other marketing campaigns, consulting, and entrepreneurship endeavors. The program requires 21 hours with a 15 hour core and 6 hours of electives selected from a list of courses.

As a scientific discipline, Criminology emerged from the field of Sociology. Core sociological concepts inform explanations of crime and society's response to it. WKU's Bachelor's program in Criminology provides students with the opportunity to understand the theoretical principles which guide practical solutions to issues associated with offending, victimization, and interactions with the Criminal Justice System. Compared with traditional criminal justice programs, Criminology has a strong interdisciplinary focus. Our program continues this tradition by studying crime through a societal lens as we examine theoretical explanations, policy developments, and the broader implications of solutions on the health and well-being of communities and society.

Theatre \& Dance is determined to be a department where you can reach your full potential. We offer several different degree programs, all designed to balance theory and practice. Our AB degree in Dance and our AB degree in Theatre are each designed to provide a solid liberal arts foundation in their discipline while leaving room for study in a minor or second major. Our BFA in Performing Arts degree provides a broad study of theatre while also offering intensive pre-professional training in one of four required areas of concentration: Acting, Theatre, Musical Theatre, or Theatre Design \& Technology. We also offer 4 minors: a minor in Theatre, a minor in Musical Theatre, a minor in Dance, and a minor in Arts Administration. We believe that what you learn in the shops, the studios, and onstage is every bit as important as what happens in the classroom. Our department is your laboratory. Our intensive production season complements the curriculum by offering you ample opportunity to put theory to the test as you work side by side with your peers, faculty, and guest artists on a steady variety of theatre and dance productions. Every student is different, and we see that as an asset to our department and to our field! We offer all kinds of opportunities for artistic, technical, and personal growth so that you can shape your training in the ways that best suit your individual needs and goals. Career preparation is also woven into our curriculum with courses such as Acting Audition Workshop, Dance Pedagogy, and Performing Arts Career Seminar. Whatever degree you choose as the best path for you, we'll challenge you, we'll collaborate with you, and we'll care about you.

Western Kentucky University is an accredited institutional member of the National Association of Schools of Theatre and the National Association of Schools of Dance.

When planning a program of study in this department, each student should be aware of the University's academic requirements and regulations contained in this catalog in the chapter "Academic Information." Specific attention should be given to the subsections in the chapter entitled (a) Academic Programs, (b) Colonnade Program Requirements, and (c) "Academic Requirements and Regulations." Students should be aware that some academic programs may require additional scholastic regulations and standards not specified in the catalog. To obtain a copy of these regulations, students should contact the Department Chair.

Does the business side of the arts interest you? Are you thinking of opening a dance studio, working in the development office of a theatre company, or starting a youth theatre program? The Minor in Arts Administration is an introduction to the field. You'll need to take at least 9 credit hours of classes in the arts (art, dance, music, theatre, musical theatre, theatre design or technology), as well as taking one of two foundational courses, either ART 496: Special Topics in Studio Art with the Topic of Gallery Management, or PERF 423: Performing Arts Management. After that, you will take 12 credit hours from a long list of possible classes to begin developing your knowledge of topics like grant-writing, accounting, social media marketing, leadership, and entrepreneurship. At least 12 hours of coursework in this minor must be at the upper division level.

Please note: ART 496: Special Topics in Studio Art with the Topic of Gallery Management is not offered every semester. PERF 423: Performing Arts Management is typically offered as an online class, usually in the fall semester.

The $A B$ in Dance is designed to provide a solid foundation in the discipline of dance. A minor (or second major) in another field is also required. The $A B$ in Dance is a 46 credit hour program. You must achieve a level 4 in one dance genre and level 3 in a second genre in order to graduate. By integrating dance and general studies, we strive to create "Thinking Artists," individuals who work to achieve their highest potential as artist, technicians, and scholars.

## Program Requirements (46 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

In addition to the standard WKU admission process, incoming students (including transfer students) wishing to major in Dance must also
participate in the department's initial dance placement audition process, after which they will be enrolled as "seeking admission" into the AB in Dance program. The auditions for course placement will be held every semester. Prospective students must attend one of the audition days or submit a link to a video audition. Following a review of the audition, the dance faculty will send the student a copy of their technique assessment and course placement. The student may then be enrolled as "seeking admission" into the A.B. in Dance degree. Further developmental assessments of seeking admission students will be made by the dance faculty during the first two semesters.

A student may apply for full admittance into the AB in Dance degree after the completion of 2 semesters (transfer students must complete at least 15 hours at WKU).

Students must meet the following minimum requirements before applying:

- A minimum overall grade point average 2.5
- Completion of 8 hours of dance technique
- Students must have taken or currently be enrolled in a 300 level dance technique course (ballet, jazz, modern).
- Demonstrate proficient talent, commitment, and a reasonable likelihood of achieving the technique level requirements of the degree program.

Following faculty review of applications for the AB in Dance degree, letters of acceptance or non-acceptance will be sent to the students. Students can re-apply once after non-acceptance. Students denied admission into the AB in Dance program may appeal that decision by submitting a written appeal to the department chair. The student must apply for admittance by their 4th semester and be accepted by the completion of their 5th semester. Transfer students must apply and be accepted prior to completing 30 credit hours at WKU.

Once admitted to the AB in Dance degree, each student will be regularly assessed by the dance faculty to ensure that he or she is successfully progressing within the degree program. Please see the most current Dance Program Handbook, located on the Department of Theatre \& Dance website, for complete information regarding auditions, admission, and retention.

At least 23 credits applied to this major must be upper-division (300 level or above). DANC 110: Dance Appreciation is recommended for Colonnade Explorations - Arts \& Humanities. DANC 360: Dance in Culture is recommended for Colonnade Connections - Social \& Cultural Studies.

Our BFA - Performing Arts degree a pre-professional program. It involves rigorous, conservatory-style training intended to hone your skills for entry into the professional world of the performing arts. Our BFA involves both a broad introduction to all aspects of theatre and concentrated training in one of the following areas: Acting, Theatre, Musical Theatre, or Theatre Design \& Technology. A minor or second major is not required to accompany this degree. All students who state an intention to pursue a BFA in Performing Arts will first be enrolled under the status "seeking admission" to the major. Students must formally apply for admission into the BFA in Performing Arts in a subsequent semester. In order to be eligible to apply you must have:

- Earned at least 30 college credits from an accredited college, university or post secondary conservatory;
- Maintained an overall GPA of at least 2.5;
- Demonstrated exceptional talent, commitment, self discipline, reliability, and a reasonable likelihood of success as a performing arts professional in at least one area of concentration;
- Participated fully in at least one previous Jury.

You must apply in your third semester, unless your advisor gives you permission to delay the initial application by one semester. If you are a transfer student your advisor will recommend your application semester. If you are denied admission to the major you may re-apply the following semester with no special procedure. A third attempt is only available by special petition to the faculty. You may also be accepted conditionally. This is at the department's discretion, and the schedule for when these conditions must be met is to be determined by the student's advisor. For a full understanding of the BFA application and Jury process you may download the current BFA - Performing Arts Handbook on the Departmental website: https://www.wku.edu/theatre-and-dance/ schedules_and_forms/departmental-forms.php. Keep in mind, half of the total hours in the degree must be in upper-division coursework.

# Theatre, Bachelor of Arts (798) 

## Program Coordinator

Alan R. White, alan.white@wku.edu, (270) 745-5845
Our AB in Theatre is a traditional Liberal Arts degree, designed to provide a solid foundation in all aspects of theatre while leaving some flexibility to pursue your own particular goals. You will need to combine it with a minor, or even a second major. Our $A B$ in Theatre does not require an audition, and is most appropriate for students who want the freedom to explore during their undergraduate years. The curriculum includes study in theatre history and theory, performance, design and production, and a number of performance or production lab credits earned through involvement in shows. Ten hours of theatre electives allow you to further pursue whatever most interests you. Theatre AB students will often combine their degree with a major or minor in Film, Broadcasting, Creative Writing, Dance, Music, or Arts Administration. But really, you can combine your B.A. in Theatre with almost any other major or minor at WKU.

## Program Requirements (45 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

A minor or second major is required. At least 22.5 credits applied to this major must be upper-division ( 300 level or above).

The BFA in Film Production is a pre-professional major providing an immersive, conservatory-style educational experience for students
pursuing a career in the film industry. Hands-on instruction in preproduction (writing, producing), production (directing, cinematography, production design), and post-production (editing, sound, visual effects, animation) provides students foundational concepts and practical skills which are reinforced through their work on short films. Film studies courses emphasize critical and analytical thinking through the study of global film culture, history, and aesthetics.

BFA in Film Production students will rotate through "below the line" (technical) and "above the line" (creative) roles on two short film production cycles, leading to a final thesis film cycle where seniors choose an area of emphasis (directing, cinematography, producing, production design, editing, sound, animation). By the time of their graduation, every BFA in Film Production student will be ready to enter the workplace with nearly 30 student film credits for their resumé.

## Concentrations

- Film Animation (FPFA)

The world of journalism is changing. However, the need for excellent journalists is not. The Journalism major grounds its curriculum in the skills that all employers within the news media and professional communications want: strong writing and editing skills; excellent storytelling skills; the ability to find and process complex information, and share it in a way that helps others understand it.

The core of the curriculum remains reporting, writing, and editing for print and the Web. That core is joined by a range of classes aimed at developing a foundation in multimedia storytelling: digital photojournalism, audio-visual gathering, and editing; and Web site development and content delivery. Ethical and professional standards, First Amendment principles, and media law concepts are incorporated throughout the curriculum to complete the program.

Specific objectives of the Journalism program:
a. To prepare students for professional careers in journalism and media information;
b. To instill in students a high degree of professionalism, which consists principally of practical competence and ethical understanding;
c. To enhance the student's understanding of the role of the press in a democratic society.

## Program Admission Requirements

Students wishing to enter the major in journalism initially are admitted as majors seeking admission (reference 736P). Prospective majors may take no more than 15 hours in the major before admission. Students must meet the following requirements before they can be admitted:

d. Completion of the following courses with a grade of " C " or better. SOM 101, SOM 102, and JOUR 202.

Students not meeting the above admission requirements will not be admitted to the Journalism major and cannot register for any additional courses in the major.

## Program Coordinator

Kenneth D. Payne, ken.payne@wku.edu, (270) 745-3968
Accredited by the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC) and certified by the Public Relations Society of America (PRSA), the Public Relations major emphasizes applied research, data and analytics, strategic campaign planning, targeted written communications, digital storytelling, and ethical practice. Public relations is a planned process to influence attitudes and behavior using strategic communications. We prepare students for a career in public relations/strategic communications with skills in critical thinking, writing, digital analytics, research, program planning and management, creative problem solving, and relationship building with key publics. Those publics include media, consumers, employees, government, opinion leaders, communities, and many more.

Virtually all segments of the public and private sectors throughout the world draw employees from public relations graduates. Our graduates work as communications tacticians, strategic planners, digital storytellers, and management counselors. They may specialize in employee relations, community relations, social media communications, crisis communications, public affairs, media relations, or several other disciplines within the professional arena.

Specific objectives of the Public Relations major.

- To promote a broad understanding and appreciation of the expanding and important role of public relations in modern society;

# Visual Journalism and Photography, Bachelor of Arts (752P, 752) 

Program Coordinator

James H. Kenney, james.kenney@wku.edu, (270) 745-6307
With a tradition of highly successful graduates, state-of-the-art facilities, and award-winning faculty, WKU's Visual Journalism and Photography program is regarded as one of the nation's finest. The program is an integral component of the School of Media \& Communication and has been a significant contributor to the high quality of the university's student publications. In the William Randolph Hearst Journalism Awards competition, often referred to as the Pulitzer Prizes of collegiate journalism, WKU's Visual Journalism and Photography program leads the nation in both the Photojournalism and Multimedia Intercollegiate competitions.

The Visual Journalism and Photography program emphasizes photojournalism, documentary video, and photography. Its comprehensive curriculum prepares students to compete at the highest level as they enter a visual profession that offers numerous employment opportunities in online and traditional publications, nonprofit organizations, businesses, social media content gathering, and independent entrepreneurship ventures. This success is achieved through the practice of producing content-driven stories within the classroom, then reinforced through internships, workshops, freelance opportunities, and overseas educational programs.

The major offers two concentrations: Photojournalism and Documentary ( 45 hours) and Photography (36 hours). The Photojournalism and Documentary concentration prepares students to enter the visual journalism profession with classes in still photography, documentary video, design, studio lighting, visual business practices, and journalism writing. The Photography concentration is designed for those wanting to obtain skills in still photography, studio lighting, video, and design, applying these to applications outside of the traditional journalism profession, such as commercial, portraiture, advertising, and promotional photography.

Concentrations

- Photojournalism and Documentary (PJD)
- Photography (PHTO)

## Admission Requirements

Students entering the major in Visual Journalism and Photography are admitted as "seeking admission" (reference 750P). Prospective majors may take no more than 15 hours in the major before admission. Students must meet the following requirements before they can be admitted:
a. Completion of a minimum of 24 hours of coursework applicable to a baccalaureate degree;
b. A minimum overall grade point average of 2.5 ;
c. Completion of ENG 100 with a grade of " $C$ " or better and 9 additional hours in the Colonnade program;
d. Completion of the following courses with a grade of "C" or better: SOM 101, SOM 102, VJP 131, and VJP 330 or VJP 331.

Students not meeting the above admission requirements will not be admitted to the Visual Journalism and Photography major and cannot register for any additional courses in the major.

## Program Requirements (36-45 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/
registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

The major in Visual Journalism and Photography with a concentration in Photojournalism and Documentary requires 45 hours, and the concentration in Photography requires 36 hours. Both tracks lead to a Bachelor of Arts degree. No course with a grade of " $D$ " or below may be counted toward the major or fulfill prerequisite requirements for any major in the School. One half of the hours in the major must be at the 300 - or 400 - level.

In addition to meeting the Colonnade and major requirements for graduation, the Visual Journalism and Photography major must have a minor or second major that is approved by a major faculty advisor.

Specific objectives of the Visual Journalism and Photography program:
a. To develop the artistic, technical, and personal qualities of those who want to pursue a professional career in visual media;
b. To develop a background for understanding the role of storytelling through photojournalism, documentary video, and photography in shaping and reflecting contemporary society;
c. To provide instruction in visual theory, principles, ethics, and practice for students pursuing any area of scholarly activity;
d. To provide a conceptual grounding in storytelling principles that will encourage advancement of the professional visual content gatherer.

The major offers two concentrations: Photojournalism and Documentary ( 45 hours) and Photography ( 36 hours). These concentrations require the following courses:

## Workplace Communication, Certificate (1760)

## Program Coordinator

Holly J. Payne, holly.payne@wku.edu, (270) 745-5876

## Program Requirements (18 hours)

Interpersonal communication skills within the workplace are rated by organizations and leaders as important for employee success. In fact, many employers go so far as to emphasize communication skills such as team communication, problem solving, and conflict resolution as more important than the technical skills needed for different professions. The certificate in Workplace Communication is an 18 credit hour program designed to equip students with practical and meaningful communication skills for workforce success. The certificate allows students from any major to explore their own patterns of communication and that of others so that they can construct competent messages for different audiences within professional settings. Through hands-on learning experiences, students will engage and practice the skills needed to communicate with confidence even in difficult situations. Students will complete six courses including: COMM 145, COMM 240, COMM 330, COMM 349, COMM 348, and COMM 365.

The certificate is available to students from any major and has been designed with consideration of transfer students and dual-credit students entering WKU with required courses. Additionally, the certificate is available to non-traditional students wishing solely to earn this undergraduate certificate. All classes must be completed with a "C" or higher.

## Brewing and Distilling Arts \& Sciences, Certificate (1733)

## Program Coordinator

Guy D. Jordan, guy.jordan@wku.edu, (270) 745-8865
Humans have been brewing alcohol since the dawn of recorded history, and distilling stretches back over a thousand years. Brewing and distilling play a major role in the Kentucky and U.S. economy. Industries as diverse as farming, tourism, construction, and retail all rely on and contribute to alcohol production.

This multidisciplinary certificate is designed to complement an existing major in a related field, by providing a background understanding of topics related to the brewing and distilling industries-students need to become competitive in the marketplace.

The minor in Film Studies will give students an opportunity to study several aspects of cinema in an organized, in-depth manner. Because it is an interdisciplinary minor, it will allow students to examine film from a variety of perspectives. Completing this minor will give students a strong background in media history and literacy and in the critical analysis of film.

## Honors Self-Designed Studies (566, $633,539,634)$

## Program Coordinator

Craig T. Cobane, craig.cobane@wku.edu, (270) 745-2085
The Honors Self-Designed Studies (HSDS) major and minor permit students to design unique programs of study when WKU's existing
programs do not adequately fit their needs. To better serve the needs of students, there are five separate options for pursuing an HSDS major/ minor.

## What are the general requirements for Honors SelfDesigned Studies?

- Any proposed HSDS must be a major or minor WKU does not already have.
- At least one-half of the hours in any HSDS major or minor must be upper-division (numbered 300 or above).
- No more than six hours of courses used to satisfy Colonnade requirements may be used in the HSDS major or minor.
- The HSDS must include honors coursework, either through dedicated honors courses, or Honors Augmentation Contracts (HACs)
- In accordance with WKU degree requirements, any two separate academic degree programs must total a minimum of 54 credit hours and have at least 48 non-duplicated credit hours.
- Students completing an HSDS major or minor must complete all other requirements of the Mahurin Honors College.
- Students must meet with an MHC advisor and their HSDS faculty sponsor every semester and provide and update on progress.

How do I begin the process of creating an Honors Self-Designed Studies Major/Minor?
Choosing to create an HSDS major or minor is a highly personalized decision requiring you to carefully consider what educational options currently exist at WKU and your long-term academic and professional goals.

Step 1: Clearly understand and articulate your professional and personal goals.

Step 2: Refer to the Guide to Planning an HSDS Program (https:// www.wku.edu/honors/academics/self-designed-studies/ documents/guide_to_planning.pdf) to brainstorm, refine and, ultimately, design your major or minor.

Step 3: Meet with your MHC academic advisor to discuss how the HSDS major/minor fits with the MHC curriculum, including the required CE/T project.

Step 4: Submit your HSDS Proposal, which includes:

- A statement of 250 words describing how and why your academic, professional and intellectual goals are best achieved by an HSDS major/minor.
- A program of study detailing each course that will be part of your HSDS major and the semester in which you plan to take each course and which courses will be taken for honors credit.
- A list of three main learning outcomes that you will achieve through your HSDS major. These should focus on what the program of study will help you learn and understand, and how these outcomes are preparing you for the next stage of your academic, professional and intellectual journey.
- Signature from a faculty sponsor who supports and approves your HSDS major.

## Proposal Forms:

- Stand-alone Major (https://www.wku.edu/honors/academics/self-designed-studies/documents/hsds_48hour_major.pdf)
- First Major (https://www.wku.edu/honors/academics/self-designedstudies/documents/hsds_36hour_major.pdf)
- Second Major (https://www.wku.edu/honors/academics/self-designed-studies/documents/hsds_30hour_major.pdf)
- Minor (https://www.wku.edu/honors/academics/self-designedstudies/documents/hsds_minor.pdf)

## What happens after I submit my proposal?

The Assistant Director for Academics of the MHC reviews all proposals within two weeks. You will be notified by email if your proposal is accepted as is, or if revisions are required.

Upon approval: Work with your MHC advisor to change your major on TopNet. Use your approved proposal for planning and registration.

Upon earning 75 credit hours in residence: Work with your MHC Advisor to submit the Honors Self-Designed Course Sheet. This form will direct the Registrar's Office to create your program on the degree audit.

There are many potential reasons to study Latin America, from a personal love of Latin American music and dance to the professional advantages
it can provide after graduation. Latin American and Caribbean countries have historically been closely involved with the U.S. both politically and economically. With the advent of the North American Free Trade Agreement in 1994, Mexico is an ever more important trading partner, and the U.S. continues to seek additional trade agreements throughout the region. Countries like Brazil are playing an increasingly important role in the world economy. Developments in Latin American countries also affect the U.S. directly, and understanding Latin American issues is the key to creating informed policies that can benefit the entire hemisphere. Hispanics are now the largest and fastest-growing minority group in the U.S., so that Latin American culture has become a vital part of the diverse society of this country. Finally, Latin America is an exciting place to study; your experiences with the music, film, food, sports, and people of the region will remain with you for your entire life.

## Program Requirements (21 hours)

The minor in Latin American studies requires a minimum of 21 semester hours. Latin American Society: Past and Present (cross-listed as GEOG 200, HIST 200, and SPAN 200) is required of students taking the minor. At least three departments must be represented among the remaining 18 hours. Completion of one year of college Spanish or Portuguese or its equivalent is an additional requirement.

Latin American Society: Past and Present. 3 hours. (Required) (equivalent to GEOG 200, HIST 200, and SPAN 200). The course is a broad, interdisciplinary introduction to the study of Latin America, emphasizing its regions, peoples and cultures. (Colonnade Connections SB course - 21 hours of Foundations and Explorations Courses, or junior status required). Meets Category E General Education requirement for students enrolled with a catalog term prior to Fall 2014.

## Legal Studies

The Legal Studies minor provides students an interdisciplinary perspective while fostering greater understanding of the law as it relates to history, the sciences, and ethics in the United States and around the world. While this minor will appeal to pre-law students, it can also serve as a background for a wide variety of careers, including public administration, academics, government, homeland security, nongovernmental organizations and law enforcement.

## Why Legal Studies?

Legal Studies allows students from a broad range of disciplines to focus their studies using their own majors as a launching point for exploring how the study of law cuts across disciplinary lines. It offers courses in a wide variety of subjects, including philosophy and ethics, American legal history, political process, constitutional law, sociology and criminal justice, business, journalism and broadcasting, economics and property law, and environmental law and regulations.

Legal Studies prepares students for a wide variety of careers in law, business, journalism and broadcasting, public policy, and sciences. A future FBI agent, attorney, or advisor to a Fortune 500 company will need to understand not only environmental law, for example, but also the history of law in the United States as well as the ethical underpinnings of business law and ethics. For science majors, Legal Studies provides an interdisciplinary supplement to their major.

# Russian and East European Studies, Minor (451), (Pending Board of Regents Suspension for Fall 2023) 

## Program Coordinator

Marko Dumancic, marko.dumancic@wku.edu, (270) 745-3197
This interdisciplinary minor is designed with two main goals in mind. The first is to familiarize students with the most significant political and economic issues facing both Russia and the states of Eastern Europe. The second is to provide students a foundation for effective communication in Russian.

Because of Russia's dominant global role, it is essential that students become familiar with Russia and its language. With Russian being the language of approximately 250 million people, students minoring in REES will study one of the major languages of the world. Furthermore, Russian
is recognized as a Critical Language by the US Departments of State and Defense. Fortunately, the language is not as hard as most people think; the alphabet takes less than a week to master. Learning Russian allows students to travel to Russia and witness first-hand the changes taking place in religious, economic, and cultural behaviors. Russian makes an excellent language for those pursuing careers in sociology, anthropology, criminology, political science, international law, geology, journalism, and international business.

Knowledge of East European and Russian societies opens the door to many exciting opportunities. A minor in Russian and East European Studies is not just for translators, diplomats, and teachers. Knowledge of Russia and East Europe can be helpful in landing a job in many fields. Having a REES minor makes any job candidate stand out from the crowd, whatever the field. A REES minor can careers in business, law enforcement, political analysis, work in international aid organizations, natural resource management, and computer science. For those seeking a career in research, Russia and East Europe is a massive field for study in disciplines like Religious Studies, Economics, Sociology, Anthropology, History, Political Science, and more.

## Program Requirements (21 hours)

The minor requires seven courses, for a total of 21 credit hours. Students minoring in Russian and East European Studies construct their programs of study around two components.

| Code | Title | Hours |

The Gordon Ford College of Business traces its roots to the Bowling Green Business University, founded in 1884 as the Southern Normal School and Business College. In 1907, the Southern Normal School became Western Kentucky State Normal School, and the Bowling Green Business University began a long history of nationally noted programs. In June 1963, Western Kentucky University assumed the business programs of the Bowling Green Business University, and in 1964 the Bowling Green College of Commerce became a division of the University. The name was changed in 1972 to the Bowling Green College of Business and Public Affairs; and following department realignment in 1979, it became the Bowling Green College of Business Administration. To honor the generosity of Gordon B. Ford, the college was renamed the Gordon Ford College of Business in December of 1998, becoming the second named business school in Kentucky. All business programs offered by the College are accredited by AACSB International - The Association to Advance Collegiate Schools of Business. WKU is one of only three universities in the Commonwealth of Kentucky to have "dual accreditation," meaning that both its business and accounting programs are AACSB accredited.

A student who is not pursuing a major in the college may enroll in upperdivision courses leading to a minor in the college provided the student has met the prerequisites for the course(s).

## Registration

Under most circumstances, students are approved to register for upperdivision courses in the college without making application. Eligible students who experience problems with registration should contact the

Undergraduate Student Services and Academic Advising Center (Grise Hall 449).

## Transfer Policies

Students pursuing a major in the Gordon Ford College of Business must earn a minimum of one-half of the major in residence at Western Kentucky University.

Students wishing to transfer to Western Kentucky University need to follow Colonnade Program guidelines as listed in the catalog. This strategy should minimize the risk of losing credits toward graduation. Courses that are offered only at the upper-division level at Western Kentucky University should not normally be taken at other schools. Students are advised to consult the Western Kentucky University department chair of their major program or the Undergraduate Student Services and Academic Advising Center (Grise Hall 234) regarding the transferability of any upper-division course. Students who plan to enroll or who are presently enrolled in junior or community colleges who envision transferring to WKU to complete a baccalaureate degree in the Gordon Ford College of Business should follow a program of Colonnade and prerequisite courses similar to the catalog requirements for freshmen and sophomores on the WKU campus. The Gordon Ford College is an active participant in the statewide transfer agreement for business programs for KCTCS students completing the A.A. or A.S. degrees. Students enrolled in the Kentucky Community and Technical College System (KCTCS) should contact their advisor for specific information on transferring courses to the Gordon Ford College of Business and Western Kentucky University.

## Mission Statement

The Department of Accounting provides an applied learning experience as a framework for lifelong learning to prepare our students for successful careers in accounting and business in an ever-changing environment.

## Accounting Program

The accounting department provides a challenging program of study for students who desire to pursue a major in the field of accounting. Students are engaged in unique and enriching learning experiences both inside and outside the classroom. Upon the successful completion of the 120-hour undergraduate program, students are prepared for a rewarding career in public accounting, industry, government, and other business fields.

## Transfer Students

Students in community or junior colleges who plan to transfer to Western Kentucky University to complete a baccalaureate degree in accounting should concentrate on courses which will satisfy Colonnade Program requirements. Credit for accounting or business courses completed at community or junior colleges, except some 200-level courses, will generally not be allowed as part of the Accounting Program.

Students attending four-year schools who wish to transfer to Western Kentucky University should follow a program of Colonnade and prerequisite courses for entry into the Accounting Program. For accounting and business courses offered only at the 300-level and 400level at Western Kentucky University, a maximum of nine semester hours may be transferred from other four-year schools for credit in the accounting major. Such transfers require the approval of the Western Kentucky University Chair of Accounting. Such courses completed before entering WKU will be accepted for transfer credit as part of the accounting program only if the grade of " C " or better was earned.

Students already enrolled at Western Kentucky University should not plan on completing accounting requirements at other institutions.

## Pilot Program

Students who successfully complete the high school AICPA Accounting Program for Building the Profession (APBP) and pass the APBP exam will receive three hours of proficiency credit that will meet the prerequisite requirement for ACCT 220. Contact the department for additional information.

## Program of Study

When planning a program of study in this department, students should refer to the suggested Program of Study. Each student should be aware of the University's academic requirements and regulations contained in this catalog in the chapter titled "Academic Information." Students are encouraged to contact the Gordon Ford College of Business Undergraduate Student Services and Academic Advising Center and/or the Accounting Department Chair for academic advising and assistance. For career-related information, students should contact the Accounting Department, Center for Career and Professional Development, GFCB Internship Coordinator, or an Accounting faculty member for career mentoring and advising.

## Why study Accounting?

An accounting major can lead to a successful career in many different areas of accounting and business. From the smallest start-up company
to large international companies and governmental agencies, every organization requires the skills of accountants.

## Why study Accounting at WKU?

Lots of reasons! Here are just a few:

- The accounting programs at WKU focus on developing communication, critical thinking, problem-solving, team building, and technical competencies.
- WKU Accounting graduates have one of the highest passage rates for the CPA Exam (for schools in Kentucky and surrounding areas with undergraduate accounting programs).
- The Department of Accounting and the Gordon Ford College of Business both are accredited by the AACSB - International (http:// www.aacsb.edu/). Of the 963 accredited collegiate business schools world-wide, only 194 have been able to attain AASCB accreditation in both Business and Accounting.
- The Joint Undergraduate Master's Program (JUMP) allows undergraduates to pursue both the Bachelor and Master (MADA) degrees concurrently.
- Accounting students participate in the University's Honors program and/or take advantage of Study Abroad \& Global Learning (https:// www.wku.edu/studyabroad/) opportunities.
- Over $65 \%$ of senior accounting students have career-related experiences prior to graduation. WKU's Career Services Center (https://www.wku.edu/career/) and the Department of Accounting provide Academic and Career Orientation sessions designed specifically for accounting majors
- WKU accepts the High School "Pilot Project" Advanced Placement (AP) course and gives students who successfully pass ( score a 3 or higher) on the AP test 3 hours credit for our ACCT 110 course. WKU is among very few institutions in the U.S. offering this service to students!

## Professional Certification

While not a requirement for successful completion of the program, the Department strongly encourages the student to pursue one or more professional certifications. Two of the more common are CPA (certified public accountant) and CMA (certified management accountant). Information regarding the certifications can be found through on following websites:

## Program Requirements (75 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/
registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

The undergraduate major in Accounting requires 75 hours of professional and elective courses and leads to a Bachelor of Science degree. No minor is required, although approved minors and certificates inside or outside the college are encouraged.

## Business Core

Employers are seeking business graduates who 1) are well-prepared in their specific major, 2) possess foundational knowledge about other business disciplines, and 3) are career ready and professional. All majors in the GFCB complete courses specific for their selected major, a common set of business and career preparation courses (the business core), and MATH 123 (Mathematical Applications for Business).

${ }^{1}$ BA175 is only for Business LLC students. BA220 is only for WKU students and transfer students who choose a business major as a sophomore or higher.

## Pursuing a Second Degree in Accounting

Individuals who have already received a college degree have the opportunity of enrolling in WKU to pursue a degree in accounting.

Students with a first degree in the area of business should be able to complete the Bachelor of Science degree in accounting with approximately 30 additional hours. Those individuals without previous courses in business tend to need a higher number of hours to complete the second degree.

Second baccalaureate degree candidates are exempt from the Western Kentucky University Colonnade requirements. Accounting students must, however, complete the math requirement and an approved speech course, either in previous college work or as a part of the proposed course of study.

Only those accounting and professional business courses completed within five years of the time that the student enrolls for the second degree in accounting will be accepted. Because the business environment is ever changing, subject matter taken in courses completed several years ago is likely forgotten or not currently relevant.

The decision to accept coursework toward the second degree rests with the Department Chair of Accounting.

The prospective candidate for the second degree should contact the Department Chair of Accounting to schedule a meeting to evaluate their situation, to develop a program of study, and to obtain an estimate of the time necessary to complete the second degree in accounting.

## Finish in Four

Students pursuing the Accounting JUMP Program will need to consult with their assigned Academic Advisor as the Finish in Four Plan will differ.

The field of business data analytics explores the interplays between technology, business, and society. Business data analytics utilizes information management tools for the processing, management, and analysis of data that relates to business. Graduates in Business Data Analytics serve as a bridge between the builders and users of technology and global innovations. Occupations in this field include Business Analyst, Customer Intelligence Analyst, Database Administrator, and Healthcare Analyst.

The AIS Department at WKU offers several professionally-focused programs that prepare students for these, and many other, dynamic opportunities:

- Business Data Analytics (BDAN)
- Applied Data Analytics Certificate
- Minor in Computer Information Systems
- MBA Concentrations
- Data Analytics
- Cybersecurity Data Analytics

## Overview of Computing Facilities

Western Kentucky University maintains a number of general-purpose computing labs across campus with a computer-to-student ratio that is among the highest of all state universities. In addition, the Department of Analytics and Information Systems offers extensive hands-on learning opportunities through its own computer-enhanced instructional classrooms, computer labs, and many web-enabled courses. These resources are available at WKU's main and regional campuses. These resources allow BDAN students to make use of the latest hardware and software technologies in their major courses. This unique blend of classroom instruction and hands-on experience helps to prepare our graduates for professional success.

# Business Data Analytics, Bachelor of Science (504) 

## Program Coordinator

Ray Blankenship, ray.blankenship@wku.edu, (270) 745-5952
The Business Data Analytics major requires 66 semester hours. The major is designed to prepare students for professional careers using data analytics and technology. Students are trained to use data to improve decision making and gain insight. Local and global businesses are increasingly relying on the acquisition, management, and analysis of data. As the amount of data increases from all aspects of society so does the need for employees trained in data analytics. The Business Data Analytics major will provide students with a solid business foundation combined with a relevant study of data analytics. This major will help strengthen the $\overline{\bar{k}}$ nowledge economy in Kentucky and increase the availability of trained data analysts.

The CIS minor has been specifically designed for non-technical majors who want to learn more about how technology can improve their personal and professional productivity. Students in the CIS minor take a set of required and elective courses in areas such as web-design, desktop publishing, multi-media, computer graphics, geographic information systems, computer-aided drafting and digital video production. Almost all professions today require their employees to be proficient with computers-not just 'literate.' The CIS minor is a valuable addition to any WKU major.

## Mission Statement

The primary mission of the Economics Department is to offer a highquality education that will prepare students for a wide variety of careers in business, public sector, and education. To fulfill this mission, the economics faculty emphasizes excellence in teaching and research and engages in service to the university and the community.

## Economics

Economics is the study of how humans decide how to use the limited resources they have. Economic principles are at the core of decisionmaking by businesses, governments, non-profit organizations, individuals, and families, because the limited resources are not just money and raw materials - they are also time, attention, computing resources, food, water, hospital beds, or seats on a crowded subway. Economics is everywhere: you can be a business economist, a sports economist, an environmental economist, a health economist, or a transportation economist.

Economics as a science relies heavily on data analysis because economists use real-world data to study economic relationships and to develop a better understanding of the world. Therefore, a graduate of an economics program will not only have the knowledge of economic principles that drive the economy much like the laws of physics rule the universe but will also leave with a toolkit of quantitative skills.

This combination of the economic way of thinking and data analytic skills prepares students for many different employment opportunities. Our graduates pursue careers in finance, banking, insurance, local and federal governments, public utilities, research institutions, education, and international organizations. They hold a wide variety of jobs such as economist, loan officer, forecast analyst, financial analyst, business consultant, data analyst, energy analyst, bank examiner, research analyst, broker, market research analyst, policy analyst, professor, lawyer and many more. This multitude of possible career paths is what is great about choosing an economics major. Economics gives students an excellent foundation for employment in many areas of business and government service, as well as for advanced graduate studies.

## Economics Degrees

The Economics Department offers three majors: AB in Economics, BS in Business Economics, and BS in Mathematical Economics.

The AB in Economics (reference number 638) requires a minimum of 35 hours, and a minor or a second major. Students interested in combining the Economics major with another field of study should pursue this degree path. Students may choose any other major or minor at WKU. If students choose their second major or minor(s) from another department in the Gordon Ford College of Business, some courses may apply to both degrees. The AB in Economics offers students the most flexibility to customize their education and graduate with a potent combination of highly marketable skills.

The BS in Business Economics (reference number 724) requires 72 hours. This degree does not require a second major or a minor. The Business Economics major combines the courses from $A B$ in Economics with those in accounting, finance, management, marketing, and computer information systems. The program is designed for students to be able to add a minor and still graduate in four years, especially if that minor is in the College of Business.

The BS in Mathematical Economics (reference number 731) is for students wishing to pursue either a graduate degree in economics, or a highly applied, analytical occupation with heavy emphasis on quantitative skills such as an actuary. This degree does not require a second major or a minor. The BS in Mathematical Economics offers two concentrations: General concentration, and Actuarial Science concentration.

International students who complete this program may qualify for the STEM OPT extension (the CIP Code of the program is 45.0603).

The General concentration in the BS in Mathematical Economics requires a minimum of 49 hours. This major is strongly recommended for students considering either a PhD in Economics or highly applied, analytical occupations, especially in data analytics. Because doctoral programs in economics are highly mathematical, this degree combines the economics coursework with the mathematics courses that are necessary to succeed in an economics doctoral program.

## The Actuarial Science concentration in the BS in Mathematical

 Economics requires a minimum of 61 hours. This degree is strongly recommended for students pursuing careers as actuaries. Actuaries are professionals who specialize in modeling and managing risks. Actuaries typically work for health, life, and property insurance companies, but individuals with actuarial training may work in many other areas such as banking, investment, energy, government, employee benefits, predictive analytics, and many more. Actuaries use a combination of strong analytical skills, business knowledge, and an understanding of human behavior. It takes five to seven years on average to become an actuary after completing an undergraduate degree. To become an actuary, one must pass a series of exams to earn an actuarial designation by either the Casualty Actuarial Society (CAS) or the Society of Actuaries (SOA). Students in the Actuarial Science concentration will take courses that will help them prepare for the first two actuarial exams. As a part of becoming an actuary, candidates must also earn Validation by Educational Experience (VEE) credits, which demonstrate that as students they received academic training in certain required areas. The course work in this concentration is designed for students to receive all three of the VEE credits required by the SOA: Economics, Mathematical Statistics, and Accounting and Finance.The Economics Department also offers a minor in Economics (reference code 356) which requires a total of 21 hours of coursework. Nine of those hours (ECON 202, ECON 203, and ECON 206) are a part of the College of Business Admissions Core, so to earn the minor in Economics, most business students need to complete 12 additional hours.

## Economics JUMP Program

The Economics department offers a JUMP option - Joint Undergraduate/ Master's Program. JUMP allows students to start working toward their MA in Applied Economics while completing their bachelor's degree in economics. Undergraduate students admitted into JUMP may take graduate courses that count toward both undergraduate and graduate degrees. Up to 12 credit hours can be double-counted, and up to 18 hours of graduate courses can be taken while a student is completing the undergraduate degree. The key benefit of the JUMP program is that it
allows students to earn a bachelor's and a master's degree in less time by completing only 138 credit hours. For more information, see https:// www.wku.edu/economics/.

To be eligible for the Economics JUMP program, a student must meet the following requirements:

- Be an economics major (economics, business economics, or mathematical economics);
- Have completed at least 60 hours total, with at least 24 hours at WKU;
- 3.0 overall GPA
- 15 hours of 200-level or higher economics courses with a minimum GPA of 3.25 .

The BS in Mathematical Economics is for students wishing to pursue either a graduate degree in economics or a highly applied, analytical occupation with a heavy emphasis on quantitative skills such as an actuary. This degree does not require a second major or a minor. The BS in Mathematical Economics offers two concentrations: General concentration and Actuarial Science concentration.

International students who complete this program may qualify for the STEM OPT extension (the CIP Code of the program is 45.0603 ).

The General concentration in the BS in Mathematical Economics requires a minimum of 49 hours. This major is strongly recommended for students considering either a PhD in Economics or highly applied, analytical occupations, especially in data analytics. Because doctoral programs in economics are highly mathematical, this degree combines the economics coursework with the mathematics courses that are necessary to succeed in an economics doctoral program.

The Actuarial Science concentration in the BS in Mathematical Economics requires a minimum of 61 hours. This degree is strongly recommended for students pursuing careers as actuaries. Actuaries are professionals who specialize in modeling and managing risks. Actuaries typically work for health, life, and property insurance companies, but individuals with actuarial training may work in many other areas such as banking, investment, energy, government, employee benefits, predictive analytics, and many more. ## Why Choose Finance?

Finance is the art and science of managing money. Today's financial managers play a critical role in the process of raising and spending money, whether it is in a corporate, government, or personal setting. Career opportunities in Finance are both numerous and exciting in our fast-paced global marketplace.

Finance offers both a major and a minor (https://www.wku.edu/ finance/minor-in-finance.php), and within the major there are five concentrations: 1. Business Finance-General (https://www.wku.edu/ finance/business-finance.php), 2. Business Finance - Investment (https:// www.wku.edu/finance/business-finance.php), 3. Business Finance - Analyst (https://www.wku.edu/finance/business-finance.php), 4.

Business Finance - Financial Services (https://www.wku.edu/finance/ business-finance.php), and 5. Personal Financial Planning. (https:// www.wku.edu/finance/personal-financial-planning.php) In addition, we offer two Certificates: a Certificate in Financial Planning (p. 211) and an Accredited Financial Counselor Certificate (p. 205). Certification opportunities are available to current students and individuals who already hold an undergraduate degree.

Business Finance majors generally start the program in the Business Finance - General concentration. The General concentration allows students to choose topics of interest among the Finance courses before deciding whether to specialize. Please contact Professor Chhachhi for additional information about the Business Finance - General Concentration.

The decision to choose a particular Business Finance Concentration generally takes place in a student's junior year with guidance from Finance faculty and GFCB advisors.

The Investment Concentration focuses on the proper use of investment instruments, how financial markets work, proper portfolio construction and the allocation of resources to meet financial goals. Students are exposed to both theoretical concepts and applied investments. Important skills and responsibilities include formulating investment strategies, making investment decisions/recommendations, managing portfolios, and managing investment risks. Please contact Professor Ling Lo or the department chair for more information about the Business Finance Investment Concentration.

The Analyst Concentration is designed to develop financial and data analysis skills necessary to support various analyst roles including financial analyst, risk analyst, valuation analyst, and investment analyst. The Analyst Concentration focuses on skills for gathering and parsing financial data, analyzing and interpreting financial statements, evaluating a company's performance, and communicating findings.

Analyst jobs typically involve a great deal of data analytics and the use of financial technology (a fast-growing area in finance). The role of an analyst is often both analytical and client-facing. Students pursuing the Analyst Concentration can expect to have a range of job functions and career paths across multiple industries from which to choose.

The Analyst Concentration also completes the requirements for a Certificate in Applied Data Analytics. Note: Students must apply for the certificate after completing requirements. Please contact Professor Joseph or the department chair for more information about the Business Finance - Analyst Concentration.

The Financial Services Concentration provides students with analytical and problem-solving skills to prepare students for careers in the financial services industry. Financial Services is the sector of the economy that addresses the management of money. Banks and other depository institutions, insurance companies, finance companies, and mortgage lending companies are examples of companies in the financial services industry.

Possible careers in financial services include bank examiner, credit analyst, insurance adjuster, insurance agent, depository institution management and underwriter. Please contact Professor Brown or the department chair for more information about the Business Finance Financial Services Concentration.

Financial Planning concentrates on the various aspects of personal financial planning for individuals including investing, personal budgeting, tax planning, retirement planning, estate planning, and insurance.

Students wishing to pursue two concentrations in Business Finance and Personal Financial Planning (PFP) should combine the Business Finance - General Concentration with the PFP Concentration and use PFP courses to meet the 15 hours of elective credits for the Business Finance - General requirements. There are then an additional 9 credit hours in the PFP Concentration.

The Finance faculty at WKU work closely with students in small classes, bringing a wealth of knowledge and expertise to the classroom. The Finance curriculum includes hands-on opportunities and state-of-the-art technology.

There are several notes of distinction regarding our programs. First, our Personal Financial Planning concentration and our Certificate in Financial Planning program are registered with the Certified Financial Planner Board of Standards, Inc. (CFP Board). (https://www.cfp.net/) As of December 2022, we are one of only three institutions in the state of Kentucky with Board registered degree programs! This registration confers a special advantage on our graduates.

Second, the WKU Finance Group is one of 25 programs in the Tennessee Valley Authority (TVA) service region to be part of its Investment Challenge Program. (http://www.tvainvestmentchallenge.com/) As of January 2023, the student-managed investment portfolio was valued at $\$ 500,000$ ! Read more about this program under TVA Investment Challenge.

Third, the Gordon Ford College of Business holds dual AACSB accreditation in business and accounting. The AACSB Accreditation is the world's highest standard of excellence in business education. ## Personal Financial Planning Concentration

The Personal Financial Planning concentration requires 87-88 hours of professional and elective courses and leads to a Bachelor of Science degree. The personal financial planning concentration deals with the process of developing comprehensive financial plans for individuals. Financial planners help individuals determine financial goals and objectives and the best strategies for obtaining these goals. The rapid growth of multi-income families in the U.S. has placed more and more people in a position of need to apply sophisticated financial planning techniques to their personal economic affairs. As a result, one of the fastest growing career paths in the financial services industry is financial planning, and the Certified Financial Planner ${ }^{T M}$ (CFP) ${ }^{\circledR}$ designation has become the most widely recognized financial planning credential among consumers.

The Personal Financial Planning concentration is registered with the Certified Financial Planner Board of Standards in Washington D.C. We are one of only three registered universities in the state of Kentucky! This registration confers a special advantage on our graduates. Upon completion of our CFP ${ }^{\circledR}$ board certified program, students are allowed to sit for the CFP ${ }^{\circledR}$ Certification Examination.

Western Kentucky University does not certify individuals to use the CFP $^{\circledR}$, Certified Financial Planner ${ }^{\text {TM }}$, and CFP ${ }^{\circledR}$ (with flame logo) certification marks. The CFP certification is granted only by the Certified Financial Planner Board of Standards to those persons who, in addition to completing an educational requirement such as this CFP BoardRegistered Program, have met its ethics, experience, and examination requirements.

The Certified Financial Planner Board of Standards Inc. owns the marks CFP ${ }^{\circledR}$, Certified Financial Planner ${ }^{T M}$, and CFP ${ }^{\circledR}$ (with flame logo) which it awards to individuals who successfully complete initial and ongoing certification requirements.

## Management, Bachelor of Science (723)

## Program Coordinator

Whitney O. Peake, whitney.peake@wku.edu, (270) 745-2913
Students pursuing a major in Management may choose one of the following concentrations: Business Administration, Human Resource Management, Entrepreneurship, Global Business, or Supply Chain Management.

The Business Administration concentration of the Management major provides a broad business perspective for students who eventually wish to be involved in profit or goal management responsibilities. This program of study is not intended to prepare students for a career in any one type of industry or profession. Rather, it provides the graduate with a knowledge of basic managerial skills required by managers from small business owners to corporate presidents.

The Human Resource Management concentration of the Management major is designed to develop skills for managing an essential resource of any organization-its employees. Because of the importance of increasing human productivity, human resource management is viewed as a key contributor to organizational effectiveness. Human resource managers are frequently involved in top-level decision making.

The Entrepreneurship concentration allows students to develop the skills needed to start and own a business, to develop or grow an existing company, or to create an entrepreneurial environment within an organization. Entrepreneurial students are not only prepared to operate
a business, they are trained to innovate within existing organizations to increase productivity and performance. Students are encouraged to develop creative and impactful solutions by thinking critically about problems relevant to a variety of organizations, and continually practice and hone these skills through hands-on engagement in real-world exercises and projects.

The Global Business concentration is designed to increase students' knowledge and develop the necessary skills in order to function effectively in today's dynamic global environment. Students learn business practices around the world, international economics and trade regulations, geopolitical impacts on organizations, and cross-cultural management. Students are encouraged to take on an internship in a firm engaged in international business or participate in study abroad.

The Supply Chain Management concentration prepares students to work in the fast-paced and growing environment of supply chain, transportation and logistics. Students learn about operations, and how supply chains are created, defined, operated, maximized and examined across multiple industries. With the exciting supply chain environment in the Southern Kentucky region, students have opportunities to see examples from and work with supply chain professionals.

## Marketing

Marketing is a people-oriented, dynamic business function that leads to goal-oriented exchanges between individuals and organizations. Important marketing activities include developing an idea, good or service intended to satisfy consumer wants and needs, promoting/ advertising it to likely customers, selling it at a mutually agreeable price, and distributing it in acceptable locations.

The objectives of the marketing program are to teach students
a. The importance of marketing in an economy characterized by free consumer choice
b. The knowledge and skills required to perform marketing activities
c. The interaction between marketing and diverse environmental forces which impact marketing decisions.

The marketing student is prepared for a wide range of career opportunities in business and non-business, for-profit and not-forprofit organizations. Entry-level business positions serve as a step into professional selling and sales force management, pricing, product or brand management, social media marketing, advertising, market research, physical distribution, retail management and merchandising, sports
and event marketing or purchasing. Marketing also provides a solid foundation for those who hope to own their own business in the future.

Careers in marketing often lead to high-level management positions. Non-business and not-for-profit organizations (hospitals, educational institutions and charitable groups) also seek well-trained marketing graduates.

When planning a program of study in this department, each student should be aware of the University's academic requirements and regulations contained in this catalog in the chapter "Academic Information." Specific attention should be given to the subsections in the chapter entitled (a) Academic Programs, (b) Colonnade Requirements, and (c) Academic Requirements and Regulations. Students should be aware that some academic programs may require additional scholastic regulations and standards not specified in the catalog. To obtain a copy of these regulations, students should contact the department chair.

## Teacher Education Programs

The College of Education and Behavioral Sciences offers programs that are specifically designed for the professional growth of teachers and school leaders. These programs encompass the pre-service, inservice, and continuing education aspects of teachers' professional preparation. Within this framework, the programs serve to develop positive attitudes toward the profession of teaching, skills in specific areas, and dispositions necessary for continuous professional growth.

While the College of Education and Behavioral Sciences assumes primary responsibility for the professional preparation of teachers, the opportunity to educate teachers for the schools of the Commonwealth and the nation is shared by the University as a whole. Western Kentucky University is a charter member of the Renaissance Group for Teacher Education, which reflects its total campus commitment to quality teacher education programs.

The College's undergraduate teacher preparation programs are designed to meet the University's standards for baccalaureate degrees and the Kentucky standards for the designated teaching certificate. If the requirements for certification are changed at the state level, students seeking certification may be required to modify their programs of study to meet the new requirements. The professional education unit is accredited by Kentucky's Education Professional Standards Board and the Council for the Accreditation of Educator Preparation. All programs are approved by Kentucky's Educational Standards Board. All professional education courses require completion of field experiences in appropriate offcampus settings as mandated by the Kentucky Education Professional Standards Board. Details about the field placement policy, including the requirements for approval to be placed in a field setting, are provided on the website for the Office of Professional Educator Services (http:// www.wku.edu/teacherservices (http://www.wku.edu/teacherservices/)).

For the most current information on teacher education and certification, admission to professional education, and admission to student teaching, consult the website for the Office of Professional Educator Services: http://www.wku.edu/teacherservices (http://www.wku.edu/ teacherservices/). Other policies applicable to students in teacher education programs may be found here: http://www.wku.edu/cebs/ programs/undergraduate/policies/.

## Expiration of Courses and Programs Leading to Teacher Certification

## For Undergraduate Certification-only Programs

A student who entered WKU as a beginning freshman or transfer student Fall 2005 and thereafter (i.e. electronic degree audit eligible students) will be allowed seven consecutive years from the student's catalog term (initial term of entry) to complete coursework. The Dean of the College of Education and Behavioral Sciences may grant an extension to this deadline. If the Commonwealth of Kentucky makes changes in certification requirements, students seeking certification may be required to modify their programs of study to meet the new requirements.

## For Undergraduate Courses Used to Satisfy Requirements in Programs Leading to Teacher Certification

Consistent with CAEP Standards, approved courses for programs leading to teacher certification must be aligned with current standards. Some older courses may not be aligned with current standards, and thus it may not be appropriate to count them in a student's program. Generally speaking, professional education and "content" courses used to satisfy program requirements in programs leading to professional education certification should be no more than 10 years old. Decisions about whether older content courses may be used will be made on a case-bycase basis by the department chair of the student's major. For students in programs leading to secondary certification (Grades P-12, 5-12, and 8-12), decisions about whether older pedagogy courses may be used will be made by the faculty in the department in which the course is offered. However, if the pedagogy course is offered outside of the School of Teacher Education, the decision about whether the course may be used will be made in consultation with the School of Teacher Education. In all cases, documentation regarding the currency of course content and the alignment of the course with current teacher standards must be provided by the student and approved by the department that offers the course, upon recommendation from the School of Teacher Education when appropriate. Students who wish to use courses older than 10 years to satisfy program requirements may be required to demonstrate proficiency related to current course content and learning outcomes.

## Advising for Teacher Education Programs

All majors will be advised in the College of Education and Behavioral Science once they have reached junior status.

## Recommendation for Initial Teacher Certification

To be recommended for initial certification at the baccalaureate level (including post-baccalaureate certification-only programs), an applicant must document:

- Completion of approved program in each desired certification area(s);
- Passing score(s) on the PRAXIS II exam(s) or other assessments required for each desired teaching area(s) (see http://www.ets.org/ praxis/ky (http://www.ets.org/praxis/ky/) for the most current list of required assessments);
- Achievement of at least a 2.75 GPA overall, in each certifiable major(s) and minor(s), and in professional education courses; and
- Attainment of at least a "C" in all professional education courses, including EDU 489 and student teaching.

## Transfer Credit for Teacher Education

If determined to be equivalent, professional education courses completed at another institution may be accepted for transfer to Western Kentucky University teacher preparation programs, provided that a minimum grade of "C" was earned in each course accepted for transfer and the course meets the course expiration guidelines as stated above.

## Field Experience Policy

WKU undergraduate teacher preparation programs are designed to meet the University's standards for baccalaureate degrees, master's degrees, specialist degrees, and certification-only programs, as well as the Kentucky standards for the designated teaching certificate. All professional education programs require completion of a variety of diverse and focused field experiences in appropriate off-campus PrimaryGrade 12 school settings and school-related settings as well as student teaching or equivalent experiences. The number of required hours of field experiences varies by program; however, a minimum of 200 hours of approved off-campus field experience is required in professional education courses prior to the student teaching experience or equivalent. The candidate is responsible for documenting completed hours, date, and setting. In addition, all programs require one 16 -week or two 8 -week fulltime student teaching placements, or appropriate equivalent. Every effort is made to provide teacher candidates with field experiences in diverse settings (based on socioeconomic status, race/ethnicity, language, and exceptionalities of students) in order to ensure that they are prepared to help all students learn. Prior to visiting any school a student must have the following documents on file with the Office of Professional Educator Services (OPES): A current TB risk assessment and physical on the required Kentucky Department of Education form, a recent criminal background check through Verified Credentials, and a Child Abuse and Neglect (CAN) check. Students who are currently employed by a Kentucky School district may provide alternate background check verification upon approval from OPES.

By state regulation, the requirements regarding field experience apply to all students doing student teaching in Spring 2014 and beyond.

The Department of Military Science and Leadership prepares welleducated students with leadership potential to serve as officers in the United States Army, the Army Reserve, or the Army National Guard through progressive, hands-on training with the Reserve Officers' Training Corps (ROTC). Academic instruction and supervision are provided by a career Army officer in the grade of Lieutenant Colonel, who serves as the department chair and the Professor of Military Science (PMS). A staff of Army commissioned and non-commissioned officers assist the PMS.

The military science program is voluntary and is open to both male and female students. Students do not incur a military obligation by participating in the basic course.

The military science curriculum consists of basic and advanced courses.

## Basic Course

The basic course consists of a four-semester block of instruction normally taken during the freshman and sophomore years. The emphasis in these courses is on team and leadership development, "hands-on" equipment instruction, land navigation, and leadership skills training. In order to receive credit for completing the basic course in residence at Western Kentucky University, the student must complete MIL 101, MIL 102, MIL 201, and MIL 202.

The student also may gain credit for the basic course by taking MIL 210. This course is the 28-Day Basic Course conducted at Fort Knox, Kentucky, and instructs students in those subjects taught during the basic course of the ROTC program.

Students with prior military service, or membership in the National Guard or Reserves, also may receive advanced placement for part of or the entire basic course, depending upon the amount and character of service performed. Regardless of the option, advanced placement, or prior military training completed, a student must complete the basic course or its equivalent to gain eligibility to enroll in the advanced course.

## Advanced Course

The advanced course is designed to commission officers for service in the United States Army, both active duty and reserve. Successful completion of the advanced course at Western Kentucky University earns the student a commission as a Second Lieutenant in the United States Army. The advanced course consists of four semester-long courses and a 33-day summer course. An additional military history course, normally taken during the junior or senior years, must also be completed prior to being fully qualified for commissioning.

The student must graduate from Advanced Camp (AC) prior to being eligible for commissioning. AC is normally attended during the summer break between the end of the junior and the start of the senior year.

While attending AC, students receive training pay. The U.S. Army furnishes travel expenses to and from AC, uniforms, quarters, medical care, and rations during the course period.

Additionally, advanced course cadets may be eligible to attend Army schools such as Airborne, Air Assault, and Northern Warfare. They may also spend several weeks during the summer with active Army units located in Europe, Asia, and throughout the United States. These
activities are voluntary, and students must meet high standards to be eligible for attendance.

The applicant for the advanced course of instruction must:
a. Be a citizen of the United States or an alien in a category approved by the Department of the Army. Approval must be granted prior to enrollment.
b. Be at least 17 years of age at the time of enrollment and not reach 30 years of age at the time of commissioning in the U.S. Army (this may be waived).
c. Be medically qualified in accordance with standards prescribed by the Department of the Army.

## Interdisciplinary Studies, Associate of Interdisciplinary Studies (246)

Program Coordinator
Anne L. Heintzman, anne.heintzman@wku.edu, (270) 745-2966
The Associate of Interdisciplinary Studies degree is designed for those who need or desire a flexible degree program. Within the limits specified for the degree, students, with their advisors, may design programs to suit their personal needs and educational objectives.

This program requires 60 credit hours of coursework. Students who have previously earned 60 hours of credit with a 2.0 cumulative grade point average or above in all higher education coursework, including all coursework completed at Western Kentucky University, and have met all other requirements for the degree, may apply as candidates for the AIS degree. If upon evaluation of their transcripts, such students meet all the requirements for the degree, the degree will be awarded at the next graduation ceremony.

## Opportunities

The Associate of Interdisciplinary Studies degree has become more attractive with the growth of business and industry in the area and with the increase of minimum educational requirements for employment or promotion. In addition to those wishing to enhance their employability, several other groups of students will find the program suits their needs. These include those who are seeking a degree for their personal satisfaction; those who plan eventually to move on to the main campus, but wish to have a degree at the two-year level; and those who wish to consolidate previously-earned credits into a degree program.

Students seeking the AIS degree must complete a minimum of 25\% of their degree program in residence at Western Kentucky University. Courses taken at WKU off-campus locations through regional campus offerings or through reachu@wku.edu are considered as having been taken in residence.

The Associate of Interdisciplinary Studies degree cannot be filed as a second degree program; as a result, students applying for concurrent or subsequent associate degrees must file the Associate of Interdisciplinary Studies as their primary degree program. Electives are in addition to the Colonnade courses and the areas of emphasis. They may come from Colonnade categories, or from courses that do not fall into any of the above Colonnade areas or the areas of emphasis.

## Interactive Training and Leadership, Certificate (1752)

The instructional design process involves analyzing learning and performance needs and designing, developing, implementing, evaluating, and managing instructional and non-instructional solutions to improve performance in various settings. This 15 -hour program will prepare students to analyze learners, learning contexts and skills, and design learning activities. Students will learn to evaluate those learning activities and to revise training activities. Students will acquire skills to develop multimedia training modules.

The program prepares and equips practitioners and students in training development. This is a skill needed in any topic, discipline, or workplace setting. Every business, government agency, nonprofit organization, industry, or educational institution offers training for its employees. This program prepares students to develop those training modules or activities, deliver that training, and evaluate the training. Examples encompass print and electronic elements that may include instructional
videos, online instructional activities, user manuals for instructors, instruction manuals for commercial products, teaching manual, professional development curricula, multi-media instructional units, training packs for trainers, instructional modules for vocational/technical courses, instructional modules for classroom instruction, and teaching and training aids in print or electronic formats. These skills make the student more employable after completion of this program.

Students who successfully complete the certificate program will possess the following competencies and learning outcomes:

- Identify the steps, subordinate skills, and entry behaviors and knowledge required to accomplish and instructional goal and correlated performance objectives.
- Produce and instructional system design process that is tailored to the education and training requirements of a specific organization or problem.
- Design a training module for a specific organization or problem to include context and learner analysis, write objectives and test items, prepare instructional strategies, and revise the training module based on subject-matter expert feedback.
- Apply principles and strategies of multimedia design, interface design, and visual design to evaluating existing and creating new multimedia products in an instructional design setting.
- Design, develop, and evaluate a multimedia module using appropriate software applications in training settings.

Admission Requirements: Minimum requirements for acceptance into the program are:

- High school diploma or equivalent
- Application and fee: Students seeking a certificate program must submit an online application with Undergraduate Admissions. The completed form must be submitted along with a one-time application fee of \$40 (non-refundable).
- Transcript Record: Graduates/Transfers of accredited institutions other than WKU must submit an official transcript from that institution.

# Interdisciplinary Early Childhood Education, Bachelor of Science (526) 

## Program Coordinator

Janet L. Tassell, janet.tassell@wku.edu, (270) 745-5306
The major in interdisciplinary early childhood education requires 69-76 hours and leads to a Bachelor of Science degree. The major is designed to prepare early childhood educators to work with children, both with and
without disabilities, ages birth through kindergarten, and their families. A grade of "C" or higher must be earned for all courses required for this major. No minor or second major is required. Students select either the teacher certification concentration ( 75 hours, which leads to initial certification for Birth-5 years) or the non-certification concentration (68 hours).

Graduates of the certification concentration are eligible to apply for certification in Interdisciplinary Early Childhood Education (IECE), Birth to Primary. Graduates of this concentration are prepared for preschool and kindergarten positions in public schools, early intervention programs (i.e., First Steps), Head Start programs, and other public and private agencies serving young children and families. Graduates of the non-certification concentration are prepared for preschool and kindergarten positions in private schools, Head Start programs, and other public and private agencies serving young children and families; or as a First Steps Service Coordinator.

The IECE program will prepare and engage learners:

- in current research and recommended practices in early childhood/ early childhood special education (EC / ECSE) that emphasizes performance-based standards;
- as lifelong learners who actively engage in the learning process through coursework, field experiences, and research;
- to support and engage young children and families in a variety of settings through collaborative efforts with an array of professionals;
- with knowledge, skills, and dispositions in working with young children with and without disabilities, delays, or risks across all settings;
- to partner with families through family-centered approaches;
- in culturally and linguistically responsive practices that address the diverse needs of children and families through individual and community engagement; and
- in leadership opportunities and activities within the EC / ECSE field.

# Science and Mathematics Education (SMED), Bachelor of Science (774) 

## Program Coordinator

Janet L. Tassell, janet.tassell@wku.edu, (270) 745-5306
Students seeking certification in middle grades (5-9) or secondary grades (8-12) must complete both the science and mathematics education program (SMED) and one of the following: the middle school science (MSS) program (reference number 734), the middle grades mathematics (MGM) program (reference number 730), or a teacher certifiable science or mathematics content major. This combination of programs leads to a bachelor's degree with a minimum of two majors. Completion of the two programs, as well as the successful completion of the current requirements to be recommended for certification, will qualify a student for Kentucky middle grades science or mathematics certification (grades $5-9$ ), or secondary certification (grades 8-12) in one of the following approved science or mathematics secondary content fields: biology, chemistry, earth and space science, mathematics, or physics. Students seeking admission to the SMED program must earn a grade of $C$ or higher in SMED 101 and SMED 102 and meet requirements for admission to teacher education.

Students seeking academic advising with regard to preparation as a science or mathematics teacher should contact the SKyTeach office, Kelly Thompson Hall - Office 1011A, (270) 745-3900, or refer to the SKyTeach website: http://www.wku.edu/skyteach (http://www.wku.edu/ skyteach/) for additional information.

## Mission

The mission of Ogden College of Science and Engineering is to empower individuals to become leaders through academic achievement, global connections, and engagement in research, education and service.

## Vision

Ogden College of Science and Engineering is a community of creative and critical thinkers achieving local to global impact.

Ogden College of Science and Engineering encompasses the applied and basic sciences, offering a broad range of degree programs in agriculture, biology, chemistry, computer science, construction management, engineering, geography, geology, architectural science, advanced manufacturing, mathematics, meteorology, physics, astronomy, and psychology.

We are recognized by the high quality and success of our students and graduates, which results from personal attention to student professional development through engagement with faculty in projects that expand on classroom instruction.

Students and faculty at WKU have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of 114 colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowships, scholarships, and research appointments; and to organize research alliances among its members. Programs cover a wide variety of disciplines including earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science and engineering related disciplines.

For more information about ORAU and its programs, contact: Dr. Cathleen Webb, Associate Dean of OCSE and the ORAU counselor for WKU.

Ogden College is home to the Health Professions Advisement Center (HPAC). WKU has an outstanding track record of students gaining entry to the health professions. At HPAC, students interested in attending a school or college of medicine, dentistry, pharmacy, physical therapy, occupational therapy, optometry, veterinary medicine, chiropractic
medicine, podiatry or physician assistant, will receive information, advice and guidance on their preparation for admission to professional school.

In collaboration with the College of Education, Ogden College offers the SKyTeach Program for those interested in teaching science and math at middle or high school levels. This program is a replication of a nationally recognized program in teacher preparation developed at the University of Texas - Austin. WKU received $\$ 2.4$ million in funding from Exxon/Mobil through the National Mathematics and Science Initiative to develop the SKyTeach program at WKU.

Those interested in more detailed information regarding programs offered by departments of the College should follow the links listed under departments or email the Dean of Ogden College of Science and Engineering directly.

Students planning a career in dentistry should follow the pre-dentistry curriculum at WKU. All applicants to dental school must take the Dental Admission Test (DAT) approximately one year prior to intended matriculation. Most schools of dentistry have a requirement for observation/ shadowing a practitioner. Students should plan on completing their hours of required observation by the end of the junior year.

It is highly recommended that students planning a dental career complete the entire four-year curriculum and receive the baccalaureate degree before entering a dental college. A few dental schools will accept students after three years of undergraduate work. One year of satisfactory work in dental school can then be transferred to WKU in order to receive the Bachelor of Science degree. All requirements for the Colonnade Program and the core courses for a major and minor must be completed before leaving WKU. Courses taken in dental school may then (at the discretion of the department chair) be accepted by the major and/or minor departments at WKU allowing the student to receive the bachelor's degree.

Please note: Recommended courses are based on WKU's assessment of specific professional school requirements. Students should,in consultation with their advisor, review the requirements at the professional schools of their choice.

Students interested in forestry as a career may enter Western Kentucky University and complete a plan of study comparable to the first two years of a four-year forestry degree program. The program outlined is designed to qualify students to transfer into the forestry program at the University of Kentucky. This program will permit students with grades of "C" or better to transfer to the degree program of Bachelor of Science in Forestry without loss of credits. Students desiring to attend schools
other than the University of Kentucky should contact the pre-forestry advisor for specific requirements.

The pre-medicine curriculum has been developed with two objectives in mind. The first objective is to provide the undergraduate student with an academic background that will enable them to succeed in the medical school of their choice. The second objective is to provide the academic credits to earn the Bachelor of Science degree after four years of study.It is required that students planning a medical career complete the fouryear curriculum and receive the Bachelor of Science degree before entering a medical college.

During the first two years of undergraduate work, the pre-medicine student should complete the majority of the basic science courses that constitute the minimal prerequisites for entrance into medical school.

In addition to the basic science courses, classes should be taken from the WKU Colonnade requirements. In preparation for the MCAT, it is strongly recommended that the pre-medical student choose BIOL 319, BIOL 330 and BIOL 382 or MATH 183 as electives. PSY 100 / PSYS 100 or PSYS 350 and SOCL 100 are also recommended among Colonnade classes.

During the junior and senior years, students with direction from their premedicine advisor, should complete courses to constitute a major and a minor in addition to completing the Colonnade Program requirements for a degree. All applicants to medical school must take the Medical College Admission Test (MCAT).

In 2018, in partnership with The Medical Center of Bowling Green and WKU, the University of Kentucky, School of Medicine opened a branch medical campus in Bowling Green, KY. Pre-medical students have the opportunity to complete pre-medical studies and all four years of medical school in Bowling Green.

Please note: Recommended courses are based on WKU's assessment of specific professional school requirements. Students should, in consultation with their advisor, review the requirements at the professional schools of their choice.

Occupational therapists and occupational therapy assistants help people across the lifespan participate in the things they want and need to do through the therapeutic use of everyday activities (occupations). Common occupational therapy interventions include helping children with disabilities to participate fully in school and social situations, helping people recovering from injury to regain skills, and providing supports for older adults experiencing physical and cognitive changes.

Students may fulfill pre-occupational therapy requirements at Western Kentucky University and become eligible to submit applications for admission to any doctoral or master's level occupational therapy schools within the United States. These schools vary slightly in their requirements so students should decide after 4 or 5 semesters on the college(s) of occupational therapy to which they plan to submit an application for admission and arrange their schedules in accordance with the requirements of that particular school. Students applying to Occupational Therapy school should take the GRE.

Students may fulfill pre-optometry requirements at Western Kentucky University and become eligible to submit applications for admission to any of the 23 optometry schools within the United States. These schools vary slightly in their pre-optometry requirements. Students should decide after 4 or 5 semesters on the college(s) of optometry to which they plan to submit an application for admission and arrange their schedules in accordance with the requirements of that particular school.

The professional optometric program requires four years of study in a school of optometry. This is in addition to the three or more years of preoptometry requirements. Applicants to all of the optometry schools are required to take the Optometry Admission Test (OAT).

In the fall of 2016, the Kentucky College of Optometry (Pikeville, KY) welcomed their inaugural class. Through a Memorandum of Agreement between WKU and KYCO, qualified WKU students will have preferred admission status at KYCO.

The courses listed below are required as prerequisites for all optometry schools. Each science course must be accompanied by its appropriate laboratory:

| Code | Title | Hours |
| :---: | :---: | :---: |
| BIOL 120 | Biological Concepts: Cells | 4 |
| \& BIOL 121 | Metabolism and Genetics and Biological Concepts: Cells, Metabolism, and Genetics Lab |  |

| ENG 300 | Writing in the Disciplines | 3 |
| PSY/PSYS 100 | Introduction to Psychology | 3 |
| MATH 183 | Introductory Statistics | 3 |
| Total Hours |  | 57 |

There may be additional course requirements that vary with each optometry school.

All students in the curriculum are strongly encouraged to work toward a bachelor's degree, even though a degree is not required for admission to most optometry schools. One year of satisfactory work in optometry school can generally then be transferred to WKU in order to receive the Bachelor of Science degree. All requirements for the Colonnade Program and the core courses for a major and minor must be completed. Courses taken in optometry school may then (at the discretion of the department chair) be accepted by the major and/or minor department at WKU allowing the student to receive the bachelor's degree.

Please note: Recommended courses are based on WKU's assessment of specific professional school requirements. Students should, in consultation with their advisor, review the requirements at the professional school of their choice.

Students planning a career in pharmacy should follow a pre-pharmacy curriculum at WKU. After completion of a minimum of 70 credit hours, the student may take the Pharmacy College Admissions Test (PCAT) and apply for admission to a school of pharmacy for the remaining four years of training.

The following curriculum contains courses required for admission to the University of Kentucky, College of Pharmacy. The courses required by other schools of pharmacy are much the same; however, the student should investigate the requirements of the school to which they plan to attend in order that every requirement may be included in their prepharmacy program.

Note: Many pharmacy schools require a single semester of Physics that can be met by taking PHYS 231/PHYS 232 or PHYS 255.

The Carpenter-Dent Trust Fund offers scholarships to eligible prepharmacy students who are residents of Allen, Simpson or Warren County.

Please note: Recommended courses are based on WKU's assessment of specific professional school requirements. Students should, in consultation with their advisor, review the requirements at the professional school of their choice.

The pre-physical therapy program at Western Kentucky University is designed to prepare students for application to accredited programs in physical therapy. It is recommended that the student complete a baccalaureate degree while completing the pre-requisite requirements
of the physical therapy schools to which they plan to apply. It should be noted that all physical therapy schools have adopted a Doctorate/ Ph.D. level program, and as a result, a baccalaureate degree is required. Completion of the following prerequisites does not guarantee admission into a physical therapy school; it merely places the candidate into a competitive pool of applicants from which the successful candidates will be selected and interviewed.

Application to the physical therapy schools at WKU, the University of Kentucky and Bellarmine University requires applicants to have earned a bachelor's degree by the time they enter the program. A grade of " C " or better is required in all prerequisite courses. Applicants must also show evidence of having completed at least 50 hours of physical therapy observation and/or volunteer experience at two or more health care facilities. The following suggestions and requirements must be completed by the time the successful applicant enters the professional program:

## Total Hours

If not completed in Colonnade, $\mathrm{Six}(6)$ hours of social/behavioral sciences (psychology, sociology, anthropology, philosophy, ethics, etc.) are also required.

The GRE is also required and should be completed approximately a year in advance of intended matriculation to PT school. It is also strongly recommended that professional certification in first aid by the American Red Cross and in CPR by the American Heart Association be completed prior to entrance into the program. The community CPR course offered by the American Red Cross is NOT acceptable. The minimum overall GPA should be 2.75; the minimum science core GPA should be 3.0 ( 4.0 scale). However, the competitive nature of the application process over the last several years indicates that overall and science GPA's should both be 3.4 or higher to seriously contend for entrance.

WKU graduated their inaugural DPT class in Spring 2016; for more information go to http://www.wku.edu/physicaltherapy (http:// www.wku.edu/physicaltherapy/).

Please note: Recommended courses are based on WKU's assessment of specific professional school requirements. Students should, in consultation with their advisor, review the requirements at the professional school of their choice.

A Physician Assistant (PA) is a healthcare provider that has earned a Master's Degree from an accredited PA school (typically earned in 27 months) and passes a national licensure exam (PANCE). They must practice under the supervision of a licensed physician. It is a relatively new health profession, which has grown tremendously over the last 20 years. There are currently 209 accredited PA Programs in the US (but only 3 in KY, University of Kentucky, University of the Cumberlands, and Sullivan University). The successful candidate will have earned a bachelor's degree prior to matriculation, completed the pre-requisite coursework, take the Graduate Record Exam (GRE) as well as complete extensive shadowing and healthcare work experience (1000 hours, 500 at time of application). Due to the extensive health care experience required, students are encouraged to begin no later than the beginning of the junior year. The following pre-requisites are based on those at the University of Kentucky. The student should carefully examine the requirements at other schools to which they plan to apply.

Kentucky students have the opportunity to attend veterinary medical school at reduced tuition at Auburn University, Auburn, AL or Tuskegee Institute, Tuskegee, AL. The Commonwealth of Kentucky has made this possible through its participation with the Southern Regional Education Board (SREB). The State of Kentucky pays approximately \$25,000 annually for each student at Auburn or Tuskegee. Each year the School of Veterinary Medicine at Auburn reserves 34-40 positions for students from Kentucky who meet admission requirements. If admitted, Kentucky students pay the same fees as Alabama residents. Two to six positions may also be available each year at Tuskegee Institute on the same basis.

The minimum education requirement for admission to the School of Veterinary Medicine, Auburn University, is the satisfactory completion of an approved curriculum at an accredited college or university. A minimum grade point average of 2.50 is required overall and for the required courses.

Students may apply to one or both institutions as they near completion of the pre-veterinary requirements. The GRE is required for both Auburn University and Tuskegee.

This curriculum is planned for completion in three years. By choosing the correct electives in the pre-veterinary program and transferring credits for the first year of veterinary school to Western Kentucky University, students may receive the Bachelor of Science degree from WKU. This is a suggested curriculum; the sequence of courses may be varied to suit individual situations. Every effort is made to advise each student based upon the individual's background and academic capability.

Please note: Recommended courses are based on WKU's assessment of specific professional school requirements. Students should, in consultation with their advisor, review the requirements at the professional school of their choice.

Biochemistry is the study of the chemical basis of living organisms. The subject includes the investigation of the various classes of biomolecules (proteins, nucleic acids, lipids, and carbohydrates) and their metabolic interactions.

Training in biochemistry offers many exciting opportunities in teaching, research, and public service. It provides excellent preparation for students intending to enter professional programs such as Dentistry and Medicine as well as graduate study in Biochemistry, Chemistry, or Biology. The Biochemistry program is the only stand-alone Bachelor's Degree in Biochemistry at a public institution in the Commonwealth. It is administered jointly through the Departments of Biology and Chemistry. Students may enroll for biochemistry courses through either the Department of Biology or the Department of Chemistry, depending upon their major emphasis.

Biochemistry I (BIOL 446/CHEM 446) is strongly recommended for premedicine and pre-dentistry students as well as for chemistry and biology majors.

## Program Requirements ( 60 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

The major in biochemistry requires a minimum of 60 semester hours and leads to a Bachelor of Science degree. This sequence of required chemistry and biology courses along with elective courses from biology, chemistry, agriculture, and physics offers the student a unique opportunity for interdisciplinary training.

The complexity of the technological and financial structure of modern agriculture has made education increasingly important. It has also brought about a need for personnel to fill positions in various businesses and professions which support agriculture.

Processing and marketing of agricultural products and supplying agricultural chemicals, machinery, seed, feed, and other products require research, sales, and service personnel who have met specific educational requirements. Governmental agencies that conduct research, extension, advisory, and regulatory activities are staffed by highly trained agricultural personnel.

The Department of Agriculture and Food Science strives to fill the needs of both the student who requires general technical knowledge for production agriculture and the student who needs more specialized training to pursue one of many careers. This is accomplished by offering specific curricula with enough flexibility to allow specialization within various agriculture disciplines.

Many students studying agriculture have urban/suburban backgrounds with limited farm experiences. The Department of Agriculture and Food Science uses the Agriculture Research and Education Center (AREC) and Baker Arboretum as integral parts of its laboratory and classroom instructional program to provide practical experiences. Internships and cooperative work experiences are encouraged for all students.

To complete the 120 semester hours required for a Bachelor of Science degree in Agriculture, students must complete the basic curriculum and one of the concentrations. The basic curriculum includes the Colonnade Program and specialty support requirements as well as basic professional courses in agriculture. These concentrations are Agribusiness, Agricultural Education, Agronomy (plant science or soil science), Animal Science, Horse Science, General Agriculture, Turf and Golf Course Management, Horticulture, Pre-veterinary Medicine, and Pre-forestry. These concentrations allow students to vary their course selection to better meet their particular area of interest. The student, in consultation with an assigned advisor, will choose specific courses in addition to the basic curriculum.

When planning a program of study, students should be aware of the University academic requirements and regulations contained in this catalog in the chapter "Academic Information." Specific attention should be given to the subsections in the chapter entitled (a) Academic Programs, (b) Colonnade Requirements, and (c) Academic Requirements
and Regulations. Students should be aware that some academic programs may include additional scholastic regulations and standards not specified in the catalog. To obtain a copy of these regulations, students should contact their faculty advisor or the Agriculture \& Food Science office.

Agriculture majors who follow the listed guidelines can graduate in 4 years (8 semesters) or less.

## Guidelines

a. Be advised by an assigned ACDC advisor and faculty advisor in the Department of Agriculture and Food Science each semester and enroll in the courses decided upon at the advising session.
b. Excluding remedial classes, receive a passing grade for an average of 15 hours per semester for 8 semesters with a minimum 2.0 GPA and a minimum total of 120 hours, including 42 or more hours upperdivision ( 300 - and 400 -level) courses. Complete the Colonnade Program requirements of the department and the university. Note specific required mathematics, biology, and chemistry courses.
c. Deviation from any of these conditions might lead to the need for additional hours/courses and/or semester in order to graduate.

## Teacher Certification in Agricultural Education

Numerous job opportunities are available for students who have completed certification for teaching agriculture education in public schools at the middle or secondary level. A 2.5 minimum grade point average in agriculture, the Colonnade Program, and professional education is required for admission to teacher education. Students desiring to become certified to teach agriculture education in Kentucky public schools are required to have a minimum of 50 hours in agriculture including:

## Floristry, Certificate (1769)

The Floristry certificate is meant to enhance majors such as business, horticulture, hospitality management, hotel restaurant management, and interior design. Students who elect the Floristry certificate will develop the skills needed to establish and manage a retail floral business, with emphasis on logistics, resources, marketing and risk management. This certificate will also be an encouragement for related industry to have an educational outlet for themselves and employees.

## Department of Biology

Website: http://www.wku.edu/biology (http://www.wku.edu/biology/)
Students interested in biology are presented with a variety of dynamic educational opportunities. These opportunities, involving diverse biological subdisciplines from molecules to ecosystems, challenge the students of biology in one of the most exciting eras of human history. The Department of Biology is dedicated to producing well-informed, scientifically literate graduates capable of applying the knowledge and skills acquired to ensure professional success and lifelong learning.

Undergraduate students collaborate with biology faculty on an array of interesting research topics. By applying what they have learned from time in the classroom to their involvement with research projects, students can more smoothly make the transition to professional and graduate programs and the work force. Modern classrooms and research laboratories, and the Potter-Nicely Outdoor Education Center and Green River Preserve provide outstanding settings for student research. The Biology Department is also proud to house the Biotechnology Center, Center for Biodiversity Studies, and Applied Center for Data Science. The centers are integral components of the WKU Applied Research and Technology Program, a state-funded program of distinction.

When planning a program of study in the Department of Biology each student must be aware of the University's academic requirements and regulations contained in this catalog in the section, "Academic Information." Specific attention should be given to the subsections entitled:
a. Academic Programs
b. Colonnade Requirements
c. Academic Requirements and Regulations

Students should be aware that some academic programs may require additional scholastic requirements and standards not specified in the catalog. To obtain a copy of these requirements, students should contact the department chair. We offer four options for a B.S. degree: A Biology major without a minor (reference number 525), a Biology major with a minor (reference number 617), a Biochemistry major (reference number 519), a Molecular Biotechnology major (reference number 714), and a Medical Laboratory Science major (reference number 5004). Each is described below along with our minor in Biology, Joint UndergraduateMaster's Program (JUMP), Teaching Certifications, and other Special Programs.

## Secondary Teaching Certification in Biology

Students who wish to be certified to teach high school biology must complete both the major in Biology (reference number 525 or 617) and the major in Science and Mathematics Education (reference number 774), offered in the School of Teacher Education. Interested students should contact the SKyTeach Office, Kelly Thompson Hall 1011A, 270-745-3900.

## Middle Grades Science Certification

Students who wish to teach middle school science must complete both the major in Middle School Science Education (reference number 734), offered by Ogden College and SKyTeach, and the major in Science and Mathematics Education (reference number 774), offered in the School of Teacher Education. Interested students should contact the SKyTeach Office, Kelly Thompson Hall 1011A, 270-745-3900.

## Other Department Programs

Several other biologically oriented, specialized programs are available such as biophysics and environmental science, as well as several preprofessional programs. Specific details of these programs are listed under Pre-Professional and Interdisciplinary Programs.

# Biology, Bachelor of Science (525) 

## Program Coordinator

Michael E. Smith, michael.smith1@wku.edu, (270) 745-2405
The major in biology (525) does not require a second major or minor. Students complete a range of biology courses and are able to participate in research projects to ease the transition into the workplace.

Students who wish to be certified to teach high school biology must complete both the major in Biology (reference number 617) with a Teacher Education concentration (TCHR) and the major in Science and Mathematics Education (reference number 774), offered in the School of Teacher Education. Interested students should contact the SKyTeach Office, Kelly Thompson Hall 1011A, 270-745-3900.

## Program Requirements (48 hours)

This option for a major in biology requires a minimum of 48 hours in biology with 24 hours at the 300 or higher level. No minor is required. A range of upper level courses are available in ecology and evolutionary biology, molecular and cellular biology, plant biology, animal biology, and microbiology.

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/

## Medical Laboratory Science, Bachelor of Science (5004)

## Program Coordinator

Kerrie L. McDaniel, kerrie.mcdaniel@wku.edu, (270) 745-3696
With the aging of our population, it is estimated that health care will be a major service industry in our country. An important part of health care is Medical Laboratory Science, formally known as Medical Technology, a profession that includes well-trained, highly educated individuals who are the fact-finders of the medical world. Medical Laboratory Scientists typically analyze body fluids, examine tissues, and identify specific microorganisms to find evidence for and the cause of specific diseases such as AIDS, Diabetes, and Cancer. Some of the exciting new demands of the profession include tissue typing for organ transplantation,
chromosomal studies as a basis for genetic counseling, identification of environmental pollutants, and screening tests for accidental poisoning and drug abuse. The demand for Medical Technologists is very high. The U.S. Bureau of Labor Statistics continues to project a need for new Medical Laboratory Scientists to meet medical demands of an aging population.

Although two-thirds of Medical Laboratory Scientists work in hospital laboratories, new sources of employment include laboratories in physician's offices, research facilities in universities and industries, public health centers, and veterinary clinics.

Medical Laboratory Science program combines a minimum of three years ( 96 semester hours) of college courses at Western Kentucky University with a minimum of 12 calendar months ( 36 semester hours) of satisfactory clinical training in a school of Medical Laboratory Science (Medical Technology). This school must be approved by the Committee on Allied Health Education and Accreditation of the American Medical Association and by the medical technology coordinator at Western Kentucky University.

Coursework for this major requires a minimum of 83 hours ( 36 of which are completed at a Medical Laboratory Science school and transferred back to the Department of Biology) and leads to a B.S. degree in Medical Laboratory Science. No minor is required. A student must meet all of the Colonnade Requirements for the bachelor's degree at Western Kentucky University before admission to the school of medical technology. Upon satisfactory completion of the course requirements in medical laboratory science, the Bachelor of Science degree will be awarded by Western Kentucky University. Graduates of the medical laboratory science program are eligible to take national credentialing examinations for medical technologists which result in membership in the American Society of Clinical Pathologists (A.S.C.P.).The program is affiliated with the following schools of medical technology: Bellarmine University, Louisville, KY; Owensboro Medical Health System, Owensboro, KY; Vanderbilt Medical Center, Nashville, TN; and St. Elizabeth Medical Center, Covington, KY.

Students must consult the coordinator regarding applying for admission to the medical technology schools. Application is made 9 to 12 months in advance of the beginning date for the medical technology school. Admission to these schools is on a competitive basis, and maintenance of a good academic standing is required. Students are required to have liability insurance for their clinical years. |  |  |

## Molecular Biotechnology, Bachelor of Science (738)

## Program Coordinator

Ajay Srivastava, ajay.srivastava@wku.edu, (270) 745-6008
Molecular biotechnology uses molecular and genetic tools to improve the human condition either directly through medical improvements or indirectly through improvements of the environment and agriculture. It does so through modification of nucleic acids and proteins.

The molecular biotechnology major allows students to be part of some exciting new developments like genomics, personalized medicine, cloning, organoid research, and genome editing. The skills acquired may be applied to the development of new pharmaceutical drugs or other medical products, industrial chemicals, food products, energy sources, pollution-control products, or agricultural products. Employment can be found in industry, but graduates of this program will also have the broad science training necessary to enter graduate programs.

## Program Requirements (55 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

This major requires a minimum of 55 hours of molecular biotechnology - related courses in biology that involve subjects such as genome discovery, molecular biology, microbiology, bioinformatics, and research
experience or an internship, among others. At least 28 of these hours must be at the 300 or higher level. No minor is required.

## Mission Statement

WKU Chemistry empowers students of all backgrounds to think critically about the molecular sciences and promotes a vibrant regional economy through training, public service, and industrial collaboration. We ignite a spirit of life-long learning through engaged classroom and laboratory instruction, hands-on experience in nationally recognized research, and direct mentoring by faculty. This enables our students to define their own career path and to make an impact both locally and globally.

Chemistry is often described as "The Central Science" in today's technology-driven world. Chemistry plays an important role in the research, development, and quality assurance of products and materials ranging from pharmaceuticals and polymers to ceramics and nanocomposites. Knowledge and understanding of fundamental
chemical concepts are crucial to success in professions such as medicine, pharmacy, veterinary medicine, forensic science, environmental science, engineering, medical laboratory science, physical therapy, nursing, patent and environmental law, and science education.

In order to best serve such a diverse audience, the chemistry curriculum at Western Kentucky University offers an integrated series of lectures and laboratory courses. Our courses provide students with grounding in theoretical models balanced with real-life applications and hands-on laboratory experiences. This allows students to achieve an understanding of chemical and physical phenomena at the molecular level and to develop the critical thinking skills necessary for chemical problemsolving. In addition to coursework, the Department of Chemistry provides our undergraduates with a wide variety of research opportunities from biochemistry to materials science. Research encourages students to continue building their laboratory skills and scientific knowledge while working one-on-one with a faculty member. Undergraduate research students often present their research at both regional and national professional meetings. The combination of lecture, laboratory, and one-on-one faculty interaction allows students to develop the skills necessary to be successful in their chosen profession.

As part of the educational experience, students are routinely trained in the operation of state-of-the-art instrumentation in the academic and research laboratories. The Department has extensive holdings of instrumentation, including atomic spectrometers, calorimeters, electrochemical analyzers, elemental analyzers, gas chromatographs, FTIR spectrometers, ion chromatographs, mass spectrometers, spectrofluorophotometers, UV-visible spectrophotometers, a Nd-YAG laser system, a 400 MHz nuclear magnetic resonance spectrometer, and a 90 MHz fixed magnet NMR.

Colonnade Program requirements for students majoring outside the sciences can be satisfied by CHEM 101, CHEM 109, or CHEM 111, where only one semester of chemistry is needed, or by the sequences CHEM 105/CHEM 106, CHEM 107/CHEM 108 or CHEM 120/CHEM 121, CHEM 222/CHEM 223, where two semesters of chemistry are desired.

Biochemistry courses (CHEM 446, CHEM 447, CHEM 462, and CHEM 467) are also offered as part of the curriculum. CHEM 446 is required for the major approved by the American Chemical Society. Biochemistry is also strongly recommended for pre-medicine and pre-dentistry students, and for biology majors desiring a second major in chemistry.

When planning a program of study in Chemistry, each student should be aware of the University's academic requirements and regulations contained in the "Academic Information" chapter of this catalog. Specific attention should be given to the subsections in the chapter entitled a) Academic Programs, b) Colonnade Requirements, c) Academic Requirements and Regulations. Students should be aware that some academic programs may require additional scholastic regulations and standards not specified in the catalog. To obtain a copy of these regulations, students should contact the Department Chair.

The major in chemistry requires a minimum of 33 semester hours and leads to the Bachelor of Science degree. Requirements of the major include selecting one of four concentrations: ACS-Approved, Foundations, General, or Teacher Certification. The ACS-Approved Concentration does not require a minor or second major and is typically for students desiring graduate education in chemistry. The Foundations Concentration requires a minor or a second major and is appropriate for a wide range of career targets. The General Concentration requires a second major and is typically chosen by those in pre-health concentrations. The Teacher Certification Concentration is for students desiring Secondary Teacher Certification and requires a second major in Science and Mathematics Education (Reference Number 774). Prior to a selection of a program of study, a student should consult with a chemistry advisor to determine the most appropriate option.

## Concentrations

- ACS Approved (CHCR)
- General Chemistry (CHGC)
- Teacher Education (TCHR)
- Pre-Jump Chemistry Advising (PJMP)
- Foundations Chemistry Major (FCHM)

## Program Requirements (33-53 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/
colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

## ACS Approved Concentration (53 hours)

WKU is on the approved list of the Committee on Professional Training of the American Chemical Society. For the Chemistry Department to certify graduates in this concentration, the completion of a minimum of 53 hours of chemistry courses, 16-18 hours of math and science cognate courses, and the Colonnade general education courses for the Bachelor of Science is required. Required chemistry courses for the ACS Approved concentration are:

## Department of Earth, Environmental, and Atmospheric Sciences

Dr. Leslie North, Chair

## Environmental Sciences and Technology Building, Office 304 <br> Phone: 270-745-4555 <br> Website: https://www.wku.edu/eeas/

At WKU, students and faculty within the Department of Earth, Environmental, and Atmospheric Sciences (EEAS) study an interdisciplinary cadre of contemporary topics aimed at exploring, understanding, and solving the wonderous curiosities of our dynamic
planet, and its effects on society. EEAS offers three undergraduate programs and one graduate program, directs two certificate programs, and shares graduate duties with a partnered graduate program:

- B.S. Environment, Sustainability \& Geographic Studies
- B.S. Geological Sciences
- B.S. Meteorology (GS-1340)
- M.S. Geoscience
- Certificate (online): Emergency Management Disaster Science (EMDS; undergraduate/graduate)
- Certificate: Geographic Information Science (GIS; undergraduate)
- M.S. Homeland Security Science (HSS; co-advised with Physics \& Astronomy)

In addition to developing fundamental core knowledge in the classroom, EEAS emphasizes applied experiential and high-impact student learning (undergraduate and graduate) via immersive study abroad programs and otherwise nationally awarded (Field Methods in Severe Weather Analysis \& Forecasting) and globally recognized (Karst Field Studies Program) field course programs. Students engage in the department's state-of-art operational and research facilities, certified commercial water quality laboratories, as well as service-learning experiences in collaboration with local, regional, national, and global entities. Students in EEAS also work directly alongside faculty with university and statelevel appointments, including the Kentucky State Climatologist, WKU’s University Meteorologist, University Emergency Manager, and University Director of Sustainability. EEAS students are also guided to prominent national-level internship and research programs around the country.

All students in EEAS are invited to participate in any of the four Ogden College of Science \& Engineering Applied Research \& Technology Program (ARTP) facilities and co-associated initiatives housed in the department. These include:

- Center for Human GeoEnvironmental Studies (CHNGES) and HydroAnalytical Lab
- Crawford Hydrology Lab
- Disaster Science Operations Center (DSOC) and White Squirrel Weather
- Kentucky State Climate Office - The Kentucky Mesonet

Whether students are helping with state-wide weather and climate monitoring, conducting dye-trace stream analysis, monitoring water quality, or providing hyperlocal meteorological and emergency management decision-support and training, the ARTP programs of distinction and its supporting units within EEAS provide robust studentcentered experiential professional development opportunities unique to WKU. Additionally, EEAS provides students with seven innovative lab spaces dedicated for applied learning and research that focuses on geospatial analytics, applied meteorological and climatological sciences, environmental and sustainability issues, and advances in geology.

The EEAS "learn by doing" philosophy has a proven, measured record of providing key pathways to help students develop advanced professional analytical and communication skills that promote post-graduate readiness in a variety of career sectors.

The Department's BS programs also provide a strong educational foundation for students interested in continuing their education in graduate school. A five-year bachelors/masters program (JUMP program) is available for students to graduate with a BS degree in one of the Department's undergraduate programs and a Master's degree in

Geoscience. The JUMP is available so that motivated students can focus their research interests early in their program of study. The Department's JUMP allows students to earn a bachelors and Master's degree in an expedited time frame.

The Environmental, Sustainability, and Geographic Studies program focuses on environment related issues using scientific, technological, and humanistic approaches to understand the interactive nature and interdependence of environmental and human factors. The program is structured around foundational courses, technical course work, and applied real-world experiences. Foundational instruction introduces students to basic principles of environmental science and related subjects, such as sustainability science, environmental planning, pollution control, natural resource management, spatial data analysis, economics, cultural geography, and the general interactions of humans and nature. The program prepares students for thinking critically about the complexities of human-environmental interactions through technical course work encompassing scientific writing, quantitative skills and data analysis, applied field- and lab-based experiences, and effective use of geospatial technologies (e.g., GIS and cartography, GPS, radar, satellite, drone, photogrammetry, environmental quality monitors, and surveying). Since the geoenvironmental sector is very broad in scope, the major does not include pre-defined and narrow concentrations. Instead, the program allows students to complete a customized set of elective coursework that best prepares them for a graduate program or any one of the wide ranging careers in the environmental field that they find of most interest. The program not only prepares students with essential knowledge in the fields of environment and sustainability but also trains students with critical information processing and geospatial analysis skills to meet the demands of employers in diverse industries with information-age needs in the 21 st Century.

Geographic Information Systems (GIS) technology is widely used in business, industry, government, and education. This certificate is designed for students in a variety of disciplines that involve the analysis, mapping, display, and interpretation of geospatial data and information. Students who complete the program will have a solid foundation that
spans the collection, management, analysis, interpretation, and display of data using GIS. They will gain practical experience by completing projects that require the use of sophisticated GIS functions. Finally, they will learn how to develop and implement their own customized GIS functions.

The program is housed in the Department of Earth, Environmental and Atmospheric Sciences.

# Geological Sciences, Bachelor of Science (5008) 

## Program Coordinator

Nahid Gani, nahid.gani@wku.edu, (270) 745-2813
Geological science is often known as the science of the 21 st century, as it is ground zero for tackling global challenges like managing land, water, ocean, space, mineral, and energy resources in a sustainable way. Society's interest in the environment and climate change is growing fast. The time has never been better to become a geological scientist.

The B.S. degree in Geological Sciences can provide a wide variety of career options, including jobs in the corporate (oil \& gas, mining, environmental, engineering), government (surveys, agencies, park service), and academic sectors. Our program takes a holistic approach, as the traditional geology has become increasingly interdisciplinary. With three concentrations (Geology, Environmental Earth Science, and General), the program has a common core, providing the knowledge base for students to pursue the Professional Geologist licensure. Each concentration has different other requirements, specializing in different subjects. Our classes feature interactive learning, both in the field exploring the earth and in the lab doing simulations and analytical works. Students also enjoy excellent opportunities to work with faculty and other students on a variety of research topics.

The B.S. in Meteorology degree at WKU is the first and largest meteorology program in Kentucky or Tennessee that meets all the Federal Civil Service requirements (GS-1340) for employment by the National Weather Service and enables TV broadcast meteorologists to immediately pursue the "Certified Broadcast Meteorologist" program of the American Meteorological Society upon graduation. In addition to preparing students for immediate employment as meteorologists, the combination of advanced theoretical and applied coursework as well as experience with meteorological instrumentation and computer programming will provide a foundation for students who wish to
pursue graduate school in the atmospheric sciences. Students will become more directly involved in faculty-sponsored research, increased co-authorship of peer-reviewed research articles, and increased presentation of research results at professional meetings and conferences.

Students will also have the opportunity to work for White Squirrel Weather (WSWX), which acts as the WKU weather service, where students make weather observations and weather forecasts to provide decision support to a variety of WKU entities, including WKU Athletics, Environmental Health and Safety, and WKU Admissions.

## Program Requirements (50 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

The major in Meteorology leads to a Bachelor of Science in Meteorology and requires a minimum of 50 semester hours of meteorology, geography, GIS, and computer science. A minor program is not required. Other required courses in physics and mathematics total an additional 25 semester hours. Students majoring in meteorology will learn the key concepts and skills necessary to qualify as a meteorologist for the National Weather Service, and to meet the standards of the American Meteorological Society.

Mathematics courses at the University are designed with the interests and needs of varying groups of students in mind.

Mathematics majors are available to those planning to pursue careers in secondary and middle grades education, as well as to those whose preparation is being directed toward positions in business and industry, or toward further work in mathematics at the graduate level. In addition, several courses are offered to meet the demands for the mathematical training of students whose major educational objectives are not directly related to mathematics. Mathematics majors are assigned faculty mentors/advisors from among the departmental faculty and are required to consult with these faculty members before each registration period.

When planning a program of study in this department, each student should be aware of the University's academic requirements and regulations contained in this catalog in the chapter "Academic Information." Specific attention should be given to the sub-sections in the chapter entitled (a) Academic Programs, (b) Colonnade Requirements, and (c) Academic Requirements and Regulations.

Some academic programs may require additional scholastic regulations and standards not specified in the catalog. To obtain a copy of these regulations, students should contact the department chair.

The BS in Mathematical Economics is for students wishing to pursue either a graduate degree in economics or a highly applied, analytical occupation with a heavy emphasis on quantitative skills such as an actuary. This degree does not require a second major or a minor. The BS in Mathematical Economics offers two concentrations: General concentration and Actuarial Science concentration.

International students who complete this program may qualify for the STEM OPT extension (the CIP Code of the program is 45.0603).

The General concentration in the BS in Mathematical Economics requires a minimum of 49 hours. This major is strongly recommended for students considering either a PhD in Economics or highly applied, analytical occupations, especially in data analytics. Because doctoral programs in economics are highly mathematical, this degree combines the economics coursework with the mathematics courses that are necessary to succeed in an economics doctoral program.

The Actuarial Science concentration in the BS in Mathematical Economics requires a minimum of 61 hours. This degree is strongly recommended for students pursuing careers as actuaries. Actuaries are professionals who specialize in modeling and managing risks. Actuaries typically work for health, life, and property insurance companies, but individuals with actuarial training may work in many other areas such as banking, investment, energy, government, employee benefits, predictive analytics, and many more. Actuaries use a combination of strong analytical skills, business knowledge, and an understanding of human behavior. It takes five to seven years on average to become an actuary after completing an undergraduate degree. To become an actuary, one must pass a series of exams to earn an actuarial designation by either the Casualty Actuarial Society (CAS) or the Society of Actuaries (SOA). Students in the Actuarial Science concentration will take courses that will help them prepare for the first two actuarial exams. As a part of becoming an actuary, candidates must also earn Validation by Educational Experience (VEE) credits, which demonstrate that as students they received academic training in certain required areas. The course work in this concentration is designed for students to receive all three of the VEE credits required by the SOA: Economics, Mathematical Statistics, and Accounting and Finance.

- Actuarial Science (MEAS)

## Program Requirements (50-65 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/
registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

The major in Mathematical Economics requires a total of 120 credit hours with a core of 18 hours in economics, 15 hours in mathematics, and 1 hour of an interdisciplinary seminar course. The concentration in general mathematical economics requires an additional 9 hours in economics, 6 hours in mathematics, and 1 hour in a career readiness course. The concentration in actuarial science requires an additional 3 hours in economics, 9 hours in mathematics, 12 hours in finance, 3-4 hours in computer science, and 3 hours in actuarial science.

The program of study does not require completion of a second major or minor.

## Program Coordinator

Ngoc B. Nguyen, ngoc.nguyen@wku.edu, (000) 000-0000
This major is for students that intend to pursue a graduate degree in mathematics, and/or intend to pursue employment in business and industry. This major does not lead to teacher certification.

## Concentrations

- Fundamental Analysis \& Discrete (MAAD)
- Fundamentals of Applied Mathematics (MAAM)
- Fundamentals of Math Studies (MAMS)

## Admission Requirements

To be fully admitted to the majors in mathematics with reference number 528 , students must complete the following admission requirements:

- Earn a " $C$ " or better in each of the following courses: MATH 136, MATH 137, and MATH 307 (or MATH 310).
- Have an overall GPA of at least 2.4 in the mathematics program courses completed prior to admission (MATH 136, MATH 137, and MATH 307 (or MATH 310)).
- Note: If a course is repeated, then the second grade is used to compute the GPA. If a course is repeated multiple times, then the average of all grades after the first attempt is used to compute the GPA. Students can earn a grade in a course a maximum of three times.

## Program Requirements (51 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

A major in mathematics provides a Bachelor of Arts degree and requires either a minimum of $36-39$ semester hours for a general major with a minor or second major or a minimum of 51 semester hours for an extended major. Note: All mathematics courses listed as prerequisites for other mathematics courses must have been completed with a grade of "C" or better.

Students who wish to declare a 528 mathematics major will initially be designated as "seeking admission" until the following requirements have been satisfied:

- Complete MATH 136, MATH 137, and MATH 307 or MATH 310, with a grade of "C" or better in each course.
- Have an overall GPA of at least 2.4 in mathematics program courses (MATH 136 and above) completed prior to admission.

Students in the extended major (528) are required to satisfy a computational requirement by completing two courses chosen from CS 180, CS 290 , STAT 330, MATH 371, PHYS 316, or PHYS 318. [If MATH 371 is selected to fulfill this requirement, it cannot also be used as an elective in the extended major (528).]

To prepare for graduate study in mathematics, the student must complete a minimum of 51 hours of mathematics with the following requirements:

- General (Non-Teacher Certifiable) (MATN)

## Admission Requirements

To be fully admitted to the majors in mathematics with reference numbers 728 or 528 , students must complete the following admission requirements:

- Earn a "C" or better in each of the following courses: MATH 136, MATH 137, and MATH 307 (or MATH 310).
- Have an overall GPA of at least 2.4 in the mathematics program courses completed prior to admission (MATH 136, MATH 137, and MATH 307 (or MATH 310)).
- Note: If a course is repeated, then the second grade is used to compute the GPA. If a course is repeated multiple times, then the average of all grades after the first attempt is used to compute the GPA. Students can earn a grade in a course a maximum of three times.

## Program Requirements (39 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

The Department of Physics and Astronomy offers a Bachelor's of Science in Physics, with degree pathways tailorable to meet student career goals.

We have pathways designed for students who chose to pursue careers as physicists in government or industrial laboratories, for careers in engineering and other professional fields, for teaching in public schools, or, for entering advanced programs at the graduate level in Physics, Astronomy or related disciplines (e.g. Medical Physics). Our world renown faculty and state of the art research facilities allow us to provide
opportunities for students to engage in hands-on research experiences where they apply their classroom knowledge to real world problems.

Physics laboratories and classrooms are located on the second floor of Kelly Thompson Hall (KTH), the basement and first floor of Ogden College Hall (OCH) and the Applied Physics Institute (API, located at the Center for Research and Development). The Hardin Planetarium, located next door to KTH, supports astronomy laboratories and demonstrations for classes, regular focused presentations of astronomy and the physical universe for school groups and the general public. The observatory on top of KTH provides students with convenient access to the department's 12.5 inch Cassegrain reflector and several smaller telescopes and also provides monthly opportunities for public viewing. Faculty make use of the latest research-based physics teaching pedagogies in all our undergraduate classes. Our physics teaching laboratories are equipped with modern laboratory equipment and data acquisition interfaces using software that is standard in the physics and engineering community.

Modern laboratory facilities and equipment, rivaling those found at more research focused institutions, allow us to provide student centered research experiences for all Physics majors. The diversity of research engagement possibilities is a major strength of our undergraduate program, allowing students to benefit from a breath of available interest and specializations. Undergraduate students are strongly encouraged to participate in research opportunities with faculty members. Individual student research projects may start as early as the sophomore year, supported in most cases by available assistantships and/or formal course credit. The API houses an X-ray diffractometer, neutron generator, Auger spectrometer, Beowulf Computer Cluster, and a Large Chamber Scanning Electron Microscope. The materials science lab houses a micro-Raman spectrometer and a thermal Chemical Vapor Deposition reactor for nano-carbons and other nanomaterials. The laser lab houses a nanosecond IR laser, excimer laser, spectrophotometer, gas chromatography, and ultrahigh vacuum chamber. The department also operates two research grade astronomical telescopes: the local 0.6 m Bell Observatory located 12 miles southwest of WKU and the 1.3 meter Robotically Controlled Telescope (RCT) located outside Tuscon, AZ. Both facilities are available for, and in case of Bell Observatory, operated by undergraduate students. Descriptions of current research studies by faculty members and specific research opportunities available to undergraduate students are available on the department's website.

The department sponsors a local chapter of the nationally affiliated Society of Physics Students (SPS) for students interested in physics, as well as a section of the Sigma Pi Sigma honor society. The local SPS chapter sponsors or participates in a variety of social and service activities related to physics, including field trips, trips to scientific meetings, tutoring, and interacting with students from area schools.

The Hilltopper Astronomy Club provides support for students interested in astronomy both as a hobby and science. Regular observing sessions, informal meetings, and various projects are some of the benefits available to members.

When planning a program of study in physics, each student should be aware of the University's academic requirements and regulations contained in this catalog in the chapter, "Academic Information." Specific attention should be given to the sub-sections in the chapter entitled (a) Academic Programs, (b) Colonnade Requirements, and (c) Academic Requirements and Regulations. All students, from freshman to seniors, are required to meet with their department academic advisor (Dr. Richard Gelderman for freshman and sophomore level students; juniors and seniors are assigned a department advisor after completion of PHYSICS
321) each semester in order to plan their schedule for the following semester and/or to discuss and plan their career options.

The department has prepared several career-oriented tracks, which detail relevant departmental electives and additional or departmentallyapproved substitute support courses. Advising tracks currently defined within the Bachelor of Science in physics program include the following:
a. The general physics track is designed for those students who wish to pursue careers as physicists or are preparing for graduate study in physics.
b. The applied physics track combines extensive technical knowledge, related problem-solving skills, and computer techniques and internship opportunities to prepare students for positions in industrial and governmental laboratories.
c. The physics and astronomy track prepares students for careers in astronomy/space science and for graduate study in these areas.
d. The teacher certification track prepares students for careers teaching physics at the secondary school level. The student must also complete professional education requirements as specified by the School of Teacher Education. Students in this option must have a second major in science and math education (SMED).
e. Other - There are some specified programs such as a suggested pre-medicine curriculum for students wishing to major in physics. Course recommendations for these tracks are available from the departmental office. In all cases, the student must work closely with the departmental advisor from the beginning to plan a program of
study that meets departmental and University requirements and that maximizes preparation to meet career goals.

## Transfer of Credit

Transfer courses are welcomed and approved through the Physics faculty and College Dean.

Psychology is one of the most popular areas of interest for students worldwide. Studying human behavior from a scientific perspective offers numerous opportunities for students. A degree in Psychological Science can open up a wide variety of career options or serve as a foundation for graduate or professional study because, in addition to learning how to understand people, our curriculum emphasizes learning how to collect, analyze, and think critically about data.

Our B.S. degree in Psychological Science was designed to meet the American Psychological Association's guidelines for a high quality
undergraduate psychology program by offering both the depth and breadth that students need for additional graduate or professional study or in the workplace. One of the most unique aspects of our program is the option to specialize in one of a number of thematic concentrations. Students gain hands-on experiences in lab courses, and they also have outstanding opportunities to collaborate with faculty and other students on a wide range of research topics. Psychological science students explore clinical psychology, neuroscience, cognition, developmental science, social psychology, industrial/organizational psychology, perception, and experimental psychology.

The Department of Psychological Sciences offers programs designed for students who are interested in a science-oriented degree that will prepare them for graduate study in psychology, neuroscience, or a related field (e.g., medical school, pharmacy, physical therapy) or for employment in jobs where strong quantitative and research skills are required.

## Concentrations

- Applied Psychological Science (PAPS)
- Biobehavioral Psychology (PBBP)
- Clinical Psychological Science (PCPS)
- Cognitive Psychology (PCGP)
- Developmental Science (PDVS)
- Neuroscience (PNEU) (Available to 747E Majors only)
- Social Psychology (PSOP)
- Quantitative Psychology (PSQP) (Available to 747E Majors only)
- General (PGEN)

## Program Requirements (37-58 hours)

The department provides two options for the Bachelor of Science degree. The non-extended option requires a minimum of 37 credit hours and a minor or second major is required. The extended option requires a minimum of 49 unduplicated credit hours and no minor or second major is required. For both options, students will complete a program of study that includes Core and Concentration components as well as a Laboratory Experience component. To complete the Core requirement, students will select a total of 25 to 28 credit hours from the following categories: Foundations of Psychology, Developmental Processes, Learning and Cognition, Individual Differences and Social Processes, Biological Bases of Behavior and Mental Processes, Research Methods and Statistics, and Integrative Science in Psychology. To complete the Concentration requirement, students will select courses from one or two of the six thematic concentrations or they may design a general concentration (subject to approval by their advisor). To complete the Laboratory Experience component, students will complete one PSYS lab course or one PSYS lecture / lab course at the 300-level or above. Students in the non-extended option will complete 12 credit hours from one thematic concentration, or design a custom concentration by selecting 12-24 hours from PSYS courses not used to satisfy their Core requirement. Students choosing the extended option will complete 24 credit hours from two concentrations or 24-25 hours from the quantitative psychology concentration.

The interdisciplinary neuroscience concentration is a single concentration option for students. Students in this concentration complete 56-58 hours of courses with an emphasis on neuroscience. Students who select this concentration cannot minor in Neuroscience.

Students must maintain a minimum 2.50 GPA both overall and in the major. Either
a. MATH 116 and MATH 117, or
b. MATH 118 or higher is required; MATH 183 is recommended.

Students who select the extended option with the quantitative psychology concentration must complete MATH 136. To satisfy the math requirement for the major, students in the neuroscience concentration may also complete MATH 136.

Students in the non-extended option of the Psychological Science major can count no more than 3 credits of PSYS 490 toward the major. Students in the extended option, including the quantitative concentration, may count no more than 6 credits of PSYS 490 towards the major, with no more than 3 credits counting toward a single concentration's requirements. Students in the neuroscience concentration of the Psychological Science major may count no more than 3 credits of PSYS 490 towards the major. PSYS 300 is recommended to meet the Colonnade: Writing in the Disciplines requirement but does not satisfy major requirements.

The Psychological Science major includes laboratory experiences. In addition to completing a laboratory in research methods, students in the non-extended option of the major and in the extended option of the major (including the quantitative concentration) complete one additional laboratory experience. Students in the neuroscience concentration complete two additional psychological science laboratory experiences in addition to the research methods laboratory.

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/
registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

## Psychological Science, Minor (440) Program Requirements (22 hours)

The minor in Psychological Science provides graduates with a broad overview of the discipline as well as exposure to the foundations of the discipline. The Psychological Science minor focuses students on becoming more engaged and critical consumers of the science underlying psychology through courses informed by current research and practice in the scientific student of individual and collective behavior, the physical and environmental bases of behavior, and the analysis and treatment of behavioral problems. This minor might appeal to students who are in a pre-professional track (e.g., pre-med) or to students majoring in disciplines where psychological science can inform research and practice (e.g., biology, computer science, philosophy, religious studies, nursing, communication disorders, management, etc.).

Architectural Science is a bridge between design theory and construction practice. Architectural Technologists perform a variety of important functions in many areas of the architectural and building construction fields and are widely recognized by professionals in the construction industry. Graduates find employment as drafters, designers, construction planners, estimators, inspectors, technical sales representatives, and many other exciting areas.

## Career Opportunities

Graduates obtain employment in a wide variety of organizations: architectural firms, engineering firms, interior design firms, contractors, design-build construction firms, surveying firms, government agencies, construction product manufacturers, construction material suppliers, inspection and testing firms, specialty consultants, and computer applications consultants.

## Program Description

The program in Architectural Science is designed to provide graduates with a practical architectural education combining an understanding of the philosophy of building design with an applied technical knowledge of construction systems and materials. Graduates are prepared with the knowledge and skills to assist in developing drawings and related documentation, constructing architectural models, developing architectural renderings, creating digital images and visualizations, preparing cost estimates and construction planning documentation, and making professional presentations.

Program instruction includes architectural drafting, construction methods and materials, design principles, environmental systems, building systems, building codes, structural principles, project management, sustainability, and professional presentations.

Civil engineers design a better world in which to live. They design, build, and maintain our nation's infrastructure including: roads and bridges; buildings and foundations; water supply and waste-water facilities; stormwater management systems; and environmental protection facilities.

The mission of the civil engineering program is to prepare students for professional engineering and management positions in all phases of civil engineering projects. The program provides a broad educational background with a foundation in basic engineering and business principles. These basic skills are complemented by advanced topics in engineering design, management, finance, computer applications, and real world civil engineering experiences throughout the baccalaureate degree program. The civil engineering program at WKU focuses on construction, geotechnical engineering, construction materials, structures, surveying, and hydrology.

The teaching philosophy of this program focuses on project-based learning. This is achieved by placing competent, practicing engineers in the classroom as professors, engaging students in the practice of civil engineering through hands-on class projects, and involving students in faculty consulting and applied research activities. Real engineering projects often serve as class projects. Project sites and professional engineering and construction management firm offices often serve as classrooms.

The curriculum requires a minimum of 62-63 technical specialty hours, completion of pre-major courses, additional 32 semester hours of math and science requirements, and completion of Colonnade general education hours.

The WKU Civil Engineering program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

## Civil Engineering Program Educational Objectives

The program achieves its mission by focusing on specific educational objectives. A few years after graduation, WKU CE graduates are expected to have the following characteristics:

Objective 1: Graduates attain positions of Engineer in Responsible Charge on projects in both the public and private sectors and successfully execute projects using technical and managerial skills while demonstrating professional and ethical behavior.
Objective 2: Graduates attain Engineering licensure and other professional certifications as appropriate to their career. Objective 3: Graduates continue to pursue life-long learning opportunities through advanced degrees and various continuing education endeavors.

Objective 4: Graduates become leaders within their companies, the
profession, and other activities.
The CE student outcomes are listed on the program website at https:// www.wku.edu/seas/.

## Admission Requirements

Academic Standards for the WKU Civil Engineering Program
Students are admitted as a pre-major in civil engineering. To transition from pre-major to major and to graduate with a degree in civil engineering, students must complete each of the following courses and labs with a grade of " $C$ " or better.

Students must also complete the following courses with a grade of " C " or better. all pre-major courses, and all major courses except for one. In addition, each student is required to have a 2-course sequence in four (4) different civil engineering areas. The curriculum already includes a 2-course sequence in structures, geotechnical engineering, and construction. Therefore, each student must select one of the technical electives to cover an additional area such as surveying, materials, environmental engineering, hydrology, or transportation.

## Floodplain Management, Certificate (1763) (Pending Board of Regents Suspension for Fall 2023)

## Program Coordinator

Warren Campbell, warren.campbell@wku.edu, (270) 745-8988

## Program Requirements (14 hours)

This certificate has been coordinated with the Geography and Geology Department and with the Kentucky Association of Mitigation Managers. The Floodplain Management certificate requires completion of at least 13 semester hours taken by all students. The certificate provides students with basic knowledge and skills needed to implement and administer flood mitigation and recovery programs. Students develop familiarity with federal floodplain management regulations, the National Flood Insurance Program, hydrology, surveying, and tools such as Geographic Information Systems that are critical to administering an aggressive floodplain management program. Completion of the certificate requires familiarity with all aspects of floodplain management and with the impacts of floods on individuals, on property, and on regional or national economics. Students successfully completing the program are encouraged to take the Certified Floodplain Manager (CFM) exam. The CFM is a nationally recognized certification and is considered a desirable qualification by many employers.

## Program Coordinator

Gregory K. Arbuckle, greg.arbuckle@wku.edu, (270) 745-2403
This program prepares individuals to apply basic engineering principles and advanced manufacturing technical skills in support of industrial operations. The major includes instruction in optimization theory, human factors, organizational behavior, industrial processes, industrial planning procedures, systems integration, quality, and project management.

Graduates achieve positions of leadership in business and industry while practicing innovation in the global marketplace.

## Program Description

A minor or second major is not required. Course requirements for the major are shown below. Students should consult with an advisor in planning their course schedules and career goals.

## Project Lead the Way

The School of Engineering and Applied Sciences (SEAS) agrees to grant college level credit for secondary school students from certified Project Lead the Way (PLTW) schools who satisfy the following requirements:

First, students must complete the following two (2) PLTW courses with a grade of B or above and a 6 or above on the End of Course college credit exam: 1. Introduction to Engineering Design; and 2. Principles of Engineering

Second, students must complete two (2) of the following PLTW courses with a grade of $B$ or above and a 6 or above on the End of Course college credit exam: Aerospace Engineering; Biological Engineering; Civil Engineering and Architecture; Computer Integrated Manufacturing; Computer Science and Software Engineering; Digital Electronics; Capstone Course - Engineering Design and Development

Third, students must meet the requirements for admission to Western Kentucky University and enroll in the Bachelor of Science in Manufacturing Engineering Technology program within SEAS. Finally, students requesting the credit must provide a written statement from the instructor of the PLTW program and the principal or guidance counselor, stating the student has successfully completed the program with the above specifications. In addition to the written statement, an official transcript should be submitted for verification.

# Mechanical Engineering, Bachelor of <br> Science (543P, 543) 

## Program Coordinator

Morteza Nurcheshmeh, morteza.nurcheshmeh@wku.edu, (270) 745-2473

Mechanical engineers are involved in designing and building almost everything that is needed in our modern world, from nearly invisible electro-mechanical devices to enormous power generating and distribution systems producing millions of horsepower. Mechanical engineers use scientific principles from the physical world to create a tremendous variety of mechanical and thermal systems. Practicing mechanical engineers use these principles to design, analyze, manufacture, and maintain systems that include:

- automobiles and aircraft
- heating and cooling systems
- electric power plants
- specialized materials
- manufacturing plants
- industrial equipment and machinery

Mechanical engineers need a solid understanding of engineering science, which includes mechanics, engineering materials, thermodynamics and fluid mechanics. The program at WKU focuses on these sciences as well as design and professional skills necessary for a successful career in mechanical engineering. Our graduates have a strong competitive advantage with their unique background of engineering fundamentals combined with practical knowledge and experience. The mechanical engineering program provides a project-based, learner-driven environment relevant to the needs of modern society. In support of this learning environment, the professional engineering activities of the faculty create opportunities for the students to practice the art and science of contemporary Mechanical Engineering.

The curriculum requires a minimum of 58.5 technical specialty hours, completion of required Colonnade coursework, and 32-33 semester hours of required mathematics and science.

The WKU Mechanical Engineering program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

## Mechanical Engineering Program Educational Objectives

The mission is achieved by focusing on specific program educational objectives. Within a few years of completing the Mechanical Engineering Program, a graduate will:

Objective 1: Either be contributing to their regions' economic development through employment in mechanical engineering or related professions, or pursuing advanced credentials.
Objective 2: Occupy leadership roles in their profession, or in their communities, as their career develops
Objective 3: Demonstrate professionalism on diverse teams across a range of varied responsibilities
Objective 4: Be proactive in their professional development and engage in the continuing education needed to maintain and enhance their career.

For detailed information on the mechanical engineering program, please see the "Mechanical Engineering Program Guide" (available at http:// wku.edu/seas (http://wku.edu/seas/) ) and/or contact your advisor.

SKyTeach offers opportunities to undergraduate students at Western Kentucky University entering careers in mathematics and science education. SKyTeach is a unique collaboration between the College of Education and Behavioral Sciences and Ogden College of Science and Engineering, modeled after the highly successful UTeach program at the University of Texas at Austin. Students enrolled in the program complete four year degree programs leading to double majors in Science and Mathematics Education (SMED) and a content area major in middle grades mathematics, middle grades science, mathematics, chemistry, biology, or physics.

## Middle School Science, Bachelor of Science (734)

The middle school science major is for students who plan to teach science in grades 5 through 9 . The middle school science major also requires completion of the science and mathematics education (SMED) program. Upon successful completion of both majors, the student will earn a Bachelor of Science degree and will qualify for an institutional recommendation for a Kentucky Provisional Certificate for teaching in the middle grades (5-9) science field.

## Program Requirements (30-31 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

## Vision

To be an innovative leader in the student-centered, interprofessional preparation of health and human services professionals by providing students with an inclusive, community-engaged, and interdisciplinary academic experience.

## Mission

We prepare health and human services professionals who will work to improve the quality of life in their communities and beyond.

The College of Health and Human Services (CHHS) consists of seven academic units that represent an array of disciplines and offers degrees at the associate, baccalaureate, masters, and doctoral degree levels. Academic units include Applied Human Sciences; Communication Sciences and Disorders; Nursing and Allied Health; Kinesiology, Recreation, and Sport; Physical Therapy; Public Health; and Social Work. CHHS oversees the South Central Kentucky Area Health Education Center, the Center for Environmental and Workplace Health, the Center for Applied Science in Health and Aging, the LifeSkills Center for Child Welfare Education and Research, and the WKU Cardiopulmonary Resuscitation Center. CHHS is also one of the participating institutions for the doctoral program in Rehabilitation Sciences offered through the University of Kentucky.

The focus of the CHHS is to provide the highest possible quality of education to prepare our students to become leaders in careers related to health and human services. First year students have the opportunity to enroll directly in a specific major or pre-major program or to enroll in our "exploratory" program and investigate the many career options available to them in health and human services. Faculty are highly qualified in their respective disciplines and utilize innovative teaching strategies along with state of the art instructional technology, including IVS, webenhanced, and web-based instruction.

The disciplines in the college have their roots in outreach to the community. Disciplines in CHHS prepare students for their professions by engaging them in activities within the community that apply the theories and concepts discussed in the classroom for a more comprehensive understanding of the issues, while providing a valuable service to the communities in which we reside. To fulfill degree requirements for most programs, students are required to complete clinical experiences, field work, or internships through one of the many affiliation agreements at a myriad of health and human services facilities, agencies, and organizations.

Due to the nature of these experiences, students are required to meet various departmental or school academic requirements and federal and/
or state mandates. Departments and schools may require the successful completion of specific courses or maintaining a certain GPA in order to be placed in clinical or internship experiences. Some students may be required to undergo criminal background checks and drug testing and to provide proof of health insurance, liability insurance, and/or immunization records prior to participating in any required experiences at selected on or off-campus facilities/agencies. Additionally, there may be certifications, training seminars, or other requirements specified by the facility/agency or program that a student must meet in order to be eligible for field or practical experiences at a facility. It is the responsibility of the student to ensure that all institutional and/or facility requirements are met as a condition of participating in the on or off-campus experiences; students may be responsible in part or in full for any costs incurred to meet such requirements. Students are also responsible for transportation to and from off-campus experiences. In some CHHS programs, the students are responsible for rental fees for clinical instruments and supplies, purchasing uniforms, equipment, and possible course and program fees above the regular tuition. At the completion of the program, students may also be responsible for fees related to national, regional, and/or state licensing exams.

The mission of the Kentucky AHEC is to promote healthy communities through innovative educational partnerships. This is accomplished by providing the following educational support services to health professions students and health care providers; community health education; and programs that encourage health professions as a career choice.

The South Central AHEC is affiliated with the University of Louisville School of Medicine in cooperation with WKU's College of Health and Human Services. Programming for WKU students includes:

- MCAT Prep Advantage - a program for pre-med students that combines online MCAT prep, shadowing, mock interviews, and personal statement review.
- Mock interviews and personal statement reviews for all health and pre-health profession students.
- Student Internships - Undergraduate and graduate
- AHEC Scholars - A two year, advanced-learning program which prepares health profession students to be leaders in their field. Throughout the program, students collaborate across health disciplines and geographic regions as they prepare to practice in the ever evolving healthcare field. The Department of Communication Sciences and Disorders (CSD) offers an undergraduate major in Communication Disorders, a graduate degree in Speech-Language Pathology, a minor in American Sign Language, and a Deaf Studies Certificate. Additionally, the pre-SLP program consists of a series of courses that prepare students without an undergraduate degree in Communication Disorders to apply to graduate programs in SpeechLanguage Pathology.

The undergraduate Communication Disorders program provides broadbased instruction to prepare students for graduate study in speechlanguage pathology, audiology, and related fields. Students who complete the undergraduate program receive a Bachelor's of Science in Communication Disorders and must complete a master's degree to practice speech-language pathology and a Doctorate of Audiology (AuD) to practice audiology.

The graduate degree program in Speech-Language Pathology prepares students for the clinical practice of speech-language pathology. A certified speech-language pathologist works with both children and adults to evaluate and diagnose disorders associated with speech, language, cognition, communication, and swallowing. The SpeechLanguage Pathology graduate program has two cohorts, one offered on the Bowling Green Campus and one distance-learning cohort that is primarily offered online but with one required summer clinical experience on the Bowling Green Campus.

The minor in American Sign Language provides students with communication competency in a visual language and an understanding of the Deaf and Hard of Hearing culture. A Deaf Studies Certificate will broaden a student's knowledge of Deaf and Hard of Hearing individuals, with an emphasis on Deaf Culture. The Deaf Studies Certificate will not qualify students to become licensed interpreters.

Students in the pre-SLP program must have an undergraduate degree from a field other than communication disorders at the time they begin taking courses in the pre-SLP program. The pre-SLP program is a fully online distance-learning program.

Students considering a major in Communication Disorders, a graduate program in Speech-Language Pathology, a minor in American Sign Language, a Deaf Studies Certificate, or the pre-SLP program, should contact the appropriate program director for admission timelines, requirements, and advisement.

## Program Requirements (21 hours)

The minor in American Sign Language Studies requires a minimum of 21 hours. Students will learn communication competency in a visual language and gain a better understanding of the Deaf and Hard of Hearing culture. This minor builds a solid foundation of ASL language and skills but does not lead to interpreter or Deaf Education certification.

## Program Coordinator

Brittney R. Vickous, brittney.vickous@wku.edu, (270) 745-4210
The B.S. (Bachelor of Science) education program in Communication Disorders at Western Kentucky University prepares students academically for graduate study in speech-language pathology, audiology, or related areas. A master's degree is required for national certification in speech-language pathology and a clinical doctorate is required for national certification in audiology. Licensure is also necessary in Kentucky but other states have various mandates for practicing professionals. All coursework follows guidelines recommended by the American Speech-Language-Hearing Association.

## CAREER OPPORTUNITIES IN COMMUNICATION DISORDERS

Speech-Language Pathology career opportunities are expected to grow faster than average through the end of calendar year 2022. This is due to several factors including an aging baby boomer population with increased possibilities of oncoming neurological disorders with accompanying speech, language, swallowing, and hearing impairments. Employment opportunities are also increasing due to improving survival rates of premature infants and trauma and stroke patients in need of assessment and intervention. Additionally, federal legislation guarantees services to all children with disabilities. Private practice opportunities will also increase due to the increase in contracted services with schools, nursing care/rehabilitation facilities and hospitals.

## Program Requirements (58 hours)

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/ registrar/degree_certification.php. (https://www.wku.edu/registrar/ degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)

The major for students in Communication Disorders (reference number 595P prior to being accepted to the program and reference number 595 after being officially accepted to the undergraduate program) is a preprofessional program that requires 58 hours in the specialization areas of speech-language pathology and audiology. All courses follow guidelines recommended by the American Speech-Language-Hearing Association
(ASHA). Prior to selecting Colonnade courses, you must obtain approval from your Communication Sciences and Disorders Department academic advisor to ensure selected courses meet requirements set forth by ASHA.

The undergraduate program prepares students academically for graduate study in speech-language pathology, audiology, or related areas. A master's degree is needed for national certification in speech-language pathology and an audiology doctorate is needed for audiology. Majors in Communication Disorders are encouraged to apply for graduate programs by December of their senior year, including to the Western Kentucky University Master of Science program in Speech-Language Pathology. Licensure is also necessary in Kentucky but other states have various mandates for practicing professions following the Master of Science program.

Those interested in a Major in Communication Disorders should have sophomore status, be officially admitted to WKU, and submit:
a. Most recent transcript (including the Fall semester grades) documenting a minimum cumulative GPA of 3.0; and
b. A completed application, (including the Essential Functions and Technical Standards documentation) for official admission to the program (found on departmental website); and
c. CD 280, CD 290, and CD 347 are prerequisite courses for admission to CD 595 major.

Applications for admission into the undergraduate major are accepted until February 15 . Students admitted during March of any given year will begin major coursework during the fall semester following admission. Due to the clinical practicum component of this major, enrollment to the undergraduate program is limited.

Additional required courses may be used to fulfill both Colonnade and Communication Disorders program requirements.

The Department of Public Health offers academic programs which prepare students for a wide variety of health careers. An important responsibility is to carry out applied research and other scholarly activities which provide opportunities for student engagement, maintain the academic strength of the faculty, expand knowledge in various fields, and improve health in the communities served The department also conducts service with multiple agencies, institutions, and organizations in the Commonwealth of Kentucky and across the nation. In addition, the department provides a service to the University's Colonnade program through instruction to improve the knowledge, attitudes, and behaviors of students related to Colonnade goals.

Specialized programs prepare individuals for careers in public health, health care administration, environmental health and safety, occupational safety and health, health information management, health science, and related areas.

All majors and minors are expected to work closely with their academic advisors in planning their courses of study. Special interests and abilities will be considered in planning the individual course of study. More information about the department is available at: http://www.wku.edu/ publichealth (http://www.wku.edu/publichealth/).

## Departmental Academic Regulations

Students who have completed a minimum of 30 semester hours, including the courses required for seeking admission status, with an overall GPA of 2.3 (an overall GPA of 2.5 for Health Care Administration majors), qualify for admission into a program in the Department of Public Health.

Students whose grade point average falls below 2.3 for two successive semesters will be dropped from the program. Students who receive a grade below a "C" in two or more courses required in a major or minor will be dropped from the program. A student may be reinstated in the program when the overall grade point average is elevated to at least 2.3 and all courses in which a grade of less than " $C$ " has been earned have been repeated and a grade of "C" or better was earned. Students must have an overall grade point average of at least 2.5 before enrolling in the internship. Grades below " $C$ " in major or minor courses will not be counted toward meeting graduation requirements.

Academic regulations for Health Information Management and Health Sciences majors are described subsequently with the full descriptions of the programs.

## Internships/Off-Campus Experiences

Students may be required to undergo criminal background checks and drug testing, and to provide proof of health insurance, liability insurance, and/or immunization records prior to participating in any required experiences at selected off-campus facilities/agencies. Additionally, there may be certifications, training seminars, or other requirements specified by the facility/agency that a student must meet in order to be eligible for field or practical experiences at the facility. It is the responsibility of the student to ensure that all institutional and/or facility requirements are met as a condition of participating in the off-campus experiences; students may be responsible in part or in full for any costs incurred to meet such requirements. Students are also responsible for transportation to and from off-campus experiences.

The undergraduate social work program is fully accredited by the Council on Social Work Education.

The social work profession grew out of societal concerns about individual and social problems associated with the distribution of resources and opportunities. Today's social workers address social issues related to stresses on individuals, families, groups, organizations and communities. As professionals, social workers give their attention to inequities in the distribution of resources and opportunities and other factors interfering with persons' ability to reach their full potential.

The undergraduate social work program depends on a strong liberal arts base and a generalist practice foundation to achieve its mission and goals. The mission of the BSW program at WKU is to prepare culturally competent social workers for practice with diverse communities and client systems. The program promotes a commitment to professional ethics, leadership, professionalism, social justice, and lifelong learning in order for graduates to practice effectively in a global community. For more information regarding the BSW program and its goals, please visit the departmental webpage: http://www.wku.edu/socialwork/bsw (http:// www.wku.edu/socialwork/bsw/).

When planning a program of study in this department, each student should be aware of the University's academic requirements and regulations contained in this catalog in the chapter "Academic Information." Specific attention should be given to the subsections in the chapter entitled (a) Academic Programs, (b) Colonnade Requirements, and (c) Academic Requirements and Regulations. Students should be aware that some academic programs may require additional scholastic regulations and standards not specified in the catalog. To obtain a copy of these regulations, students should contact the department or visit the departmental webpage.

Students may be required to undergo criminal background checks and drug testing and to provide proof of health insurance, liability insurance, and/or immunization records prior to participating in any required experiences at selected off-campus facilities/agencies. Additionally, there may be certifications, training seminars, or other requirements specified by the facility/agency that a student must meet in order to be eligible for field or practical experiences at the facility. It is the responsibility of the student to ensure that all institutional and/or facility requirements are met as a condition of participating in the off-campus experiences; students may be responsible in part or in full for any costs incurred to meet such requirements. Students are also responsible for transportation to and from off-campus experiences.

## Program Coordinator

Lynn M. Hazlett, lynn.hazlett@wku.edu, (270) 745-4765
The Bachelor of Social Work (BSW) is accredited by the Council on Social Work Education (CSWE). During the four semesters required for completion of the social work major, students acquire knowledge, skills, and values that demonstrate competency in generalist social work practice. The major includes a 400-hour Field practicum or internship at a social service agency where students apply classroom learning under the supervision of a professional social worker. As a bachelor level social worker, graduates may work with individuals, families, groups, organizations, and/or the entire community with a primary focus on coordinating services in a variety of settings with multiple populations. For this reason, graduates must be flexible enough to work with people of various ages, backgrounds and cultures. With a BSW students are eligible to apply to any CSWE-Accredited Advanced Standing (accelerated) Master of Social Work program in the U.S. (Application requirements vary by program.)

The Social Work major consists of 54 semester hours, 42 core hours in social work and 12 hours in supportive courses. It is not necessary to have a minor for graduation.

Consistent with the program's emphasis on a liberal arts foundation, during the freshman and sophomore years, students will take courses in English, political science, economics, math, biology, sociology, psychology, and also public speaking and history. These courses will also fulfill several of the Colonnade requirements. A list of the required liberal arts and sciences courses that must be taken as prerequisites for applying to the social work major is available on the departmental webpage or can be obtained from the department.

A student receiving a " D " or lower in any course used for the social work major will be required to repeat the course. If it is a core social work course, then the course must be repeated before proceeding to the next course in the sequence.

## Admission Requirements

The academic advisor reviews the student's academic status. If necessary, students are advised to fulfill prerequisites for admission to the program. Upon completion of prerequisite courses, including SWRK 101, students must complete an application process for formal admission to the social work program. The BSW Admissions and Retention Committee reviews each application. Students must have attained a cumulative grade point average of 2.5 and sophomore status in order to be admitted. Guidelines for admission and retention are stated in the BSW Student Handbook, which is available in the departmental office or on www.wku.edu/socialwork (https://www.wku.edu/ socialwork/). The following 24 hours are required for admission:

The graduate is prepared to function in the leadership roles of the professional nurse.

The Bachelor of Science in nursing program is designed to prepare the student to write the National Council Licensure Exam (NCLEX-RN) to become a registered nurse. Entry into the BSN program is at the junior level, following completion of all general education and nursing prerequisite courses. The upper division BSN nursing program consists of four semesters of full-time study with 57 credit hours in the major. See School of Nursing and Allied Health website for example 4-year curriculum plan. Clinical hours are scheduled to meet clinical agency needs. Therefore, to avoid scheduling issues, it is required that students complete all non-nursing courses prior to entry into the nursing program. Students must progress as a cohort once admitted to the nursing program. Part-time progression is not currently available in the BSN program.

## Pre-Nursing (586P)

Prior to admission into the nursing program, students are required to meet the university Colonnade (general education) requirements and a set of prerequisite courses required of all nursing students. Students who want to declare as a nursing major prior to admission into the nursing program are designated as Pre-Nursing students (reference 586P) and are assigned an advisor in Advising and Career Development Center. Pre-Nursing students will meet with advisors to discuss their academic preparation and determine the appropriate courses for registration. Pre-Nursing students must maintain a GPA of 2.75 or above to remain in the pre-nursing program. For more details and frequently asked questions about preparation for admission into nursing and deadlines for applications, please see the School of Nursing and Allied Health (SONAH) website.

Support services for CHHS are housed in the Advising and Career Development Center and are available to students who decide to change from Pre-Nursing to another health-related career.

Admission to the nursing program is limited and based on selection of the most qualified applicants who meet all admission requirements. The program can be completed in 4 years if the student completes all prerequisite courses, is admitted to the nursing program in the junior year and successfully completes all nursing courses in sequence.

Guaranteed Nursing Admission (GNA) to the WKU BSN program is available to first-time, full-time college freshmen and is not available for transfer students. Prior to completing the GNA application, you must apply for admission to WKU, submit your ACT scores and obtain a WKU ID number. See https://www.wku.edu/atwku/admissions.php for details.

Students seeking the GNA must have an ACT composite score of 23 or above. In addition, all students seeking entry into the WKU BSN program must be able to meet all nursing admission requirements. Please see the School of Nursing and Allied Health website for details.

If awarded a GNA, students must maintain a 3.0 GPA while a full-time student in the pre-nursing program. GNA students must also initially obtain a grade of " B " or above in the following courses: CHEM 109, BIOL 131, BIOL 231, BIOL 207, NURS 102, and NURS 324. All general education courses and nursing required prerequisite courses must be completed prior to entering the nursing program.

GNA students who maintain the above standards will be guaranteed admission to the WKU BSN program in either the Fall or Spring semester on or before the third year. If the GNA student is not able to enroll in the BSN program during this timeframe for any reason, the student will
forfeit the GNA status and must reapply to the nursing program with the general applicant pool to compete for a space in the BSN program.

In addition to completion of Colonnade requirements, the following prerequisite/support courses must be completed prior to entry into the Bachelor of Science in Nursing program. Some nursing support courses may be used for both Colonnade and nursing prerequisites.

Under the direction of the Office of the Provost, WKU Dual Credit serves qualified high school students with the opportunity to earn university credit as part of their high school curriculum. The program provides enrichment opportunities to academically talented students who are ready for the challenge of university coursework.

High school administrators recommend students for participation in Dual Credit based on the student's potential for academic success in a college level program. Students typically receive both high school and university credit upon successful course completion.

Dual Credit students are registered and enrolled in WKU as a "non-degree seeking student prior to high school graduation." Participation in a Dual Credit course does not guarantee admission to WKU as a "degree-seeking freshman." Grades received in Dual Credit courses are recorded as part of the student's official university transcript with WKU and will transfer to most colleges and universities throughout the United States. Courses are offered at a substantially reduced tuition rate and provide a means of preparing college bound students to make a successful transition to post-secondary education.

Dual Credit partners with area high schools to provide students with the opportunity to participate in a variety of courses at multiple WKU campuses, at partnering high schools, and online! Western Kentucky University and Dual Credit support the Kentucky Council on Postsecondary Education's Dual Credit policy that supports a seamless path of education and training for students.

Innovative course design, highly motivated students, and outstanding faculty create an intellectually engaging environment promoting critical thinking and problem-solving skills.

## Colloquia

Honors Colloquia are small, collaborative academic seminars with an emphasis on active learning, class discussion, and critical-thinking. Colloquia challenge and engage students through their interdisciplinary nature, providing for a distinctive academic experience.

## Augmented Courses

Students enrolled in non-honors upper-division sections may develop an Honors Augmentation Contract with the faculty member, academic
department, and the Mahurin Honors College to receive honors credit. This option transforms the course into an honors experience, thus expanding the range of courses in which a student can have an enhanced intellectual experience.

## Capstone Experience/Thesis Project

The Capstone Experience/Thesis (CE/T) project is an original research or creative activity in a student's major(s) and/or minor discipline(s). While the nature and form of the CE/T is flexible, the topic of the CE/T research should reflect the student's academic, intellectual, and professional goals. Upon completion, the title of the CE/T appears on the student's official transcript.

## Self-Designed Studies

The Honors Self-Designed Studies (HSDS) major and minor permit students to design unique programs of study when WKU's existing programs do not adequately fit their needs. To better serve the needs of students, there are five separate options for pursuing an HSDS major/ minor. For more information about the advantages and opportunities, please see: https://www.wku.edu/honors/academics/self-designedstudies/index.php (https://www.wku.edu/honors/academics/self-designed-studies/).

## Priority Registration

Priority registration allows students greater flexibility constructing their schedule by allowing them to sign up for classes before the general student population. Honors students in good standing are eligible for Priority Registration after consulting with their Honors Academic Advisor.

## Housing

Students may choose to live (space permitting) in an honors coeducational residence hall. A request for honors housing must be indicated on a student's housing application.

## Grants

Students are eligible to apply for grants to support a range of engaged out-of-classroom experience. For more information, please see https:// www.wku.edu/honors/admissions/scholarships/index.php (https:// www.wku.edu/honors/admissions/scholarships/).

Honors College - International Center 1045
Phone: (270) 745-5043
Email: osd@wku.edu
Website: http://www.wku.edu/osd/

From first drafts to final submissions with multiple revisions in between, OSD helps students make more possible regardless of their major or means. By conceptualizing and revising the stories they tell in application essays and interviews, students better understand their strengths, interests, and purpose-and explore multiple possible pathways to that work.

We are located on the first floor of the Dixie and Peter Mahurin Honors College-International Center on Normal Street. Please email OSD at osd@wku.edu for more information or to schedule an appointment.

## Student Conduct Policies

## Conduct Authority

Ultimate authority to govern student conduct rests with the University's Board of Regents. The Board of Regents has delegated authority to the President. Subsequently, the University President grants authority to the Vice President for Enrollment and Student Experience to assume responsibility to oversee execution of the Code of Student Conduct. When appropriate, the Vice President for Enrollment and Student Experience may delegate conduct authority to additional University officials and committees in keeping with University policies, rules, and regulations.

## University's Scope Governing Conduct

The University's scope to address student conduct extends to on-campus and off-campus settings. Additionally, jurisdiction to address student conduct extends to organizations, covers person-to-person interface, and interactions that occur electronically.

## Purpose of the Code of Student Conduct

WKU developed the Code of Student Conduct to fulfill its mission, to ensure an environment conducive to learning, to establish high standards of integrity and conduct, and to safeguard students' personal freedoms. These personal freedoms imply particular student rights and responsibilities. For more on Student Rights and Responsibilities, please visit: https://www.wku.edu/studentconduct/

## Violations of Law and the Code of Student Conduct

Students who violate federal, state, or local laws may incur penalties prescribed by civil and criminal authorities. Nevertheless, the University reserves the right to review student incidents independent of action by civil and criminal authorities and to apply the University student conduct process as it serves the educational mission of WKU, a function separate and distinct from civil and criminal proceedings.

Academic freedom, constructive criticism, and due process of law depend upon civility of behavior by all members of the University community towards all other persons in all circumstances. The University will not tolerate the use or threat of force, violence, coercion, intimidation, obstruction, duress or disruption by any individual or group. Members of the University community found to be participants in such activities will be subject to immediate disciplinary action. Likewise. appropriate measures will be taken to stop and correct such activities by any nonmember of the University community, whatever may be the claimed basis for his/her/their presence on the campus.

Following procedures of due process, if the WKU Code of Student Conduct is violated, the responsible parties will go through the University's disciplinary process, which is intended to be a fair and educational experience. Students are presumed not responsible until the institution has established every element of an alleged violation; however, this shall not be construed to mean that a complainant or any witnesses has presented false testimony or evidence. Although a student accused of academic or nonacademic misconduct will be granted every consideration, if actions and behaviors of the student are duly found to be detrimental to the University mission, function, property, or wellbeing, the University will apply an appropriate disciplinary outcome.

Any WKU student may be expelled, suspended, placed on probation, or given a lesser outcome for one or more violations of the Code of Student Conduct. The Code can be found at www.wku.edu/studentconduct (https://www.wku.edu/studentconduct/student-code-of-conduct.php).

## Academic Dishonesty

Academic dishonesty is defined as engaging or attempting to engage in any activity that compromises the academic integrity of the institution or subverts the educational process. This definition applies to work submitted face-to-face or through on-line or electronic means and work submitted for face-to-face, hybrid, and on-line courses. Students who commit any act of academic dishonesty may receive from the instructor a failing grade in that portion of the coursework in which the act is detected, or a failing grade in the course without the possibility of withdrawal. The faculty member may also present the case to the Office of Student Conduct for disciplinary sanctions and the Office of the University Registrar if action by these offices are required. Students may be held responsible for committing academic dishonesty while enrolled even if the student withdraws from the course.

## Conduct Actions/Outcomes for Violations of the Code of Student Conduct

Following procedures of due process, when a student is accused of academic or nonacademic misconduct, the alleged policy violator will be required to go through the University's Student Conduct process. Students are presumed Not Responsible until the institution has established every element of the alleged violation; however, this shall not be construed to mean that the complaint or any witness(es) has presented false testimony or evidence. The following list describes University outcomes that may be administered as a result of violating the WKU Code of Student Conduct. A student accused of an alleged violation of the Code of Student Conduct will have the opportunity to review accusations, review any information, and will be able to provide a response. Outcomes may be used independently or in combination depending on the particular circumstance of the violation. Chronic and/ or multiple violations during the course of an individual student's college career may increase the severity of outcomes applied. The Office of the Vice President for Enrollment and Student Experience, or designee, will make the determination whether allegations are sufficiently egregious to warrant consideration of suspension, dismissal, or expulsion. The following shall be factored into the decision-making process:
a. The degree of willfulness or inadvertence;
b. The degree of injury or risk of injury to the accused or to another person, if any;
c. The extent of damage to property, if any;
d. The danger or risk of danger to the University community, if any; and,
